Dear Brother Elon:

I write to tell you
that our dear old friend
& teacher, Dr. Burroughs
has gone to his everlast-
ing rest. He had been
ailing for sometime, since
before the death of
Mrs. Burroughs in Feb-
ruary last, but did
not take to his bed un-
til a week ago last
Saturday. Since then
he failed rapidly
and he died yester-

Dear Brother Lee: —

I wish to thank you in behalf of the Chapter for your contribution to our rushing fund. and I assure you it will be put to good advantage.

Your letter was greatly appreciated and we were certainly pleased to know that you enjoyed your visit last spring. But of the boys you met last spring only three returned to school. All the others were in service but none left this country. But of our total number in service, four were killed. It was a great loss to us, but they gave their lives for a great cause and we are mighty proud of them.

We hope you will be able to visit us sometime and stay with us in the house. We always

My Friend Elon

I enclose a letter that came to the University for you. How are you enjoying an Engineer's life? I presume you will, however getting along well enough during this pleasant weather. Chicago is considerably agitated about the cholera just now. During the last ten days there have been a great many deaths, but the scourge is somewhat abating now. One of our graduates of last year died of it last Friday, Charles M. Hull. The disease has not made its appearance in the University as yet and we have no fears that it

fellow, volunteered his services to
take care of cholera patients and
doubtless through his labors several
lives have been saved. This is a
Christianity worth having. -

My studies are pretty hard
now, astronomy, ^{especially} and I have but
little leisure, not so much as I
wish I had for exercise.

Enclosed yesterday ten dollars
and a half from Fisk, on your
account.

I hope you are well pleased
with your situation; write me
all about soon, will you?

Yours in haste
