 I think the basket is to

 me if there was any way
 to avoid pulling the main

 has been entirely aban-

 years. My orders from the

 the main body higher

Deputy Warden Mayhew — In relation to the first whipping of Harris, did Dr. Driggs ask you if the Deputy knew anything about that whipping.

a Dr. Driggs came to me and told me that he thought the Deputy acted as though he didn't know anything about it, and as if he didn't care and didn't want to know anything about it.

q When you went to whip the man and Dr. Driggs went into the room with you; when you whipped him, did Dr. Driggs ask you if the Deputy knew anything about the whipping?

a No sir, he did not.

a Well, not in irons, but since this Ryan affair, I have had orders by the Deputy Warden to watch them closely when I was using the gag.

Q Did you never, before that, understand it to be your duty to watch them closely when being gagged?

a No sir, I never had any such orders.

Q Have you, as a matter of fact been watching them closely when gagging them, or have you gone off and left them?

a I have always watched them closely, unless when I was called away as I was in Ryan's case, and I watched them for this reason: When a man says that he will be-

Q You released them just as soon as you could get them quiet?

A Yes sir, as soon as they would say by word or motion that they would keep quiet.

Q Did any of the officers connected with this prison, know of the effects of the gag in the Ryan case, if so, who?

A Mr. Mayhew, the Deputy Warden, Captain Steeper, the assistant deputy, and I are almost certain I told Dr. Dripps and Doctor Heise. It might have been Doctor Stand. I spoke to several

A I can state positively the Deputy Warden, M. Mayhew, Captain Sleeper, the Assistant Deputy, and I am under the impression that I spoke to Doctor Heise.

Doctor Heise. At what time in the day did that occur?

A It was in the day time. It might have been the day after.

Q Did you state to the warden or any of the Commissioners, or have you any reason to believe that they knew of the effects of the gag in the Ryan case?

A No sir, I have not.

Q Did the Deputy Warden, or Captain Sleeper, or the Physician or any one you spoke to, make any remarks as to the effect of the gag in the Ryan case, if so what?

A Well yes; the Deputy Warden told me after this Ryan affair never to leave a man gagged without watching him. She said: "Always watch him." I don't recollect that anyone else made any remarks about it.

Q I understood you to state in your testimony that

Q What did Mr. Bossingham say?

A He said that E. A. Beatty, a guard in the north cell house, had orders from Mr. Mayhew to strap John Anderson, a convict if he made any noise or did anything contrary to the rules of the prison.
