Baltimore 15th May 87

Dear Sir

Yours of the 29th of Last Month came to hand the 10th Instant — Mr. Robert Smith has been at the General Court in Annapolis these two weeks past, nor is there any probability of his returning for these two weeks to come, when he does, I will wait upon him with your letter, and request an answer, which, if he will entrust with me I will forward by the first opportunity —

I immediately after receiving your letter called on Mr. Page and delivered him his letter, and also requested payment of your Order; he told me he would call on me the next day and settle the Acct. however, he did not call untill Yesterday, and then he showed me a letter directed to you in which he told me was inclosed Orders on some

turn over

People in your neighbourhood, which he expected would pay the Money

I am Dear Sir your very humble Servt

Letter from
Mr. James Brown Mercht.
Liverpool

& Copies of answers thereto

I have to announce to you the melancholy intelligence of the death of my much lamented Brother Tho^{s} Lewis of Gloucester County who departed this life early in Nov^{r} last. Your Letters of the 21 & 30 Oc^{t} were forwarded me ~~as from Gloucester County having left Ca^{s} to the Will of my brother Tho^{s}~~ Being left exc^{r} of the Will of my brother Tho^{s}. The latter is a current account leaving a ballance of £5.. 2.. 11 due the estate ~~of~~ which ~~which~~ you will please retain till you hear again from me. The Carpet arrived safe & Mr^{s} Lewis is much pleased with it. I lately returned from Gloucester & left your niece in perfect health who has a daughter about 6 months old. Your Nephew John is a Sensible Lad of mine a very respectable young man, but the administration of his Fathers personal Estate having fallen into the hands of unfaithful guardians, it has been so reduced, as to leave him very few negroes to work his land, with those few he is doing as much as any man can, & is very frugal withal. He is in good health & married ~~two or three~~ & has likewise one daughter years since as you no doubt have heard. Any letter you wish to send your Nephew or Niece if sent under cover to me will with most certainty reach them. You will therefore direct to Fielding Lewis Cha^{s} City County Virginia to be left at the Post Office at Cabin Point Virginia. The Post Master Tho^{s} Pitt whom you perhaps may have known as my particular friend & will immediately forward them to me. You desire to know if Mr. James Hunter was worth

a cash pursuit to ~~credit~~ do it rising with in each line
equired credit of you. I think Mr. Hendrickson a very
prudent man. I believe he has an independent
fortune perhaps not a large one & I am satisfied
he would not enter into ~~any~~ engagements he could
not comply with. My brother Wm. having been an
intimate acquaintance of Mr. Henderson would
I am sure have given you at least as favorable an
impression of that Gentleman had he been able to answer
your last letter. This opinion of mine also I think
perfectly just with respect to Mr. Henderson I do not
desire any person you as I wish not to interfere my
self by any thing I may say upon this subject in any
mercantile embarassments. If you correspond with
any merch.t in Norfolk you can be better satisfied as
to his ~~character~~ pecuniary circumstances than I shall be hap
py to give any further information in my power & as my bu
siness will frequently call me to Norfolk I shall
always see your Mr & Mrs Hendrickson & keep you
I can from time to time give such information of them
as you may require

James Brown esq.

Fielding Lewis Esqr

Sir

When I had the pleasure of seeing you at this place you mentioned of your being desirous for me to build you a Threshing Machine on the same plan of one which I built here last season whereas that you wished me to be at your Plantation sometime in May or before the 8th of april which I agreed to but as the state of my health has rendered me unfit to perform the above engagement. I have sent you enclosed a copy of the timber necessary for building a Machine agreeable to the above mentioned plan so that any person who is accustomed in taking dementions. by examineing your machine and them looking at the Copy will easiely percive what timbers will answer however as the whole timber mentioned in the note comes to but very little I think it would be as well to provide it all anew as running short of timber produces much inconvenience

I cann not as yet give you an exact statement
of the wrought & Cast Iron necessary in one of said
Machines but as I will have several sets finished
in a short time I shall transmit it to you with any
other information you may deem necessary

Dear Sir, Petersburg July 10th 1812

I have sometimes since written that that account of Bolling Irwin in which I promised you a part but have never had an opportunity of sending to you before this, I hope however that you have had no occasion for it & my wish is your never may. It is short & imperfect written to be copied by an friend who will execute the necessary alterations & therefore request you let me have it as soon as convenient to you.

