Dear Prof. Henderson:-

I am sending you herewith my paper
for the International Prison Congress, entitled:

"Results of the Indeterminate Sentence Law".

You will recall that at Columbus I told you I would be
delayed both on this paper and the one for the Souvenir
Volume; also I afterwards wrote you to know how much time
you could possibly give me on these papers. Conditions
were such that several things have arisen to hinder me.
I shall hope to have the paper for the Souvenir Volume
completed soon and shall send it to you promptly there-
after.

At the meeting of our executive committee
of the National Conference of Charities and Correction,

I should not want to give this opinion until I had consulted our Board, which meets on Tuesday.

Prof. Brown and I have taken the matter up with the Commercial Club of this city of entertaining our foreign friends here and the general arrangement has been made, the details of which are to be worked out later.

Dear Sir:-

I have just returned from St. Louis where I had hoped to meet you and talk with you. I have your card this morning acknowledging receipt of my last letter. You do not state in that whether the Guide is correct in announcing the trip to Michigan City on the way from Mansfield to Chicago, or the letter that I have received to the effect that the schedule provides for going from Mansfield to Chicago direct, omitting Michigan City. I only want to know because it is necessary that I should have the information in order that we shall begin certain plans that we have in mind, or that we shall not attempt to go further, as the case may be.

My dear Sir:

I have your esteemed favor of January 26th. It was impossible for me to go to St. Louis.

The last form of the "Guide" provides distinctly that the party is to come directly from Mansfield to Chicago, where the Pullman cars will be surrendered and the party will go to Michigan City, Joliet, Geneva and Pontiac in divisions, according to an arrangement yet to be made. Michigan City will be treated precisely as the other places are treated.

I had requested the printers in New York to send me the final galley proofs, in which your suggested corrections should be introduced. Mr. Mills now writes me that he will have at least two editions made in New York, and distribute the "Guide" by sea steamers this week, as it is long since due. If there are any further corrections to be made I shall have to do it by letter. Therefore, it is probable that two or three of the points in your last letter will not appear in the French edition of the "Guide". The chief difficulty was that I did not have the whole matter attended to here in Chicago where I could keep my hand on it, but as Mr. Mills was in touch with prison men, and had all the information about prisons and railroads in his

and had all the information about business and railways in his
my hand on it, but as Mr. Mills was in touch with business men,
A.W. B. - 22 - was supposed to be in Chicago where I could keep
of the "Guide". The chief difficulty was that I did not have
down hand, it was thought best by both of us that the "Guide"
should be prepared in New York. I do not think that any
serious error has been left, although there are, of course,
some minor mistakes which could have been corrected if we had
had a year or two for revisions. But I shall be obliged to
write to the Commissioners once or twice a month from now on
on all kinds of business. In my report and suggested collections

I had requested the publishers in New York to send me

GBH/Writing to an arrangement set to be made. Mr. B. will
go to New York City, collect, compile and compile in divisions,

GEH/A The French "Guide de poche" has been long delayed, and will not be perfect when it is done, but I must send it forward as soon as I can get it through the press. The composition and proof reading were simply awful, and I have been very much disturbed about it, but I hope to get it through within two weeks and send it off. On account of the delay I have sent to the Commissioners abroad circular letters to explain the delay, and to give information which was urgently needed for their plans. Everything is in good shape up to date.

I did not use the pictures after all simply because I found I should exceed my budget if I did, and I am determined to keep within the limits fixed at the start. Indeed, the Department of State requires this.

I thank you for sending me a corrected list of the committee of the American Prison Association. I will see that the correction is made, as I still have the proofs. The correction of the French text goes very slowly in this country.

I do not understand that Mr. Mills has eliminated the Indiana State Prison at Michigan City from the itinerary any more than Pontiac, or St. Charles, Geneva or Joliet. He simply makes Chicago the center for visiting our institutions on the ground that he wishes to give up the sleepers for two or three nights to save the heavy expense of keeping them.

The date of the Congress, of course, is October 2-8. Several mistakes were made on the copy of the outline map, which Mr. Mills and I observed and corrected. You have the first proof.

It would cost more, but there is grave danger of error and we wish to have this Guide Book artistic and accurate as it is very important to put on a good appearance.

Dear Sir:-

Mr. Butler went to Chicago last night, leaving
instructions for me to forward the enclosed proof to you
as soon as received from the printer. Mr. Butler wants
your criticism of the form in which the pamphlet is
printed, particularly the names. He will probably see
you while in Chicago. He is with the Civil Service Com-
mission at the County Building.

Very truly yours,

Chief Clerk.

Dear Miss Greely:-

I thank you for sending me the proofs
of the general committee and co-operating committees.
They will receive my attention.

Yours sincerely,

Dear Friend:

I have copy of proofs of American committees.

On page 2 please read the dates for the Congress - October 2-8 - not "2-7". On page 7, change the address of F. H. Wines to

Springfield, Illinois, and on the last line of page 7 omit the title M.D. from Miss Davis' name. She is a Ph.D., not M.D.

