My dear Miss Talbot:-

The Convocation orator at the next Convocation, December 20th, will be Miss Jane Addams. I do not wish, because she is a woman, to seem to lay emphasis upon the woman side of the University, but it seems to me that inasmuch as she is a woman, and we have had so few women act in this capacity, the occasion is one which the women of the University should recognize. I should be glad to have you consult with some of our women, among others Miss Reynolds, Miss Wallace, and Miss Breckenridge, and whoever else you desire, and indicate to me what in your opinion would be proper, if anything, in the way of special recognition of Miss Addams on this occasion.

Yours very truly,

My dear Miss Addams:

I am sending you twelve tickets to the Convocation next Tuesday evening. If you desire more, I shall be very glad to supply them.

You were considerate to send us your photograph so promptly and to promise us a copy of your address. President Harper has informed me that you will not be at his dinner Monday evening, but that you will attend the reception. We shall be glad, therefore, to count upon you to receive with President and Mrs. Harper, Professor Pais of Naples, Mr. Gifford, the Convocation Chaplain, and possibly others. Could we help you by furnishing a carriage from the Fifty-seventh Street station to Hutchinson Hall, or for the return, or would anything else that we could provide contribute to your comfort? We are anxious to do everything that we can to make your presence at the coming festivities comfortable and easy. We are sorry that you cannot be with us at all of the exercises, especially the Matutinal on Tuesday, but we appreciate your situation and are very glad that you can favor us as much as you can.

Yours very sincerely,

Miss Jane Addams,

Hull House,

Chicago, Illinois.

P.S. You will understand that our desire to provide a carriage or assist you in any other way, applies to both Monday and Tuesday evenings.

My dear Miss Addams:

I desire to thank you for the corrected
proof of your address which will be the copy used in the
preparation of the University Record for January. The other
proofs were designed simply for the press. The reporters
were able to get the title from the Convocation program.

It is I who have you to thank for the pleasure of the
Convocation period. I value very highly the privilege of
helping you even a little on that occasion.

Yours very truly,

Dear Miss Addams:

I have the honor to inform you that by action of the University Senate and of the Board of Trustees, you are to be awarded the honorary degree of Doctor of Laws at the One Hundred Sixty-second Convocation which will be held December 23, 1930, at 5 p.m. President Hutchins informs me that through conversation with you he understands that you will be able to attend the Convocation on that day. The President hopes that it will be convenient for you to meet him in his office in Harper Memorial Library a half hour before the Convocation.

President Harry Pratt Judson
The University of Chicago

Dear Mr. Judson: -

My attention has been called to the last weekly calendar of the University Aug 11-18 which contains the announcement that a "Reception in Honor of Miss Jane Addams by the Women members of the Faculty" is to be given on Friday the 17th.

However much we may honor Miss Addams for her generous work in philanthropy it seems to me ill-advised, to say the least, to give her any special distinction at the present moment, when the reason for honoring her might not be entirely clear.

I was not consulted in the matter and I protest against the wording - "Women members of the Faculty"

I do not know who is responsible for the function but I am sure it is an unfortunate blunder, as no one could wish to involve all the women of the Faculty in such a step as this without previous consultation

Very sincerely yours

Dear Miss Breckinridge:

Your note of the 15th inst. is received. I instructed Mr. Robertson to telephone you on the matter, and to say that the reception should not be recalled. Of course I would not consent to anything which would involve a discourtesy to Miss Addams. I may say, however, that the note I sent you was only one of many which I have received. The feeling is pretty strong on the part of a large number of the faculty with regard to certain of these so-called peace activities. Such activities at this time are merely giving aid and comfort to the enemy, and what that means you know. We cannot permit the University to be used when the nation is at war as a base for anything approaching disloyal operations. I merely suggest that anything which comes to your knowledge involving any relation to war activities would involve the advisability of conferring first with the President's Office in the matter.

Very truly yours,

My dear Dr. Harper
Dec. 19th, 1895.

My dear Dr. Harper:-

Your courteous letter giving an explanation in regard to the rumor of the transfer of the Hull-House property to the University has been received, for which I thank you very much indeed.

Of course, we must feel that any absorption of the identity of Hull-House by a larger and stronger body could not be other than an irreparable misfortune, even although it gave it a certain very valuable assurance of permanency. Its individuality is the result of the work of a group of people, who have had all the perplexities and uncertainties of pioneers. This group are living in the 19th Ward, not only as students, but as citizens, and their methods of work must differ from that of an institution established elsewhere, and following well defined lines. An absorption would be most unfair to them, as well as to their friends and supporters, who believe that the usefulness of the effort is measured by its own interior power of interpretation and adjustment.

I personally, of course, realize that the mere transference of the fee would not necessarily work an intrinsic change in our relation before 1920. Yet that the statements in the Tribune Sunday morning should have called forth the comments of the press as well as so many letters and messages, makes plain the popular impression that this transference would give the University an authoritative influence over Hull-House. Such an impression would

work most disastrously to our institution, and require constant explanation which would be embarrassing for the sociological department of the University as well as for ourselves.

While I feel thus strongly that the best work of Hull-House will be done as an independent body, I am sure you know that we are very grateful for the help that the University has always tendered Hull-House. Only this winter we have had from the University Extension department, free of charge, a lecture course by Dr. Gould. I should be very glad of co-operation in the proposed West Side Lectureships, not only on the subjects you name, but upon any others which you may be able to establish on this side of the city.

We have undertaken Food Investigation under the direction of Mr. Atwater of the United States Department of Agriculture, and often come, both to the end of our laboratory resources and of our chemical knowledge. A careful and persistent research should be made in the foods of the foreign colonies.

I certainly congratulate you most heartily in the increased work which you will be able to do through Miss Culver's very generous gift, and I rejoice that Mr. Hull's estate, like that of the Peabody may be associated, not only with practical working class problems, but with institutions of learning.

It would give me great pleasure to have a conference with you, and I shall be glad to meet any appointment which you may name.
