With sincere regards and best wishes, I am,
1909 is before us. We are pledged to make our net
active membership 3000 before the Annual Meeting early in
February.

We are going to ask the new members admitted during 1908 to aid in this work by securing each one new member during the month of January.

The Association stands for all that is best in Chicago, else you would not have joined it.

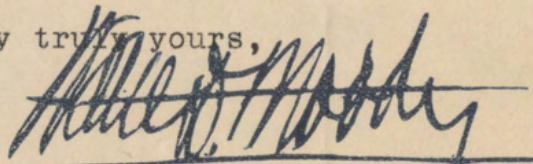

Can you not impress some business acquaintance not now a member with the sense of obligation that every Chicagoan should personally recognize in the interests of the common good of his city? Look around and see if there is not some one whom you know that you could induce to join this month.

Mr. Walter We want our 700 new members admitted during 1908 to get 700 other new members before February 10th. Give us this lift - it is a boost for Chicago - and a boon to your interests.

One of our members single handed secured twenty-six applications last year. May we ask you to get just one?

Wishing you a prosperous New Year,

The University of Chicago has placed the Chicago Association of Commerce under many obligations for the co-operation and very efficient aid which has been rendered by the several professors who have addressed us from time to time.

The members of the Ways and Means Committee were highly and profitably entertained last Wednesday by Professor J. Paul Goode, who spoke on the subject of "The Development of the European Seaports". It was a rare occasion and brought forth enthusiastic praise from the business men who were present, about one hundred and fifty in number.

Let us, therefore, thank you for the aid and cordial assistance, not only of Prof. Goode, but also Messrs. Butler, Willett, Starr, Vincent, Merriam and MacClintock, and we would not forget your own good self, to whom we feel greatly indebted.

In this connection it occurred to me that you might care to have all general letters and literature sent to Mr. Miller's desk as a representative of the University in our Association. Oftentimes our mail matter is lost in large institutions because the membership interests are not delegated to any individual.

Should this prove agreeable to you we will have Mr. Miller placed on our mailing list for the University.

So far as G&V's
part is concerned
G&V

My dear Mr. Judson:

The Chicago Association of Commerce is about to send out another distinguished delegation of business and professional men, this time to the Pacific Northwest. The itinerary embraces some thirty towns, outgoing over the Northern Pacific and returning over the Oregon Short Line and Union Pacific. The time of departure is May 30th, returning June 17th.

The expense of the trip to each delegate is \$250, including everything, two in a stateroom, separate staterooms \$300, which is an extremely low rate. The accommodations are to be superb, embracing the special train all the way made up of three ten-room compartment sleepers, observation car and dining car.

Those who have already accepted to go on the trip are among the biggest and most prominent men of the city, such as ex-Presidents David R. Forgan and Richard C. Hall of this association. Naturally we again desire a representative from the University of Chicago, and our unanimous choice is Professor Vincent. Is there any hope that we may be favored with his appointment?

It would be difficult for the University of Chicago to find more advantageous publicity than may be secured on this particular trip. We shall stop two days in Seattle during the Exposition, the 7th of June having been especially set aside as "Chicago Day" for our party.

We will also be in Portland during their famous Rose Festival.

We shall never forget the invaluable services rendered by Prof. Butler on the Southern trip last Fall, and we believe that his work on that trip meant fully as much for the University of Chicago

My dear Mr. Judson:

We have a letter from Prof. George E. Vincent under date of May 3rd in which he states he is obliged to decline the invitation to accompany our delegation to the Pacific Northwest.

We are very sorry to learn this as we had earnestly hoped that Prof. Vincent could accompany us thistime. We do not, however, desire to urge the matter, having a deep appreciation for Prof. Vincent's many university duties.

May we ask you, then, that Prof. Butler accompany us again? Prof. Butler did great work on the Southern trip, and the Association of Commerce officers can never pay the University for sending a man so amply qualified for our needs - Chicago's needs - your needs.

Hoping to have a favorable reply,

Very truly yours,

Dear Dr. Judson:-

Pardon me for again speaking about the trip to the Coast, but since writing you, the thought has come to me that possibly F. W. Shepardson might be spared for the trip and he could likewise represent the Tribune. Possibly it could be worked so that the Tribune would bear all the expense.

Would this be feasible on the part of the University if the Tribune end of it could be arranged?

My dear Mr. Judson:--

I am just in receipt of your letter of the 26th ult., addressed to Mr. Moody and note his answer in explanation. I must acknowledge considerable concern, however, in regard to a portion of your letter, as I cannot imagine to what it refers--unless it is to a very minor incident that occurred during the entertainment of the Japanese party, which was brought to my attention by Mr. Newman Miller and which was immediately taken up by me and adjusted satisfactorily, I am quite sure, to Mr. Miller. I regret most exceedingly the accident to Mr. Miller and am pleased to learn he is recovering.

