

New York, Feb 18, 1858.

John S. Douglas:- One word. Description. 1854. Pass
 that, I knowed is a Slave State till 1864. If it is a slave
 and Major and Co. will allow the Bill to be rejected. Or submit
 a Resolution calling on the Sup. Court for an opinion, in view of
 great doubts upon the subject, and of the importance of the contingencies
 involved to the people of Kansas and hence by the country.
 Whereas, &c. &c. Resolved, that President of the Senate
 be requested to apply to Chief Justice Sup. Court U. S. for opinion of
 that body, & for information of Senate in reference to effect of adopting
 Description of side 1864. My Dejunct in the court. A novel
 but a splendid move to bring out the dodges. Try it. It will be a
 bomb shell to O'Brien & Co.

Sincerely yours,
 Popular Sovereignty.

Dear Sir

I am extremely anxious to become the recipient of favors in the shape of Congressional matters (news &c) speeches, reports and the like from some other than yourself — I am not of your constituency. neither am I personally acquainted with you, but I hope in 1860 to be one to support the "Little Giant" for the Administrative Chair, always provided he stands firm in opposition of any minority aggression — whether it comes from Chivalric South or even "Old England" —

I am a stranger also, to H. McKee altho' of his constituency. therefore both and all being strangers, I as my first choice request said favors of you — If they do not meet your approval — please refer this to Hon H. McKee as my second choice — Respectfully —

My Dear Sir
You are right, "Go ahead"
 The Democracy in Mass say
 that you are wrobbly, unwirfully,
 contending for the very life
 of their recent vital principle.
 The abolition Republicans are
 trying to make you one of them
 but don't you even consider
 it be one of them the Democrats
 can't stand you now can we
 go with you to them, the Black
Republicans, The people must
 be allowed by State Majority
 to govern and the federal go-
 even can never succeed in
 long defrauding them of their
right and power, this is uncharma-

I believe the Cotton and
Sugar Climate can be cultivated
by the African ^{only} and that the
best interests of the whole human
family (the African man in-
cluded) calls justly and per-
emptorily for the opening of
the African Slave trade again,
that is legalizing the trade under
American regulation?

The whole Social and Commercial
World needs a large tropical
proletariate than the present labor
in that field can give, and
the Government of England
and France evidently see the
fact and will soon apply the
only remedy. Our Southern
States need more labor, it is
the only thing that can invigorate
them, if they will be temperate
and just to themselves and
the Union the Democrats of

of the North will support
their application to reopen the
African Slave trade, and that soon.
Dear Danvers Nebraska bill
should help, and soon will, as
you now explain and defend
its few even settle all sectional
differences on the subject of
Slavery. Now in justice let
the South have the means to
till their soil,
I think the Democracy of the
North (and the South if they are
not mad) will call you to
administer the Government
the next term.

Yours truly
Abel Dufour

P.S. I never did follow a man
out of the Democratic Party
and hence don't want you
to go out of it,

York, Feb. 13, 1858.

HON. S. A. Douglas

Relative to retaining
his German paper.

February 13. 1858

Dear Sir,

Some twenty five hundred dollars invested in the purchase of a good German paper, which is for sale, — and in strengthening and extending it, — would suffice, to in a short time, to carry the large majority of the German vote of this city to the side of opposition to the Leamington funds. The consequences of the crisis appear to weigh so heavily upon all my friends here that I have found it impossible hereto, to small a balance among them. — You of course receive more suggestions of this kind than you can attend to, but should you think proper to make inquiries in this instance of those you could be satisfied.
