

CONFIDENCE NOT RESTORED.

The people of the State who have the interests of Stetson University at heart have been breathing easy since the announcement Forbes had tendered his resignation. Now it is hinted that he will not be allowed to resign." Without passing upon the guilt or innocence of Prof. Forbes, we have felt ever since this unfortunate affair came up that the only salvation for the college lay in the Doctor's resignation. Under these circumstances it would, we believe, prove more disastrous than ever for the resignation to prove an other scheme for applying the white wash brush.—Tallahasseean.

When Forbes' resignation was unofficially announced many of the friends of the institution naturally hoped that the end of this University trouble was in sight, hoping that the resignation would soon be accepted, a successor appointed, and that this university scandal would become a thing of the past. Many, however, doubted the sincerity of the move in the light of past events; they suspected another deception, and that Forbes and his friends were playing another card with the hope and intention of retaining control of the affairs of the institution, and he to continue drawing his salary of \$4,000 per year. His temporary retirement on full pay created a belief on the part of these people that the reported resignation had a string tied to it and that Forbes intended coming back.

To allay such suspicion the Record wrote to Dr. Chaudoin, chairman of the Board of Trustees and in whose hands the resignation is said to be, for a copy of the document, stating its reasons therefor, enclosing a self-addressed stamped envelope for reply. To its surprise simply the self-addressed stamped envelope was returned with not a word or a line from this official of the Board.

There has never been any official confirmation of the report that Forbes had tendered his resignation to the Board of Trustees. If Dr. Chaudoin has it, why did he refuse to say so? Why does he not officially confirm it and assure the public that such a document is in his possession with no string tied to it?

This suspicion of another scheme, as referred to by our Tallahassee contemporary, is prevalent over the State, and confidence will never be restored until Forbes' resignation has been accepted by the Board of Trustees and his successor appointed, and this could have been done ere this had Forbes and his friends the best interest of the school at heart. If they had such regard for the school they would have taken this step six months ago.

The recent bitter article appearing in the Baptist Witness by its editor J. C. Porter, and field agent Sparkman, a trustee, against those who have been working for the purity of the institution, give color to the suspicion that there is a scheme hatching to return Forbes at all hazards; that there is no intention of giving him up. Two of the prominent Majority Trustees are reliably reported to have said that they "would see the town and the institution sink into hell before they would give their dear friend Forbes up." If they are so intoxicated with a love for Forbes why is it the woman from Tampa never comes in for a part of their affections? She too, evidently in their opinion, is persecuted and why should she not share in their admiration?

~~Drawn from an endowment fund presented the institution by Mr. Stetson,~~ Porter and Sparkman have been traveling over the state the past summer denouncing the course of Mr. Stetson and his friends for contending for the purity of the college, and shedding tears to the people for Dr. Forbes and never a word have they been known to say in behalf of the other party to the suits against the benefactor of Stetson University. They would have shown some Christian spirit, they would have performed a better service, had they advocated to the Baptist denominations of Florida the return of the half million dollars of which Mr. Stetson has been robbed. Instead, they are using his money to poison the minds of the people against him, and to squeeze a cool million out of him through the courts, simply for the reason that he contends for the purity of the institution which bears his name. Mr. Stetson, however, can rest in the conviction that the great majority of the people of Florida are with him, and that their seal of condemnation has been placed upon those Trustees who have permitted this deplorable condition to continue at the institution by the retention of Forbes.

While Forbes will be absent until February his official name is with the institution and everything will be run by his direction. Before he left here last spring he said that if he had to resign he would fix matters before he did so that Stetson could never have anything more to do with the institution.

If John B. Stetson has not been robbed of the half million dollars he has put into the University what other word can you use and be honest in the statement?

RECO

1903.

The Crown.

There is no mention of crowns before the eighth century after Christ. The crown really did not become the head covering of kings until the times of the Christian rulers after the might and power of pagan Rome were broken.

Before those days the crowning was done with a helmet. This change in the method of crowning the rulers is typical of the changes that occurred in the spirit that animated nations and races in the selection of their kings.

The first kings and chiefs, after the world had emerged from the patriarchal forms of government, were selected almost altogether for their prominence as leaders in war. Thus gradually, the chief of the army became the chief of the nation. Almost all the ancient kings were military despots. Then, with the prevalence of Christianity and the overthrow of the old governments, came the new rulers who claimed to rule by divine right. They, too, were almost all military despots, especially in the beginning, but the world had progressed far enough to demand more proof of authority to rule than mere brute power.

Travels of a Bullseye.

A German scientist says that if a marksman at noon on a cloudless windless day sets his rifle so that it will cover the bullseye of a target the gun will in the same position the next day, if it also happens to be cloudless and windless, shoot "high left." "The bullseye is apparently attracted by the position of the sun or of any other luminous point," says the scientist, "and apparently during the day follows the course of the sun in a semicircular line on the target."

