Dear Dr. Harper:-

A negro woman of Memphis, Tenn. who has a son, as I understand from Dr. Goodspeed, in Morgan Park, wishes to enter her daughter here at the opening of the new year. I assume that it is our duty to receive this girl, but I prefer to have your written statement before doing so. Please let me hear from you right away.

Mr. William P. McKee,

Dean The Frances Shimer Academy,

Mt. Carroll, Ill.

My dear Mr. McKee:- Yours truly,

I have discussed the case of the student from Memphis, Tenn., and while I do not wish to pass upon the matter authoritatively, I would suggest that you go slow,- in other words, I doubt very much the wisdom of this step.

Yours very truly,

A Committee has been appointed on the Presidency, and the Committee has been waiting for me to come back from New York, and I think they want you to take hold. I think, however, that your plan for a Doctor's degree is a good one and only second to the Des Moines Presidency. Both points are well taken and worthy of consideration. Let us see what is best to be done.

Dear Dr Harper:- I have decided, in case nothing comes of the Des Moines business, to enter the University to work for the Doctors degree, if I can get your approval and the consent of the trustees of the academy. My wife can do my teaching and I can keep up the business by being here a part of the week. I had hoped to have the Des Moines business brought to a focus before this in order that if I should enter the University I might do it for the Winter quarter, but I have heard nothing

(4) MT. CARROLL, ILL., Jan. 30, 1903.

Dear Friend:-

You will be interested in the statement up to date with regard to fuel this year on account of the new arrangement, using the steam heat in all the buildings. The statement is as follows:-

Cost of fuel July 1, 1901, to Feb. 1, 1902, $550.00.

Cost of fuel July 1, 1902, to Feb. 1, 1903, $333.62.

If this proportion should hold good for the rest of the year, the total would be as follows:-

Expense for fuel last year $1049.00.

Expense for fuel this year $632.00

Saving $417.00.

$75.00, of this would be due to free wood from the Shimer estate, and the balance absolutely due to steam heat plant.

Another item of interest is in receipts on account of school bills up to date.

Last year to February 1, $7708.00.

This year to Feb. 1, $8549.00.

Notwithstanding unexpected and disappointing loss in pupils, new ones have kept coming so that it is still probable that the outcome for the year will be about as was predicted in the budget adopted last June.

What are we going to do to celebrate the fiftieth anniversary next commencement? I think you will all agree that something beyond the ordinary should be attempted, and if so, we must get at it right away.

Yours truly,

W P McKee

P.S. The budget allowed $1.30, per week for each member of the household for provisions. The outlay in cash for the first half of the school year is less than $1.15, each.

D. Harper - The people here want you not to fail to be present at Fiftieth Anniversary June 9. 1903. Will you not do it?

Will it not be better after all for you to come out here Tuesday evening, June 9th, and call the trip a vacation? We could then have the Trustee meeting Wednesday morning and Wednesday afternoon the members of the senior class give You Like It on the campus. In that case you could see what you please of the play and give the receptions a little while Tuesday evening, and we would have time for a buggy ride Wednesday afternoon, and you would get a real breathing time out of it.

I wish, through you, to extend to Mrs. Harper a very cordial invitation to be present with you.

Yours truly,

My dear Mr. McKee:-

I have your note concerning the dates. I appreciate your suggestion about the vacation. The trouble is that it is not a vacation; it is visiting, and it is really hard, hard work. I am so near the point of desperation (and you must have noticed this at our last interview), that I hardly know what to say. I should not be surprised if a break were to come before the date of your commencement. It seems to me that the pressure is harder every day. I think, however, that it is better to do what you suggest.

Twenty years ago, when three or four thousand dollars seemed as much as three or four hundred thousand seems to-day, you helped me get that amount in an important crisis. I find that I must raise about $5,000 or $6,000. within the next week. I can pay it back in the course of two years. I do not of course wish to pay a high rate of interest, but I wish to pay what it is worth. There are good reasons, as you can see, why it is not best for me to borrow from a Chicago bank. Do you see any way to help me?

Dear Dr. Goodspeed:-

As I understand it, in response to my suggestion, Dr Harper has changed the plan for the visit to Mt. Carroll. He now says that he will come out Tuesday evening, June 9th, reaching here at 8:40 P. M. In that case, the Trustee Meeting will occur at nine o'clock Wednesday morning, June 10th. Please let me hear from you at once about this, as we are just about to issue some detailed announcements for Commencement, and wish to get the hour of this meeting correctly stated.

I will call attention to the fact that the train that stops here for Chicago in the early morning, leaves here at exactly 4 o'clock, reaching Chicago at 7:55. Another train leaves here at 6:20 and gets to Chicago at 9:30, but it does not stop. It occurs to me that Dr. Harper and you would like to ask to have that train stop, in order that you can have 2 1/2 hours more sleep. There is another train also, at 5:20 in the morning which does not stop, but the 6:20 train is the Limited, the best on the road.
