Dear Sir after complimenting you on your success in  
building the Black Republican party  
it is a triumph which I should make  
every Free Democrat feel proud of  
and I am satisfied no other man in  
North America could have accomplished  
almost ever man you meet now  
is for Douglass and before it was  
in some localities rather dangerous  
to speak of your position always  
in St Louis Mo on the 8 of Jan at the Central  
and Grand Round and Young Scouts for you  
seen thousands of hosts drank and cheered  
for you now sir I have seen you three  
times the first at Jacksonville when  
you and Stearns ran for Congress and you  
made him give a publick explanation  
of some reports he had circulated one  
year you did it it was I believe in 1857

The next time I seen you I ways called  
on by our people to wait on when you  
visited our place and took dinner  
with you at Col 88 Deesses and  
seen you to the Stand and occasions  
very give vent to my feeling and  
calling on others to assist me in  
so doing the best time today at  
our State fair last fall now Sir  
you will find Money men blaming  
a great deal and asking to be rewarded  
for their hours and for what they have  
done I blame nothing but to be emulated  
I made the first Democratic speech  
at the Hubley grove school house in  
1857 to an audience of about 75 or  
a hundred persons. I ways told by  
some persons now seeking favors from  
me to tell you that I should be basus  
because the question in Congress was  
not settled I told them the question

ways cast on a sound and a replum  
set of Preachers when the people  
were left to choose for them selves they  
an capable, in the best place I ways  
chosen by the people of Clinton  
Bond and Montgomery Countys  
to represent them in the State Legis.  
in 1853 & 54 at which time I ways  
called on to cast my vote for Senator  
your self and I Groshee ways put  
in nomination I gave you my vote  
when the resolutions came from the  
Senate introduced by Edward Ormby  
before the date of the House was  
taken I sent and obtained three  
ballots when ever absent sick to send  
the number over speaker if I may  
be permitted to call so he voted for the Res-  
olutions and like the mare that had  
several horse bolts suposed she could  
have no other kind one season she  
had a mile bolt and she look at it  
and the more she looked at it and the more

the worse she became pitiful and  
finely she broke the fire and away  
she went leaving what she had done  
to take care of itself this is his fair  
poor old fellow he came home and  
Denied the cold Since this time  
I have kept the wind blowing as  
much as prudent I attended all  
the conventions and see that we  
get the like kind of men and  
when this is done the country is safe  
nothing more only dear sir

Dear Sir

We have all  
day but then there are no exceptions,  
the Democrats desire that the effort  
made by you in favor of popular  
sovereignty may not be徒徒.  
Such efforts must and will have  
a rotatory effect, the opposition  
may defeat you where executive  
influence is brought to aid the  
adults but amongst the people  
nothing can, I am truly sorry that  
any Member professed to be a  
democrat has taken a moment on  
the question upon which the durability  
of the democratic party depends, so they  
must see the party will suffer the con-  
sequences of such conduct

Our Representative is helpless  
as our Senators in this question  
not much better therefore have but  
little to depend upon I did hope  
that Stuyvesant would stand upright  
and I have some hope yet but  
it is mixed with fear

When the proper time arrives  
I expect to hear from you on  
the same Subject and with the  
same willing influence to the  
abolition If you do speak  
again on that Subject we would  
be much pleased to have  
the same to file with all your  
principal Speeches since 57  
as I have them, and with  
care preserve them

To the Hon<sup>r</sup> Stephen Douglas.

Dear Sir

I cannot  
desist from telegraphing you  
in your late course in the Kansas question.