This seemingly changed position of an object under the changing influence of light cannot, he thinks, be produced by refraction nor by the changing temperature of the air nor by changing barometric pressure. The change of position is instantly responsive to the sun breaking through a cloud. It cannot be akin to mirage, because the shooter would then have to lower his gun at noon instead of elevating it as he now does.

One of the Only "Kel's" Plays.

An ancient baseball fan tells this story to illustrate the quickness and trickiness of Mike Kelly, the one time king of the green diamond:

"A game between Boston and Washington was played at Beantown. Charlie Bennett was catching, and Mike Kelly was sitting on the bench when a foul which Bennett could not possibly get goes up in the air toward the bench, and Kelly, being captain, yells to the umpire that he will put Bennett out of the game, and at the same time he puts on a mitt with lightning speed and catches the ball. He then tries to make the umpire allow the catch, but the umpire, after wrangling a long time with Kelly, decides the ball was in play and Bennett could not be removed from the game until the ball had been caught by a player in the game, so he ordered the batsman to hit over. This was quick thought of Kelly, even if it did not work."

Glory.

Glory is but a transient dream that gives color to a sleep bespangled with illusions of greatness; a mirage, glittering, but unsubstantial, hovering above the oasis in the desert of life at whose fountain many a weary traveler would quench his burning thirst that he may press on to grander heights. It beckons us on to where the broad light plays on countless graves of those once called great, but now forgotten, upon whose gravestone is chiseled the mocking phrase, "Sic transit gloria mundi." How often does the victor, spent and worn, look around for the laurels and the peace he has earned, only to find the bubble burst, the colors faded.—Roanoke Times.

Tortillas.

Tortillas, the Mexican substitute for wheat bread, are made from selected corn. The kernels are boiled soft in limewater and after being thoroughly washed are rubbed between the hands to remove the outer husk. They are then ground while wet to a soft mass with stones or a peanut butter mill, patted into thin cakes, baked on a dry griddle and eaten while still hot.

Somewhat Inconsistent.

Sir Hartley Williams, a celebrated judge of Australia, said he once knew a pious lawyer who was in the habit of praying for clients. "Imagine," exclaimed the judge, "the insult to the Almighty contained in the request that he should stir up strife among people, foment discord and promote litigation just to serve the selfish purposes of this pious solicitor."

True Philosopher.

"Well, sir, lightning sot his house afire, a airthquake swallowed half his land, an' then the river riz an' overflowed the whole business!"

"Well, what's he a-doin' of now?"

"Thankin' the Lord that he kin swim!"—Atlanta Constitution.

Hard to Meet Them, Though.

Miss Romantique (ecstatically)—I guess in Bohemia every one is Tom, Dick and Harry.

Painter Lott (a poor artist)—Oh, yes, and there are a good many bills there too.—Indianapolis Journal.

Feeless Information.

Mr. Tytephist (at the club)—By the way, doc, what is good for indigestion?

Doctor (fellow club man)—Well, a Welsh rabbit is sometimes good for about three days of it.—Chicago Tribune.

One thing is clear to me—that no indulgence of passion destroys the spiritual nature so much as respectable selfishness.—George MacDonald.

The Trustees Should Act.

The Star agrees with the Tallahasseean and Record. Those who have read the Star regularly know where and how the editor has stood all the while on the matter, and when it was reported that Dr. Forbes had resigned from the presidency we were more than glad, because we believed that by such a step alone was there hope for Stetson University. The majority of the trustees may be perfectly honest in what they have done, but we believe they have been making a great mistake by keeping Dr. Forbes there after they had seen the scandal would not down, and to refuse or neglect to accept his resignation we consider not only unwise, but absolutely unjust. The trustees must know—they certainly do know—that a very large majority of the people of Florida think Dr. Forbes should get out. Dr. Forbes knows this himself, and if he has sent in his resignation why should it not be acted upon? If Mr. Chaudoin has Dr. Forbes' resignation in hand why should he refuse to say so to the press, when he knows that the public is deeply interested in the matter? There should be no humbugging about the matter. If Dr. Forbes' resignation (without a string to it) is in it should be accepted, and if not in it should get in without further delay, and when in it should be accepted.—Gainesville Star.

excel in that. Sugar lands were selected for that in reference to any other before the change of flags and when Florida was Spanish province. And last but not least if you want the finest beach in the world (so declared by the automobile racers) and one of the prettiest towns in the country, with fine hotels, beautiful drives, sub-tropical scenery in all its glory, where there is sport for the angler in such abundance that it becomes monotonous. Then come seabreeze, there is no other place in Florida or anywhere else more attractive to visit or live in.—Seabreeze.

Political Opinions of the Press.

Up in the good State of Georgia, the people say that Bob Davis is sure to be Governor of Florida, for the reason that the old red hills of that great State stood sentinel at his birth.—Times-Union.