Democratic simplicity is impressive with foreigners. Most of these names need no title to give them distinction, and if you begin some of them would need two or three lines to carry their honorable appendix. I would omit all titles, even M.D., but follow your own judgment. That is my opinion. You have done the printing very nicely indeed.

Yours cordially,

Dear Sir:-

I have your letters of December 3rd and 7th, which I find here upon my return. There is no hurry about choosing the two names from among our foreign visitors for the Sunday night meeting. That can be done later, only I want to depend upon you to make the choice.

I am working on my papers, to which you refer, and shall ask that you bear with me as well as you can. Some emergency calls and an annual report have been crowding me. I should like to know what your limit of requirement is and I shall endeavor to live up to it.

I understand that I am to be in Chicago Tuesday for a meeting with Mr. Moulton and the other members of the committee on the examination of candidates for the position of Secretary of the new State Board of Charities in Illinois.

I do not find any letter from you stating definitely what you are expecting me to write for the program of the International Prison Congress. I suggested several topics in my letter of September 8th and in reply to that you said that you would meet my requirements. If it is agreeable to you I will prepare a paper of ten pages on the operations of the indeterminate sentence and parole laws in the United States. Dear Dr. Henderson:-

I have your letter of November 26th with accompanying itinerary. It is not just the way I had figured it out. My supposition was that Sunday and Monday would be spent in Chicago and at the institutions near there. That would give Tuesday for Indianapolis and Wednesday for Jeffersonville and Louisville.

I am sure Mr. Mills is mistaken about it costing \$500.00 more to go to Chicago via Michigan City than direct. The station at which we would turn off the Pittsburg, Fort Wayne and Chicago Railroad, would be Plymouth, 83 miles out of Chicago. The fare would be \$1.66. The distance from Plymouth to Michigan City is 43 miles and from Michigan City to Chicago 56 miles, total 99 miles, and the fare \$1.98. The difference between the two would be 32 ¢ per passenger. With 150 or more passengers the extra expense would not be great.

As you know, I shall be very much disappointed if we cannot visit these institutions. In fact I consider they will see more at Michigan City, giving greater variety of construction, employment and the utilization of prisoners on State account, than in any other one State Prison they will visit. By

that time, too, the hospital for insane criminals, which will be the newest of its kind, will be well **along** towards completion.

The latter part of your itinerary it seems to me is in error. You would spend Thursday, September 29th, at Jeffersonville and Louisville, as I take it. You have it marked "night ride to Richmond". If you leave Louisville at 6:00 p.m. you would arrive at Richmond the next day at 2:45 p.m. and could probably make some arrangement to get to Washington sometime Friday night, but that will cut us out of a part of the American Prison Association's meeting which we plan to begin sometime Friday. What would we get at Buffalo except the visit to Niagara Falls? Is it worth the extra time? Why should you stop at Cleveland and not go direct to Mansfield?

You know how I feel about these things and you are the one who must decide it.

Regarding the English edition of the Guide, I have written Mr. Byers about it and have not yet had his reply. As soon as I do so I shall hope to be in position to advise you.

As to Mr. Lewis' request, I have no objection to your doing as he wishes. By the way, a letter today tells me he has been chosen Secretary of the New York Prison Association.

The American Prison Association's committee on the International Prison Congress is given herewith. There is no chairman. Mr. Collins was vice-chairman but he was not made chairman

Dear Friend:-

I have your kind letter of December 2 and thank you for the information and suggestions. I have already written to Mr. Mills to ask him to revise the Itinerary. We can at least send parties, in accordance with the choice of delegates, in different directions from Chicago. They cannot evidently all go to all of the places, of which Chicago is the center.

Your selection of Major Mc Claughry and of Mr. Brockway to speak at the Sunday night meeting will command universal approval. I hope you can wait awhile for the two names of our foreign visitors, because it may be that someone outside of the Commission should be selected, and if I should send you names now it would be only those of Commissioners. Please tell me the latest date for the selection.

My dear Friend:

I have now in hand the itinerary made out by Mr. Mills. It covers too much time, because we must limit the expense of the journey to ten days so as to be in Washington at least on September 29th, therefore something must be left out or shortened. Mr. Mills says that this itinerary, in order to take in Michigan City on the way to Chicago, will cost \$500. more than if we go straight from Mansfield to Chicago. We must save that expense if possible. Please give me your suggestions at once as I am preparing the ms. for print.

When and where do you propose to print the English edition of the Guide? I shall have the ms. ready in a few days. The translator will prepare the French edition at once.

Mr. Lewis, Editor of the Delinquent Department of the Survey wants to use the papers furnished by our American contributors in advance of the Congress. I have told him that I could not give permission without your consent. Personally I think it would help very much to secure publicity and to get the ideas before the country, and I advise giving him this permission. Kindly give me your decision.

Will you kindly send me a correct list of the members of the committee of the American Prison Association of which Mr. Collins is chairman on preparation for the Congress?

If you wish my help in any way further I shall be very glad to render it.