I am uncertain whether it will be in my power to come down the Country this summer, but should

Should I be near you, I will most
certainly spend a day with you
My health since I saw you last has
been continually, I shall be obliged
to go to the Springs altho reluctantly
I wish you would inform me by mail whether
whether or not Capt. Dunn agreed to
settle my acct as he promised. For what
acct he would have in your hands
as I wish to arrange all my affairs
before leaving this for the Springs
Give my Respects to Mrs Lewis &
family & believe me Yours truly

J. H. Mason

Wm. Fielding Lewis

Dorset Stay
on Bladen Farms

Dear Sir. Petersburg June 14th 1813

According to the promise made when I last saw you, I proceed to give a short account of the Bilious Fever, as it appears on James River in Summer & autumn. As you are a good Judge [illegible] not enter them but treat only of the Cure In the commencement I would ably attack the disease with a Cathartic of Calomel to be purged off (if necessary) with some mild purgative as Salts &c. If the attack be violent & there is no great objection to Bleeding and Emetics, it may with great propriety be combined with the purgative. The dose which is preferable is Calomel 8 or 10 Gr. Jalap in Powder 3 or 4 Grs. to an adult. It is frequently necessary to use the Lancet. Decide therefore on it as the Symptoms which indicate the propriety of Bleeding. Pain in the Head, sick

& Violent, with hard or tense pulse, pain in
the side especially if attended with difficulty
of Breathing. In short whenever from
the Symptoms you are led to conclude that
patient is in danger, it will be proper
to bleed, as the patient may be able
to bear it until with other evidence
the Symptoms that he
obtained. Except in the above
mentioned situations, or in those cases
when the advice of a physician is abso-
lutely necessary, I think there could
be no danger in using the Lancet,
but to depend on other treatment.
After having well evacuated the patients
it is necessary to use some Febrifuges
particularly some hours previous to the
fit of the Fever. For which purpose,
I have found nothing equal the James
Powder, exhibited in such doses as to
evacuate the Stomach & excite a perspiration

without proving Emetic. I usually begin with
a Gr. given every Hour & Half or two hours
either increasing the dose or shortening the
interval, or diminishing the dose & lengthe-
ning the Interval, as circumstances require.
In addition to the above treatment the
acid which superabounds in the Septem.
should be corrected by some alkali.
The Salts of Tartar is preferable given
in the dose of about 6 Gr. in solution
of two table Spoonfulls of Water with
a little Lemon or Lime Juice, so as to
produce a slight effervescence; the James
Powder can advantageously be combined
with the mixture, or given alternately.
It may be proper to observe here that
while the powders of Tartar
are, or the Acetate of Potash
must be given, as it is indispensably
necessary in this Climate that the bowels

should be kept open.

If the Fever continues obstinately to keep the patient after eight or ten days using this above treatment & low diet & preparation of ½ gr. Calomel & 6 gr. of the ½ gr. Tartar Emetic, given three times a day, so as to excite a slight Salivation will most certainly be very powerful when there is little or no local disease, indicated by pain & cough, the application of cold water by Sponging or affusion on the skin of the Fever, or whenever the skin is dry & hot, will not only be very pleasant to the patient, but will relieve the fever considerably.

So soon as a remission sufficiently distinct shall be produced, the Bark in decoction should be given, at the same time giving a Stimulus when the skin is cool. The Bark should by no means be given during the intermission & distinctly the bark left skin moist

and no pain, otherwise the fever from being a Remittent, will become continued, & a Diarrhœa probably fixed on some of the Abdominal Viscera.

In the commencement of Intermittents great attention must be paid not to give the Bark until by the proper evacuations, the Intermission is distinct, or otherwise there will be danger of the Fever becoming Remittent, or Continued. This caution is the more necessary in the first attack & commencement of the Season

As to Diet, Drink & the necessity of cool air in all fevers we have so often canvassed on their Utility & the proper means to be pursued with regard to each of them, that I shall not notice them

Should there be any part of this short Memorandum (if I may so call it) not

properly does to give, by informing
of it shortly. I will try & explain
my reasons — & should wish my
opinion on any other Disease
subject it shall be given most
cheerfully

With Respect to
Wm Harding Lewis

Yours Obd. Servt.

Benjn. H. Way

Weyanoke Jan.y 2. 1812

Dear Peggy

The inclosed instrument of writing sign immediately against the lower seal under the memorandum made, in consequence of intrusting the power given me. The reason I am in a hurry to get this power to act for you is, that Doctor Singleton refuses to pay the last year's rent, has just removed his property off the land, and I must distrain to get the money in ten days from the time of removal (which took place on Tuesday last) or wait the event of a suit. He promises me that he will give ample security for the debt, & I shall wait on him on Saturday to procure it, if satisfactory, I will accept, because I shall make him ~~make him~~ my irreconcilable enemy by distraining which I wish to avoid, but should the security not meet my approbation, & I get the letter with the power of Attorney in time, I shall certainly prosicute the business & get the money for you. Lose no time in signing the instrument, send for Mr. Thruston & Mr. Simco & get them to witness it, & after inclosing the instrument in a paper sealed as a letter & directed to me, send it, together with the letter

you write to Mr. Olivier, or to him by Robin, ordering him to make the sale. Should Mr. Olivier not reach this place in time, your having executed the instrument by signing & witnessing, will justify me in distraining as ~~it will~~ I shall not distrain until Tuesday or Wednesday next, which will be after the fourth of Jan.y the date of the writing which you will sign

Yr. assee. &c.

D. Lewis

Dear Sir,

I am under the disagreeable necessity of remonding you that the promise which you made of restoring to me the original papers committed to your care, continues unfulfilled. In requiring the restoration of these papers my object is to guard against casualties which sometimes happen. One of the Papers, as you well remember, was at one time regarded by us all as lost, and was recovered merely by accident. It was my intention, previous to your application for these papers, to have spread them upon the records of our Court, and it still remains my intention. Should Mr. Brown find it necessary, in the Suit now instituted against Mr Tabb, to produce these papers; he can with ease procure them by application to me or to the source just mentioned.