The politician can readily see that the Congressional fight in the Second district will be between Dougherty and Barrs, with the chances of success decidedly favorable to the Vossia candidate.—Ex.

As the present political campaign in Florida seems to be along spectacular lines, how would it do for some candidate to secure a tandem team of ostriches to drive through the country on his canvassing tour?

Here is about the way the Congressional race looks to us:

McDonald,
Alexander,
Barrs;
Clark,

Mins.

THE VOICE OF THE COUNTY

RIGHT AND JUSTICE.

SATURDAY, OCTOBER 3,

A PROPER ROAST.

S And now will the Miami Record kindly explain how the T.-U. differs in this respect from any or every newspaper in the state, or outside the state, where the publication is not owned by the editor? A very small proportion of the daily papers are owned by their editors. On most of them the editorial writers are hired and work for wages. This is especially true of all the great dailies, in which class we reckon the Times-Union. The Record says: "We are not here for the purpose of attacking any interest that has aided in the wonderful upbuilding of this favored portion of Florida." Then why the above attack on the T.-U.? What newspaper in Florida has aided more in its wonderful development? What man has done as much to the same end as the owner of the T.-U.? How does it come to pass that Miami has grown and prospered and the country surrounding it is rapidly being filled up with the "homes of thousands of farmers, fruit and vegetable growers so that "the proprietors of the Record are thoroughly convinced that this city and Dade county have before them a future which no other section of the State of Florida can offer"? The Record now proposes to plant itself right there to reap the benefits of all that, and begins its existence by an attack upon the Times-Union and its owner, who is the creator of all the conditions which make that existence possible. If such is to be the course of the Record in Miami the spirit which actuates it is despicable.—Pensacola Press.

Beard to Jennings.

Mr. John S. Beard has written a second "open letter" to Gov. W. S. Jennings.

The distinguished Pensacolian claims that the governor's recent declaration of principles as enunciated in his announcement declaring himself a candidate for United States senator is not consistent with his past political record.

Examining the journal of the proceedings of the legislature of which body Gov. Jennings is a member, Mr. Beard finds that the governor voted against

THE VOL

DR. FORBES' RESIGNATION.

The Atlanta Journal of Thursday last contained a special dispatch from DeLand, Fla., announcing the settlement of the serious difficulties which had arisen between Mr. John B. Stetson and President Forbes of Stetson University. According to this dispatch, Dr. Forbes had surrendered everything, tendering his resignation as president, accepting a leave of absence on full pay until the trustees acted on the resignation in February next, and withdrawing his heavy damage suit against Mr. Stetson. We learn from a prominent Florida brother that this statement is not correct, inasmuch as the matter is not settled, but only that it is in process of settlement by arbitration. Furthermore, the statement is entirely onesided, in that it does not set forth the fact that Dr. Forbes has demanded, as a prerequisite to any arbitration, that Mr. Stetson shall withdraw all charges made against him, and that the consideration of damages shall be submitted to the arbitration instead of the courts. Dr. Forbes' resignation is in the hands of the president of the board of trustees, to be acted on in February, by which time the present negotiations will have been concluded. This Dr. Forbes has done to relieve the school of any injury that might come from his presence during the pending negotiations. Meantime the University has prospects of large attendance, and the work will go on as usual.—Christian Index.

The above appears in the editorial columns of the Florida Baptist Witness, and is a fair specimen of the rot which that paper is inflicting upon its readers, without regard to truth, in its fawning sycophancy to Dr. Forbes. Editor Porter knows that the insinuation that arbitration was sought by Mr. Stetson, and the statement that "Dr. Forbes has demanded as a prerequisite to any arbitration that Mr. Stetson shall withdraw all charges made against him," are both untrue. If he does not know this, then his servile groveling at the feet of Dr. Forbes has been rewarded with scant confidence. Several months ago, some of the Florida partisans of Dr. Forbes told his story of abuse by Mr. Stetson during the meeting of Baptists in a neighboring state, and presumably at their suggestion, certain prominent Baptists present undertook to act as mutual friends, and opened correspondence with Mr. Stetson on the subject of arbitration between himself and Dr. Forbes. Mr. Stetson could see nothing to arbitrate, and declined to make any proposition, but stated that he would consider any proposition coming from Forbes. Later, one of the mutual friends enclosed to him what was a copy of a proposition in which was demanded by Dr. Forbes. In

Success

23

My dear President Harper:-

Yours of the 16th has just been received.

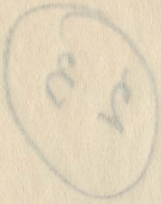

The Trustees of Stetson University at their meeting February 18th, elected me as Acting President of the University. I am pleased to have your good words promising co-operation, personally and officially in my work. Although all our difficulties, I fear, are not of the past, my administration has been during the year, and will continue to be, absolutely impartial and conciliatory. I believe that time will show that this course will bury forever the troubles that have been ours for the past two years. I may say to you incidentally that during the year, the Faculty have been entirely harmonious and that the question so much talked about in the University the past year, has this year found no place in the institution.

