Dear Madam:

I have your esteemed favor of January 19th. It seems to me you have done very well with Monsieur Poittevin.

I think that I have answered all the questions about you by Dr. Guillaume in my letters to him.

Thank you for the suggestions about the House of Correction cell rooms and the New York plans. I shall try to get hold of them.

I will figure out the amount of your honorarium from the Russell Sage fund. I have scattered memoranda of Dr. Barrows on that subject, which I think will make all clear.

Yours cordially,

CRH/W

P.S.

I will give you herewith the titles and addresses of the men mentioned by Dr. Guillaume, and will also send them to him: Dr. Luther H. Gulick, Chm. Playground Extension Committee and Backward Children Investigation, Secretary XV International Congress on Hygiene and Demography, 1 Madison Avenue, New York City.
Mr. Harris R. Cooley, Director of Public Safety, Department of Public Service, City of Cleveland, Ohio.

My dear Dr. Henderson,

The rapports came last night and I will go to work on them to-day, as I have just finished the article about the papers. If it is too long you can cut out some of the extracts. I think it covers the ground pretty well tho of course there will rise up some paper which will say "Why didn't you mention me? " I have mentioned all which were sent to me. I have since learned of a few other juvenile ones, but I did not care to make a list of them. I trust you will recieve this promptly. I sent you the one on the Reformatories for Women on the 3d , as I agreed, but I have not yet received the P.O. card announcing that you have received it, tho this is the 13th. It seems to me it ought to have been back here in ten days. I should be sorry if it has gone astray. You do not mention it in your letter either. I have a duplicate of only part of it, for I rewrote it so much that I gave up trying to keep duplicates.

Yours sincerely,

Yes, I will make the translations for you, but I think the work ought to be worth more than fifty cents an hour. Mr. Barrows never had translations made for less than a dollar an hour.

I will ask Henry Mussey to see whether he can find any one connected with the University who would be equal to the work of co-rapporteur.

Yes, it seems to me eminently fitting that there should be a sketch of my blessed husband in the Souvenir volume. Ah, how little, little we thought of such a possibility when he was planning for it. I could not write it myself. I do not think it would be best, especially as I shall have two other papers in the same book. I think Paul Kellogg's is quite the best thing already written and I was a little hurt that the P.A.N.Y. forgot to give him credit for it in reprinting it. I will talk with him about it and see whether he could enlarge the paragraph about the Internaional to show a closer relation with that, and will let you know as soon as I can catch him. You cannot know - may you never know! how valueless and vain everything in the world seems to me. It is only by the hardest that I can spur myself on to do anything i or to take any live interest in anything. The spring of life has gone.

Are you preparing such a biography yourself for this purpose?
If not, what would you think of publishing the account given

My dear Dr. Henderson,

Herewith goes my paper to you and some pictures from reports showing the kind of illustrations that I can furnish. For the Mass. one I have the actual cuts. For Hudson I have excellent photographs. I think Mrs. Anigh was to send me some photographs and Miss Davis has promised some. I should think we might use a dozen anyway.. They tell the story. I want especially distinctive American views and so have not selected any ground plans or mere architectural ones, but those showing the youngwomen at their work and play chiefly.

Dear Dr. Henderson,

Mr. Brockway's paper came this morning and I have copied it and made the resume with great pleasure. What a good paper it is and so much more simple than his papers usually are. How I should like to see his suggestions carried into effect, tho you and I would lay more stress on what the churches ought to do, even if they do not do it now. Alas, I fear it is too true that they do not stem crime by preaching to people already good.

I enclose my bill. I hope it will strike you, as it does me, that it is very small. I fear that I did not set my price quite as high as I ought to have done per hour. My washwoman has earned more to-day— that is she will receive more,—than I shall! Of course she gets New York pay and works more hours. Unfortunately for me I write pretty fast on the machine and so I do a good deal in my hour for fifty cents. However that was the agreement for this year and so it stands. I include postage and paper, for the Swiss packages were costly. I also put in the discount on the check as you told me.

