Zentralstelle für Dissertationen und Programme.

Leipzig, 17. Oktober 1891.

Herrn Professor J. Harper
Rektor der Universität

Chicago Ill.
U. S. A.

Für die Bibliothek der dortselbst neubegründeten Universität erlaube ich mir gleichzeitig unter Kreuzband eine Reihe von Verzeichnissen meines Lagers antiquarischer Bücher und Abhandlungen zu übersenden.

Insbesondere möchte ich auf meine einzig dastehende Zentralstelle für Dissertationen und Programme aufmerksam machen; über ein Lager von etwa 350,000 Abhandlungen verfügend, ist es die Aufgabe dieses Institutes die gelehrte Welt mit der sogenannten „kleinen Literatur“ den „Akad. und Universitätschriften“, die ja nur in den allerseltensten Fällen im Buchhandel vertrieben und in den Bücherkatalogen verzeichnet werden, zu versorgen.

Indem ich bezüglich der Einzelauswahl auf meine Kataloge hinweise, beehre ich mich Ihnen nachstehend eine Ausnahmeofferte zu machen, die für Ihre Bibliothek zu verwerten gewiß einer hervorragenden Bezeichnung würdig ist.

Ich bin in der Lage Ihnen zu liefern (ab hier)

- 1) 15000 verschiedene Abhandl. aus dem Gebiete der Klassischen Philologie und Altertumswissenschaften für 8500 Mark
- 2) 6000 verschiedene Abhandl. aus dem Gebiete der Germanischen, Roma-

Dear Sir:-

I have received your letter of October... in reference to the Library of Professor G. Gegenbauer, of Heidelberg. Will you not do me the favor to indicate the number of volumes and send me a more detailed statement of the contents of the Library and to indicate its price. We should be glad to hear from you at once.

Yours very truly,

William R. Harper

of several of the treasures are the property of the British Museum. Indeed the fifty or hundred oldest and rarest books in the collection of nearly five thousand volumes make the library well worth the price of \$5000 which I understand his daughters ask. I am pretty familiar with the books on American education at the Harvard, the Boston public, and other large libraries; and I say without hesitation that none of these contain so many of the source books on the development of education in our own country.

I was much in Dr. Barnard's

Dear President Harper.

The matter of the purchase of the late Dr. Henry Barnard's library has been — or is before you for consideration, I understand. As I happen to know the library, let me say that I regard it as one of the treasures in a pedagogic line in America. It contains a number of rare old books to be found nowhere else in America; and the only known duplicates

home during his leisure time and
have made frequent use of his
library in my educational literary
work.

With cordial greetings, I am,
Very truly Yours,

DIE ENTWICKELUNG DES SOZIALEN BEWUSSTSEINS DER KINDER: Studie zur Psychologie und Pädagogik der Kindheit.

(Sammlung von Abhandlungen aus dem Gebiete der pädagogischen Psychologie und Physiologie.) Berlin: Reuther und Reichard. 1899. pp. 88. G. E. Stechert, 9 E. 16th Street, New York. Price, paper cover, 50 cents; bound in cloth, 80 cents.

A handsomely bound little volume of eighty-eight pages, in the German language, and issuing from a Berlin publishing house. It is a scholarly volume and deserves to find a place on American school shelves through translation.—*Dr. Friedrich C. Johnson, in Wilkes-Barre Record.*

Diese Abhandlung stützt sich auf statistische Untersuchungen, welche Monroe an Schulkindern der Staates Massachusetts ausführte; man kann daher an ihr die in Amerika häufig angewendete statistische Methode vorzüglich kennen lernen. Für Pädagogen bietet Monroes Arbeit viel Interessantes und Lehrreiches.—*Dr. Joseph Stimpff, in Zeitschrift für Pädagogische Psychologie.*

Monroe hat das ebenso interessante, wie für unsere Erkenntnis der Psychologie des Kindes wichtige Thema in sehr gründlicher Weise durchgearbeitet, er beschränkt sich nicht etwa auf einfache philosophische Deduktionen, sondern legt seinen Untersuchungen das Experiment zu Grunde. Monroe kann man für die Anregung der ganzen Frage und für die Schaffung einer nachahmenswerten Methodik für diese Art der Untersuchung nur Dank und Anerkennung aussprechen.—*Zeitschrift für Schulgesundheitspflege.*

