Dear Sir,

Please it me so far to
encroach upon your valuable time as
to request that I may be so fortunate
as to add your autograph to those I
already have. For some time I have been
collecting them. I have the signatures
of several distinguished statesmen and
my humble collection would by no
means be complete were you honored
name wanting.

Dear Sir //

The Pennsylvanian of the 8th instant contains an article taken from the Chicago Democrat of the 31st of December, calculated to produce the impression that your Democratic friends of Illinois and the Republicans of that State contemplate, or have already made arrangements for fusion, and that you are a party to the proceeding. Knowing the character of the Chicago Democrat I do not believe the statement; but there are others, not so well informed, who may be prejudiced by ~~it~~ it, and for this reason I appeal to you for facts in order that the matter may be placed before the people in its true light. //

To remove all apprehension on your part of the propriety of communicating freely with me on this subject, I will state to you that I was for twelve years a member of the Democratic party of Rock Co., Wisconsin; that I established the first Democratic newspaper in that county, and that in 1832, as Chairman of the Democratic Co. Committee, I addressed an invitation to you to speak before a mass meeting at Jonesville. In addition to this you may see in the published proceedings of the mass meeting held there on the 30th ult^r, a letter from me expressing my sentiments on the Kansas question. // Your position is sustained by two-thirds of the Democratic party of this State, and nothing can induce them to deviate from it. Your design is to coalesce with the Republicans.

You will therefore confer a particular favor on myself and many other
of your warm friends in this region, by giving us all the information
you feel at liberty to communicate in regard to the alleged con-
templated fusion in Illinois.

Very respectfully and truly Yours,

George W. Crabb.

Dear Sir.

The noble and independent position which you have so recently assumed, to secure to the bona fide residents of Kansas, their Constitutional rights, meets with the universal approbation of men of all parties. A indeed the policy enunciated in your recent masterly speech in the Senate of the United States, seems to be the only peaceable one, to quiet the present intense excitement in and out of Kansas, and to secure to the actual inhabitants of that unfortunate territory, those inalienable rights which our Constitution guarantees. Combat as you have done heretofore, the Lecompton Constitution and rest assured that a great and appreciative people will not fail to extend to you a well merited reward. Dear sir be so kind and send me all speeches which you may deliver on the subject of Kansas, addressed as above.

My dear Sir

I herewith transmit

To You the Resolutions of Our Democratiick meeting in Mount Pleasant Henry County. They speak the sentiment of every leading (unbought & untrammeled) Democrat in the State. And I assure you Sir that Your movement is the only hope of the Political salvation of the Democratiick Party. For Heavens sake and for the sake of the Democratiick Party. Pleaseere in Your Policy in reference to Kansas. There are not, in the Democratiick Party, of the State of Iowa, 5000 voters against You in any contingency. As a choice there is not 500,

Pardon my intrusion upon Your precious time, And rest assured that the Prayers and vote of the People of Iowa are inmoveably with You -

There are some verbal inaccuracies in Our published Report, but they speake an intelligible language. You will see that You are fully sustained and will be. Success in this enterprise will mark the proudest day of Your life as it will augur the lasting peace of the whole Country, and the unbroke Harmony of the Democratiick Party, the defeat of these measures, fearfully threaten the ruin of the Democrats if not the destruction of the whole Country

As the People take action upon this subject
I shall take great pleasure, in sending you what
the People say in your defense....

Democratic Meeting at Mt. Pleasant.

