County Court,

Huddersfield, May 2 1871

Ans^r: Referring to your most
proper letter in the Standard under
the head

Our Future Harbours.

I hope to say that I farm 300 acres
of land situated 1000 feet above the
level of the sea.

I can grow wheat & oats as perma-
nent crops against the world
but it is essential that I should
also produce oats and barley in
the way of succession of crops taken
for the purposes of the farm.

My plans & harvest are both late and both just after what we have
the wish of time - consequently it becomes an annual speculation
whether my crops shall be raised in good or bad condition -
even if I prospered an extraordinary day that of course at a
private estimate it would be a great blessing to me - I mean
the private estimate of the I mean private I mean I shall take
it a great favour if you will say whether in your opinion with
a farm of 300 acres it would be prudent in me to go to the
expense of making myself independent of weather according to
your business -
I am sorry for this butting you I thank you for the
information conveyed by your letter I am
Yours faithfully
W. H. Huddersfield

I shall only be at home from

I shall not get to Dublin until