Die Frage, welche Monroe erörtert, betrifft die Quellen der sittlichen Entwicklung bei den Kindern; den die Sittlichkeit beruht auf dem Verhältniss des Menschen zu Seinesgleichen. Soziale Beziehungen finden sich bei den Tieren und zeigen sich auf den primären Stufen der menschheitlichen Entwicklung. Sie werden ferner angeregt durch die Umgebung des Kindes, deren Gemeinschaftsbewusstsein sogar zu förmlichen Assoziationen führt.—*Dr. E. von Saltworck, in Deutsche Zeitschrift für Ausländisches Unterrichtswesen.*

COMENIUS AND THE BEGINNINGS OF EDUCATIONAL REFORM.

(Great Educator Series.) New York: Charles Scribner's Sons, 1900. pp. 250 circa. Price, \$1.00. (In press.) *also London 1901.*

The history of great educators is, from an important point of view, the history of education. This book is more than a biography of Comenius. It traces the reform movement in education, that marks the transition from humanism to realism, from Bacon, Vives, and Ratke to Comenius; and through Comenius to Rousseau, Pestalozzi, Fröbel, and the more recent reformers.

THE EDUCATIONAL LABORS OF HENRY BARNARD: A Study in the History of American Pedagogy.

Syracuse: C. W. Bardeen, 1893. pp. 35. With four portraits and a bibliography. Price, 50 cents.

Une courte, mais substantielle biographie de cet éminent pédagogue.—*M. Benjamin Buisson, in L'Enseignement Primaire aux Etats Unis.*

It is a clear-cut, bright, concise, reliable statement of the outline of the most remarkable educational labors of any man living.—*Journal of Education.*

Mr. Monroe is to be thanked for gathering up and giving to the public so many interesting facts with respect to the life of Henry Barnard.—*President Daniel C. Gilman, of Johns Hopkins University.*

In this compact little volume Mr. Monroe has succinctly presented the life-work of a veteran educator, whose influence for good has been widely felt in the schools of the United States.—*Mr. John E. Barrett, in the Scranton Truth.*

Mr. Monroe has told the story here very succinctly, and his little essay explains why Mr. Barnard's name will always be remembered in the history of the development of the school system of this country.—*Professor Nicholas Murray Butler, in Educational Review.*

A brief, excellent biography of a man whom American teachers will always hold in the highest honor. Every teacher will be better for knowing something of Henry Barnard's life, and this little volume is a very convenient and serviceable means of acquiring that knowledge.—*Professor Charles H. Thurber, in School Review.*

COMENIUS' SCHOOL OF INFANCY: 'An Essay on the Education of Youth during the First Six Years.' (Heath's Pedagogical Library.) Edited with notes, introduction, bibliography, and portrait of Comenius. Boston: D. C. Heath and Company. London: Isbister and Company, 1896. pp. xiv + 99. Price, \$1.00.

A valuable addition to the pedagogical literature of this country.—*Dr. Edward Brooks, Superintendent of Schools, Philadelphia.*

It seems to me that Mr. Monroe has gathered the cream.—*Mr. Samuel T. Dutton, Superintendent of Schools, Brookline, Massachusetts.*

He has given us this immortal classic with its original force and quaint beauty.—*Miss Anna Buckbee, State Normal School, California, Pennsylvania.*

Mr. Monroe has done a good piece of work in editing this book for English readers.—*Dr. William T. Harris, United States Commissioner of Education.*

This book lays all students and practitioners of education under lasting obligations to Mr. Monroe.—*Principal E. Harlow Russell, State Normal School, Worcester, Massachusetts.*

Man muss deshalb Herrn Will S. Monroe, der die Schrift mit Einleitung und Anmerkungen versehen hat, dankbar sein, dass jetzt eine neue Ausgabe die Ideen des Comenius allen englischen Nationen von neuem zugänglich macht.—*Dr. Ludwig Keller, in Monatshefte der Comenius Gesellschaft.*

The usefulness of the edition is enhanced by a full bibliography of Comenian literature and a list of books suited to the use of mothers and teachers interested in the literature of child study, the kindergarten, and primary education. Like all that Mr. Monroe does, his editing in this case is done with a wealth of knowledge and good judgment.—*Professor Albert Leonard, in Journal of Pedagogy.*

Die bekannte "Mutterschule" des Comenius istes, die uns hier der Verfasser in einer englischen Übersetzung noch hinzu geführt hat, ist dazu bestimmt, die Brauchbarkeit des Buches für den modernen Leser zu erhöhen. Wir finden da eine mit Wärme geschriebene Einleitung, ein Verzeichniss von Litteratur über Comenius, und ferner zahlreiche Anmerkungen unter dem Texte.—*Dr. Otto W. Beyer, in Deutsche Zeitschrift für Ausländisches Unterrichtswesen.*

BIBLIOGRAPHY OF EDUCATION. (International Education Series.) New York: D. Appleton and Company. 1897. pp. xxiv + 202. Price, \$2.00.