I have received several "rapports" from Dr. Guillaume, and I must now plan to have the abstracts of them translated into English for the use of the American Prison Association. Will you undertake this task for me now that the other is nearly completed? If so I will send you on a copy of each "rapport" as soon as it comes to me. The most difficult thing I find at present is to get four "co-rapporteur". Dear Dr. Henderson,

The enclosed letter came the other day from a fine young man we met in Lisbon. Could you not give him such a letter as he wishes, asking that he may visit the prisons of Lisbon and institutions for youth, to make a report for you that you could use perhaps in the Survey, if you have no use for it in international work? I do not feel like discouraging any one in such an effort and as he speaks the language he might do some good. I think you could manage it by giving him an introduction to the Portugal commissioner, for I think there is one on the Commission.

I fear Dr. Phelan would not recognize his papers after I "edited" them. There was little left to translate!

Dec. 16, 1909

My dear Dr. Henderson,

A few questions to be answered please?

1. Can you wait till the 3d of Jan. for my paper on Women in Reformatories? I want if possible to get the actual population on the first of Jan. The reports I have had to use are so old by Oct. of 1910. I want to put in ~~xxxxxx Jan xxxxxxxx~~ the number in each of the four reformatories; the number inside, the number on parole, the cost per week of the last year per inmate, and a few facts of that kind. If you desire the manuscript earlier, so as to be reading it in the Christmas recess, as I think probable, I can add these in proof.

2. Where is the Souvenir book to be printed? If in New York or Washington it is hardly worth while to send heavy cuts to Chicago. I can send you the pictures of which I secure cuts and let you select. I have the cuts from Boston and can get from Albany those I want from Bedford I think. I want to use characteristically American pictures, such as husking corn in one, a religious service out of doors, etc.

3. I shall have proof of course?

4. What is the latest date I may send you the article on prison periodicals? I have been collecting a lot of stuff for that, but the people have been so wonderfully prompt, thanks to my urgent plea that I must have it by Dec. 15, that I think it is pretty well in hand. I hope I can make an interesting and suggestive article of that. I do not feel so sure about the other. It might have been better to put a new hand at that. It all seemed such a twice-told tale to me; as if everybody must know it all,

that I have not known what to say and what to leave out. But after reading my dear husband's letter of directions I have gone over it again, rearranged it, rewritten much of it, and selected that which would appeal mostly to people in Europe. I have not used many figures or dimensions, so different from theirs. I have used as few proper names of places and persons as possible. I have just tried to give the spirit of each place and the kind of work they are trying to do. I have not tried to show what has been done. I have tried rather to show that the work needed to be done. Now if you do not like it, or if you want to cut it down, or out, or change it, or make me rewrite it, you are the editor and I submit with alacrity. It is my own bantling, but I do not love it overmuch. And I can send it any day, as it is. Dr. Davis has promised me some statistics that she is working on, about 1000 cases she has had. They are quite new and it is good in her to let me have them. She is a great woman, head and shoulders above any other in any reformatory and I think above any man whom I know. She is a wonderful combination of the scientific and the human. I dare not single her out for too much praise, but I do have to show a little of my admiration. As I have known her since before she dreamed of taking up this work I speak from knowledge.

Yours sincerely,

Isabel C. Barrows

Dear Dr. Henderson,

Many thanks for the check for \$59 just received. I enclose no receipt as I suppose the former voucher was all you wish.

I am beginning to get a lot of material for the periodical article . I wrote to all the northern and western prisons and reformatories for facts and samples. I hope we can have some reproductions.

I want to ask you about illustrations for my Women in Reformatories . How many shall I furnish? Mr. Pettigrove offers to let me have some for Mass. I am going next week to Bedford for the last , or latest, facts there, and I shall see about illustrations there.

