

case.

Q As a means of punishment?
A Yes sir, in this way: The Deputy Warden gave me orders that if Harris made any noise or did anything out of the way in the solitary, to strap him.

Q The answer I want to get at is this - that you do or do not recognize the gag as an instrument recognized by the authorities to be used in certain cases?

A Yes sir.

Q Now do you understand also that the strap is a recognized instrument of punishment?

A It was in this one case.

Q I understand, but is it recognized by the authorities of the prison as a means of punishment?

A Mr. Mayhew ordered me to use this strap.

47 Q Do you or not recognize this

strap as something to be used
at your discretion ordinarily?
A Oh no, sir; not at my dis-
cretion.

Q You had no authority from
any of the officers of the
prison to do so, but you
thought it was a similar
case to that of Harris?

A Yes sir.

Q Did you think at that time
that Reid was at all insane?

A No sir, I thought he was
playing insane.

Commissioner S. H. Jones: - State whether
you or the physician of the
prison, or his assistant, were
to decide, after a convict was
whipped, whether he was crazy
or not?

A That was for the Doctor
to decide, but the Doctor told
me to observe Harris. This
was in whipping Harris.

Q What strikes me is, that the
Doctor would order a man

learned at present as far as
the preliminary investigation of
the subject is concerned; and, as
a result of this investigation.

many persons are now engaged
in the study of the subject, and
it is to be expected that the
results of this investigation will
be of great value to the
public.

It is to be expected that the
results of this investigation will
be of great value to the
public.

It is to be expected that the
results of this investigation will
be of great value to the
public.

It is to be expected that the
results of this investigation will
be of great value to the
public.

whipped for that purpose,
and not be there to see the
effect of it?

I don't know, but I suppose
he was going to take my
word. At least, he wanted me
to observe the man.

Commissioner A. M. Jones: - And to re-
port to him?

Ayes sir.

Commissioner S. H. Jones: - Do you pro-
fess to be a Judge as to what
would be the effect?

Ans sir, nothing of the kind.
When does it not seem a
little strange that the Doctors
were not there to see that
themselves?

I don't know anything about
what the Doctors' views were at
all. We frequently have men
in the solitary, who we think
are insane, or playing insane
and in such cases, the Doctor
almost always asks me what
I think of the men - whether

they are insane or playing
insane.

2 Did Doctor Heise or Doctor
Dripps ask you after you
whipped Harris the first time,
what effect it appeared to have
upon the man?

Q I don't think the question
was asked, but I spoke ^{of} it
it myself. I told Doctor Heise
the next morning after he
came to the Solitary what
Doctor Dripps had seen, and
said; and then about Doctor
Dripps going up into the
Deputy's office. Doctor Dripps
said to me when he came
out of the cell that he thought
the man would have to be
sent off to an insane asylum.

2 You state here, as I under-
stand it, that the Doctor
and the Deputy ordered this
man Harris whipped because
they thought he was playing
crazy?

they are now being

Yes sir, playing crazy

Q The Doctor ordered you to whip him to see what effect it would have?

A That is the way, I supposed, the Doctor meant.

Q After you whipped him the first time, did you report to either one of the Doctors what effect it appeared to have upon the man?

A No sir; he didn't say anything, about reporting anything to Doctor Driggs. I was to whip him a number of times during the day, and he didn't say whether I was to report to him or Doctor Driggs, but I understood that I was to report to him the next morning when he came, what I thought of the case.

Q They did not tell you to report the effect to them at all?

51 A I intended to report to Doctor

your friend, and
 friend at once and
 ever K. Keffer to be at mind
 I am

Here, the next morning?
Q And you whipped him five or six different times that day before you did report?
A Yes sir, Doctor Heise told me to.

Commissioner A. M. Jones:—

Q Did you then report the effect of all ~~of~~ ^{the} whippings to the Doctor?
A I told Doctor Driggs the number of times I had whipped him when he came to the solitary ~~that~~ ^{in the} evening.
Q You told Doctor Driggs the number of times you had whipped him?
A I think so. I think I told him I had whipped him five or six times.
Q Did you tell Doctor Heise the number of times you had whipped him?
A I did the next morning.
Q Did either Doctor Driggs or Doctor Heise make any objections

to the number of times that
you whipped him?

Also Sir, they did not - well
that evening when Doctor Dripps
- after he saw Harris he told
me not to whip him any more
untill I saw Doctor Heise,
but when I told Doctor Heise
next morning, he didn't make
any objection about the num-
ber of times that I had whipped
Harris. I took Doctor Heise
into Harris' cell and showed
the Doctor, Harris, the convicts
back, and the effects of the
whipping on his back. There
was no skin broken that I
could see anywhere. There were
simply brownish ~~and~~ marks
on his back.

2 Did Doctor Dripps or Doctor
Heise ever have this whip in
their hands?

Yes Sir, I think Doctor Heise
examined it, and so did Doctor
Dripps. I don't really know