I was on the point of writing you a letter of congratulation over your recovery. Please allow me to say personally that I am thankful that you have come out from ^{under the} ~~your~~ surgeon's knife so successfully, and that your life has been spared to your great work in the University and to your generation. I would be pleased to hear from you at any time upon any matter that may interest you regarding the University.

Cordially yours,

C. S. Farris,
Acting President.

Replying to your note of March 29th, permit me to say that the terms of agreement between Stetson and Chicago are in the enclosed circular on page 4. The general form of agreement as there published was interpreted in the letter sent by me to Dr. Forbes, and dated probably May 4th 1898. I wrote the original draft of the letter which was dated May 4th, and submitted to the Board of Affiliations; the date of the final copy may have been a few days later. The letter is doubtless in the files in the President's office. In order to save you the trouble of referring to it, I may quote one passage, first from Dr. Forbes letter of April 28th, and then from my letter of May 4th in reply.

Dr. Forbes says, "Will you kindly interpret more definitely paragraph 11 of the University agreement? Must there be, in accordance with that specification, a meeting of the representatives of the University before any nomination of instructors to fill vacancies may be made? This would be, it seems to me, a somewhat difficult and cumbersome arrangement, as we sometimes have vacancies in the middle of the year, and sometimes very prompt action is necessary in the matter of securing instructors. We would be willing to adopt this course

April 1st, 1904.

Mr. Stiles E. Wright,

Secretary Board of Trustees, John R. Stetson University,

Deland, Florida.

Dear Sir:-

Replying to your note of March 28th, permit me to say that the terms of agreement between Stetson and Chicago are in the enclosed circular on page 4. The general form of agreement as there published was interpreted in the letter sent by me to Dr. Forbes, and dated probably May 4th 1898. I wrote the original draft of the letter which was dated May 4th, and submitted to the Board of Affiliations; the date of the final copy may have been a few days later. The letter is doubtless in the files in the President's office. In order to save you the trouble of referring to it, I may quote one passage, first from Dr. Forbes letter of April 28th, and then from my letter of May 4th in reply.

Dr. Forbes says, "Will you kindly interpret more definitely paragraph II of the University agreement? Must there be, in accordance with that specification, a meeting of the representatives of the University before any nomination of instructors to fill vacancies may be made? This would be, it seems to me, a somewhat difficult and cumbersome arrangement, as we sometimes have vacancies in the middle of the year, and sometimes very prompt action is necessary in the matter of securing instructors. We would be willing to adopt this course

uniformly, namely, to notify the proper authorities of the University that such person had been nominated for a position in the faculty and would be elected except protest was entered by the University. The same might be said of paragraph 12. We would notify the University that we proposed to terminate the services of a certain instructor provided there was no objection on their part. Of course this same thing applies to paragraphs 3 and 4 of our part of the agreement. You will note that my point is that we are so far apart that action, in many cases, has to be so prompt and unincumbered that it would make a joint meeting, with reference to such matters, impracticable and expensive. It is not that we would wish to employ any one who would be objectionable to the University, nor unjustly terminate the services of any one, but I am speaking in the interest of effectiveness in the working of the arrangement. If these matters can be satisfactorily arranged and understood between us, we are ready to enter into affiliation with the University as soon as possible."

In reply to this enquiry, I said, "Paragraph 11 means in practice precisely what your letter suggests. In application this clause means that the two Presidents ~~se~~ correspond in case of all prospective appointments or removals, or rather it is customary for the Director of Affiliations to conduct the correspondence from this end, in consultation ~~with President~~ ~~ident~~ with President Harper. We ask that an affiliated college will not make an appointment without giving the department

On May 14th, Dr. Forbes wrote, "We are hoping that the matter of affiliation will be closed up by you immediately as we have sent on our approval of all the conditions which you have named.

On the above basis the Board of Affiliations recommended to our Board of Trustees affiliation with State University, May 28th 1898, and the recommendation was promptly ratified. If Dr. Forbes is in town he will inform you that the spirit of this agreement has been observed from that time. Of course, nothing was said explicitly about the case of a vacancy in the office of President. The University of Chicago would be as cautious about obtaining its wishes upon the Board of Trustees of State University in such a case, as it has always been about offensive mingling in the duties of the President with

reference to the appointment of professors. Our sole interest is in the opportunity to express our judgment, in case it would seem to us that there is a possibility of having the position occupied by a man whose academic ideals are lower than those which Dr. Forbes set up during his presidency. I am sure that he will tell you that our relation to faculty appointments has always been cautious and inoffensive, and we should certainly not change our attitude in the case of this more important vacancy than we had in mind when affiliation was adopted.

