Cambridge 18 Oct. 1849.

Dear Sir,

Allow me to thank you for the volume containing your Report on the subject of Canal & Rail Road Routes from the Atlantic to the Pacific, which reached me this day by mail. I shall at my first leisure, acquaint myself with its contents. — If it so happens that you have another spare copy, I should be gratified to have it in my power to forward it to a scientific friend in England.

I remain, dear Sir, with great respect.

faithfully Yours.

Edward Everett