The most accurate and comprehensive so far published.—*Independent.*

Eine sehr übersichtliche und vom Verleger vorzüglich ausgestattete Bibliographie über Erziehung.—*Direktor Johann Trüper, in Die Kinderfehler.*

Mr. Monroe's book embodies an immense amount of reading and investigation, and it will be of great assistance to students of educational questions everywhere.—*Professor Earl Barnes.*

Mr. Monroe's bibliography will stand along with those of Hall, MacAlister and Sonnenschein as the latest and most comprehensive of the four in the literature of education.—*American Physical Education Review.*

On the whole, it is, as the latest should be, the most valuable of several now before the public, not excepting that of the writer.—*President G. Stanley Hall, in the Pedagogical Seminary.*

The work seems to have been done with great care, and it will prove a most valuable manual to students of educational theory and history.—*President James MacAlister, of Drexel Institute.*

A work of great value to not only instructors of all grades, from the kindergarten teacher to the university president, but to all students of educational work.—*Miss Susan E. Dickinson, in the Scranton Truth.*

It is almost as essential to an educational man or woman as the dictionary. Mr. Monroe is one of the best-equipped men for this work in the educational field.—*Dr. Albert E. Winship, in Journal of Education.*

Mr. Monroe has profited by the shortcomings of his predecessors, and has given us a bibliography that, while by no means perfect, is a faithful and painstaking piece of work, and a book that every student of education and every library ought to have in constant use.—*Professor Nicholas Murray Butler, in Educational Review.*

This book is invaluable to every person who has to do with education. It is better than anything we have on the subject in English. It is up-to-date. We do not see how one who wishes to be up to the times in any one of the great educational branches can get along without this excellent bibliography.—*Dr. Luther Gulick, in Association Outlook.*

My dear Professor Boynton;-

Dean Robertson has just phoned me about your conversation with him concerning the restriction on the circulation of Cabell's "Jurgen". It is true that at his recommendation the volume was placed in the Rare Book Collection and its circulation limited, but the rule is not absolute and was not intended to interfere with any serious study of Cabell's work. Any books in the room are open to the Members of the Faculty at any time and to any student on who is doing serious work with the volumes in question. To quote one of any number of examples, the Burton translation of the Arabian nights is not issued for circulation to any chance caller who wants an edition of the Arabian Nights. Many students in the History, Sociology and other Departments have drawn it, however for home use, by bringing a recommendation from some Faculty member in the Department that such permission be granted. Another class of books under the same general practice is one dealing with the sexual problems in criminal, abnormal and medical aspects. The practice has so far as I know worked well in other libraries and has occasioned no difficulty here. We shall be glad to honor your recommendations for any of your students at any time.

Dear Dr. Harper:

I thought it might be as well to let you know, in case you should ever be making a department of manuscripts in connexion with your University Library, that there will probably be accessible (at my death or perhaps sooner) one of the best collections of Syriac Manuscripts in private hands. It includes not only a lot of inedita, as well as modern transcripts of books either unknown in Europe or only known by single copies, but also many early copies of the Scriptures, three of which are as early as the fifth or sixth century; there is a copy of the Heracleian (Harklean) version which is two hundred years older than the one in the British Museum, and is probably the oldest yet known of that version, ^[cent VIII?] &c., &c.

Make a note in your pocket-book of these things, in case of my being sold up or departing hence. There are nearly a hundred separate entries of Syriac manuscripts; some of them, naturally, mere fragments, but not to be despised on that account.

Sincerely yours

(Signed) J. Rendel Harris. "

Dear Doctor:

I am sending you a couple of scrap books which I promised. The small one contains letters sent by my father in 1850 and concerns his trip to Frankfort as a peace delegate.