Permit me to add that my duties as Director of Affiliations have now been merged in those of the office of Dean of the Graduate School of Arts and Literature, and that I write as before as the official representative of the Board of Affiliations.

Sincerely,

reference to the appointment of professors. Our sole interest is in the opportunity to express our judgment, in case it would seem to us that there is a possibility of having the position occupied by a man whose academic ideals are lower than those which Dr. Forbes set up during his presidency. I am sure that he will tell you that our relation to faculty appointments has always been cautious and inoffensive, and we should certainly not change our attitude in the case of this more important vacancy than we had in mind when affiliation was adopted.

Permit me to add that my duties as Director of Affiliations have now been merged in those of the office of Dean of the Graduate School of Arts and Literature, and that I write as before as the official representative of the Board of Affiliations.

Sincerely,

April 25, 1907.

My dear President Hulley:

I think that your relation with the University has put into your possession some of the facts with regard to the policy of affiliation. It is on the whole the judgment of the University that the original ideas which lie at the basis of that system have not proven practicable and that it is not wise to continue. In accordance with this view, the Board of Trustees of the University have authorized the President to terminate our affiliation with any affiliated college at his discretion. It seems to me that the wise method of procedure would be to have the matter announced to the public as a joint agreement of the two institutions. If this seems to you advisable possibly your Board might act to that end in some such way as the Board of the University of Chicago acted. We might then proceed to enter into some arrangement in order to have the announcement properly made. It is not our wish to have the mode of announcement such as would in any way reflect on the affiliated college or injure it. I am forwarding a copy of a

DELAND, - - FLORIDA
PRESIDENT'S OFFICE

⁷⁶
Tuscaloosa, Alabama,
July 13, 1909.

President Harry Pratt Judson,
The University of Chicago

Dear President Judson:— Since
receiving your letter and
answering it I have made in-
quiry and found that not
all references to the affiliation
have ceased. It is my purpose
to conform to your wishes. Some
of the old "ads" are still in force
but will not be renewed.
Inadvertently, or rather, through

the act of the officer charged
with bringing out a summer
folder, a reference appears
again, greatly faded down.

That shall not appear again,
and I am sorry it has appear-
ed this time. I enclose ~~the~~ you
the copy sent me with our
officer's comment on the
margin.

Respectfully Yours,

Lincoln Hulley.

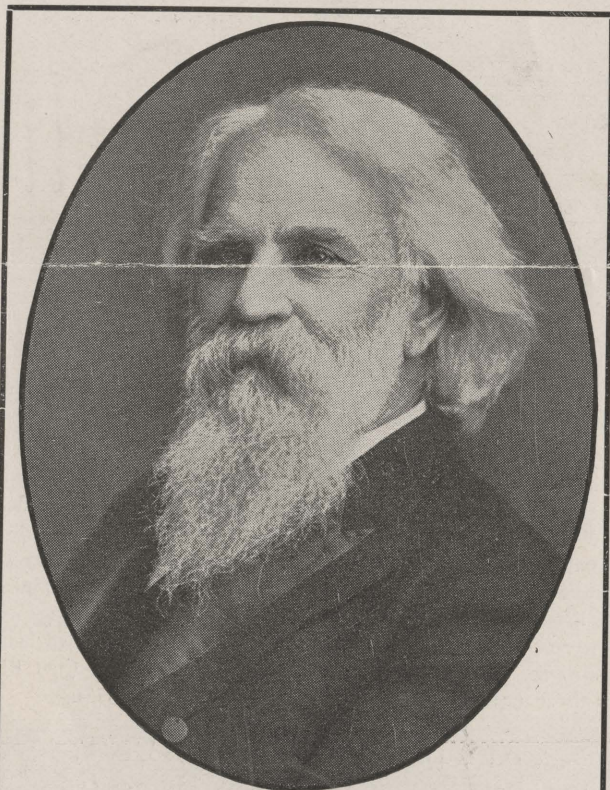

(address) De Land, Fla.

JOHN B. STETSON UNIVERSITY

LINCOLN HULLEY, Ph. D., Litt. D., LL.D.,

President,

DeLAND, -:- -:- FLORIDA.

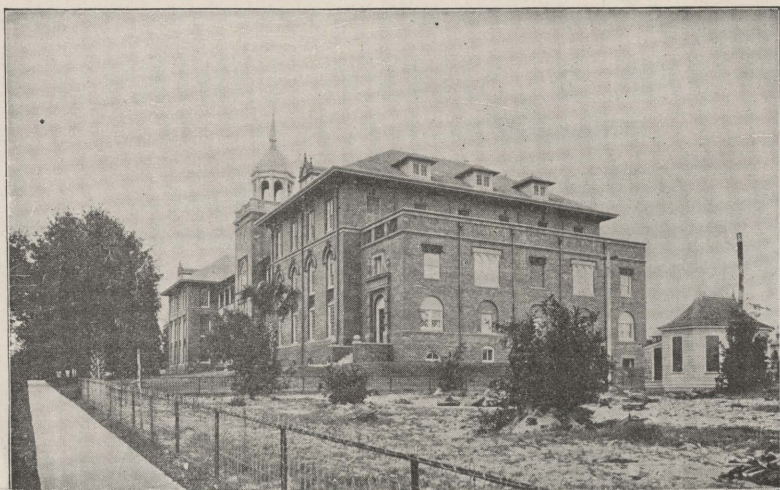

THE LATE HENRY A. DeLAND,
Who founded the City of DeLand, "The Athens of
Florida."