I have watched you with a critical eye since the  
repeal of the Missouri Compromise (excuse me).  
As there was so much said by our Northern men  
upon the sanguinary facts (as they term it) of your  
in the passage of the bill. That I did know but what  
there might be something at the bottom that was really  
wrong. But now, I am convinced I am  
satisfied that the repeal of that act was one of the  
best things that could have been done. One especially  
for the benefit of Slavery. I am no Abolitionist  
still I think that Slavery is wrong. I think it is a curse  
a blemish to the fair fame of America and a curse  
to the Slave States. And many even acknowledge it and  
would at least be glad to get rid of it. But still they  
dare not like to be alone to it. It is my honest opinion  
that it must now favor the half headed Abolitionist of the  
North that Virginia Kentucky Maryland and Mis-  
souri would today be free States. It is with the Slave  
States some as it was with the Dutchmen about his

Dog that his neighbor had killed in court he was asked what his dog was worth he said the Dog was worth nothing but since he was so mean as to kill the Dog he should pay the full value of him

In regard to Kansas I think it hardly possible to get a pro Slavery Constitution upon them

But is there no way wherein they can be an honest state retained in the territory for anyone must know that there were hundreds of illegal votes returned at the last election State if they would eject them as Gov Walker did they would <sup>come</sup> much means to it These points regarding old Missouri are the main points to peacet at Elections

But it is amusing and somewhat impudent to see the change in the North West towards you And it is so universal to men that were so very bitter against denounced said everything but good proclaim now that Douglas shall have their vote Altho I am in a remote corner of the Union at present but I have troubled considerable this last fall and winter which have given me an opportunity to see and learn the feeling of the country

I was once personally acquainted with you whom waited upon you and your Plate while you was boarding at the American House in Springfield Ill was present at the time you was elected Secretary of State our friend also Judge since when time I

have never had the pleasure of seeing you I sat that time assisting Mr Clifton in his hot Specifically have we this been forgotten by you in the multiplicity of your business The last time that I saw Clifton was in Cleveland Ohio some few years after this I understand he left Ohio for the Lake Superior Country but I do not know the one thing I do know that he was a good man & was very much attached to him two years after you was Native Judge I graduated in the profession of Medicine in which profession I have practiced until about four years which time I have been in the Merchantile business

Wherefore the former acquaintance I trust will be a sufficient apology for this intrusion

I am soon little acquainted with one of our Senators Hon Mr Durkee tho he may not remember I spent one evening with him two years ago this winter he appeared to be an honest man of not so envenomed I have not learned his passion yet upon the Kansas trouble I see that he does not make himself so conspicuous as your friend Mr Bigler does in the matter tho I presume you have no fears of Mr Bigler if he does not oppose you with any manly fairable weapons then this pen as tauny There seems to be much more important business before Congress this session

and I trust all will be amicably adjusted tho  
causing you and your colleagues many hours of  
hard mental labor. Please pardon me  
for this liberty that I have taken in encroaching upon  
your time. While I remain your

Dear Sir -

Bearing a native of the State of Illinois, and by right of descent an old line democrat it is but natural that I should feel highly gratified and no little state pride while perusing your late speeches in the U.S. Senate in vindication of the rights of the People, and the honest and literal construction of the Kansas & Nebraska Bill. — And, notwithstanding, that I have not the honor of a personal acquaintance with you, I trust that you will not consider me obtrusive if I express my unqualified approbation of your position upon the Lecompton Constitution. —

Your sentiments have been greeted by a universal Amen from the Democracy of the North West. In the campaign of 1856 those arguments were our only effective weapons

in our hand to hand combat with the  
Black Republicans - by misrepresenting  
your views, impugned your motives, and  
branded you as a traitor; but, while hurling  
those unvarnished falsehoods back into the  
lie-polluted mouths from whence they  
issued, we predicted that which you now  
are so ably, and I trust successfully fulfilling.

While the self styled Administration party  
are attempting to ostracize you, be assured  
that the Democracy of the North and West, and  
the Conservative men of the South will stand  
by you and the Nebraska Bill to a man. -

In conclusion I would ask it as a favor  
that from time to time you will have sent  
to my address such public documents as may  
be necessary to keep a man posted on the  
politics of our Country - Being an out and out  
"Young America" I intend to make my little  
forensic abilities till to the very best purposes  
for the "Little Giant" in the Campaign of 1860. -  
Iowa, Com and shall be redeemed & with  
"Douglas" on our banner, the contest will be but  
a pastime. - Very Respectfully &c  
A. Stutsman.
