

SPORTS — Aviation
Wilburg Wright,
le célèbre aviateur

①
My dear Blanche:—

We went into Le Mans
on the 25 Sept. and
were fortunate in having
sufficiently good weather
to make it possible
for Mr. Wright to as-

end in his Aeroplane.
He uses the military
grounds of Avours,
some 6 miles out of
Le Mans. We sat
there in the car two
hours & began to think
he would not go up

SPORTS - Aviation — Le Biplan de Wilburg Wright
dans un vol de 6' 43" de 12 à 25 mètres de hauteur

Sept. 25-
Le Mans

⑨ at all that afternoon.
But about 6 P. M. he
started off. The thing
is a marvel it flies
as easily as a bird
and he seems to man-
age it perfectly, go-
ing here there, high
or low as he pleases,
and when he gets
ready to descend
he does that, exact-
ly on the spot he
has chosen and
without the slightest

③ far. We left immediately after he came down + I read later in the paper that he went directly up again taking a passenger for the first time, I wish we had remained to see that done.

We are spending Sunday in Chartres, going into Paris tomorrow to lay up the motor, & last to finish our run. Love to you and your dear mother from your Agnes
