Dr Judge

The foundation of your house was laid today
from the work will progress steadily as the weather seems to
be settled. The laws to open 1st St. & 2^d & 3^d will be
passed today - They have paved one board - Mr Lynch is fencing
up his squares & they are working thro' your back yard as
fast as they can. The pavement on H Street is commenced &
Middleton is grading & grading his squares - The Church, Col-
lege & Ablynn are preparing to break ground & the face
of things is changed since you saw it - There is quite
a few about lots. I think if you would call the auc-
tioner & sell all the lots on the north side of Square 5th (on Kth),
they would sell well & it would be a good time to sell your
own back square lots if you wish to do it. Lots bring the
best prices at auction. Mr Ennis is hard at work.

The ground back moves like a large body - slowly -

He will no news

My Dear Douglas

I have had an interview with the President, Floyd, ^{Black} Leass and Thompson on affairs of Utah, and find them ignorant beyond comparison. M. Briggsman is here & cordially agrees with me so also does Judge Williams of Iowa, but still they have the idea that less than one thousand men would be amply sufficient to enforce the laws and also coerce the Mormons into fear with this idea is so ridiculous as to call down my pity - instead of bitterness upon the authors. But certain it is that nothing of value will be done, hence it is to be a desperate question for us to meet for years to come and particularly in the next Presidential campaign. I see a desire to place some responsibilities on you because you are Chairman of Com. on So. Such shuffling and dodging will and ought to ruin my men and Party on Gods Earth. Notwithstanding the newspapers reports I most positively told the President that I was not an applicant for any office under his gift but would most assuredly & publicly make the point on his Admin as to the desperate state of affairs in Utah. I have read many letters recd here since my arrival all of which conclusively show that the most treasonable State of ~~any~~ now exists in Utah, and instead of sending men off at once to relieve and protect the men now in Utah they will dally along until it is too late to reach them this season. I think Rose will get the appointments but cannot say. I shall be at Home in a few days to compare notes. I see the Indiana Democracy is a little alarmed. I am Respectfully &c Wm. Drummond

Dear Sir,
I have the honor to acknowledge the receipt of your letter of the 10th inst. in relation to the matter of the application for a patent for an improvement in the method of cultivating cotton. I am sorry to hear that you have been unable to secure the necessary funds to carry out your plan. I am sure that your invention is of great value to the country, and I am sure that you will be able to secure the necessary funds in the future. My Dear Sir:

In reply to your note of the 16th inst. I have to inform you that in order to constitute an office Presidential, it must have yielded \$1000. or upwards, compensation to the Post Master for the year preceding the 30th June. The compensation of the Post Master at Aurora, Ill., for the year ending 30th June 1856. appears by the books of the Auditor to have been \$973.34. Though the office is not now Presidential, it is presumed it will be at the close of the present quarter.

Hon Stephen A. Douglas Dear Sir.

On the 9th day of March at Washington I presented you a letter of introduction from the Hon. Jackson Hadley of Milwaukee; asking you as a personal friend to get me the appointment as post-master at this place. I stayed but 2 days, as my business called me to New-York to purchase my spring goods. You said to me on leaving that you would attend to the matter. Knowing that you had a great many from your own state who were anxious to get your influence for different offices. I concluded that you had forgotten my name in your hasty departure from Washington. I would like to have you write a letter to the post-office department "if consistent"; upon the subject. The present post-master Geo. Cotton did vote the Republican ticket this spring.

Being one of the first in this County that sustained you upon the passage of the Kansas-Nebraska bill, I claim that I merit your confidence and influence. My business is such receiving my goods that I am unable to leave, or I should come and see you personally. Will you be kind enough to answer this, and Oblige

My dear Sir,-

The enclosed application
for a change in the office of Plane,
Kendall Co. Ill., was sent to
me, I presume, on account of
my personal acquaintance with
Mr. Eldridge, who is recommended
for Postmaster.

If the Department shall
deem a change to be necessary, I

have no hesitation in recommending Mr. Eldridge.

I enclose you a note from the Postmaster of Sharon Springs, N. Y. to me, upon the subject; and cheerfully endorse all he says about Mr. Eldridge.

