Dear Sir,

I have read more fully since I saw you the account you give of the more recent ~~[illegible]~~ events of our history & I find them so utterly inaccurate as to weaken my confidence in all doubtful facts in ~~our~~ your history & I consider it my duty in no way to promote its circulation among the youth of our country. Your inaccuracies concerning the Kansas Nebraska act, our neutrality laws and the Ostend conference are so plain & palpable as greatly to weaken the credit of the work.

I am very respectfully
