Dear Sir

Bearing through

Mr S. L. Nicholas of your city that
you were preparing for the "Wilson Club"
a biographical ^{sketch} of my Great Grand Father
George Nicholas I am sure that anything
giving information in regard to his
political life would be acceptable
to you I herewith enclose you the
only manuscript of his in my
possession which though quite lengthy
does not appear to be all that
was written by him, — at that time
Still you may be enabled to get
something out of it. Some of the
ideas set forth ^{while purporting of a different proposition} very forcibly combat
the constitutionality of the reciprocity
Tariff scheme of the present day