I have been delayed on many accounts in getting this paper out, but I have a good deal done and shall finish as soon as possible and then get the other out. I am very impatient to get at the little life of Mr. Barrows but I shall not touch that till this is all off from my hands. By the way I was quite touched yesterday to find a letter written to me by my dear husband, after I left, asking me to write this article about the Womens Reformatories. It was an entirely formal letter just such as he wrote to all who had been asked to contribute to the Souvenir volume. He says "The committee can pay you \$50 for the article. This we do not regard as a sufficient honorarium, but as a partial compensation for time and labor expended. We hope that you will be able to write it... . My dear Dr. Henderson,

Here is another resume, but before I do any more let me be sure that I understand just exactly what I am to do. This is what I understood.

You receive the papers in full, the answers to the questions. I supposed that you wished a resume made of each, which Dr. Guillaume could read that he might know about what the paper in full contained, that is the substance of it. I thought these resumes were to be printed in the Bulletin for immediate use and that the papers in full were to be also translated and printed for later use.

Now if only the resumes, or abstracts, are to be translated and printed then perhaps I ought to make them longer and fuller.. Thinking they were eventually to appear in full I have not put in many statistics.

Take the present paper. There are pages and pages of statistics which have their value,— not so very much since they are six years old,— but they are not necessary to show the writer's point of view. I have given his theory supposing that whoever reads the abstract can later hunt up the paper in full and get all that he furnishes as the ground of his theory, but I have not included these facts here, except a few, because the general reader is more interested in the conclusions than in the process of reaching them.

Please be perfectly frank and criticize me as much as you wish. If the abstracts are not satisfactory do not hesitate to say so. You see, from long habit, I am thinking of a general reading public, and perhaps not enough of the specialist.

If in sending the papers, which of course you have first read, you could say on the margin what proportion you want I can make it exactly as you wish. For instance this paper has at least 2500 words. I have made a resume, which I think fairly presents the writer's ideas, of about 1000

words. It would be vastly easy to make 1500 if you want

translated and printed for later use.
How if only the resumes or abstracts are to be trans-
lated and printed then perhaps I ought to make them longer
and fuller. Thinking they were eventually to appear in
full I have not put in many statistics.
Take the present paper. There are pages and pages
of statistics which have their value,--not so very much
since they are six years old,--but they are not necessary
to show the writer's point of view. I have given his theory
supposing that whoever reads the abstract can later hunt
up the paper in full and get all that he furnishes as the
ground of his theory, but I have not included these facts here,
except a few, because the general reader is more interested
in the conclusions than in the process of reaching them.
Please be perfectly frank and criticize me as much as you
wish. If the abstracts are not satisfactory do not hesitate
to say so. You see, from long habit, I am thinking of a
general reading public, and perhaps not enough of the
specialist.

If in sending the papers, which of course you have first
read, you could say on the margin what proportion you want
I can make it exactly as you wish. For instance this paper
has at least 2500 words. I have made a resume, which I
think fairly presents the writer's ideas, of about 1000

I have just received the abstracts of Mr. Maynard Shipley's paper. Probably our letters have crossed, but I will repeat:

First: The full text, after your corrections have been made on the ms., is to be sent to Dr. Guillaume to be translated into French and circulated from Berne.

Second: Two copies of your abstract of each paper are to be returned to me with a copy of the full text, in case I do not inform you that the author has sent me a duplicate. I will again explain that the abstracts are to be printed in English and will ultimately form part of the proceedings of the American Prison Association for next year.

I have no criticism to make of your abstracts. They are excellent and answer the purpose very well indeed.

I send you the "rapports" of Dr. Smith. You need not send me a copy of the full text, but you may send me two copies of your resume.

It is evident that our American writers have not made themselves familiar with the form of statement used in the International Prison Congress. They do not summarize their propositions at the close as is usually done in Europe. I am afraid that it will be necessary for you to do this in the resume for them. What do you think?

Dear Dr. Henderson,

Here is the resume of Mr. Towne's paper.