I would like very much, providing it meets with your approval, if I may take this matter up with you. As President of the Association I should want to know your viewpoint in order that

Dear Mr. Skinner:-

Yours of the 2d inst. is at hand. The incident to which you refer I cannot regard as a minor one. I know that it will be carried away by the guests to their home country, and will leave a very unfavorable impression of Chicago. Of course they were profuse in their usual courtesy. The fact, however, remains as it is. It is things of that kind which do more harm than can easily be conjectured. Of course I shall be glad to be of any service, if I can, to the Association, although I don't want in any way to be regarded as unduly pressing advice as to its policy.

SCALE: 6 MILES TO 1 INCH

More than \$200,000,000 is being expended in industrial enterprises within this manufacturing district.

The death rate of Chicago is lower than any American city having 200,000 or more inhabitants.

Being the center of the food supply of the country the cost of living is low.

No hills to make the transference of freight unusually burdensome.

Unlimited water and electric power at exceptionally low rates.

Rate of taxation far below the average of American cities.

Sidetrack facilities are easily and economically secured.

The manufacturing zone is large and sites are abundant.

Street car facilities are unequaled by any city of the United States.

Banking resources are larger, in proportion to population, than in any other city of the country.

Best transportation facilities of any city in the world; 38 railroads, river and canals.

Nearer to every variety of raw material than any other city in the United States.

No extremes of temperature ever cause a temporary suspension of in-door labor.

Annual value of manufactured products, \$1,300,000,000.

Center of population of the United States.

Labor abundant and conditions stable.

No floods.

My dear Prof. Judson:-

President Stillwell directs me to send the attached invitation to you personally and to say that a number of our officers and prominent members have made reservations for themselves and families for this Oriental tour.

We would estimate it a high honor if your University was represented in the delegation by yourself in person or anyone you might select. The delegation will be well organized, the trip thoroughly planned, the boat, which is the finest steamship on the Pacific, will be practically at the disposal of our party, and the itinerary, attached hereto, will be as flexible as possible, with additional time in many Ports of Call if we so desire.

The delegation, being under the auspices of The Chicago Association of Commerce, will be heartily welcomed everywhere as we have received many official invitations from the cities to be visited. This will be in effect a return of the visit of the Honorary Commercial Commissioners from Japan who visited this country in 1909.

Yours very truly,

Prof. Harry Pratt Judson,
University of Chicago,
Chicago.

Dear Sir:-

The Chicago Association of Commerce through its Foreign Trade Committee has completed plans for an Oriental trip March 17 to June 6, 1911, inclusive, taking in Honolulu, the Philippines, Japan and certain Chinese cities. Your name has been suggested as one of those who might be interested in this tour.

We have a proposition from the Great Northern Steamship Company and we now are holding reservations on all the first cabin space on the S.S. "Minnesota". We hope to arrange for a party of from one hundred to one hundred and fifty persons and it is the desire of the Executive Committee and the Foreign Trade Committee that the trip be made under the auspices of The Chicago Association of Commerce. Several officers of the Association including President Stillwell have definitely decided to join the delegation and we are now booking reservations. We are endeavoring to close up the matter of the number of our delegation as soon as possible. Owing to the importance of the tour the selection of the personnel of the delegation is a matter of first consideration.

From present indications and estimates given us by the railroad and steamship authorities the cost per person will be approximately \$500, which includes all traveling expenses from Chicago to Chicago.

Permit us to say further that the proposed schedule brings the party to Japan during the "Cherry Blossom Season", the most delightful period of the year. The delegation will be officially entertained at all the Ports of Call and in many cities we will be the guests of organizations and individuals who have been entertained at various times in Chicago by the Association of Commerce. We will spend almost three weeks in Japan and will be entertained in many cities by members of the distinguished party of Japanese Honorary Commissioners who visited Chicago in 1909 as guests of The Chicago Association of Commerce.

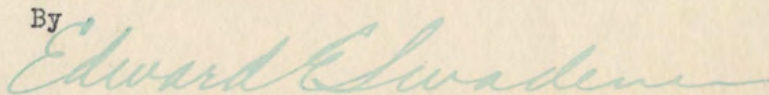

We would be very glad to hear that you would consider this invitation favorably. We would ask you also to suggest the names of any of your friends and acquaintances whom in your judgement would be interested. In order to make the trip a success from a business and fellowship standpoint we must have a creditable and representative delegation.

At an early date we expect to call a second meeting of those interested probably for luncheon or dinner. We would, therefore, appreciate the courtesy of your early reply. Please write to H. F. Miller, Business Manager.