Very truly, your friend,

My dear friend -

Write me just now to ask you to
give me a strong letter to Buchanan.
If consistent with your views please do
so - Send same to my address -

Mrs. W. returns to you her
compliments for the picture of
yourself, but insists that it will
hardly make up for the fascination
that Mrs. D. has known ^{around} her husband -
You will please present my
compliments to your amiable
lady, and say to her that her taking
up brother for me on the bears was
not very flattering in the recollection
of your humble servant. ~

As to Politics, speaking of the next
Presidency, I think Pennsylvania
will be with you, without any doubt,
as we here care but little what
becomes of Kansas - He thinks the
free soil men have the majority,
and if they fail to vote as become
the triumph of their principles, it
is their own fault. For which no
one is chargeable, but themselves -
They are too factional by half -

Senator Allen of Ohio (a mere
fossil) is making great efforts for
a foreign mission - I am told
that he is disliked with your enemies -
if so, he must be defeated, if possi-
ble - Old Buck must be warned
against this appointment - I do
not know that the Administration
seriously contemplate using this
thing, but I think it well to hold

a little in advance

I am for Richardson going
to England - and when you become
President you can first continue
him there -

In the State Convention
that will meet in 1859 - I will
see to it that Douglass men are
in it from the Western part of this
State, so that instructions will all
be right for Delegates to the National
Convention - This is looking ahead,
but it is not too soon - I have
seen the danger of waiting until what
is called the "proper time" too often
I need not say that I will be glad to
hear from you -

While in Washington I joined some of my friends in recommending Genl. A. Clark of this State for the appt. of Govt of Nebraska. At the time of doing this, it was not understood by us that Genl. Cook of our State would be an applicant for said appt. Now if you are not committed to any one for the Governorship of that State, I respectfully solicit

your aid in behalf of Genl. Cosson. The Genl. was an original Nebraska man and has defended the "bill" with great ability. His appointment would be very gratifying to our democracy in Missouri and would reflect credit upon the appointing power and great Democratic party.

It is with some reluctance
that I address You at this
time in regard to our Post

I have seen Col. I. Deunt and
Col. H. Waller and they
think it is my duty so to
do I saw Col. Waller Yesterday
and he informs me that the
re appointment of Mr. Geo. Phelps
as P. M. occurred in consequence
of his being recommended by
Col. & Charles Deunt. I afterwards
saw Col. Deunt & he says that
if his or Charles name appears
to any petition for Mr. Phelps
or other Shap for P. M. that
it is a fraud or forgery, he
says he did sometime before Election

Sign a petition for Phillips
appoint as Post agent
but nothing more. And
in view of all the circumstances
in the case and the fact that
the Man Phillips is not and
never was a Democrat it
comes rather hard to make to
set down Cushing and see
our Gov occupy places that
belong to persons who were
born Democrats and have con-
firmed him for the first hour.
and it is exceedingly annoying
to see the Blackest of Republic
chuckling and laughing at
us at the idea of our spending
our time money and influence for
them to receive the reward,
~~in the cause~~: I can only
say further that the man Mr
& A. M. who has been recommended

to Sen is & always was a sound
& thorough Democrat and was
one among only some three or
four in our town to uphold
the Kansas Nebraska act and
its author: while this very Geo
Phillips railed out against it as
strong as ever did Mr. Lord Garrison.
The facts in regard to Col. Sigbee the
petition can be obtained from him
he knows I am to write this letter
we are not so tenacious about
any particular man although

Dear Sir:

At the suggestion of the
Hon. Robert Smith, whose letter I enclose, I
have been induced to solicit your aid in pro-
curing an appointment to some position under
the present National administration. I have selected
no position, preferring to leave the choice of a po-
sition to those of my friends who may be wiser
to interest themselves in my behalf, & whose
positions are such as to enable them to exercise
an influence at Washington. If I have a preference
that preference is certainly in favor of a paying
position within the limits of our own State, if
such might be procured for me, as my
acquaintance with men & means here would
enable me to effect more for the cause of slave-
free, in the future, than I could possibly expect
to do elsewhere.

My claims upon the administration, if indeed
I have any claims, are to be found in the Gal & En-
g, with which I battled, with a stentor & in the
Lectures, for Democratic principles & demands
to carry out those principles, during the recent

hotly contested political campaign. At
the inconsiderable pecuniary loss to myself,
my zeal for the principles of the Democratic party,
which I have ever been taught to regard as the only
true principles of a Republican Government, in-
duced me to sacrifice a getting-on at the
law that I might take charge of a political
journal & thus contribute my might to the cause
of Democratic victories. The result, however, I find it
more difficult than I had anticipated to re-
gain my practice & being dependent upon my
own exertions for a living, my friends suggest
the propriety of my asking placed at the hands of
lawyers. Should I, therefore, be pleased
to favor me with your considered & sup-
port, by recommending my claims, in conjunction
with others whose influence has been promised,
I shall certainly feel myself under many & lasting
obligations.

