

Comme I send yo^r garden inclosed the rope of a
Linc rope and is sent to the Ambrose Goring
and a letter to me as before, this I have done
because I ~~thought~~ yo^r should be acquainted. Since
I proceed in that matter, I know it will be
after Midsummer or I shall come down, and what
time then I can not tell, this you do not see
after what but to me, if I find at my coming down
that it is to be made to be married it as I like
that then I will be very good I can be for you
brother in that matter, but my understanding is
not to have any stand made for that purpose I would
be glad to see you to Thomas Woodhouse
my friend Woodhouse and his wife and the wife
house at Redgrave and my godson doffer
as further as may be, and together the
month of the old weathering do not wish the
ground water on road, if it be not it must be,
for otherwise I fear yo^r feet will be sore,
And with my hearty commendations to yo^r mother and
yo^r wife in wish good blessings to my godson
I bid yo^r farewell from Gresham the
15th of April 1569.

yo^r father
