# .. Great Piano Opportunity.

Which May Never Occur Again  
Pianos and Organs at Factory Cost. Those  
Needing an Instrument Should 'Not Fail to  
Investigate.

## SALE LASTS TEN DAYS. A BUSINESS PROPOSITION.

It is a matter of general information to-day that the principal item of cost in any manufactured article to the user or consumer is the enormous cost of selling the article. It is estimated that this item of expense alone is almost, if not, quite equal to the cost of manufacture. For example, no one can run a music store, pay rents, salaries, fuel, lights, commissions, etc., without adding at least \$100 to \$150 to the cost of each piano, and \$25 to \$50 to the cost of each organ.

We think this business can be done on a different line and save to the purchaser this enormous profit. We have one car load of pianos direct from the factory, in all the latest cases and designs, from the most reliable, renowned and celebrated makers, and we propose to crowd one year's business in the small space of ten days) a saving to our customers of over eleven months expense).

## Sale opens June 12 Closes June 22

The goods are here and must be sold, and we will sell them at such prices as will make every other dealer in the city fight us and our goods. We appreciate this before we start, so when you are told that our goods are worthless, remember the object to decry them and call and make a personal investigation for yourselves. We handle nothing but the very best and highest grade of pianos in the world—with names and reputations that are beyond criticism.

Commencing Tuesday June 12, we will offer this large stock of pianos at retail for about what other dealers would have to pay for this grade of instruments.

Every instrument marked in plain figures and one price to all. A guarantee by the maker goes with every instrument sold.

Terms: \$25 to \$50 cash and \$8 to \$15 per month takes any piano in the store. 6 percent. interest on deferred payments. To show you we mean business we place on sale a new upright piano, full size and scale, any case, sold the world over in a regular way at retail for \$300.

## .. OUR SALE PRICE \$ 1 77 ..

Easy payments if desired.

Can you afford to miss this opportunity? Our prices and terms are such that no one need hesitate. Our stock consists of the world renowned Weber, Wheelock, Shaeffer and many other high grade pianos. Open every evening with good light. First-class piano tuning, \$1.50. Piano to trade for a good driving horse.
