Dear Sir:

You were kind enough to say in a note to me. long ago, that you could still command a copy of the "Documentary History of New York", if I knew a party proper to receive so good a gift. I have let the (the) proposition lie by, not wishing to waste a rich opportunity on any unfit receiver. Lately, a friend of mine comes occasionally to my library to explore the four volumes, and finds them to contain much valuable matter to his purpose. His estimation is the more valuable, that he under estimated tham when he first looked at them. a good while since: & he is a very curious & very instructed scholar in early American History, especially in all that concerns the Indians. Is it now too late to (to) ask that you will give the offered volumes a direction in favor of my friend? He is Henry D. Thoreau, a Land-surveyor in this town, a good scholar, and, though far less known than he ought to be, very well-known in this region as the author of a book called, "A Week on the Concord & Merrimack Rivers," and "Walden, or Life in the Woods." If you have still a copy of the work to share I think you will not easily find so worthy a receiver. If you have not a copy remaining, perhaps you can tell me at what cost I can procure it. If the book is giveable & the book be

I congratulate you on the interest with which as I judge from the journals the public receives the "Life of Jefferson", and which, I doubt not, will go on increasing. My own readings in it as yet have been very partial as it lies out of my ordinary beat, & my studies lately have been more than usually confined, but my day of freedom is always coming. Mr. Quincy the elder, whom I saw soon after I saw you, was kindly curious to know all that I could tell him of what you had told me; but I have not seen him since.
