My dear Sir:

The Commercial Journal and Examiner cordially invites you to become one of its recognized contributors to the Editorial Page.

I called at your home yesterday but learned that you were out of the City. I therefore take this means of communicating with you to extend this invitation, which I had intended to do personally.

You will be left free to select your own subjects for editorial treatment, and to handle these subjects in any way you see fit.

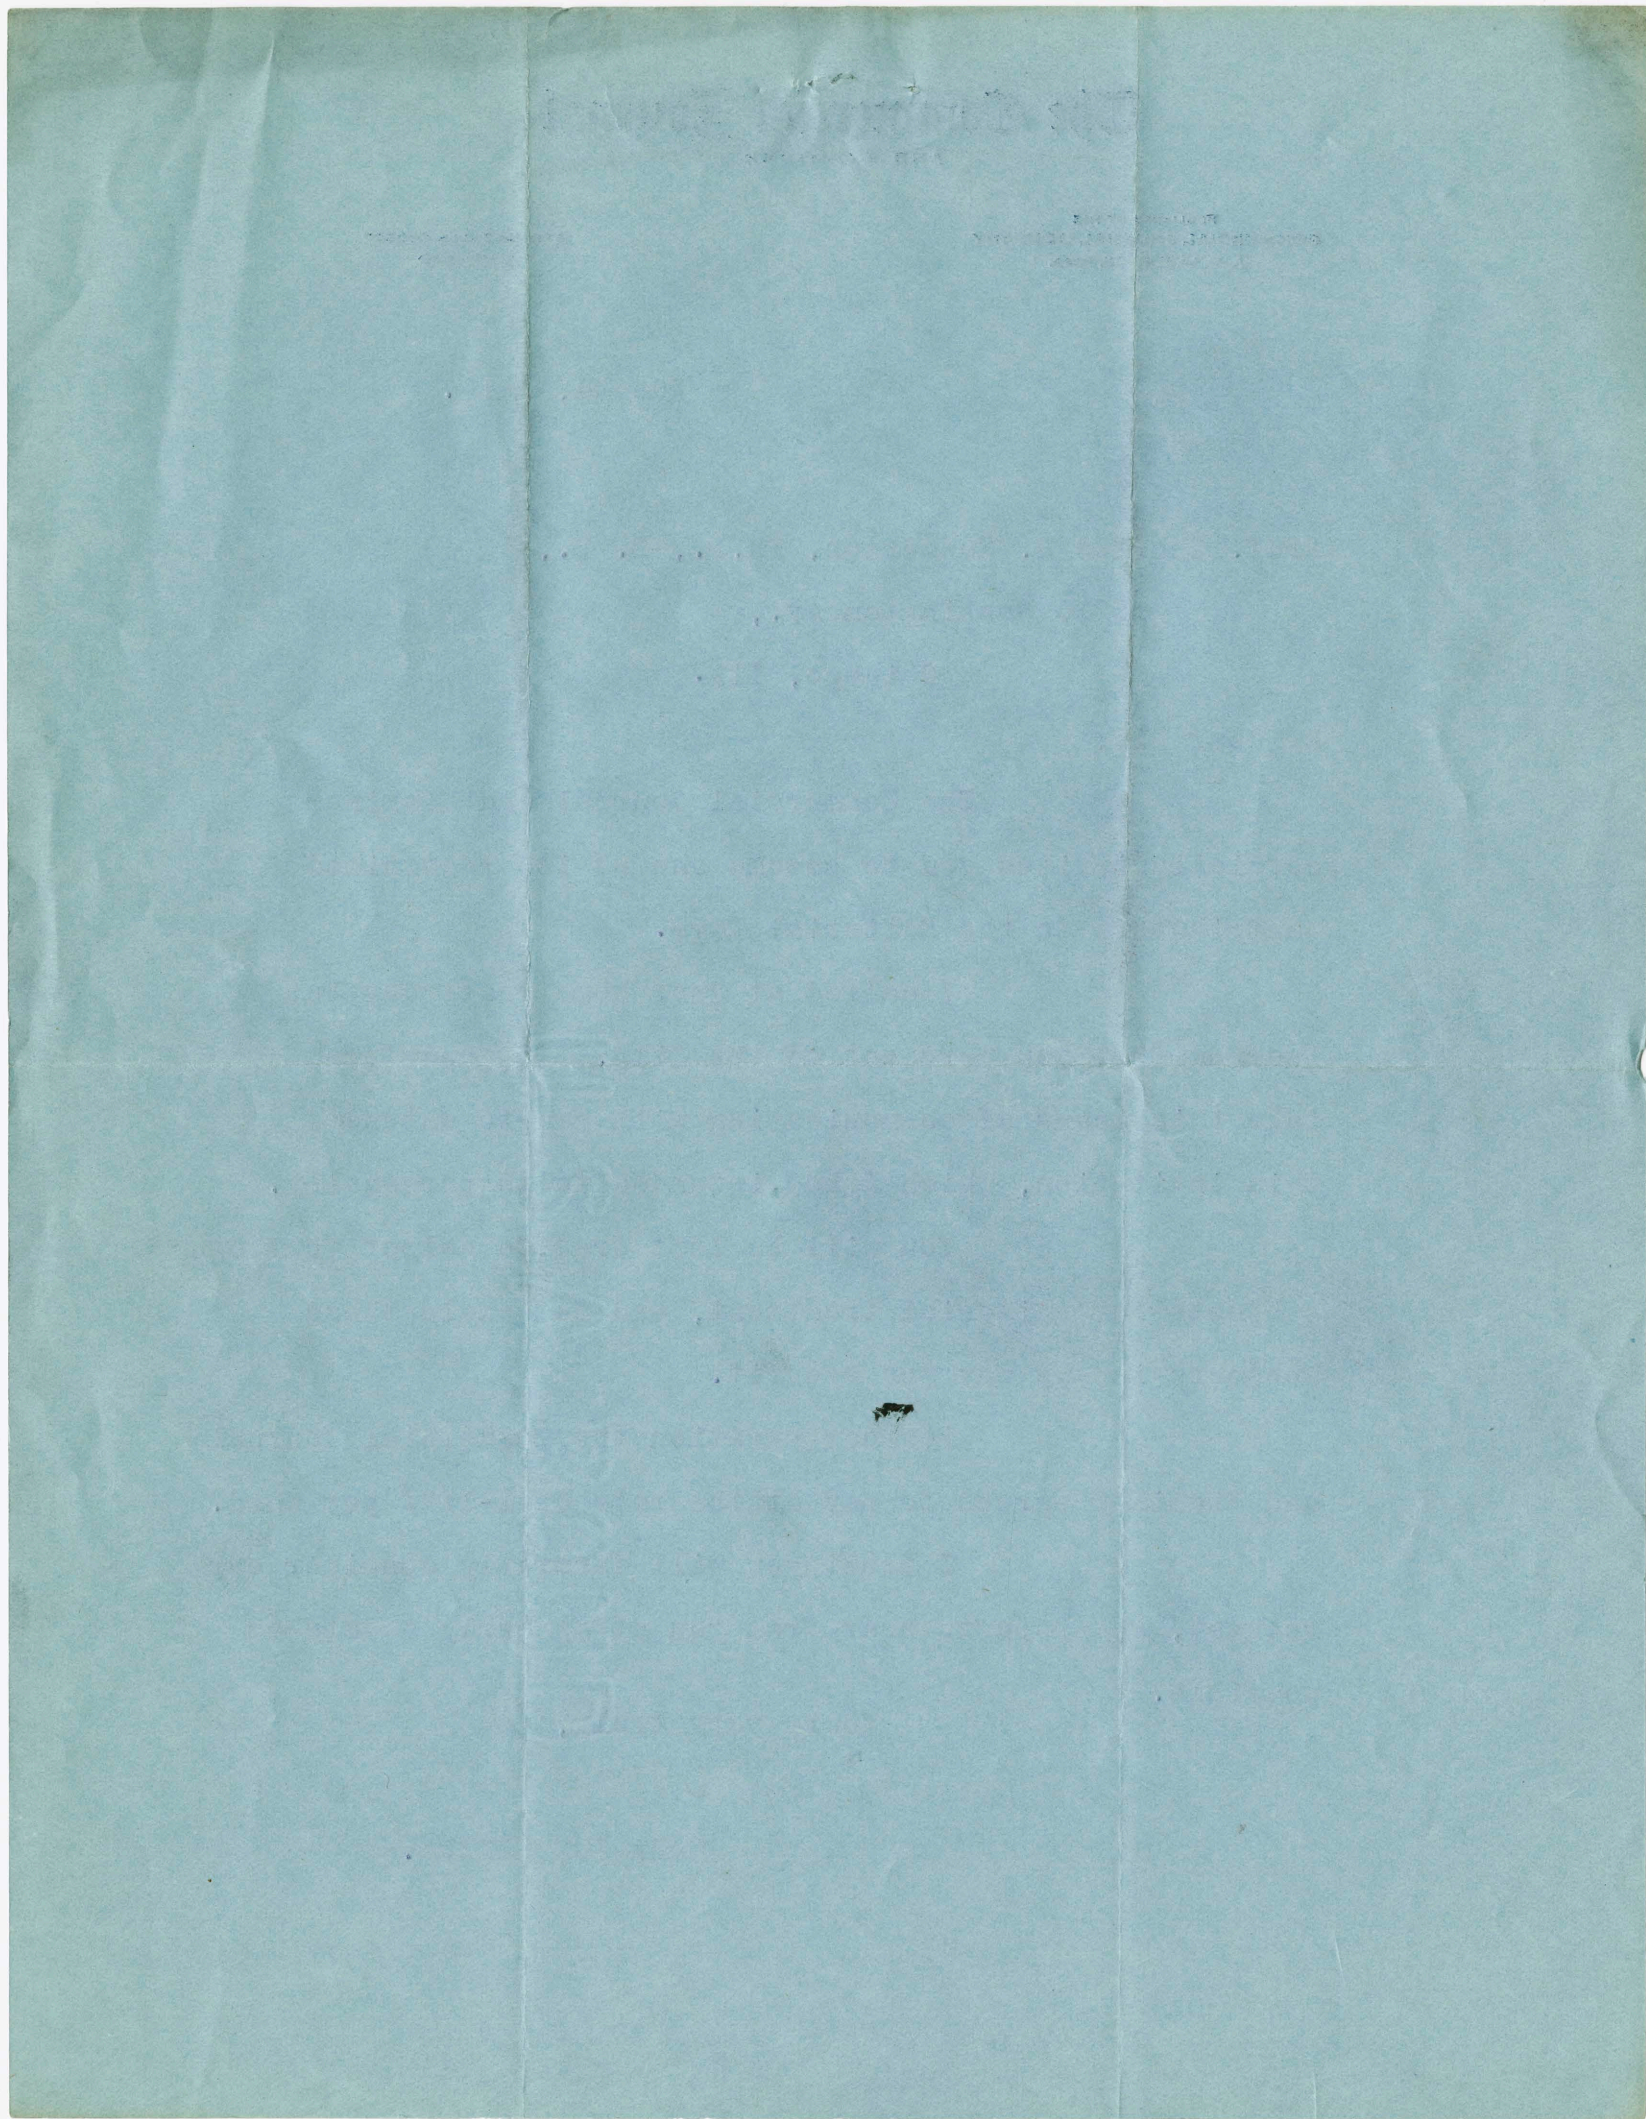

For compensation the Commercial Journal and Examiner agrees to pay at the rate of 1-1/2¢ per word.

I trust you will favorably consider our request, and hope to hear from you at as early a date as possible.

Yours very truly,

MANAGING EDITOR.

Dear Colleague:

I have put two men at work on the material relating to legislation covering hours of women's work in European countries including Great Britain, and will get it out as rapidly as possible. I did receive a letter from Mr. Brandeis and have answered it to this effect. My only anxiety is lest I miss some of the more recent legislation as a few of my documents are not absolutely up to date, but I hope to complete the information at least by reference to the reports in magazines. At any rate I am deeply concerned for the success of this case and will do all in my power to help.