Pursuant to notice given, a meeting of the Democracy was held at Mount Pleasant, and the following proceedings had. On motion of H. C. Dean, Jerome Virden was called to preside over the meeting, and B. J. Hall was selected to act as Secretary. H. C. Dean, then stated the object of the meeting. After which, upon motion, a Committee of five was appointed to draft resolutions expressing the sense of the meeting upon the political questions of the day. Whilst the meeting waited upon the Committee, they were addressed forcibly and eloquently by Mr. Jordon, of Salem. The Committee, which consisted of Messrs. Dean, Hall, Davis, Beers and Dewy, made report of the following resolutions,

Whereas—A crisis has now arisen in the history of the Democratic Party, which makes it necessary and imperative that we take a stand not to be misunderstood by any one; and,

Whereas—We have fought against the wild sectional issues of the Republican party, to sustain the political rights of the people of Kansas, and of the whole country. With equal earnestness, we now repudiate the base-born abortion of fraud and perjury—the Lecompton Constitution, which is now presented

for the arbitrary, self-constituted government—petty despotism—without a parallel in the history of the country. We repudiate all tricks of policy, which propose the

slavement of a free people, and the disfranchisement of the popular will. There-

fore, ~~we, having in view the best interests of our country~~ Resolved, That we heartily endorse the Ad-

ministration of Gov. R. J. Walker, Gov. Fred Manton, acting Governor of Kansas.

Resolved, That we endorse the course pur-

sued by the Hon. S. A. Douglas, in defend-

ing the great doctrine of Popular Sovereign-

ty, the natural offspring of that cardinal

principle that all power is inherent in the

people—and that no delegation of power to

agents, can by any possibility deprive the

people of the absolute right of determining,

by popular vote or other like expression of

the popular will, the character of the Domes-

tic Institutions that shall exist among them.

Resolved, That the domestic institutions

of a people, extend to every subject matter

of organic Law, and the right to regulate one

gives the right to regulate all.

Resolved, That we will stand by and de-

fend against all persons whomsoever, these

great principles as the very life blood of the

Democracy of our Democratic fathers.

Resolved, That to impose upon the people

of Kansas the Lecompton Constitution with-

out the consent of the people, would be an

outrage upon the spirit of our institutions,

and a sequel for the desolation of the Demo-

cratic party of the nation, and in violation

of the Cincinnati platform, and every pledge

given by the President to the people.

Resolved, That we will contend with equal

ardor for the rights of each and every State,

and for State rights, and for the rights of the

people to form their own local institutions in

every portion of our great country, and simi-

lar and equal rights to the people of the Ter-

ritories.

Resolved, That the proceedings of this

meeting be published in the Burlington Ga-

zette and papers of Mount Pleasant.

Upon motion, the meeting adjourned.

JEROME VIRDEN, President.

B. J. HALL, Secretary.

I will not believe that he will make the measure a party one which he does not recommend in his message. I will not believe that he will ask his party to go for a measure to which he would not commit himself on paper. I will not believe that he wishes us to run our necks into the halter of disunion and civil war before he takes the lead and points the way. The absence of a recommendation in the message shows that no man can, consistently with the President's dignity of character, assert that he is in favor of this measure. Then, I say, let us restore peace to the country by ignoring the irregular Convention at Lecompton, by ignoring that irregular Convention at Topeka, by passing an enabling act in proper form, authorizing the people to form a Constitution and State government for themselves. Such an act will restore peace to the country in ninety days. In fact, the day you pass it everything will be quiet in Kansas.

The people of Kansas will then see that Congress is going to carry out in good faith the principles of self-government. They will see that Congress is going to let them have slavery if they want, and prohibit it if they do not want it. They will see that Congress is going to allow them to make their own constitution and laws in their own way. The moment they discover that impartiality is to prevail, and justice is to be carried out, they will be content; all will be quiet; there will be peace at the North, peace at the South, peace in the Democratic party, peace throughout the whole country. I trust that we shall discuss this question in calmness, in good humor, and in a kind and respectful spirit, as we have discussed it to-day.

KIMBALL & CO.—Speaking of business houses and business men, reminds us that passing around the other evening, we dropped in on Messrs. Wright & Chamberlin of the above named firm, and after a social chat took a survey of the premises. The Dr. Goods department, over which Mr. Wright appears to have the sole control, presented not only a neat and tasteful appearance, but gave evidence of an abundant variety of goods. And while the counters and shelves looked full, there was every evidence to show that the attachees were not idlers during business hours—taking into consideration the tightness of the money market, we should say from the evidence presented, they were doing a very fair business in that line.