I have made it brief, because his is expanded at great length over ground already very familiar to the members of the Congress. Those who do not know the subject will get it from the full paper. For the others I think the facts about New York will be of the most value. Though brief this is a good deal longer than the abstract he sent, which is more a description of his paper than a resume of it, so I have not used his. I will send it, with mine, to Dr. Guillaume and let him take his choice.

I saw Mr. Glenn to-day who said he would write you and say that it was a perfectly understood thing that my expenses for visiting women's prisons was to come out of the money for the memorial volume.

Yours sincerely,

Dear Dr. Henderson,

On re-reading your letter of instructions this morning I see that you mean me to forward the manuscripts themselves, as well as the resume of each, to Dr. Guillaume. I understood in talking with you that I was to send the mss back to you and the abstracts to him.. I hope that I am right in sending all to him and one copy of each resume to you. If not please telegraph me, so as to save time. I shall have several to send as soon as I hear from you. I cannot tell from your letter whether you want two copies of the abstracts or one, but after this will send you two, sending the third to Dr. Guillaume. Yours,

Dear Dr. Henderson,

Last Friday I left for Boston where I had been asked to speak at the memorial meeting to Mr. Blackwell. I returned last evening and found your mss. I hope they are all here, tho the envelope was so tattered they could easily have fallen out. I sat down this morning and made copies in full of Judge Baldwin's paper and send you the original and one copy, thinking you may want them before I make the abstract. But it is not an easy thing to abstract. I have read it carefully twice and for the life of me I cannot see just where he stands. The English is horribly awkward and obscure for any one but a lawyer and I should think they might find it difficult. However I will see what I can do and will send a copy to you and one to Dr. Guillaume. I think I ought to let Judge Baldwin also see it, for I do not want to misrepresent him. Besides I am sure there are two errors in it. One is where it should be "pecuniary" and the type-writer has said "peculiar". I will write to him about this.

I will make the abstracts as fast as I can. I have an accumulation of work naturally after my trip to Alabama, Chicago and Boston.

As to the expenses for my western trip. Mr L. Barrows was first going to give me \$100 for my article and I was to pay my expenses out of that amount. Afterwards he thought it better to divide it, that it might be seen that for the writing itself I was not paid more than others. It was a definite agreement with him and understood by Mr. Glenn. Of course there was no written agreement. Before going I again spoke to Mr. Glenn about it and as I understood he approved of the expenditure, but said it was now in your hands, along with the money. In case you decide that you cannot meet that expense in addition to the money to be paid for the article, I think I should have to decline to write the article, or both of them in fact, for I should feel that your estimate of my work was not what I had been led to think it was worth by my husband and it would be better for you to find some

one who would do it better.

The minute to which you refer about the prison papers must have been made after I last saw Mr. Barrows. He had asked if I would do it. I said yes, if he found no one else. He said he had thought of asking Mr. Batt, but he thought my editorial experience would fit me better to do it. He was to consider and let me know. I never knew till your letter came that he had put me down for it, nor how much space he intended to give. I agree with you that the space should be different and that more should be given to the women than to the journals..

Yours sincerely,

Isabel C. Barrows

My dear Dr. Henderson,

Here is the resume of Judge Baldwin's discussion. I concluded that we should ~~lose~~ time by sending it to him and that it was better to make it in full and as nearly as possible in his own words, for the benefit of the translators on the other side. He is such a particular man that I feared to abridge him too much. If Dr. Guillaume chooses to cut it down still more he can do so. I have taken out more than a third, but not half. I am quite sure that I have left all that is essential for a resume. I am also sure that the word should be pecuniary. Please see if you do not agree with me. Page 6.

Honored Madam:

I have received the copies and resume of Judge Baldwin's discussion. I think you understand that the summaries you are making are to be printed in English for the American Prison Association and ultimately constitute the greater part of their volume for the coming year. On the other hand the full text of the "rapports" are to be sent directly to Berne, as soon as you have made the summaries and have properly edited the text. Very frequently a word or a sentence may be cut down without injury to the text and I give you full liberty to use your discretion. In Judge Baldwin's paper undoubtedly the word should be "pecuniary" and not "peculiar".

