

Senator Douglass

3851

Sir) I conclude that you do not wish
for a civil war in Kansas, and that you do
wish to secure to the people of that Territory
such a State government as a majority of its
citizens approve: I see but one way
in which this is practicable provided
Kansas shall be admitted as a State under
the Lecompton schedule, and that is
for the convention which will meet
next week to form a constitution to
insert a clause in it declaring that if
Kansas shall be admitted as a state
under any other instrument or constitution,
then ~~that~~ the new constitution when adopted
by the people, shall be deemed "an amended
constitution" in the place and stead of that
of Lecompton.

On the statement of this proposition
I presume

You will at once see, that its effect will be, to avoid a new application to Congress, and to pin those who insist on the inherent right of the people to change their organic law (a doctrine I do not consider as founded) to their ignorant or fraudulent professions -

I am not so credulous as to suppose that by taking the course, suggested, Kansas would free itself from the influence of banded ^{other} Arianism, who wish to make a coercive republican government, but I believe it would compel the administration to avow more openly its scheme of form, or to recede from the design of employing it -

My apology for sending you the suggestion is that I am unacquainted with any one in Kansas, and your name is perhaps necessary to give it consequence

Carry the war into Africa!
In boldness - energy & sagacity
in attack you can be invincible &
will inspire both fear & admiration - You
will carry the "pope" at the North with
you by such a course go in no other way.
No half way or hesitating steps -
It is against your nature & your success.

J.M.J.

To Judge Douglas —

Dear Sir

Allow me to congratulate you
on the eminent and noble position
you hold - and offer my poor regards that
long may this same position and a higher one
yet be the reward of men who seek the
common good of our country.
Let one also recollect to you honorable attorney
the work of Christ and establisg you
here promised to settle on you our
city of the few sweet - I mean a
Home of Industry & Industrial Schools,
which we are seeking to erect according
to the events of the few of this great city
Last fall you favored me with a note

Saying you did not think you had any lots or
ground that would be suitable for the erection
of the building. But Hon Sir if you will
kindly lend me a deed for a few acres
or lots either in or without the city limits and
I could make it available. A Dr. Dr. Drury
has promised me three acres which I
shall dispose of in this way by selling it at \$1500.
But from you self Hon Sir I hope to obtain
my first - competent donation - And I feel
assured that this charity will be returned
to you a thousand fold even in worldly
success - Relying upon not only the whole the
whole prestige you now occupy but one
higher yet - which the people here do bestow -
In saying this it is not as a politician
I speak but as a poor beginer who
having devoted himself to the care of the
poor and the instruction of the ignorant -
knows well - that if God rewards even a
cup of cold water given for him - he
has abundant rewards for greater

deeds done for him.

Random the liberty I take in
addressing you - but all your
warm political friends in Chicago
have advised me to make
this application to you - Assuming
one that you would donate
most liberally. Praying the
divine blessings of Heaven
may be yours I remain Hon Sir
with most profound esteem -
Your humble servant
J. M. Langdon

Sir I wish you would
use or two dagger of your Speech
delivered Previous to the Passage of the
James Compton Constitution by the Senate
I was always a Democrat until I'm taking
up of the Missouri Line I thought that act long
that it would not be carried out in Practice
What the Professed in Theory & I thought that
Mr. Pierce Was Right on this Subject through all
His Administration and I think Mr.
Buchanan is In a Worse Position than
Ever President Pierce Was there was a time
When I thought you was gone Reginald Buchanan
Politically speaking But you have Redeemed
your self in the Mind of Every Considerate Man
The Course that you have taken in this
Cause Has Placed you in the front Rank
of the Great Statesmen of your time
Reason and Justice is with you and the
People will be with you when the time
of Appeal comes

We understand the nature of the Contest with
the Administration Arayed against you
But Battle we are better men - in a good
Cause and Risk the Consequences The Eyes
of the Whole American People is upon you
Every man is satisfied that you want to carry
out in Practice that you laid down in Theory
whether Be Crossed or Divided from the
Proposition that you have taken the whole
North and South will sustain you in the
end you are on Practical Grounds and
you can be sustained beyond a Doubt
The great Bulk of the Democracy here are with
you in sentiment with the exception of those
that hold place under the Administration
or some of their friends that are now quieted
I do not wish to distract you from any