Keeping to receive, at an early day, such
suggestions upon this subject, as your better judg-
ment may dictate I remain, with much respect,

Yours &c

To Judge

Danville Ill May 25th 1857

My long acquaintance with you and my sincere friendship which has never been expended in bare professions, will be the only apology I have to offer in writing to you on this occasion - Your continued success has been to me a heartfelt satisfaction as a party man and one I have ever looked upon as coming near my standard of a true Democrat. Hence whatever affected your ~~own~~ ^{our} course I have these last 18 years, tried as far as my poor abilities would allow to remove and have ever been for your election to all the offices to which you aspired - It is true on one occasion before I knew of your wishes I committed myself to another but when that engagement was fulfilled I was true for you. By my tongue & pen without a great parade of my friendship I have in front of Mr Fin Cali^a for nearly two years, there never omitted any fit occasion to bring your name forward for the Presidency - though I considered you quite young for that distinguished office - But if a man's friends will not bring him forward & talk for him & talk down objections, who will? Your unparalleled success has gratified me exceedingly - I felt proud of you as an Illinoisian a Democrat and my long associate. I knew too that placed as you are - hundreds representing themselves your friends would be clamoring around you for office - I did not wish to embarrass you - though there have been times within the last 12 years when I have

While embarrassed though having plenty of real estate -
been in a situation where some money pay in office
would have relieved me - Still I wish my feet for
the Cause and for men such as yourself has made me
Enemies where I could have avoided it by a silent
tempering course. Which I shall never do at the
Expense of principle and the friendship I bear my good
honest Democrat - For instance Gov. Mattison became
my enemy though now dropping friendship for my
advocating your position & course and Congress
which I considered reflected on your position in
Congress - It was a time when he ought to be elected
by the Democratic party have come out of the
any thing and fastained more - His promise in his
message and being a candidate of his friends was
not Democratic or honest - He wrote me a friendly
letter of late but knowing him I know he is not your
friend or mine and he knows too (This is of course is not
to be mentioned again & has actually told me that
he could not have been Gov. had I not expected myself
for him but I did this upon the assurance to me that
in way with us on the Bank & Free Soil question but
had been instructed to do otherwise in the Legislature
I told him that during my absence to Calif. I had under-
stood he had gone against you & for Banks - & you on those
regarding resolutions - It was his positive assurance
& friendship to me his freedom from Abolitionist gentleman
of your partiality which induced me to go readily
for him - I am afraid you will find him working

for himself & say you in 1858 - I say this with pain for I once
had a real friendship for him - then believe him true as a man
and Democrat - But a man that is false or unstable in
politics is not to be trusted in matters of principle
He is the only man you have to fear at the next Legislature
which is of more importance to the Democracy than any
ever in Ill. - I would not see you defeated for any given
sum - and which I am on that subject - let me suggest the
great necessity of trying to circulate our documents and
papers in every County - The Opposition are ahead of us in
this - They circulate lots of our lies - hence their success they
lie on out of thousands of votes - and there is some way
designed to increase papers in every County & if the Democratic
papers would suggest that the Central Committee take
the thing in hand - they might do something - This County is
hopelessly Abolition - having at least 4000 Quaker votes but there
are other Counties where the Democrats might hope for
a member by great exertions between this & Nov. 1858 -
What time I am here or at any of the County I shall save
us some day never have to get things right - I think your
nomination for 1860 will be without opposition and I am
doubtful in this by our Democrats - whereas I go - the
only question is your Election - which I now think will
be easier than Mr. Buchanan - but as things then stand
as Mr. Flood & Mr. B. are of our worth - they not displayed
at his nomination - then it is due to you & to our
State a Democrat to bring your name forward and
do all we could to sustain you - and your course in
that Convention & since has made you thousands of
friends & must insure your Election in 1860 - I like Mr.
Buchanan & have for years & especially since I heard him speak
and see you in 1856 in a 3 hour speech in the Senate which

most elegant table - His brother a younger ^{one} way my
particular friend in College and his family have loved and
some of them now live neighbours in New-Town family
and all together - I always since I took any part in politics
had a favorable opinion of him - I thought he was somewhat
wrong about the tariff once and said so to him in a playful
manner - Which he laughing replied if he was - that quest-
-ion be considered getting now and he would get so much
or worth to that effect - Judge Can I do anything for
you to aid in accomplishing what I have at heart
Your elevation in 60? Don't be backward in telling me
for you ought to know that your name is safe in my keeping
Could not there be a short biography with some anecdotes &
some of your best speeches inserted for circulation among
the common people? I had one anecdote you & your father taken
from Jackson's life & published in the paper last year and
that fine speech ought to be copied & have a wide circulation
Only suggest - tell me what the democracy can do for you
and it can be done without your appearing in it - there
are men of our party who could get up a good biography
and to your taste if you think it best - someone should write
it from all or who thoroughly your life history - The common people
take an interest in a man like you or Clay or Jackson who
have made your way in life by your own energy & talent
They go along with you & feel for you say we can show - that
your energy & firmness is of the Jackson stamp - they will
and do not feel an interest which they never feel for
moderate men - no man can be a favorite with the American
people who is suspected of friendship to England and who is
willing tamely to submit to National indignities
But I am carrying early to New Market - I am talking