In regard to the expenses for your Western trip. Of course I accept your statement, because you know what Dr. Barrows had said, but you can see that I must account for every dollar on the basis of written agreements, and I thought that the arrangement had been made with Mr. Glenn. However, your letter will be sufficient justification to me as the arrangement was made before Mr. Glenn had anything to do with it.

I am very much pleased to have your assistance in the important matter of editing these papers. It relieves me greatly, and I feel confident that it is thoroughly well done.

I have examined the scheme for the second section of the Prison Congress Souvenir and find notes of Dr. Barrows to the effect that you had agreed to write an article on Women's Prisons of twenty pages for which you were to receive \$50. and an article on American Prison Journalism of forty pages, for which you were to receive \$80., but I can find no statement that you were to be paid traveling expenses in addition to these sums. Did you have an understanding with Dr. Barrows or with Mr. Glenn and if so was it oral or written? I ask these questions only to enable me to furnish satisfactory vouchers to the Russell Sage fund when I report. I am writing to Mr. Glenn on the same subject. Of course if he gives me an order it will be all right. I venture to raise the question for your own consideration whether it would not be better to extend your article on prisons ten pages and cut that much off the forty pages on journalism. Honored Madam:

I have received your bill for \$159.90, and forwarded it to the Department of State for payment, as it was not included in my budget for the expenses of the International Prison Congress, fund supplied by Congress. If the department wishes me to take it out of the commissioner's fund, I will do that. I have written to Washington for instructions.

I have also received the box of mail sent by you from the New York Office.

I am deeply interested in your suggestion of appointing Mr. Baldwin as the successor of Dr. ~~Brown~~ in the New York Office. I have no idea whether he could accept it or not. He is certainly a fine man.

I am glad your "Cabin Colloquy" proved a success.

Yours respectfully,

Honored Friend:

I find on my desk a letter from Miss Sophie A. Liebker in Germany, dated July 29th. She tells me that Dr. Barrows had not made out any list of names of writers. I think this must be a mistake, because she mentions a paper by Mr. Michel Heyman, which you have already given me. Two or three persons have told me that Dr. Barrows had invited them to write papers and now I have a paper from Mr. Towne, a copy of which he says has been sent to you. I feel sure that Dr. Barrows had made a partial list atleast and had actually invited some persons to write a few days before he was taken away from us.

Miss Siebker says there were some photographs of the Commissioners in the possession of the New York office, and also a card index of names of persons to whom reports were sent. I hope you will be able to have these sent to me from the New York office.

My dear Dr. Henderson,

Here I am, at my alma mater I hope. I think I wrote you from Berne, if not Dr. Guillemin did. It was a great pleasure to see him and I think he was equally glad to see me.

In Berlin I had half an hour with Dr. Hill, who took all the documents and will write to you. I asked him to give you any suggestions about what form to use in case you are to make another formal application. It is possible that Dr. Hill can do all

that is necessary. At least he was going to see the Minister of Foreign Affairs & urge it upon his attention. I spent the night with the Drüvsterbergs and Dr. Dr. told me he thought it very doubtful if the Govt. would consent for they are refusing all international associations. Dr. Hill says that is true, but we talked over several possibilities. One was to ask the Govt - imperial - to appoint a member of the Commission, with an alternate, and then, to have experience and not to hurt any one's feelings, & let the two members from Baden & Prussia be the two imperial delegates, the prior in service & be the first

and the other the alternate.
 We quite patted each other on
 the back at this way out, for
 he said he was quite sure there
 could be no other way without
 exciting jealousies. I hope you
 will approve of it, and Dr. Guillaume
 also. If so I wish you would
 write to Dr. Hill on your own
 behalf about it. Dr. Hill
 & Dr. Minsterberg both said
 decidedly that with an im-
 perial delegate on the Com-
 mission the individual states
 need not be represented. The
 greater would include the less.