I do not find as much in this book about the Congress as I expected, although it may afford clues which when followed may furnish additional information. You will find in the large book about the middle some articles about Elihu Burritt and reference to the work of that pioneer in that line-- but not as much as I anticipated from his reference to it in the first book.

To compensate in a measure for the meager information in these scrap books I am sending you three volumes which I recommend you to inspect after exhausting the scrap books, being (1) Two Minute Talks on All Sorts of Topics, by Elihu Burritt; (2) Thoughts and Notes by Elihu Burritt; (3) Life & Letters by Elihu Burritt, by Northend.

You will find in these references to the Peace Conventions.

I have four other books by Burritt which, however, do not seem to bear on our subject. I shall be pleased to send them all to you if you desire.

I am satisfied that the reference in the small scrap book to other correspondence concerning the Convention relates to his letters to his own paper, the Western Citizen, published in Chicago, to which reference is made in the biographical sketch of my father found in the first leaves of the big scrap book (which I read for the first time last night.)

The files of the Western Citizen were loaned by me many years ago to the Chicago Historical Society. I will try to get time to run over them some afternoon and advise you.

I shall be pleased to attend your function on the 19th instant.

Very cordially yours,

Sidney Eastman

Dear Doctor:-

The other day, as I advised you, I visited the Chicago Historical Society rooms and examined the files of the Western Citizen, which was my father's paper, for the year 1850. Although the examination was not very prolonged or exhaustive I made the following notes which may be of use to you in the matter of your procuring data concerning the history of the earliest peace conventions that were held in Frankfort in 1848, '49 and '50.

April 23, 1850: Call for Peace Convention.

" 30, " Sketch of Elihu Burritt (he being the founder of the call.)

May 7, '50: Account of Burritt's peace meetings, being the editorial.

May 28, " Note that Burritt sailed to arrange the Frankfort convention.

July 16, " Note that Z. E. is on his way to the Frankfort convention.

" " " Letter of Z. E.

August 13, " 4th letter (the intervening numbers of the paper are missing.)

Sept. 10 " 5th letter.

" 24, " 7th letter. (These letters seem to be concerned more particularly in description of voyage, etc.)

for lack of interest therein. I wrote, however, a biographical sketch of my father which I circulated among his friends in the year 1886, three years after his demise. If you ever become interested in the subject of the Anti-Slavery agitation in the United States I could be of assistance to you in calling especially in ~~New York~~ *North West* attention to a great many other matters, which otherwise might not come to your notice.

My dear President:

Your favor of the 4th inst. I find on my desk--
having returned from the West.

I judge you have overlooked the mass of stuff I sent you
because you have only returned the first scrap book which I
followed up with a large one, and also sundry books by Elihu
Burritt.

You will find in my letters of December 12th and 20th,
of which I have carbon copies, reference to them, also the
result of my investigations in the Chicago Historical Society,
of my father's newspaper, the Western Citizen.

When you are through with them I will consider your sug-
gestion concerning sending duplicate copies to the Carnegie
Peace Foundation.

I think these data will furnish clues which would lead to
giving a complete history of the antecedents of the Hague Tri-
bunal.

Very cordially yours,

Sidney Corning Eastman

Dear Mr. Eastman:

Your note of the 15th inst. is received. No, I had not overlooked the other materials, but sent back the diary promptly, as that is on the whole the most valuable and important of the various materials. The large scrapbook contains material relating not merely to the congress, but no little other matter which ought to be preserved with care for historians. For instance, the underground railway is a subject on which I remember one of our graduate students tried to make some investigations. He found it very difficult to get hold of the subject. It was largely of course in the memories of men, most of whom are no longer living. Anything relating to that would be of value to historical scholarship. I thank you very much for letting me have these documents, and am returning them to you with sincere appreciation.

Dear Mr. Eastman:-

Last winter you were kind enough to send me a scrapbook of your father's relating especially to the Peace Congress at Frankfort which he attended. I have been much interested in it, and herewith return it to you as of course you will wish to preserve it among your choice memorials.

May I venture to suggest that the letters dated August 24, 1850, giving details as to the results of the Congress, of which I think two copies are found in this scrapbook, would be very interesting to the secretary of the Carnegie Peace Foundation in Washington. I am sure that he would preserve a copy if you had it made among the archives of that body.

With sincere thanks for your courtesy, I am