to one that understands the popular pulse much
better than ever I did or can - I leave this & pass
to another - and will close this dissultory letter
I am glad you & Col McClernand are again friends. I
learned this from C. Guinlap who is now your friend & want
him & all demorats in Ill to remain so - some of the Tories
and traitors such as Pick-Risfel-Tennell &c. we don't
logut again - a word - Is there any hope of working on Long
John to silence his gun against you? I wrote him a letter
some 1 1/2 year ago and he always professes to treat me with
friendship - If you think his silence or moderation
will be of any advantage to you as his pen & tongue
are always at work when he is a man's enemy I will
do anything to bring it about which I can in reason
or fairness & without compromising you or myself
If you think he is past redemption or that his paper
will do you no harm - then let him go - I will come
to Chicago & spend some time to effect anything for you -
if you think it advisable I have a clue to him that
you may not know of and as he is what? you know so I
will not say - only he is Long John says I told him in my
letter - he ought to cease his opposition or at least confine
himself to truth for and doing of me - that he ought
to remember your friend ship to him in the hours of need
that ingratitude no man politician or not should ever
have justly laid at his door - He treated me quite friendly
both before & after I had seen you at Chicago - made some
particular inquiries after you whom I told him he ought
to call and see - He replied "I would that very evening" - This is
all said - not knowing how far his hatred to you stands

I shall be in Rome about the 1st July to see my aged mother and
friends & most likely go West in July - if you can come
down to the Vatican region - Why not in the fore part of July
I think you might make some friends in this quarter
where the abolitionists have represented you a ~~man~~
monster with horns and four feet -

Excuse this long scribbling and read it at
your leisure after a good dinner and over
a fine flavoured shavanna & then you will get
through with it - As you know we
will make no apology for its length
One thing is certain unless I write a long letter
I can't say much to you as you are always crowded
and no man has half chance to say anything
to his officer as I have no doubt they do even
now away from Washington

Dear Sir -

Your note of the 28th inst. wherein you call my attention to the arrangement by which the relative claims of Messrs. Bramley and Chas. J. Bagg to the Post Office in this place should be tested and desiring information from me on the subject, has duly come to hand.

I well know, as you state in your note, that you have no other motive in this matter than to carry out the wishes of the Democratic party of this place and to get a good Post-Master for the people and the Government, and I therefore regret that I am not able at this time to furnish you with sufficient information to enable you to arrive at a positive and correct conclusion in the premises.

Both these gentlemen, Messrs. Bramley & Bagg, have their respective friends and have circulated their petitions &c.

amongst them - but as I have not had
an opportunity to examine their papers
and am not able, as you desire, to
do so now (they having been forwarded
to Washington) I cannot ascertain the
numerical strength of the respecting
party & decide, which of these gentlemen
is the choice of the majority of the Abolitionists
who attend their mail matter at this office.

My own impression is that they
would be less dissatisfied by
retaining Mr. Brewster until his Commission
expires than by removing him without
good cause. He has been an attentive,
capable and honest officer, and has
ever been a steadfast Abolitionist - You
are no doubt aware that he is now
a member of our State Com. Committee.

I shall hold myself in readiness to
give you any further information on this
subject which may be desired - and have
the honor to subscribe myself

Yours Obedt. Servant

Hon S A Douglas

Dear sir

I write you this to apprise
that you are about to be
visited by a couple of individuals
from this place who doubtless
will represent themselves to
be the embodiment of the Democracy
of our Town & County. The persons
alluded to are no more or less
than my very worthy successor
in the Post Office and his right
Borne Mr Fuling, some in regard
to this matter allow me to say
to you that representations of this
kind from these men are as
fabricated as their charges against
me in the Post Office affair may

These men are as far from
being influential as John
Wentworth is from being an
interested Remainder they none doubt
will impress your mind, the idea
that Mr Longfellow has been to
considerable expense in fitting
up a Post Office also that he
has augmented the List of the
Times above as I remarked to you
in Washington I assisted him
in increasing the circulation
of the Times notwithstanding
the thieving manner he got the
office from me, and in regard
to the fitting up of the office
I will give you a history of
how and why this was done
Longfellow was urged to this
by Hunting for the sole purpose

of making it an argument
in his favour to keep the office
raising to him Longfellow that
in case he could not keep
the office that he Hunting would
take the building and pay him
for it else could I not
build an office under the
same circumstance, it is
nothing but a poor fabulous
excuse knowing that they have
obtained the office by fraud and
deception and their only alterna-
tive was to make an outland
appearance to hide their irregu-
larity away from home but their
sincerity will not reassure them
here where their treachery is
known. I write you this in
good faith and confidence

To caution you against the
Impositions of unprincipled men
Allow me to refer you to
R. W. Everett & John Everett
in this matter of mine they have
been with me in the Political
field for the last three years

Yours Truly

S. A. Douglas