Yours cordially,

Monsieur le docteur Charles Richmond Henderson,
président de la Commission pénitentiaire in-

Chicago.

J'ai l'honneur de vous annoncer que cette Association, établie il y a deux ans en Italie sur le type de la Howard Association anglaise et de la Société générale des prisons françaises, prend vive part à l'oeuvre que vous entreprenez du Congrès international des prisons dans votre capitale fédérale de Washington, et qu'elle a délégué à l'y représenter monsieur le docteur abbé Alexandre Bianchi, membre et conseiller de cette Association, ainsi que un des bibliothécaires de la Bibliothèque ambrosienne de Milan et ancien directeur de réformatoire, qui a eu part aux Congrès précédents pénitentiaires internationaux de Paris et de Bruxelles.

Le Conseil de direction a pris cette décision dans sa séance du 14 de ce mois, à l'unanimité, à fin de bien étudier et de faire connaître à l'Association vos systèmes pénitentiaires dont la célébrité retentisse partout et que nous voulons appliquer dans l'utile et dans le possible chez nous.

Au nom du Conseil et de l'Association, je vous prie de faire bon accueil au susdit notre représentant et de lui accorder et faire obtenir toute facilité, pour le mettre à même de bien réussir dans son but, et particulièrement de l'inviter, aux mêmes conditions que les autres membres délégués par les gouvernements, pour la tournée d'inspection dans les établissements typiques pénitentiaires des États-Unis.

Il vous sera remis par la poste le statut de l'Association Cesare Beccaria; et je vous offre mes hommages et ceux de l'Association.

Monsieur Cornelius V. Collins,

Monsieur le Président,

comme président de l'association nouvelle née italienne "CESARE BECCARIA" pour l'étude des questions pénitenciaires et l'amélioration des prisons, sur l'exemple de l'association américaine des prisons, de la Howard association de l'Angleterre et de la société générale des prisons de la France, je vous engage à procurer à notre association, pour un des ses membres, qui sera par elle délégué, "un certificat signé par le Président de la Commission", dont il est parole à page 27 du guide pour le congrès de Washington, pour la très-importante tournée d'inspection dans les principaux établissements pénitenciaires des États-Unis, et cela quoique notre association ne soit pas gouvernementale, afin de permettre à notre association la connaissance des vos systèmes célèbres pour la tenue des prisons et surtout des institutions pour le relèvement de la jeunesse coupable.

Il nous serait impossible de profiter de cette occasion exceptionnelle et unique n'étant pas notre association une association d'État et n'étant encore pourvue d'une consistance financière suffisante à soutenir les dépenses nécessaires pour faire cette tournée pour son compte. L'association pourtant fera les frais de voyage d'un des ses membres, si votre Comité lui obtiendra de prendre part à ladite tournée d'inspection avec le même traitement qu'on fera aux délégués des gouvernements.

J'espère que notre proposition sera admise par vous, et vous sera même agréable, pour le haut but qui l'a inspirée; et je vous prie à me donner communication, le plus tôt possible, de votre détermination à ce sujet.

Mr. C. V. Collins has forwarded to me your esteemed favor of June 2, 1910, and I take pleasure in informing you that our American Committee will give a place to the representation of your Associazione Cesare Beccaria on the excursion from New York City to Chicago and back to Washington, September 18 to 28, 1910. If your delegate desires to have the privilege of exemption from customs duties in the port, it will be necessary for him to have an official appointment from your Government. This is not necessary, however, to procure the Special Certificate to accompany the excursion already mentioned. Kindly give me at once the name of the delegate, the name of the steamer by which he will come to America, the port of entry, and the day scheduled for arrival in the port, so that we can show him proper attention.

We shall be very glad to have a representative of your honorable society and of your noble country to visit us and to inspect our institutions.

Gentlemen:

About July and August of next year, 1911, I propose to take a party of prison wardens, superintendents of reformatories, etc., to inspect some of the most important correctional institutions in central Europe and Great Britain. Our route will be from New York to Cherbourg, Havre, Paris, Geneva, Lausanne, Berne, Zurich, Basle and down the Rhine to Mannheim, thence to Leipzig, Dresden and Berlin; thence to Düsseldorf and by some route to Amsterdam, Leyden, Rotterdam (The Hague), Antwerp, Brussels, Louvain and Ghent, then across to London; thence by some route to Edinburgh and Glasgow; thence to Dublin and sail home from Liverpool or Queensland to Quebec or New York.

