Eyton's Luck.

TUNE.—“*Boney wants a Baby.*”

HAVE you heard the news?

June the Lott'ry draws, Sir,
Fortune don't refuse,

Nor any longer pause, Sir :

Purchase while you may,

And while there's Tickets plenty,

Or else, perhaps, you'll say,

“I've lost the Thousands Twenty.”

Tooral, looral, &c.

Your fortune in a trice,

If you'd quickly make, Sir,

Follow my advice,

And risk a little stake, Sir :

EYTON is the man,

To gratify your wishes,

'Tis only he who can

Bestow the “loaves and fishes.”

EYTON's luck's so great,

'Tis ev'ry day advancing,

Which were I to relate,

You'd think I was romancing.

His house in luck abounds,

In three years he has sold, Sir,

Three hundred thousand pounds

In prizes paid in gold, Sir.

Of Twenty Thousands four,

The Scheme displays to view,

Of Thousands, Twenty-four,

Five Hundreds, Thirty-two.

Then buy of EYTON soon,

Before the Tickets rise,

Perhaps, on 4th of June,

You'll gain a noble Prize.

For surely such a Scheme

Ne'er was seen before,

It seems a golden dream,

Such wealth it has in store,

Your wishes to complete

To EYTON's haste away,

There Fortune you may meet,

And she'll your cares repay.

GOLDEN LOTTERY

Scheme contains
THREE GRAND
PRIZES OF
£30,000.

FIVE Prizes of
1,000 GUINEAS
EACH, TO BE
PAID in GOLD,
As soon as drawn.

Will begin Drawing 5th NEXT MONTH, (APRIL.)

As Contractor for the present State Lottery, I feel great pleasure in introducing to the notice of my best Patrons, the Public, a Scheme, which the experience of Thirty Years enables me to recommend as the most advantageous ever submitted to their inspection. A brief sketch of its principal features will fully illustrate the truth of this assertion, and convince my Friends, that no endeavour on my part has been wanting to accommodate the wishes of all classes of Adventurers.

The present Lottery consists of Fifteen Thousand Tickets, with THREE PRIZES OF THIRTY THOUSAND POUNDS each; a circumstance completely unprecedented; as no former Lottery, even of Sixty Thousand Tickets, was ever known to contain more than Two Thirty Thousands: the chance of gaining so large a Capital is therefore, by the present arrangement, increased five-fold: in addition to which, every Ticket possesses the following exclusive advantage: The Fifth and Fifteenth drawn Blanks on the First Day, and the Tenth, Twentieth, and Thirtieth drawn Blanks on the Second Day, will each receive One Thousand Guineas; and notwithstanding the present scarcity of Gold Currency, will be paid *in Guineas*, in full, without any deduction, *as soon as drawn*. All these advantages, it will be recollected, are exclusive of the usual routine of Prizes contained in former Schemes, of which the present embraces a full proportion; and under all these circumstances I have no hesitation in professing my full confidence of its being honoured with the unqualified approbation of the Public, to merit which has ever been my constant study.

My success in selling Capital Prizes is too well known to need a comment; as I have, for many Lotteries, sold a greater number of Capitals than any other Office-Keeper; and in the Lottery just finished, distributed amongst my Friends FIFTEEN: but I would wish particularly to notice, that of the very few Thirty Thousand Pound Prizes former Lotteries have contained, I have had the good Fortune to share and sell FOUR, *including the Two last ever drawn!* and it would be by no means an unwarrantable conclusion to infer, that a great proportion of those contained in the present Lottery will be also sold at my Offices.

I remain, with the highest respect,

The Public's devoted Servant,

The Lottery leads us past the Reach of Want.

