CHICAGO, ILL.

Dr. H. P. Judson,
President, University of Chicago:

Dear Dr. Judson,

It is a great pleasure to be able to inform you that the Tower Clock was started, permanently started, we believe, at ten o'clock this morning. This means the entire clock, - time train, hour strike, and Westminster chime.

I wish to thank you for the patience which you have manifested under the circumstances, which, however have been trying to those who have had the responsibility of the completion of the intricate mechanism. And I trust that due recognition will be given to Mr. Ferson, the designer, and especially to Mr. Givins, who has been compelled to do a large part of the work of installation with his own hands. He has had to contend with obstacles which would have discouraged a man of less energy and enthusiasm.

May I here recall briefly the agreement made by the Board of Trustees of the University and the Chicago Manual Training School (represented by myself), under which agreement the construction of the clock was undertaken?

The clock was to be built for, and installed in, the tower of the proposed Administration Building, the erection of which was then thought to be in the near future. Provision for the clock was to be made in the tower, including spaces for four dials of diameter approximating fifteen feet, of glass, lighted at night by electricity.

Provision for the clock was to be made in the tower, including spaces for four dials of diameter approximating fifteen feet, of glass, lighted at night by electricity.

The clock has been constructed of sufficient power to move hands on such dials, and to strike an hour bell of seven thousand pounds.

May we hope that in due time the original contract shall be carried into effect? For the present tower was not built for any clock, and is not adapted to a clock of the dimensions and power of that one now installed in it. Besides the absence of dials, the space allotted to the weights is so contracted and unsuitable that the weights must be wound much more frequently than once in seven days as designed and constructed. The walls of the tower are of such light weight that there is constant danger that the action of the clock will be seriously disturbed by the use of the chime.

You will, I am confident, attribute to me no critical nor fault finding spirit in these remarks. My frame of mind this morning is one of satisfaction and gratitude. But I feel that the University will not have the full use and enjoyment of the clock, not the school the full credit for its admirable design and workmanship, as long as the clock shall remain in Mitchell Tower, as long as the original contract shall remain unfulfilled.

With best wishes, on this first day of the new year, for yourself personally, and for the University of which you are the honored and efficient head, I am

Very respectfully and truly yours,

OFFICE OF THE DIRECTOR

Chicago,
October 11, 1912.

My dear President Judson:--

It has been suggested to me that a memorial fund would be contributed by the friends of Dr. Belfield to set up in Belfield Hall a bronze tablet, possibly a tablet with a medallion, in memory of Dr. Belfield.

I judge that a tablet of this sort would cost in the neighborhood of six hundred or seven hundred dollars.

Will you authorize me to go about raising such a fund ? I should make application for contributions to the members of the Manual Training school, to the Board of that school, and to any other friends whom we might discover in the course of the collection of this fund.

Mrs. Belfield came to my office during the summer quarter and expressed a desire to see something of the sort undertaken. I think it would be a very appropriate move on the part of Dr. Belfield's friends.

Very truly yours,

CHARLES H. JUDD.✓

My dear Mr. Judd:-

Yours of the 11th inst. with regard to the tablet for Dr. Belfield is received. The plan is a very good one, but should be carried out by a committee of the teachers of which I think it would be better for the Director not to be a member. I think on a little reflection you will see at once the reason for this.

A RESOLUTION TO BE ADOPTED BY THE CHICAGO MANUAL TRAINING SCHOOL ASSOCIATION, AND PERHAPS ALSO TO BE ADOPTED OR APPROVED BY ITS TRUSTEES.

Resolved: That Section 2 of the by-laws of this association be amended by adding thereto the following words:

"Any person elected a member of this association, while a member of the Board of Trustees of the University of Chicago, shall continue to hold such membership only so long as he remains a member of the Board of Trustees of the University of Chicago, and the record of the election of such member of the Board of Trustees of the University of Chicago as a member of this association shall specify that his membership shall continue only so long as he remains a member of the Board of Trustees of the University of Chicago."

I don't know where the following should be inserted in the by-laws of the association, but it seems to me that something of the kind should be there:

"No person shall be or remain a Trustee of the Chicago Manual Training School Association who is not a member of the association, and any person who is also a Trustee of the association and whose membership in the association terminates for any reason shall thereupon cease to be a Trustee of the association."

This provision may not be essential, but it seems to me that there is no objection to inserting it and we may as well cover the whole ground in one action.