Would you kindly, at your earliest convenience, give me a careful estimate of the cost of such a journey, itemizing steamship, firstclass, rapid trains on the Continent, first-class, most of the way. There will be from thirty to fifty men, some perhaps accompanied by their wives. I should like to have you add separately the cost approximately for hotel coupons covering that expense for the journey on land. Pres International Prison Commission.

Dear Sir:

Your invitation (to read a paper of ten pages (375 words per page) on the second question before the third section of the International Prison: "What measures are to be taken for the repression of vagabondage & mendicancy, taking the view of the modern criminalist, what regulations ought to be adopted for the organization of work houses for mendicants and vagabonds?" I accept & will file with you on or before Dec 1, 1909 this paper. The paper appears very acceptable to me at the present time as the question calls for medical supervision.

Cordially Yours

My dear Sir:-

In reply to your esteemed favor of August 28th, at Seattle I made a note to this effect: to invite you to write a paper of ten pages (375 words per page) on the second question before the third section of the International Prison Congress: "Where measures are to be taken for the repression of vagabondage and mendicancy, taking the point of view of modern criminalists, what regulations ought to be adopted for the organization of work hours for mendicants and vagabonds?"

Emphasis should be placed upon the phrase, "the point of view of modern criminalists". I am satisfied that the vagabonds and mendicants are frequently persons who should be studied from the standpoint of medical men who have had experience with criminals as you have had, and I hope to hear from you that you will write this paper. It should be in my hands at the latest by December 1st.

Yours cordially,

I am sending you enclosed
a brief statement of the thought which underlies our
movement here in Cleveland. Any statement of the
philosophy of it seems so simple as to be self evident.
The thing in which people express surprise is that it
really works out in practical results.

I have written this in the rush of a busy campaign
but I think it may be at least suggestive to others
interested in this kind of work.

My dear Professor Henderson:-

I received your letter in regard to
the paper on the question of mendicity and vagabondage. I will
try to make a brief statement and have it ready for you by the
first of November.

I am looking forward with great interest to the International
Prison Congress. I have not been able to attend as many of the
meetings as I would like as my work here has been unusually heavy,
on account of moving our institutions to our great Farm of nearly
two thousand acres. Besides this, we are just entering a very
bitter political fight. Last winter the legislature changed my
position from an elective to an appointive office, so that unless
Mr. Johnson is again elected mayor, the plan of work is liable
to be changed. I understand that the opposition are to make a
very bitter attack on my department.

I hope next year to be able to make some study of the work
abroad.

Dear Doctor Cooley:

I am strongly impressed by the fact that you can make a very valuable contribution to the discussions of the International Prison Commission, whose Congress is to be held at Washington next year. No papers are to be read in the Congress, but all are to be ready by the first of November, translated into French and distributed for study months before the Congress throughout the civilized world.

I am sending you under another cover a copy of the Programme of Questions and I beg you to send me a paper on the second question of the third section. The purpose of the paper is not to describe some one particular work, but to present a solid argument in few words for the conclusions which have been reached by your study and large experience. Warden Gilmore, who has been the last year president of the American Prison Association, emphasizes my own conviction that you are the best man to discuss certain aspects of this problem.

Owing to the death of my good friend, Dr. Barrows, this correspondence has been delayed already several months, and I am, therefore, urging my friends to move as promptly as possible in the matter. I will greatly appreciate whatever you may do.

I am sorry to have to again decline your kind invitation to prepare a paper on "Idleness and Vagrancy" for the International Prison Congress, but I have a paper to prepare for our own coming convention in July and I have all the arrangements and the program in charge, and I am in the midst of a very busy campaign to organize a playground system here. Under the circumstances I do not think I should attempt anything further, as I could only cover the matter in a superficial way, which would not be creditable to me nor advantageous to you.
