

1882

Lexington Jan'y 12/12

Dr Sir,

Yours of 10th is recd & I have enclosed it to Hon G. Davis - Washington City - I hope the appropriation will be made - It is probable that Danville will be the Northern terminus - Chattanooga ought to be the Southern - but local & personal interests may prevail as they have done generally in such cases, over National -

I shall be glad to look over the whole country - thro which it will run - with you - accompanied by a suitable camp outfit -

My love to your sweet young wife & that her I am not in a very great hurry, but I fear you will hold out about one hundred years yet -

I hope to see her next Summer & get another bridal kiss -

Yours truly
Leslie Combs

To
Dr C. Graham
