Q I think I did Sir.

2 And in every case of that kind you have reported to the Warden or the Deputy Warden as soon as possible?

Q I report to the Warden or the Deputy. I would not swear whether I reported ^{immediately} to you (Warden McLaughlin) or the Deputy Warden I could not recollect.

Commissioner A. M. Jones:— Do you consider it the duty of the Captain of the night watch, and the Keeper of the Solitary, and the night guard of the solitary, to report to you if an instrument of this kind (indicating whip) is being used by any of them— that it would be their duty to report that to you?

Q I don't know as it would to me Sir. I should consider it their duty to report it to the Deputy Warden or the Warden.

2 Are you not their immediate superior officer.

... ..

Yes sir

2 Would it not properly be reported to you, or certainly be their duty to report it, if not to you, to either the warden or the deputy warden?

Yes sir. I should state that I should consider it my duty to report anything of that kind if I saw it.

2 During the administration of Doctor Heise as prison physician, have you ever known of any brutal or inhuman treatment of prisoners by Doctor Heise or his assistants?

I don't know that I have.

2 The Board of Commissioners now desire you to state to them if you know, or have an impression, that there has been any punishment inflicted upon any convict during the administration of warden McCloughry, which you considered brutal or uncalled for. If so, state

for antitank and anti-aircraft
work and as a result of the
work done in the past, the
army has been able to
take the necessary steps to
prevent the use of the
army in the future.

I have been thinking much lately about the future of our country. I feel that we are at a critical juncture, and it is up to us to decide whether we will continue down the path of division and discord, or if we will unite and work together for the common good.

what it is?

Q I do not sir. Except in those two cases my impression is that there has been nothing of the kind. I think if there had been I should have known something about it.

2 Is there any other information that you desire to state for the purposes of this investigation to the Board of Commissioners. If so, state it?

Q I don't know of anything.

2 In your experience as Assistant Deputy Warden is it necessary that there should be quiet in this prison?

Q Yes sir.

2 Is it necessary that it be especially so in the cell houses and the solitary?

Q Yes sir.

2 Please state why?

Q In the cell houses, there are so many men in there that a noise once commenced it goes

all over and creates a disturbance, and another thing, for the safety of the institution while they are in there. If there is much noise, a man has a chance to cut at the bars or most anything else. It is necessary to have quiet so that if there is anything of that kind going on, the night watchman can hear it; and in the solitary if there is noise going on ⁱⁿ there while the gangs are passing or anything of that kind, it would endanger the safety of the institution, and encourage the men to get up a revolt.

2 What would be the effect, in your opinion if a convict in the solitary in punishment should be allowed to talk ~~and~~ make a noise so loud that they could hear it in the cell houses, or the men could

hear it going to or coming from their work - what impression would the men get and how would it affect them if they got an impression? I presume that they would get the impression that they were being badly used, and they might undertake to get up a revolt with the impression of their being cruelly treated.

Warden McLaughry: - Would it or not in your opinion be likely to make them try to be rebellious?

Yes sir.

Commissioner A. M. Jones: - Do all the convicts of this prison know the solitary as a place of punishment?

Yes sir.

I will ask you which is the most humane kind of treatment to the convicts in your opinion - ironing them to the grated door or using the

bell ring as it used to be
used? Please state your con-
clusions?

A Well Sir, I should hardly know
I have never thought of it
and would hardly know how
to express myself on that.

2 Do you consider it more
punishment to iron a man
up to the door, as you ^{iron} ~~standing~~
than you would under
the old manner where there are
only two rings in a cell?

A No Sir, I don't think that I
should.

Deputy Warden Mayhew:— I would ask
if the position, standing with
the hands in this position (oppo-
site the elbows or about opposite)
is not more comfortable
for a man and he ^{could} rest his
hands on the cross bar of the
door, than standing with the
hands up to the wall?

A Yes Sir, I should judge it
was.

Commissioner A. M. Jones: - Can you arrange the irons at the grated door better, and according to the height of the man, than you can where there are only two bull-rings in a cell?

Yes sir.

2 Is there, or has there ever been to exceed two bull-rings in a cell, and how are they placed - stationary or otherwise?

A There was only two from knowledge in the cell fast in the wall.

2 Why do you not win the man down lower than the level of the elbows this way. (Illustrating)

A It would be a very unpleasant and very uncomfortable position.

2 Is it the intention to iron a man up so that he cannot sit down on the floor and laugh at the irons?

348 A Yes sir, that is the object.