In the Grocery department, of which Mr. Chamberlin has the management, we found the same evidences, in a well arranged and varied assortment of Staple and Fancy Groceries, of a fair and paying business. The principal part of the sales in this department, we are informed, however, consist of staple articles—fancy articles are not so readily disposed of, yet we should think from the very obliging and gentlemanly manners of the head of this department and his attachees, that if a man had any intention of buying he would be sure to do so after making the acquaintance of the firm of Kimball & Co.

HOGS ARRIVING.—Some six hundred head of hogs, were brought in yesterday by the cars of the Burlington and Missouri River Railroad, and something over one hundred reached the city on foot. About one hundred head went forward, the balance will be slaughtered here. The change in the weather appears to have started the hogs to market, and a lively time may be expected at the slaughtering establishments for some weeks to come. Prices about the same, to wit: \$3. to 4.00.

I was much gratified to receive your great speech upon the Kansas policy. I know you have a thousand and one letters to read and answer these times. Therefore will not expect you to read this fully until you have time. But thinking that possibly you might be called upon to act in a case that may affect me personally, and if so, I wish you and all others to fully understand my position. The democratic portion of our General Assembly and Constitutional Convention, last winter recommended me to the President,

through the Hon G W Jones of
this State for Marshall of this
State, I suppose that Gen Jones
presented these recommendations
to the President. And it may
be that my case may come up,
But it is understood that all
persons, in order to be success-
fully to office by appointment, must
indorse the Kansas policy of the
President. To this I must plead
ignorance, for from the message
I do not understand fully what
the President favors, or what his
Kansas Policy really is.

I will give my policy, and if
this suits the President all
right. If it does not meet
his approbation its all right.
I take the grounds that all

people should be permitted to
vote for, or against, any Fundamen-
tal ^{law} that they have to live under,
That if Congress should admit any
new State, under a Fundamental
law that the people refused to recog-
nize, That the word admit means
in that case force, And that
Congress has no Constitutional
power to force any State into the
Union, That if all admit that
 $\frac{3}{4}$ of the people are in favor of
Slavery in any Territory, and the
 $\frac{1}{4}$ should manage to get a
constitution framed prohibiting or
continuing Slavery and submit
that clause only to the people
for ratification. And the $\frac{1}{4}$ only
should vote upon that subject,
and make a free state, I would say
that Congress ought not to admit
or force it as a free state, into the Union.

neither should Congress admit or
force it into the Union if a Slave
State under the same circumstances.
This is my opinion, And the
prospect of office could not change
this opinion. Every person here
sustain you, The Democracy in our
General Assembly will not sustain
General Jones, If he takes any
course in opposition to your Enabling
act. If you have time please read
this letter, I remain your
political Friend,

Hon. Stephen Douglas,
Dear Sir,

I may as well tell you at once that I am an old worn out blergg man born, toward the close of the last century, under the shadow of the Plymouth Rock - when I say one thing more, you will know enough about my whereabouts and my position - There is not and never was one particle of radicalism in my composition -

I was old enough to join with the nation in mourning the death of Washington - I have seen some occasions for national mourning since, but shall not live to see many more -

As I have the principles of the Revolution in my very bones, I go for free suffrage, and the rule of a majority, whether I be found with the many or the few - You will conclude of course that I am with you in your powerful Kansas speech - From your position, in that speech, you can never be driven. The mass of a free people, will support you. I am thankful that one, so able, and so bold, has made a stand - Every true American ought to be willing to go wherever such principles will lead him -

Please send me that speech, and any other documents or reports you may have to spare -

With sentiments of high respect,

I remain yours, S. Holmes.