49 Professors and Instructors. 17 University Buildings.
581 Students Enrolled Last Year.
28 Acre Campus. \$300,000 Productive Endowment.

For Catalogues, Folders, Bulletins, and Other Information, Address
STETSON UNIVERSITY, DeLAND, FLORIDA.

Published by the John B. Stetson University as frequently as four times a year,
in accordance with the provisions of the Act of Congress of July 16, 1894 Entered as
second-class matter at the postoffice at DeLand, Fla. Issued Quarterly, Vol. IX, No. 2
JUNE 1909.

ELIZABETH HALL, STETSON UNIVERSITY.

This splendid structure, 250 feet in length, is one of the most beautiful and complete buildings devoted to educational purposes in the entire South.

FACULTY AND STUDENT BODY.

There are forty-nine (49) Professors, Instructors and Assistants on the teaching staff of Stetson University. They hold degrees from Harvard, University of Chicago, Yale, Cornell, Columbia, University of Michigan, Bucknell, Bowdoin, Dennison, Wake Forest, Utrecht-Holland, Louisville, Woman's College of Baltimore, Woman's College of Richmond and other institutions. They are men and women of sterling Christian character and take an active interest in all phases of the student life.

There were five hundred eighty-one (581) students enrolled last year in all departments of the University. They represent thirty-seven (37) Florida counties, twenty-three (23) states and three (3) foreign countries.

STETSON'S EQUIPMENT.

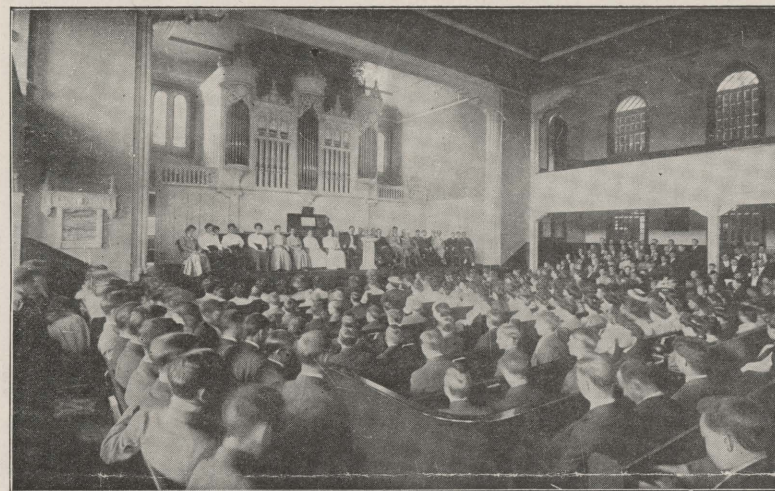

The University has a fine property. Her seventeen buildings are situated in a grove of oak and pine trees, in the midst of a campus of twenty-eight acres, on gently rolling land, on the northern edge of the City of DeLand.

Stetson has almost four hundred thousand dollars (\$400,000.00) invested in buildings and equipment, and she has a productive endowment of three hundred thousand (\$300,000.00) dollars.

DELAND, "THE ATHENS OF FLORIDA."

DeLand is known throughout the country as "The Athens of Florida." It has a well organized city government, and a strong progressive public spirit; good railway, express and postal service; electric lights, water works, and fire protection; beautiful homes and spacious yards and gardens; splendid church edifices and public buildings and miles of improved streets and beautiful drive-ways.

It is "a city set upon a hill."

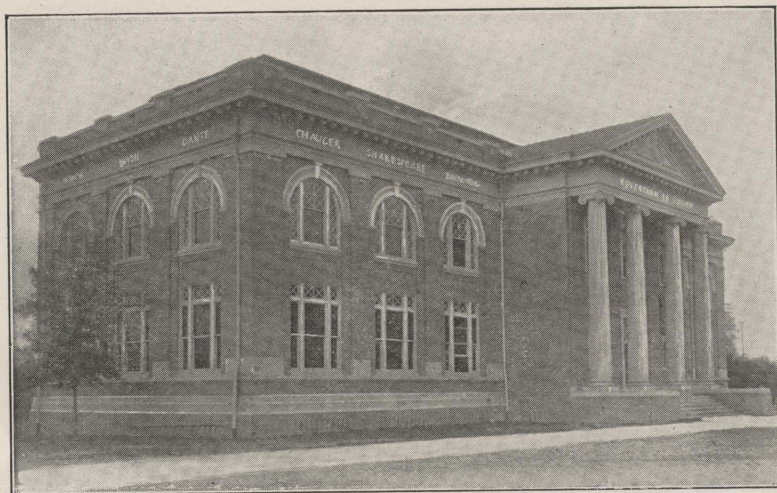

THE MORNING CHAPEL ASSEMBLY AT STETSON.

