My dear Colonel,

I wrote you a few days ago (at the Club) saying that I should be glad to avail myself of your kind promise, & to ask you to lend me £25, which shall be faithfully returned out of the funds I have coming in after Xmas

Frankly speaking, I suggested that you loan here should be increased to £150, partly thinking that you would probably want some balance to prevent you from sacrificing the Bank shares until they reach a better price (as I reckon they will) & partly with a view to asking you to let me have a little portion until you should require it — I of course paying the interest on such portion.

Dear Edward

Although not having the pleasure of knowing you several friends of mine who are intimately acquainted with you have advised me to solicit your influence with his Excellency as to the appointment of Resident Medical Superintendent of the Ennis Asylum. The appointment will be made for Dublin and once this office (when the Lord Lieutenant was in power) was sot for the gentleman who lately held it through Col. Vandeleur then member for Clare. I think you should have a voice in the matter.

Mr Matt. Kelly desires me to send you a copy of Resolutions, Testimonials &c which I do by this post. They speak for themselves as to my claims qualifications, recommendations etc.

My dear Colonel

I enclose you reports on Mr Kettle's case, made by Professor Sigerson & myself. I may tell you I consider Sigerson the best opinion in Dublin on the particular class of cases to which poor K. has the misfortune to belong. You will notice the closing paragraph

esteem very highly, I was present when he was examining K. & told him my ideas on the case that was all he did not express to me what he thought regarding the case as a fact I think it much better a man coming to examine under circumstances such as he came, shouldn't express any opinion except to those who sent him. I cannot believe it possible any man carefully considering K's case could come to any other conclusion concerning

Lipersons report. Well, I
regret sincerely that his
case no symptoms of relief to the
treatment. On the contrary
I am sorry to say he is
becoming daily worse. You
may not be aware that his
pecuniary affairs are not
in the most flourishing condition.
This is of course entirely hors.
and alters the fact that
his wife has only just passed
through a very severe illness
& is still extremely delicate.
It passes my comprehension
how any set of men laying
claim to humanitarian
motives can remain it
with such motives to keep a
man in K's state any longer
under conditions certain
to be most detrimental if
not fatal. If his symptoms
do not depend on rheumato-
-idal poisoning I entertain
little doubt of his future
as organic brain disease
must always have a most
gloomy outlook. You were
in error in supposing that
a consultation on his case with
Dr Gordon who I know well

never make is more than I understand, since at any time they can "run him in" again should he attempt any thing they don't like. The fact is every Man here knows very well he can do nothing in this Country were he out of this tomorrow but it is the simplest nonsense asking for promises under the circumstances. I know I have not an easy moment here while K.D.S. and Mon account of my knowledge of them conditions but moreover because I am tantalized every day, by the other men here

that are prepared by Lyerson Myself. I know K will not make any promises NO Man here will but I know also as a matter of fact he intends devoting himself to his own business if he leaves this, but first he will go to Whatever place either for change simply, or Drink waters which Lyerson & I may direct him. My present idea is that he should go for or Mentone for a Month or longer if necessary, but this is

for the reasons I have given he cannot remain away more than a couple of months I can answer for his obeying me in this. Since I saw you this evening our poor friend Dallas has had a very serious attack, I am sorry to state I daily expected to hear of his death. He has been gradually failing for past 2 or 3 weeks though I was making no complaint. The complete collapse brought. He was seized with most violent vomiting a most dangerous thing for a man in his state of health. Medical assistance. Both the poor Physicians most kind & good fellows came at once to see him with me when I sent for him. With his poor fellows it will be only a matter of time if he remains here long. What his exact movements might be were he out of this I cannot say, but I believe he intends going to London with his brother & remaining there till Parliament opens. Why they should hesitate about letting him out without a promise which he

asking me why I don't do so
some thing to get them out as
if I had anything to do with it
Every one however notices the
great change that has come
over Kettle especially if
they can't believe if his case
were properly represented
he would be declared Innocent.
With regard to our friend
O'K Conway when you
spoke to me this Evening you
may not be aware that he
was about to leave Ireland to
fulfil a lucrative Lecture
Engagement which he was

arrester, for what no one can understand as he is and of the most inoffensive character towards the whole world party. I think as a matter of fact if he were at large tomorrow two days would not find him here. I am sorry to say I believe there is a very faint chance of his losing the enjoyment of the sunshine here much longer. He is not at all in good health and wanted looking after before he came here at all. Indeed I believe his press business would have been also a health town on which he would not be somewhere about the Riviera.

Many thanks for your kind visit

Yours truly

Colonel,

I send herewith the Memorial we were speaking about this evening.

I am satisfied that Mr. Gladstone, who knows you so long and so well, will not refuse the prayer of that Memorial, when sustained by you.

I am not unknown to Mr. Gladstone; for it was my privilege to have been strongly recommended to him by the illustrious Lady Herbert of Lea, for the post of a

Resident Magistrate in Ireland. But it would appear that, because of the humble but honorable status which the vicissitudes of my family have assigned me, I was considered ineligible for that modest post.

Vae miseris Hibernis!

It is not for me, however, to say whether Her Majesty's present Administration acted wisely or unwisely in ignoring the influence of the House of Herbert. One thing is certain, and that is, that if the lamented Lord Herbert of Lea lived, no Member of Mr. Gladstone's Administration would refuse the Lady Herbert's request in my regard! And it is equally certain that Lady Herbert would not recommend me for an R. Mastership, if I were, on the score of lineage or education, ineligible for the appointment.

If you can serve me in any way I shall feel grateful and obliged.

Your ever faithful servant,

John O'Hart.

First Lord of the Treasury, etc.

The humble Memorial of John O'Hart, of Ringsend, Dublin,

Showeth:

That Memorialist has spent a life-time in the field of Irish Archæological research, of which his "Irish Pedigrees" is the modest outcome: a work, which, while it unveils the ancient Irish, and many of the Anglo-Irish and Anglo-Norman genealogies, caters to the prejudices of no sect or party.

That, in consideration of Memorialist's services in that weary field, and (see pages 177-195 of the 3rd edition of "Irish Pedigrees") of the vicissitudes of Memorialist's family, the late Earl of Granard was in December 1880, pleased to recommend Memst. to you, Sir, for a suitable Literary Pension from the Civil List, as a provision in his old age; but, up to the present, Memst. has received no reply to that Memorial.

It is therefore that, lest that Memorial miscarried, or was by any means mislaid, Memorialist again prays that you, Sir, in the gracious exercise of your Authority, as First Lord of the Treasury, will be so good

sol. to grant him such a Pension, as above mentioned; and he shall ever pray &c.