Another opposition seen to
 rise was the cast, but when
 Dr. Hill found what a bagatelle
 it is he thought he could sweep

I am sincerely
 Yours
 George C. Brown

that out. Anyway he will
 do his best. He was most
 courteous and sincere, as
 well as personally sympathetic
 and friendly.

I reached here this a. m.,
 just nine weeks to a day since
 the terrible night I left here.
 I went at once to the Embassy
 and to my delight found M. Rissler
 still locum tenens and he will try
 to arrange for a call upon
 Stolepin and I shall ask him in
 your name to send as delegates to
 Washington some prison ad-
 ministrators. I must have
 some excuse to see him &
 when I am in his presence then
 I can thank him for foregoing one

up to her, as she is familiar
with that routine work. She is
a good shorthand amanuensis
and can take dictations
on the machine in French
& German both & then, at
least she can rapidly in
German & she copies & corrects
French accurately. If she is
ready to go to Chicago it seems
to me you could not easily
find anyone so well fitted
to your hand.

I hope to see you on the 10th.

Yours sincerely

My Russian errands are
done. I will tell you about
them when I see you.
I hope to be over the border
by sunset and to see the
sunrise in a finer land,
though Germany is not so
fine as the one that

From Berlin I am
going to see Miss Lieber,
Mr. Barrows' private
Secretary for 20 years,
and learn how I can
best help her to a further
home, mine being lost
to her as well as to myself.

I have been wondering
whether you could give
her work for one

year, out of the \$2000.
fund, to act as your
secretary for the I. C. P.
— I mean the "I. P. C."
in Chicago. She knows
all the names and places
and routine of the work,
and could carry on all
the State Department end
of it. I mean ordering
envelopes, franking, labels,

Expenses

Paris, June 14, 1909.

My dear Dr. Henderson.

If you approve of the enclosed will you mail the sheets to George E. Marsters, Ticket Agency, 296 Washington St. Boston Mass.

Mr. Marsters has always arranged my trips for myself and friends to the Prison and Charity Conferences. He is very obliging and honest. He has already made this estimate, but the clerk forgot to give it to me. I was so hurried when I came away that I left others to do what I should have done myself. But the original plan did not take in Geneva. The other places are what Mr. Barrows hoped the Commission might see.

It will be quite impossible to do it under two and a half weeks. Call it 18 days, or to make it wholly inclusive, say 20 days. Living expenses at 5 dollars a day, which I think was more than it cost the Interparliamentary people, would be a hundred dollars each. If fifty go that would be five thousand dollars.

The Interparliamentary plan was that they hired Pullman cars and the railroads hauled them free of expense. It never seemed to me quite fair that the Pullmans should have all the profit. They made no reduction in price, but the railroads were generous. Mr. Barrows meant to try the same thing again, but till we know what they will do we have to assume that all mileage must be paid for. I think it will not cost for actual car fare over one hundred and twenty dollars each, including the sleeper, which would bring it up to six thousand dollars. I am allowing only for fifty re-

member. In that case you would have, even throwing off another thousand for extra people or expenses, eight thousand dollars for secretaries, printing and hospitality at Washington, the use of halls, etc.

This was about the figure that we planned upon. I think therefore it will be absolutely safe to arrange for a party of fifty to be cared for there, but I am positive you could not out of that fund pay any ocean expenses except your own back again.

I am off at 8.20 in the morning. I shall be 24 hours in Berne, then go to Berlin for another 24 and my address in St. Petersburg will be, as I think I told you, Hotel d'Angleterre.

I have arranged to have this machine on my return, so please have some work ready for me to do on it. I have been writing a good many letters to people in different countries who had written to ask about my dear husband.

Mr. Grimanelli called and was very delightful as he always used to be. He said he always thought of Mr. Barrows as one of the youngest members, he was so full of life.