Stetson has a beautiful chapel, with a seating capacity of more than 900. It has costly furnishings, including stained glass windows, seven oil paintings and a \$10,000.00 pipe organ.

In this splendid auditorium the great interdenominational vesper services are held each Sunday at 4 o'clock. At these services, crowded often to the full capacity of the hall, the President delivers the address and the University choir of more than 60 voices renders the most select sacred music. In this hall too, the Lyceum and Chautauqua Courses are conducted, and the great Oratorios and Music Festivals are held. During the coming year a Shakespeare Festival will be held here in the month of February.

ONE OF PRESIDENT HULLEY'S CLASSES ASSEMBLED ON THE STEPS OF ELIZABETH HALL.

CARNEGIE LIBRARY, STETSON UNIVERSITY.

This imposing structure is 150 feet long and 50 feet wide, not counting the portico in the front or the stack room in the rear. It is one of the four best buildings on the Stetson campus. This library alone represents an investment in building, endowment and books of more than \$120,000.00. It contains more than 15,000 bound volumes of the best selected books, and an extensive collection of the best periodical literature. It is the United States Depository for the State of Florida.

On the second floor of this building, there are two large and well lighted halls for the Young Men's and Young Women's Christian Associations, also a number of Literary Society and Debating Club rooms.

LOOKING UP THE BOULEVARD IN THE DIRECTION OF CHAUDOIN HALL, THE DORMITORY FOR YOUNG WOMEN.

A PORCH PARTY AT CHAUDOIN HALL.

The authorities at Stetson University take great pride in the high character of her young women. They are a choice body of young people from the very best homes of Florida and elsewhere. Their home life in the dormitory is made thoroughly attractive and enjoyable.

Miss Ellen Martien, the dean of women, presides with queenly dignity over the affairs of Chaudoin hall, and it is often remarked by mothers familiar with her tactful and careful administration of its affairs, that the young ladies who make their home in this hall, are not only surrounded by the most ideal environment of culture, but that they are actually safer in most cases than they could hope to be even in their home communities.

THE COLLEGE OF LIBERAL ARTS.

The Stetson College of Liberal Arts was affiliated in 1897 with the University of Chicago, in recognition of the excellence of her work. She maintains the following departments:

English Language and Literature;	Sociology and Economics;
Latin Language and Literature;	Mathematics and Astronomy;
Greek Language and Literature;	Physics and Mechanics;
German Language and Literature;	Chemistry;
French Language and Literature;	Biological Sciences;
Spanish Language and Literature;	Zoological Sciences;
Philosophy and Education;	Public Speaking;
History and Political Science;	Physical Culture and Athletics;

Strong courses and high standards are maintained in all of these departments.

OTHER COLLEGES AND SCHOOLS.

Stetson University is primarily a College of Liberal Arts, but she maintains also a College of Law, a College of Technology, a Business College, a Normal School and Teachers' College, a Preparatory Academy, a School of Mechanic Arts, a School of Music, and a School of Fine Arts.

Special bulletins of any of these departments, or of the College may be secured by addressing a request to Stetson University, DeLand, Florida.

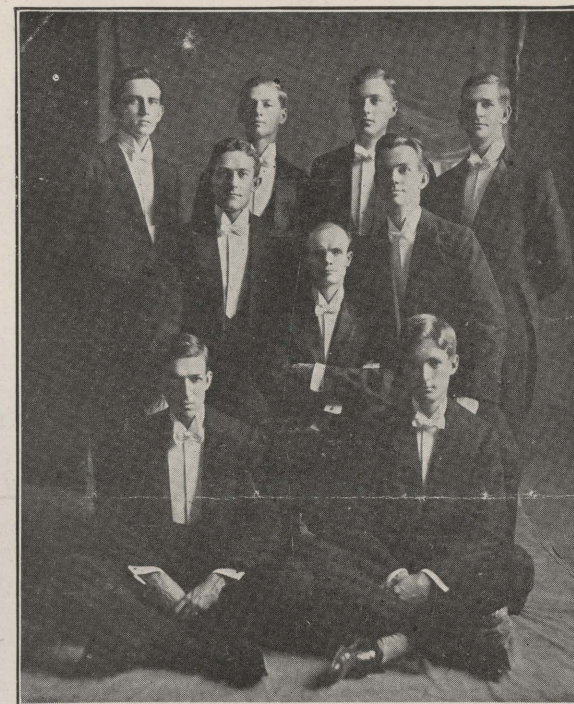

SCIENCE HALL, STETSON UNIVERSITY.