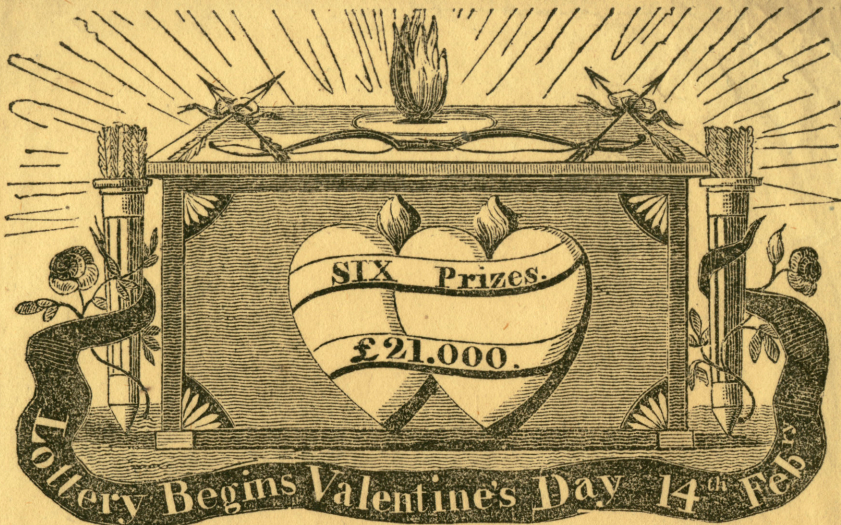

WHAT Parent but must feel his bosom pant,
 To place his Offspring past the reach of want?
 With what so likely can you realize
 A sum sufficient, as a Lott'ry Prize?
 The risk's a trifle, and the Wheel is rich;
 Two THIRTY THOUSANDS are within your reach
 One TWENTY, and One TEN, the Scheme adorns,
 Three of FIVE THOUSAND yet remain undrawn;
 While others, worthy of your strict attention,
 Swell this brilliant list too long to mention!
 A Golden Harvest now your hand invites;
 Go reap the fruits, and revel in delights!

NEXT DAY'S DRAWING,

Monday, Jan. 26.

Great Chance! Small Risk!

A Whole Ticket for only 18 Shillings!—A Sixteenth for only Two Shillings!
IN THE LOTTERY TO BE DRAWN ON

VALENTINE'S DAY,

On which Day, *THREE* of £2,000 will be drawn in the first Five Minutes!
WHICH THE PUBLIC ARE SURE TO GET FOR NOTHING!

J. & J. SIVEWRIGHT, Contractors, as a mark of gratitude for the very liberal patronage they have received, have resolved to present the Public with a new and advantageous Mode of Adventure, by which they can have the chance, with *scarcely any risk*, of all the Capitals which may be drawn on VALENTINE'S DAY, (14th February);

AND THE PUBLIC ARE SURE OF GETTING AT LEAST

THREE Prizes of £2000 for Nothing

As the Holders of those Tickets will each have an Undrawn Ticket presented them, (which at least will cost as much as their Purchase-Money), and by which they may afterwards get *THREE* of £21,000!

Every Purchaser of a Ticket or Share, if it should prove a Blank or a small Prize, or be Undrawn, may receive back for such Ticket or Share in the following proportion, provided it be returned on or before Friday, the 23^d of FEBRUARY:

For a TICKET	which costs	£23 18..0	he may receive back	£23..0..0
For a HALF	which costs ..	12 15..0	he may receive back ..	12..4..0
For a QUARTER	which costs	6..9..0	he may receive back	6..2..0
For an EIGHTH	which costs	3..5..6	he may receive back	3..1..6
For a SIXTEENTH	which costs	1 13..0	he may receive back	1 11..0

Now as Three of £2,000 are sure to be drawn in the first Five Minutes on Valentine's Day, every Purchaser of a Whole Ticket before the 14th February, (supposing no other Capital to be drawn that Day,) has the certain Chance of £2,000 for 18s.—and even a Sixteenth may have the chance for all the Capitals for only Two Shillings. But should any of the SIX Prizes of £21,000 be drawn on that Day, his proportionate gains would be more than ten times the above Sums. On the other hand, should his Number be drawn a Blank or a small Prize, *his loss is a mere nothing*; or if it is undrawn, and the Wheel poor, he need not stand the chance of the succeeding Day's Drawing, but may receive back his Purchase-Money, (with the exception of the above trifling deductions,) provided, as above stated, he presents his Ticket or Share at the Office where it was purchased, on or before Friday, the 23^d FEBRUARY. The Scheme is immensely rich, and contains, besides a variety of other Capitals, in Money and Consols.

SIX of £21,000!

EXPLANATION.

This Lottery consists of only 5,000 Numbers (from 1 to 5,000 inclusive); but there are Four Tickets of each Number, which will be severally entitled to whatever Prize is drawn against such Number; for instance, if No. 1 should be drawn a Prize of £20,000, the Four Tickets of that Number will each be entitled to £20,000, making, in the whole, £80,000; so that if any person should purchase more than One Ticket of the same Number, and that Number prove fortunate, the Gain will be,

By Two Tickets of the same Number,

A Prize of - - - £40,000

By Three Tickets of the same Number,

A Prize of - - - £60,000

By Four Tickets of the same Number,

A Prize of - - - £80,000

And all other Prizes in the same Proportion.

We beg leave respectfully to lay before you the Scheme of the present State Lottery, which we trust will meet your approbation, as it affords a superior chance to adventurers, and prevents insurance, an evil hitherto attendant on Lotteries.—TICKETS and SHARES are on sale at our Offices,

No. 11, POULTRY;

SWIFT & CO

London, England, 1900

Great Chance! Small Risk!

