

Memorandum Book.
1872. & 1873. 7/11. 75

Farm House, Wednesday morning.
March 14th Thermometer at 7 a.m.
at Zero Illinois Bristol Township

1875 Oct: 6 Cord Lucy C Wells Washington City
No 1112 Fourth Street North West

John H. P. Quirk Esq. Cottage House in Harlem
took fire on Saturday evening at 9 o'clock P.M.
Oct: 2^d 1875 and was totally destroyed by
fire, not leaving a vestige but the brick
found broken and half of one chimney
standing - the family escaped safely
but lost all ^{thing} ward Robs and saved
but little except on the first floor
as the building took fire in the attic
over the kitchen, supposed to have
taken from a candle carelessly left burning
near the wall in the attic which was
ceiled up with flooring -

White Wash and Sandings used to look
merely as well as put off very white
Take a clean, tight barrel and shake in it one
quart of finely burned lime, by covering
it with boiling water - After it is shaken
add cold water enough to bring it to the
consistency of cream or thick white wash -
Then dilute in water one pound of duck
of fine (also known by the name of common
white article) and add to the same one
quart with one quart of water, stir
well with the impeller until the
mixture is thoroughly
mixed - This forms a pure white - the
cream is decided on half pound of yellow
color is added -

Said to be a sure cure for a Felon

Take one pint of common soft
 soap, stir in an- slacked lime
 till it is the consistency of Glasgow
 Putty - Make a leather thimble
 fill it with this composition and
 insert the finger therein, and
 a cure is certain

 away - The first Thursday in
 March, the first Thursday in June
 the first Thursday in September
 and the first Thursday in December
 are the governing days for the
 season - Whatever points of the
 compass the wind is blowing
 from, that will be the prevailing
 wind for the season -
 Now to find the number of storms in the season
 such as rain - of it storms on the first Thursday in
 the month, which is the calendar part of the season
 add to the number of days in June of the month
 which will give the number of storms for
 that season, or three months - (the season)
 - if it shows storm the first Thursday in March
 will that will be the third day of the month, then add
 again 28 days in that month, if we had a new
 moon on that day it would give 28 days more
 which at the last above would make 56 days the
 number of the season for the season - the
