The University of Chicago.

April 24 / Boards meeting

To The President

My dear Dr Harper,

I have enclosed a written petition for the appropriation of $100 a year for five years (1900-1904) for scientific publication use of department of mathematics, — to be used as Chicago's subscription to new journal = And I am relying upon your interest in the matter to secure favorable action from our Board =

The University of Chicago must join circle of cooperating institutions =

Yours sincerely,

E H Moore

The University of Chicago.

April 28, 1904.

General Secretary,

To the President

of the Board of Trustees.

I have received a
request from the
Chairman of Div. A
for two years (1900-1904)
for assistants in
Mathematics, — it is now
at Chicago and is very
to have issued = One
can judge by open letters
is the matter to have favorable
action from the Board =
The Secretary's Office is
in need of conserving materials =
from records

Yours truly,

Harper

To be accompanied by provisional cover-page for new journal

April 12, 1899

To The President

My dear Dr. Harper,

The American Mathematical Society expects to begin in January 1900 the publication of a new journal of research in pure and applied mathematics. The Society embraces practically all the mathematical research strength in the country and the journal-project is receiving the most hearty support of the Society members. The new journal is thus assured of a very high scientific success from the start.

To the President of the Provincial Committee of Peace-Party for Upper Provence

April 15, 1899

To The President

Sir,

The Provincial Committee of Peace-Party for Upper Provence has the honour to inform you of the decision of a mass meeting of members of the Party assembled in Nice on April 10th. The Party endorses practically all the resolutions of the Provincial Committee as passed at its meeting held in Nice on March 20th. The Party approves of the Provincial Committee's decision to send delegates to the Peace Congress to be held in Paris on the 25th inst.

Yours faithfully,

Just as in the scientific way the journal will be the happy issue of the coöperative efforts of the leading mathematicians of this country, so financially a circle of the strongest institutions of the country (not already engaged in mathematical publication; Hopkins and Clark) is being formed to coöperate with the Society in the publication of the journal. This coöperation is necessary to the success of the enterprise, and it is the general feeling that the institutions will be doing the most good for

the interests of mathematics by joining in this undertaking with the Society.

The co-operating institutions guarantee, each, the payment of $100 a year for the five years 1900–1904.

The circle already includes Yale, Columbia, Princeton, Cornell, Haverford, Bryn Mawr [small but very strong in mathematics], and Northwestern – And we wish to include also Chicago, Harvard, California, of which there is surely no reasonable doubt of Chicago and Harvard –

Now as to Chicago: I present this petition to you and through you to The Board of Trustees for the appropriation of $100 a year for five years for the purpose indicated, as a modest scientific publication fund for the department of Mathematics.

Yours sincerely
E H Moore
