car down. I told it and told him to stay around
the corner and I would go and get the liquor.

I started to turn around and met four or five
with the same colored man I saw in the city
Hall two different times. I told Mr. Thompson to
keep his eye on the colored man and he says that
he is a big I suppose and continued looking at
him.

I walked north on Canal to the river and on the
west bank, at about the house and flat house. I
was not in the car and I saw it. I saw it and got
the first day which continued and found birds at
C. & C. which was a one half p.m. lot of
other which was not loaded which
I had, before it. The I thought it was
later in the morning.

I walked north on Canal to on the east
side of the river and at the river junction
the "Worship" which was at 11 p.m. and
I saw the house making snow south on
Canal to the west and the house was
and the two were at the bridge.

and about the same time I noticed a stranger
I knew at _____ who "had" known for
about a year.

This man begged me to come in to
see his exchange Billy where he was standing.
I went at once to the place and met him
and he began a conversation by inquiring
about the coffee shop for a cup of coffee - and
told me I had just had a lunch he then said he had
something he wanted to tell me and as it was
time it was raining he was waiting in the
coffee shop and I followed him.

He ordered coffee and I noticed he had
in his case and I asked him what the trouble
was and he began telling me of an affair
which had happened in his hotel.

He then asked me if I knew any Irishman
about the same time. I told him I did not
but I was sure I could find him for a long
time. That person lives in the 2000. North Street
and I really think he is trying to go abroad.

I told him "I thought the game was was
being conducted better than the average case
of first prize

He then says "and he" just worked it
you know any thing to him and I told
him "I did that and that" I must be on
my way

He then slighted good bye "I'm going to
the rail" ~~to~~

He arrived at the door and I left
the coffee shop and on my way out of the
building he was full of rage and
saw that a man was "I thought he had
found me to within and along with him
I grabbed him that he "I could with my
right hand and about that in a few seconds
one hit the rear end of the passage, which
was under my left arm and as it flew
out in front of me he was grasped it
"also grasped it but I caught only the wrist
and with a poor grip and the part of

The paper from the bottle but he got the bottle
 and ran to the station
 and before I had time to leave the paper
 paper down two police officers grabbed my
 arm one of them said "how much did you
 get money?" said him that "I had part of
 my salary money and a part of my bond
 money" Can't think put his hand in my
 right coat pocket and took it out full of
 money and looked at it and said "5000"

when a car got there. I told him that
 I never had seen that money before.

also asked him how he knew that there
 were 5000 there and could say what he
 wanted it and jumped a little and said
 you know what is coming off to don't get
 the excited take him to the station. Then
 Can't wait to the station in the lobby
 Britton took me to the station.

Here again Britton and I met a man named
 as you know, owner of the insurance case

"This man slapped me in the face and says
you are the devil. That is saying to close
me up there was another man about 23 years
of age who also hit me on the face with his
fist all this time my right hand was kept
to the prison and held Briton. He told you
and his partner to back up and stop."

Briton then took me to the backroom and
turned me over to the backroom man.

After, soon came in and began asking me
questions which I answered every one.

He then told me that some outland
detention office a few minutes before then
and that he was in the impression
it was not. I told him it was not me and
he said he knew it was a frame up but
there was no fit it fit it would
good evidence against me.

He also told me that it was not me that
Kearney was after.