Yours sincerely,

Isabel C. Barrows

Paris, June 13, .

My dear Dr. Henderson,

I have just received from Dr. Hill, -written on double paper! - a letter saying that he will be glad to see me and will help us all he can. Will you mail to me there, in his care, one of those things prepared for the Spanish people, with all the documents that are with it. That will tell him the story and he can make such use of it as he sees fit.

I have just had a delightful call from Mr. Grimanelli.

I have written to Mr. Krouhleff to thank him for his letter of sympathy and to tell him that I am coming to Russia. He may as well know the worst at once! He will little suspect what I really come for.

I enclose a memorandum that I made before leaving N.Y. about the meeting of the Commission. It shows they wished it a little later, but I fancy they can get here by the 12th. I hope so.

Yours sincerely,

My dear Professor Henderson:-

At a meeting of our committee the other day we went over the topics and consolidated them into about twelve for the second volume..

The committee seemed to think that four hundred pages of text should be the limit in each of the volumes. The index and photographs will take some fifty or seventy-five pages more.

I enclose Mr. Eugene Smith's commentary on your second tentative outline .

I send you a copy of the outline we made for the second section, which please return. We have not included probation but I think that everything else we have put down for this volume ~~really~~ really belongs in it, and if cross references to these topics are made in the other volumes they should be made but briefly.

Your scheme , it seems to me, is philosophically broad and well co-ordinated. There is enough in it for four volumes if worked out in detail. But I have no doubt you can reduce it to proper proportions as the photographer does a picture without losing the perspective.

Mr. Butler is to write on the parole system. It seemed to us better to give him the larger subject of the released prisoner and put under it the paroled prisoner and those discharged on a definite sentence. That is, all aid work for discharged prisoners.

Of course the discharged prisoner is no longer under the state as the paroled prisoner, and the question of keeping him from getting back again into prison is partly preventive work; but in this volume may it not be well to sacrifice here and there some strictly logical aspects for the sake of grouping together practical measures? I see you have the parole system down as No. 7 of your scheme to be barely mentioned. Of course the paroled prisoner is still under the grasp of the law and therefore must come in under the prison system.

Some of these matters we can talk over when you come down.

Dear Sir:-

*I don't
know.*
Hearing from New York that you wish to know as to whether Mr. Barrows had a list of names of persons whom he had asked to write reports on the questions to be discussed at the next International Prison Congress to be held in Washington next year, I have to say that Mr. Barrows had made out no list of such names.

*Many.
I have several
letters showing
he had begun
work for reports.*
Mr. Michel Heyman of New Orleans, La., wrote a paper on one of the questions of the Fourth Section, and this report was received by Mr. Barrows some time in March, I think, and I suppose it is in your hands now, as Mrs. Barrows was going to take it to you with other matter she had to present. - Mr. Barrows had in mind to ask Judge De Courcy of Boston to write on probation, but had not asked him nor anyone else for any reports.

Mr. Barrows had asked all of the commissioners for their photographs for newspaper work, and he had received so far as I remember the following:

Lis Evelyn Ruggles-Brise, Comm. Alessandro Doria,

Alexander. Phouris of Athens, Dr. Markovitch, Lubien,
Dr. Simon van der Oa, Dr. Guillaume,
Dr. Soas of Denmark, and Dr. Reichardt of Karlsruhe.

✓ Of these photographs two duplicates of each had been made
by Miss Hallentick, 118 Bible House, New York City, and
she has the plates for these. If you have not received these
photographs they are still in the New York office, as also
✓ the card index of names of persons to whom reports were
sent.

✓ By writing to Mr. William M. Davis, Bureau of Rolls
and Library, Department of State, Washington, D.C. he will
tell you how many documents, prepared for the commis-
sion, are still on hand for distribution. He will also
furnish labels and envelopes.

Respectfully yours,

(mis) Joseph A. Fisher.