It was my determination to have asked you in person for these papers, when you were last down, but it altogether escaped my memory. That you might be prepared for the application I requested Robert Munford, some time before your appearance in the County, to mention the circumstance when he again

wrote to you. From Enquiry I find that he also forgot to mention'd. I will therefore thank you to return these papers either by some safe opportunity, or when you again come to our County.

Sally begs to be affectionately remembered to yourself, Lady & family, & believe me to be with sentiments of

respectfull consideration

Your obedient

S. S. Griffin.

Weyanoke August 21. 1817

Dear Sir

This is my fourth letter to you & I have not received one from you, since you left Richmond, I have finished getting hay, & we are Carting & stacking it, & I got Mr West to come over & put up one stack of hay. I have not finished treading wheat yet, I have trod 9 floars & I think we have got 4 to tread now, I think we shall make a good crop, I shall sow the 14 rows in rye saturday next, monday is the day you pointed to begin to get fodder, but I think it is two green & Solomon says he thinks it is two, I have got the 75 rows ploughed up & ready for seeding, I shall begin to get Clover seed now as ~~speedy~~ soon as possible we have not had the chance to get any yet, on account of soo much wet weather, & I do not think we shall be able to get as many as you think ~~they~~ are mightily blown down indeed, the turnips have come up beautiful, & I have replanted them, Solomons foot are a great deal better, The people are all well & myself at this time

I am your most obedient Sr

Sir

I received a Letter sometime ago from your friend Mr. Robert Douthat, requesting me to send you a Box of the Multiflora Cuttings I drop you these few lines by Post to say that I have put on board the Schr. Fanny & Mary Capt. Block, bound to Richmond two Boxes of them directed to the Care of Mr. Charles Palmer, Merchant Richmond, the one for Mr. Douthat, the other for yourself As I have succeeded so well, myself in rearing so valuable a fence, so I feel confident of the same Success with you being so neat, and industrious a Farmer - need not ~~mention~~ ~~repeat~~ to you the necessity of keeping the Plants clean & frequently stirring the Earth around, which promotes growth - As it is impossible to send to all, Applicants Cuttings enough to set out or commence an Hedge immediately, I have observed the Conduct to you as I have to every other Farmer, by sending a Box containing the same Quantity, which will answer to set out in a Nursery Bed in your Garden, from whence you can supply yourself the next year from the Encrease and commence your Hedge, & your Nursery Bed, I would advise, in order to make the most of them, to plant them very wide -

very wide apart in deep trenches, and make each for
Trench the distance of two feet apart, which will
allow the Hoe, plenty of Room to work, For the planting
and setting out a Hedge, see My Communication in the
Farmer No 16. Vol 2 —

Would be happy of a Letter from you at
a future day informing me of the Success of the plant
for which you have my best Wishes

Remain
respectfully

Rec'd by postage charged extra on letters from Salem the amount of $4.83¾ cts in full. Thos. J. Vaiden

Receipts for 1827

My dear Sister

I was [illegible] not being able to go to Glo'ster last Friday on that day the Pastor was too unwell to go and since that time he has been attending to business which has detained him there, but hope to return in a few days.

I trust you have entirely recovered from your illness and may have no returning of the complaint, I was afraid you left Glo'ster before you had sufficiently recovered to encounter the fatigues of travelling.

I wrote to my dear sister last week I am anxious to hear that Robert and Fatherly Lewis Marshall have recovered from the measles do write soon and let me hear something about it.

Elinor's eyes are very weak I would not have her work, tell little Fielding I shall not forget his godmother and to get him like Roberts, and if I have no [illegible] to send it to him, I will send him the money that he can buy it where he goes to Richmond.

Emily is going to Eyre Hall tomorrow, she will be married at her brother-is in June and has promised to pay us a visit at Belle Farm before she returns to Norfolk. I wish Dr. Terril would take a fancy to Glo'ster and buy a farm there, he is a fine young man and I trust Emily may be happy in her choice. She is a most invaluable woman and her friends will be very reluctant to give her up altho' they are sure she will make a desirable match.

Mayo
Charles City County

Fielding Lewis

c[illegible] he will write to you as soon as he gets
to [illegible]ster.
I hope Mrs Price will soon pay Eleanor a visit, Ann Willi-
: amson told me that she intended doing so very soon. When
I was at Weyanoke I neglected to ask you to exchange
two glass pitchers that Eleanor has for those that you
bought at Westover, hers are almost as handsome as yours,
but she is particularly desirous to make the exchange.
D[r] Barraud looks dreadfully and so dejected it makes
one melancholy to see him. Genl Taylor is very well
and always enquires particularly after you.
M[r] Taylor and the family desire to be most particularly
remembered to you and my dear Eleanor. kiss the
children for me, my little boys are well thank God.
Remember me to Miss Nancy.

[illegible]me my dear Father your affectionate daug[illegible]

Frances K. Taylor.
