Dr Sir

Your position before the country is such that the approval of a politician can be of little consequence — But I am not one of that class. — I am one of the People. I desire to thank you and express the gratification I have found in in reading your Speech before the Senate December 9th on the President's Message". If that Speech produces the effect upon others that it has upon my mind the result will be (what we so much desire in this State Particularly) a wonderful Revolution in the opinions of the People Regarding the provision of the Kansas—Nebraska Bill" — I could never before see clearly where that "Bill" would take the "Party". I can see now!! We only wanted a Statesman with the nerve to man the "Brakes", & you honored Sir we have found that Conservative Patriot. — And ~~& but that~~ although at present it is not a desirable situation. No one I think knows better than yourself that the "Post of honor is the Post of danger", I cannot but feel that your interposition has saved the "Party" and I mean no offence when I add the reputation of its leaders. — Pardon the liberty I take, and believe me a true Jackson Democrat — And a friend

Dear Sir.

Please do me the favour to send ~~such~~ copies of such public documents as are printed for circulation. Anything of interest and which seldom reaches the people except through their public men will be very acceptible

You canvass in the Senate meets with warm approval here notwithstanding the strong opposition of our own rugged Senator Hon. Bigler.

Mr Stephen A Douglas
Dear Sir.

It is with much diffidence that I intrude upon your time & patience; but as one must give vent to their feelings in some way, I venture to write a few words to you, & first let me say that I am over much pleased with your Consistent Course on the vexed Kansas question & hope & trust that you will be sustained by members of both Branches of the National legislature. I do not blame the president half so much as some of the ultra free sailers, but I think he is honestly & anxiously endeavouring to get the question settled; but he is mistaken in the policy.

I wish to Congratulate you on the brightening prospect of your being sustained by a vast majority of the people. I have the means of obtaining the views of a Great many of all parties Especially of Democrats to which party I have the honor to belong: for the truth of which I refer you to Pugh of the Senate & Greenbeck & Pendleton of the House

If you should think proper to answer my scribbling or to send me any Documents containing your views or any facts on the Great question of the Day, Do So, — but by all means send me your Likeness, I wish to have it to look at when I feel Dull, & that I may have the privelege of Showing it to my numerous friends & acquaintances, I do not wish to flatter you for this would do me no good; but it is

the Honest outburst of the feelings of my Hearty & as it is quite likely I may never see you in the flesh, I would much like to have the Picture of a man who Dare Stand up before politicle friends & politicle foes personal friends & personal foes (if you have any) & contend for principle & for right

Will you please Excuse this intrusion & believe me Ever your friend and well wisher