A Whole Ticket for only 18 Shillings.---A Sixteenth for only Two Shillings!
IN THE LOTTERY TO BE DRAWN ON

VALENTINE'S DAY

On which Day, THREE of £2,000 will be drawn in the first Five Minutes!
WHICH THE PUBLIC ARE SURE TO GET FOR NOTHING!

J. & J. SIVEWRIGHT, Contractors, as a mark of gratitude for the very liberal patronage they have received, have resolved to present the Public with a new and advantageous mode of adventure, by which they can have the chance, *with scarcely any risk*, of all the Capitals which may be drawn on VALENTINE'S DAY (14th February);

AND THE PUBLIC ARE SURE OF GETTING AT LEAST

THREE Prizes of £2000 for Nothing!

As the Holders of those Tickets will each have an Undrawn Ticket presented them, (which at least will cost as much as their Purchase-Money,) and by which they may afterwards get THREE of £21,000!

Every Purchaser of a Ticket or Share, if it should prove a Blank or a small Prize, or be undrawn, may receive back for such Ticket or Share in the following proportion, provided it be returned on or before Friday, the 23^d of FEBRUARY:

For a TICKET	which costs	£23 18.. 0	he may receive back	£23.. 0.. 0
For a HALF	which costs..	12 15.. 0	he may receive back..	12.. 4.. 0
For a QUARTER	which costs..	6.. 9.. 0	he may receive back..	6.. 2.. 0
For an EIGHTH	which costs..	3.. 5.. 6	he may receive back..	3.. 1.. 6
For a SIXTEENTH	which costs..	1 13.. 0	he may receive back..	1.. 11.. 0

Now as Three of £2,000 are sure to be drawn in the first Five Minutes on Valentine's Day, every Purchaser of a Whole Ticket before the 14th February, (supposing no other Capital to be drawn that Day) has the certain chance of £2,000 for 18s.—and even a Sixteenth may have the chance for all the Capitals for only Two Shillings! But should any of the SIX Prizes of £21,000 be drawn that Day, his proportionate gains would be more than ten times the above Sums. On the other hand, should his Number be drawn a Blank or a small Prize, *his loss is a mere nothing*; or if it is undrawn, and the Wheel poor, he need not stand the chance of the succeeding Day's Drawing, but may receive back his Purchase-Money, (with the exception of the above trifling deductions,) provided, as before stated, he present his Ticket or Share at the Office where it was purchased on or before Friday, the 23^d FEBRUARY. The

Wheel is immensely rich, and contains, besides a variety of other Capitals, in Money & Consols,

SIX of £21,000!

AND NOT TWO BLANKS TO A PRIZE!

TICKETS AND SHARES ARE NOW ON SALE BY J. & J.

As the Holders of these Tickets will each have an Equal Chance Ticket presented them (which is worth well over a pound in their Pocket-money), and by which they may afterwards get THREE of £2,000!

Every Purchaser of a Ticket or Share, if it should prove a Blank or small Ticket, or be returned, may receive back for such Ticket or Share in the following proportion, provided it be returned on or before 14th of FEBRUARY:

For a TICKET	which costs	£23. 18. 0	he may receive back	£23. 0. 0
For a HALF	which costs	12. 18. 0	he may receive back	12. 4. 0
For a QUARTER	which costs	6. 9. 0	he may receive back	6. 2. 0
For an EIGHTH	which costs	3. 4. 6	he may receive back	3. 1. 0
For a SIXTEENTH	which costs	1. 13. 0	he may receive back	1. 11. 0

Now as THREE of £2,000 are sure to be drawn in the first Five Minutes on VALENTINE'S DAY, the Purchaser of a Whole Ticket before the 14th of February, (employing no other Capital) is to draw that Ticket, and has the certain chance of £2,000 for 10s.—and even a Sixteenth may have the chance for all the Capitals for only Two Shillings. But should any of the SIX Prizes of £2,000 be drawn first Day, his proportion of the prize would be more than ten times the above sum. On the other hand, should his Number be drawn a Blank or small Ticket, his loss is a mere nothing; or if it is returned, and the Whole paid, he need not stand the chance of the succeeding Day's Drawing, but may receive back his Purchase-money, (with the exception of the trifling deduction), as before stated, he presents his Ticket or Share at the Office where it was purchased on or before Friday, the 28th FEBRUARY. The Whole is immediately cashed, and contains a variety of other Capitals, in Money & Consols.

SIX of £21,000!

AND NOT TWO BLANKS TO A PRIZE!

TICKETS AND SHARES ARE NOW ON SALE BY J. & J. CONNELL, 11, HOLBORN; and 38, HAYMARKET, LONDON. AND BY ALL TRADING AGENTS IN THE COUNTRY.