Very truly yours,

THE CHICAGO ASSOCIATION OF COMMERCE.

To Members of The Chicago Association of Commerce:

At the meeting of the Ways and Means Committee held yesterday, at which members of the Outer Harbor, Rivers and Harbors, Waterways and Freight Traffic Committees were present, it was unanimously agreed that every possible effort should now be made by this Association to urge the passage by the House of Representatives of the so-called Outer Harbor Bills.

These Bills, known as the Juul and O'Connor Bills (Senate Bills Nos. 33 and 149), have already passed the Senate, and in order to get them reported out of the House Committee on Drainage and Waterways, of which the Hon. B. F. Kleeman is Chairman, it is important that you should WRITE IMMEDIATELY to the Representative from your District, (care of State Legislature, Springfield, Illinois) urging the passage by the House of these Bills. List of the Representatives from Cook County is enclosed herewith.

Chicago and the State of Illinois need the Outer Harbor in order to regain our Lake Commerce. Prompt action to this end is necessary. Please WRITE (or wire) your representative at once.

Sincerely yours,

THE CHICAGO ASSOCIATION OF COMMERCE,

SPECIAL COMMITTEE ON OUTING FOR TEXAS TEACHERS.

Gentlemen:

At a recent meeting of the Ways and Means Committee Prof. Butler, of the University of Chicago, was appointed Chairman of a special committee, with power to form it, to arrange for an outing for a party of from 200 to 250 Texas teachers who are expected at the University in July. This by way of a slight return for the many courtesies extended the Association's Trade Extension Delegation which recently visited that State.

Prof. Butler advises that he has accordingly named the following committee to assist him in carrying out the wishes of the Ways and Means Committee in this respect:

Nathaniel Butler, Chairman,
J. W. Campbell,
Alfred Decker,
J. O. C. Hutchins,
John P. Mann,
E. E. Swadener,
Dr. Harry Pratt Judson,
Dean James R. Angell,
Elmer H. Adams, ex-officio,
H. F. Miller, ex-officio.

At the request of your Chairman a meeting of the above Committee is hereby called for Monday, June 5, in Room 103, Hotel La Salle, at 12:30 P. M., and a complete attendance is desired.

Please advise the undersigned of your acceptance of the appointment.

Yours very truly,

SPECIAL COMMITTEE ON OUTING FOR TEXAS TEACHERS.

Gentlemen:

At a recent meeting of the Ways and Means Committee Prof. Butler, of the University of Chicago, was appointed Chairman of a special committee with power to form a party of about 200 to 300 Texas teachers who are expected at the University in July. This party will of a slight return for the many courtesies extended the Association's Trade National Association which recently visited that State.

Prof. Butler advises that he has accordingly named the following committee to assist him in carrying out the wishes of the Ways and Means Committee in this respect:

Mathew Butler, Chairman,
J. W. Campbell,
Alfred Becker,
J. O. C. Harrison,
John P. Mann,
R. E. Swanson,
Dr. Harry Pratt Johnson,
Dean James H. Angell,
Homer K. Adams, ex-officio,
H. F. Miller, ex-officio.

At the request of your Chairman a meeting of the above Committee is hereby called for Monday, June 5, in Room 103, Hotel La Salle, at 12:30 P. M., and a complete attendance is desired.

Please advise the undersigned of your acceptance of the appointment.

Yours very truly,

My dear Mr. Robertson:

The President has consented to be a member of the Committee on Arrangements for the excursion to be given to the Texas teachers. I have already explained to him that we have selected June 7th. Obviously a Saturday would have been better from the University point of view, but we could not secure the boat on that day, and as we are not to start until about 2 o'clock in the afternoon, after the most important classes for the day will have been held, the excursion does not seem to be very serious. I am enclosing some interesting correspondence from the Business Manager of the Association of Commerce, who is a member of my Committee on Arrangements for this excursion, and who is chairman of our sub-committee on business and transportation. I believe that his letter and attached memoranda will be of interest to you. I will thank you to return them to me after you have read them with such reference to the President as his convenience may permit.

Sincerely yours,

Dear Dr. Butler:-

I enclose herewith a letter received from the Indiana
Transportation Company and a carbon copy of my reply, reserving July
7th for our excursion for Texas Teachers.