Yours with respect John C. Morrison

Mrs Douglass Sir permit
me to express to you my
sincere gratification at the
noble stand you have taken
during the present session
in behalf of Popular Sovereign
ty & in opposition to the most
corrupt Democratic administration
that has ever cursed this fair land
of ours. And greatly hope that
in 1860 we will have a change of
government policy. For let me
assure you that there are many
in Missouri ready to enroll under
the proud banner State rights
& popular sovereignty the greatest
of American principles. Enough
at present I need say to you

Sir, I wish you would send

Dear Sir,

I have been for many years engaged in collecting materials for a work which I conceive to be a great desideratum in literature, as I believe nothing exactly fills its place in any language. It is now nearly ready for the press; & as my name is not very extensively known, the booksellers are desirous, before embarking in so extensive an undertaking, that a few of our literary characters should say, whether, in their opinion, such a work would really be useful, & likely to meet a demand.

Under these circumstances, will you, sir, have the kindness to read the following title, short explanation, & small specimen of the work, & then state, on a separate paper, whether, in your opinion, the book appears likely to fill a want of the reading community, remitting it to me along with this sheet for w^t purpose. I enclose a stamped envelope. The work will be nearly the size of Webster's or Worcester's large dictionary, for w^t it is intended as a companion for the table, & is expected to cost about \$4 or \$5. Your note will not be published, only shown to one or more booksellers.

Yours, very respectfully,
Tho^z H. Palmer.

Plan.—Every professional man, every habitual reader, has a book on his table to answer questions of daily or hourly occurrence, viz. "The English Dictionary." This is an indispensable work for every individual student, for every intelligent family.—But the Dict. responds only as to common words. When the question relates to proper names, whether concerning real or imaginary personages, whether to modern towns, or to places long since mouldered into dust, the oracle is silent. Should information be sought respecting a remarkable character or event, or subjects to w^t perpetual allusions are made in every book, newspaper, or pamphlet, no satisfaction can be had without access to a perfect library of books of reference. Indexes must be ransacked, books on ancient, on mediæval, biblical, & modern geography must be consulted, classical dictionaries, scarce books on Hindoo, Egyptian, & Scandinavian mythology must be hunted up, before satisfactory information can be procured.

Surely such a state of things ought not to exist! Strange! How so useful a table book, a book so much wanted by every reader, should never have been thought of! a book that shd. contain, in a moderate compass, the quintessence of knowledge on all subjects, a book within every man's means. To supply such a want the Supplement is now offered. It is the result of many years' meditation & labor, contains the cream of a vast number of books; & it is fondly hoped, will fill a vacancy that has too long existed in the literary world.

Dr Sir:

If you will place my name upon your list for 2nd Vice, you will oblige your political friend who supported Buchanan in '56; but who is one of a fair majority of the voters of the Empire State who acknowledge no other leader, & who will exert themselves to their utmost to demonstrate their political friendships in '60. It is the opinion of men who are experienced politicians that LeCompton could not poll 150,000 in the State Buchanan was fast increasing the power of the Democracy until his annual Rep. Republicans of '56 many of them liked him & in '57 showed their approbation. Now a bill to be made now between yourself, the administration

the Rep. party would be an easyfeat
to unhook them. You know what the
Rep party was composed of. They
are but few now among its ranks
besides Abolitionists. There natural
increase, all the old Whigs, the True Soil
Democracy, & many Old Hookers who now
have wavered before are now open
supporters: & there are the Maj of

with no one but you for their
leader in '60

It is a notable time at present to look over the opinions of Washington, Jefferson, Franklin, Hamilton & the late debates in parliament. I am doing this in order that the true cause of this strife about the admission of new Slave states & such president in preference to referring to the acknowledged rights of Colonies & enabling acts &c. because the discussion on the fountain of Govt. is not distinguished by the acknowledgments of precedent which always supposes the parties to be all equally well & honest in the purpose of adding to the original a new offspring as a collateral branch, it would indeed be a novelty if squatter sovereignty should usurp the govt. first sought by a crafty & overreaching of an impudent Bachelor ruffianism which has no other merit than a degeneracy too far removed from the purposes of civilization to be noticed among the elements of Mankind or a Decent Humanity,