Mr. Mills writes and telegraphs that he is to be in Chicago tomorrow and asks for these lists. I am sending ^{to him} a copy of the General Committee and also co-operating committees so far as we have them. Perhaps he wants to use this in connection with the Guide. I think I will be able to supply complete list within a few days. Shall we give the present position, as Hon. John Burke, Governor, Bismarck, N.D.; Mrs. Maud Ballington Booth, Commander Volunteers of America, New York, N.Y.? Or shall we give former positions, as Hon. Alvah S. Adams, Ex-Governor, Pueblo, Colorado? Or shall we simply give the name and address, as John H. Converse, Philadelphia, Pa.?

As I recall, we decided to leave off titles as Honorable, Doctor, Reverend, etc., in the final revision. I suppose the exception would be D.D. and M.D. What do you say?

I should like to have copy of the itinerary from New York around to Washington as soon as you have it in form. I am

Dear Friend:

I have yours of November 19th. I have no preference as to the place of printing so that there is no expense as I have no fund specially for this part of the cost. I am sure that you will select an institution that can do the work. Naturally the proofs will have to be carefully gone over two or three times, as it is not expert service.

Mr. Mills will be with me this week and I hope to have the text ready within ten days, but delays are to be expected.

Dear Friend:

I have yours of November 19th. I have no preference as to the place of printing so that there is no expense as I have no fund specially for this part of the cost. We are in receipt of your letter of the 13th inst. As soon as we get the itinerary so we can know when the excursion will reach Washington, we shall be able to figure out the time and number of sessions. I have been unable to get that from Mr. Mills. Are you informed concerning it?

In a general way the plan we outlined is what we want to follow,-- sessions Friday and Saturday, Sunday night and Tuesday night; also the general character of the Sunday night program, viz., that we ask two or three of our most expert prison officials to speak briefly out of their experience and that we ask two or three of our foreign friends to do the same thing. I think the names you suggested were Sir Ruggles Bryce and Dr. Guillaume. If each will speak fifteen minutes, that will be all right. I should be very glad to have Dr. Guillaume's judgment on the program as soon as it is more definitely known, or you could write him stating it is tentative. But I do not see what other arrangement we can make that will do justice to both meetings. Do you? I will thank you to suggest European names for the program in case more

Dear friend:

In reply to your esteemed favor of Nov. 15th.

According to the itinerary the excursion will reach Washington on Thursday, the 29th of September, 1910.

I think your programme for the A.P.A. is good. When you are ready of course you will write the invitations to the European speakers, and then if you will send them to me I will accompany your official invitation with a personal word to show our full courtesy.

Your circular of the A.P.A. will be entirely independent of the Guide Book. The Guide Book will be about the same size as the bulletins of the I.P.C. and not far different from those of the A.P.A. and will have about fifty pages. I think that we can furnish cuts for the English edition. I should like to have the school furnish paper, print and bind in paper covers the English editions, but if it is necessary I will furnish the paper. As we shall need some copies for England and other English speaking countries, I think about 800 copies should be printed.

The prison of which I spoke in Canada is the new provincial jail at Montreal. The only state prison I can recall with windows opening outside is at Jefferson City, Missouri. Young Mr. Baldwin told me about it. It was completed about forty years ago and there are very few like it. The Woman's Prison at Joliet and the new cell house for women at our House of Correction are built in this modern style.

Dear Sir:-

I have your letter of the 5th inst. enclosing copy of letter from the Department of State. I do not understand their reasoning. They asked for \$50,000 and got \$20,000 and should see an opportunity now of doing much good with the additional \$10,000 that we should like to have. May I inquire what you suggest in the matter? Have you written Mr. Mills and sent him a copy of the letter?

Did you not say something to me about a new prison that was being built in Quebec, or was it Montreal? What can you say about it? Is it worth a visit by persons who are interested in such things?

I have your favor of February 10th, in regard to Mr. Lebovitz and his paper. He wanted to speak before the Congress. I told him it was impossible but that any one could present a paper or publication to the Commission which would take it under consideration in making the program for the next International Congress. Mr. Lebovitz did what any one in the world could have done just as well. If he has made more of this than he should we are not to blame.

I had my name removed from the National Committee on Prison Labor because I found that they were committing me to policies about which I had not been consulted. I understand, however, that the committee has been reorganized as you say and I hope that they will get light on a difficult subject.

Dear Dr. Henderson:-

I am in receipt of a folder sent out by the National Committee on Prison Labor entitled "The Importance of the Prison Labor Problem", a syllabus and brief submitted to the International Prison Congress, by J. Lebovitz.

Is it true, as it states, that this paper was submitted to the International Prison Congress? I have no recollection of it. The fact that in the clippings collected for me during the tour preceding the International Prison Congress, there were a number of interviews with J. Lebovitz, who was one of the party, in which it was stated in substance that an important paper that would be presented at the International Prison Congress would be one on this subject by Mr. Lebovitz, ^{resulted in} a great deal of advertising ^{done} being ^{done} which impressed me very unfavorably with Mr. Lebovitz and also with the National Committee on Prison Labor, which he claimed to represent as its official delegate.

I do not want to do any one an injustice and I may be wrong in this matter but I should be very glad to have your recollection of it. I learn that this National Committee on Prison Labor has been re-organized with an almost entire new set of men on the executive committee, including our friends, Lewis, Byers and Johnson.