This is one of the newest of the seventeen buildings belonging to Stetson University. It is 200 feet long and 80 feet wide. It is built of brick, finished in grey stucco, in the style of the Spanish Renaissance. With its furnishings, it represents an expenditure of more than \$60,000.00. It contains commodious lecture rooms for the classes in Physics and Chemistry, a large general laboratory for each of these sciences, and a number of private laboratories.

ONE OF STETSON'S ATHLETIC TEAMS.

Athletics at Stetson include Foot Ball, Base Ball, Basket Ball, Tennis, and a variety of field sports. The Stetson students maintain two strong foot ball teams, three basket ball teams and a tennis club with a very large active membership. The Stetson teams hold an interesting collection of athletic trophies representing intercollegiate victories and State championships.

THE STETSON GLEE CLUB.—"THE DIXIE BOYS."

The Stetson Glee Club is one of the best known student organizations in the South. These young men have been under splendid training and they present a very superior musical program. During the past year the members of the club, with their soloist, their reader, and their director have traveled almost 2,000 miles in filling appointments for more than twenty public concerts before Women's Clubs, Lyceums, High Schools, Colleges and Chautauquas. On several occasions they sang before audiences of a thousand people. The last public concert of the season of 1908-1909 was given at the Executive Mansion, Tallahassee, on the occasion of the Governor's reception to the members of the State Legislature.

ACKNOWLEDGMENT.

Stetson University owes its existence and its maintainance to the liberality of John B. Stetson, John D. Rockefeller, Henry A. DeLand, William F. Sampson, Henry M. Flagler, Andrew Carnegie, Elizabeth, Countess of Santa Eulalia, Mrs. Monroe Heath and a score of others who have given liberally of their money to erect the beautiful buildings on the University Campus, and to create large endowment funds. To all of these grateful acknowledgment is made.

ON THE STEPS OF STETSON HALL, WHICH IS ONE OF THE DORMITORIES
FOR STETSON MEN.

A new Dormitory for college men is nearing completion on the east side of the men's quadrangle on the University campus. The outlook from this building through groves of Camphor and Orange trees, and through the Pine woods is beautiful and picturesque. The hall has large and well lighted rooms, handsomely furnished interiors, electric lights, shower baths, and every modern convenience. It provides accommodations for more than one hundred college men. This building will be in complete readiness for occupancy at the opening of the Fall term, September 29, 1909. Young men desiring to have rooms reserved for the Fall term should address,

STETSON UNIVERSITY, DeLand, Fla.

CHAUDOIR DINING HALL.

*Dormitory out didn't come out well so
I had to substitute this one*

August 10, 1909.

Dear Dr. Hulley:-

Your favor of the 13th of July was received during my absence from the city. The advertisement to which I referred was contained in one of the Baptist publications. I doubtless can send you a copy of it later. It contained an explicit statement that Stetson University is affiliated with the University of Chicago. Of course that is not correct. In the circular which you send me appears another misleading statement on the fifth page. The reference is entirely ambiguous, and would easily be misconstrued to mean that the affiliation is still in existence. I fail to see any adequate reason why in any advertisement or announcement there should be any statement which could be open to misconstruction.

Very truly yours,

H. P. J.

President Lincoln Hulley,
John B. Stetson University,
DeLand, Florida.

Dear Dr. Hufley:-

Your favor of the 13th of July was received during my absence from the city. The advertisement to which I referred was contained in one of the Baptist publications. I doubtless can send you a copy of it later. It contained an explicit statement that Stetson University is affiliated with the University of Chicago. Of course that is not correct. In the circular which you send me appears another misleading statement on the fifth page. The reference is entirely ambiguous, and would easily be misconstrued to mean that the affiliation is still in existence. I fail to see any adequate reason why in any advertisement or announcement there should be any statement which could be open to misconstruction.

Very truly yours,

H.B.S.

President Lincoln Hufley,
John B. Stetson University,
DeLand, Florida.

September 2, 1909

Dear President Hulley:-

If you will look at the advertising of
John B. Stetson University in the "Baptist Home Mission Monthly" for
September, 1909, you will find the advertisement to which I refer.
I think it needs no further comment, but it does need large explana-
tion.

Very truly yours,

H. P. S.

President Lincoln Hulley,
John B. Stetson University,
Deland, Florida.

President Harry Pratt Judson, ^{9/1/09}
The University of Chicago, Illinois.

My dear President Judson:—

Your letter of June 29 is in hand. I do not recall the advertisement you refer to. It must have gone out originally from my office. Kindly send me a copy of it.

Yours Truly,
Lincoln Stulley.

JOHN B. STETSON UNIVERSITY