Please note that this boat will carry two thousand guests
comfortably and as there is no additional charge except for meals, I
think it would be well to invite our own people and make our invitation
include the ladies. We can have 2,000 tickets printed, hold out a few
hundred for our Committee and our special guests and issue the balance
to the membership in response to application until the supply is
exhausted. If we leave here in the afternoon we will have a pleasant
trip to Michigan City and an evening ride home. I imagine that there
will be a moon about that time as it is just a month from tomorrow.
According to latest advices based on previous experiences, the moon
should be at meridian at about 9:22 p.m. on that date and should be
about three-quarters full, according to its usual habit. If the moon
will attend to business as well as the Chairman and the other members
of this Special Committee, I believe we need have no fear of a success-
ful excursion as we are very fortunate in securing the cooperation at
this time of the moon and I can imagine no finer combination making
for hospitality and romance than the said moon, the Texas School
Teachers and the membership of the Association of Commerce under your
gallant leadership.

Dear Sir:-

With further reference to phone conversation even date, desire to advise we shall be indeed pleased to serve you in the way of a lake trip for your party on June 26th or Friday July 7th, providing for such purpose our new steel steamship "United States" to leave our docks at about 2 P.M. and return thereto at about 10.30 P.M. making a cruise along the shore in such direction as may be hereafter decided mutually agreeable. Boat to be for the exclusive use of your party.

We will provide an orchestra of four pieces as carried regularly on the steamer but if you should wish the orchestra enlarged, you are to pay us the sum of five dollars for each additional man desired. The privileges aboard steamer to be retained by this company, same as heretofore.

The steamer "United States" as you are aware, is Chicago's newest excursion craft and possesses many unique patriotic features which will no doubt prove very attractive to your Texas guests. The writer will be very glad to co-operate in every way possible with your committee to help make the trip a most enjoyable one and you need feel no hesitancy in calling upon me, if I may be of any assistance in aiding you with your arrangements. For the use of the boat as above mentioned on which ever date you select, we will make a price of \$ 250 as quoted over the phone. It is my understanding that you will confirm the arrangement by return mail and advise which date will be desired so that the other may be free.

Dear Mr. Greenebaum:-

We hereby accept your offer of the steamer the "United States" for an excursion to be given by the Association to the Texas Teachers.

We have chosen the date of July 7th (Friday) and we accordingly release the date of June 26th.

We understand that the price quoted includes your orchestra of four pieces and we will probably wish to add four or five additional pieces so that we may have plenty of music and dancing.

We will wish to leave the Chicago Dock about 2:30 p.m. returning about 10:30 p.m., if this is convenient and agreeable to you.

We would like to go to Michigan City, unless you have some better excursion to propose. We will be guided somewhat by your advice in this matter as we wish to give the Texas Teachers the best time possible in the time limit and we know that you are more familiar with the accommodations and attractions of the different resorts than we are. I went over to Michigan City last year by boat and thought it a very pleasant trip.

If the evening is warm some of the excursionists may wish to bathe and in selecting a place it might be well to take into consideration the best bathing beach. Any suggestions you may have to offer will be gratefully received and carefully considered.

Mr. J. O. Conway-Hutchins of the Hotel La Salle, who was one of our Texas delegates, has kindly consented to act as chairman of Committee on Refreshments and if entirely agreeable to you, I am sure he would be glad to cooperate in this particular.

My dear Sir:-

We have just received a suggestion from one of our members which we think may be of interest to you. The gentleman who writes the letter has recently returned from an extended tour of Central and South American countries. I quote from the letter as follows:

"I wish to call your attention to a subject which I discussed with a number of people while travelling through Mexico, Central America, and Panama, and that is the encouragement which is given to the inhabitants of those countries to send their boys abroad to be educated.

"In one instance I discussed this matter with an American Consul General and he explained the effort made by European schools to have the parents of children in those countries send them to their colleges and universities. Their persistency in the matter brought very good results, which was evident when I took the steamer that took me to New Orleans, in which there were a number of young men ranging in ages from 12 to 18 years going to Germany, France and London to be educated, especially to Germany.

"I wish to impress this matter upon you as strongly as possible, so that you may refer it to the correct party for action, in order that something might be done from Chicago to encourage those boys to come here."

We would be very glad to be advised as to your opinion of this suggestion, and if consistent we would like to know what is being done by your institution and others within your knowledge to attract students from other countries.

Yours very truly,

Very truly yours,

Your favor of the 15th inst. received. The University of Chicago has not used any special means to call the attention of students in Central and South America to its advantages. So far as our observation goes these students are mostly either in medicine or technology. The University has no technical school, and its medical school is not yet fully organized. We hope it will be in the near future. In that case we shall be glad of course to see that its advantages are brought to the attention of our Central and South American friends very widely.

There are certain advantages, especially in our scientific departments, offered by the Graduate Schools which might be of decided value to advanced students from the Latin-American countries. I had hoped that some of our friends who are interested especially in bringing closer the connection between Chicago and these countries might see their way to establishing one or more scholarships or fellowships in the Graduate Schools for the especial benefit of
