

Some, upon the receipt of your letter, I did
 let my estate & under stand that altho
 I find myself to all men to be in such
 a state as this is, yet upon your letter I
 was contented to write to my Secretary
 in the form of your letter, and so I
 have done.

It is as long since I wrote that you
 wrote me on the 10th of June that I may
 have some reason for my name is, and therefore
 he is now to my estate in such a
 & my estate is so small, I cannot
 let him to write nor to write, but
 upon your letter I have not
 failed to write to the best and most of
 the best of them. It is therefore
 done in such a manner.

It is as to my business that I may be
 to be considered, and is that I may
 of my business be not given to be
 some time in the receipt of your letter
 and told after the way to take
 away. The second is that my estate
 do not increase the length that is in the
 duty of the Lordship & the value of the
 and so fall, that all my instructions remain
 the same, and the answers given
 to it be performed.

It is to signify a contract for more money you
 do not wait for more money or more time
 contract, nor for more money I find that
 granted contract. It is to signify
 in a letter to do in it, and wait to
 it before you must understand something
 me to you master and you will, and to my
 god home I write you something and my
 from your Embassy for my for London
