Export Trade of General Goods, Yokohama.

Yokohama Harbour

About sixty years have elapsed since Yokohama first started the exportation of general goods and then the port has become prosperous year by year as the premier port of Japan, especially in trade with America.

The Yokohama General Goods Exporters' Association, one of the important public bodies organized under the Japanese law, has many leading merchants as its members, who are divided into two groups, namely, manufacturers in the industrial section and exporters of miscellaneous goods.

The Association is aimed at the promotion of export trade, serving as a medium for business transactions with abroad. It should be noted that the Association's Members

enjoy a full confidence among traders at home and abroad, and that they are always willing to extend their facilities or assistance to any party in connection with Japanese products for shipment abroad.

Among the principal articles handled by the Association's Members are Antimony Ware, Art Works, Artificial Flowers, Bags, Buttons, Bamboo Ware, Cards, Dolls, Electric Bulbs, Furniture, Flower Baskets, Fans, Flags, Lacquered Ware, Lamp Shades, Necklaces, Paper Ware, Parasols, Porcelain, Purses, Pin Cushions, Sewing Boxes, Slippers, Toys, Umbrellas, Water Colour Pictures, Wooden Ware, etc.

The manufacturers, with their boundless manufacturing capacity, are engaged in the execution of orders from abroad, making it a point to manufacture articles of excellent quality at the lowest possible price. A noteworthy fact is that as the manufacturers are equipped with up-to-date plants, all orders are executed within a specified period to their clients' entire satisfaction. In this respect Yokohama stands above the level of other Japan's ports.

Yokohama is the gateway of traffic to Tokyo, the capital of Japan, the distance between the two cities being only 15 miles. All sorts of export merchandise produced in Tokyo are usually shipped through Yokohama, which is favourably located to the promotion of trade interests between America and Japan. Tokyo Bay affords a safe route for steam or motor boats plying between Tokyo and Yokohama, and a plan is on foot to excavate a canal, so that communication facilities will in time make the two cities practically one municipality. Yokohama thus offers a unique opportunity to consumers abroad in obtaining a supply of various articles from all parts of Japan at a comparatively short period.

The Association has sent many articles to the

The Yokohama Commercial and Industrial Museum

Chicago International Exposition. They are, however, only a part of manufactures, as the Association could not exhibit all lines of goods owing to the limited space reserved for them in the Exposition. The exhibits are mostly the special products of Yokohama, such as Lacquered Inlaid Screens, Toy Gliders, Hand-bags, Combs, Cards, Lamp Shades, Water Colour Pictures, Sewing Boxes, Cigarette Boxes, Silk Flags, Bronze Ware, Bone Ware, Necklaces, Charms, Candy Forks, Card Holders, Bood-Ends, Candy Boxes, etc. The exhibits made by the Association's Members in the said Exposition are as follows:—

Lacquered Inlaid Screens & Shelves —
By K. Murata

Toy Gliders — By Asano Glider Manufacturing Co.
Bags, Cigarette Boxes, Table Centres Combs, Cards,
etc. — By Hayashiya Shoten

Water Colour Pictures —
By K. Sasaki

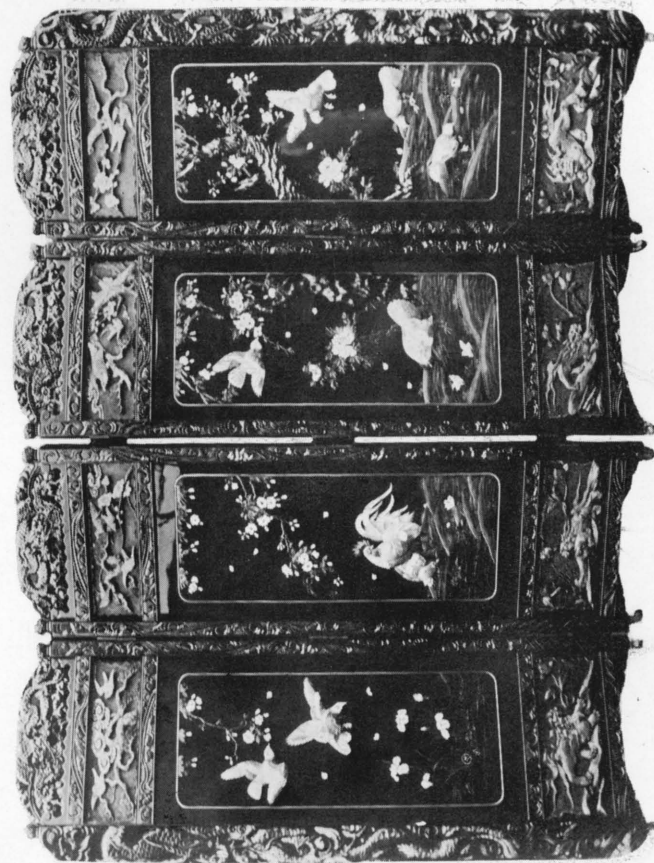

Sewing Boxes & Cigarette Boxes —
By M. Yamamuro

Lamp Shades & Silk Flags —
By C. Konishi

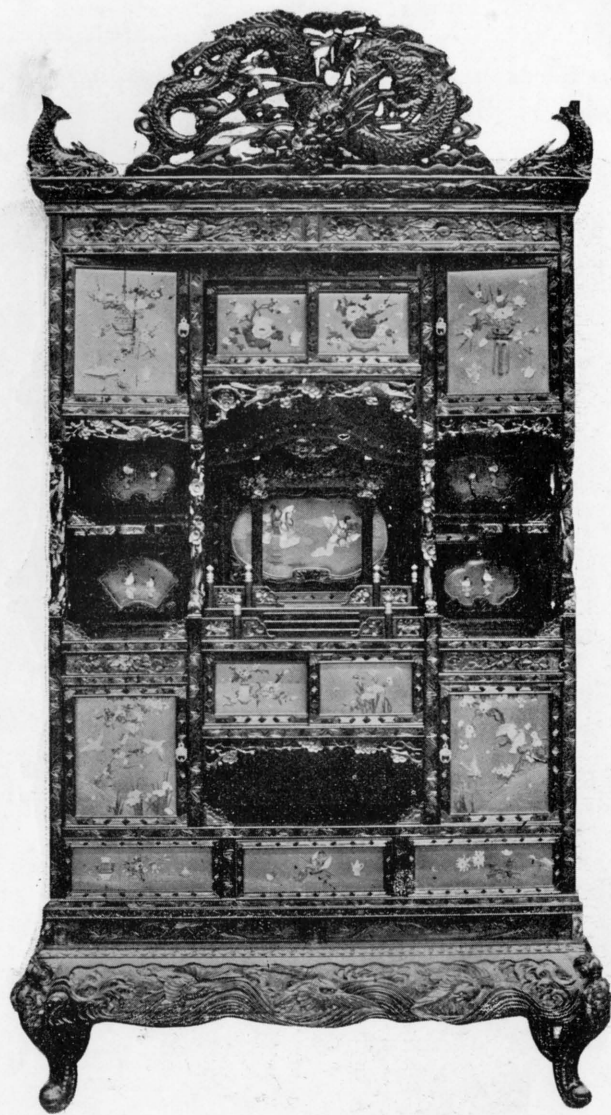

Birds made of walrus & Bronze Ware —
By Miyakin Shoten

Bone Necklaces, Charms, Candy Forks, Card-Holders, etc.—By M. Sumino

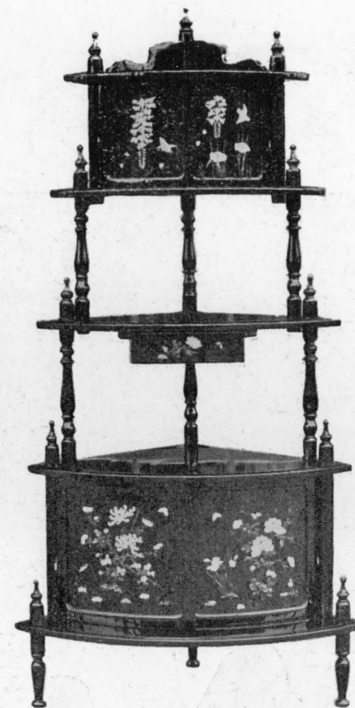

The Association will pay its best attention and cheerfully answer to any inquiries from abroad regarding business transactions.
