My dear Dr Harper:-

I have made an investigation with regard to the enclosed application for the formation of a Sophomore society. I have interviewed a number of the men who propose to form this organization and have also talked with members of the Score Club, the present Sophomore Society. I should recommend the approval of this new Club. It is not to compete with the Score Club which exists chiefly to give dances. It proposes a kind of inter-fraternity organization which I think under proper auspices we ought to encourage. The men who have applied are in most cases students of the right stamp who may, I think, be trusted to establish safe traditions.

They have a vague plan of starting a publication in a lighter vein something like the Harvard Lampoon. This should not, however, be included in the approval as the policy of establishing a new College paper is complicated in various ways with the status of the present publications. I understand, however, that this is not the essential part of the organization; it is not even mentioned in this document.

Sincerely yours,

Approved - Jan. 9,
1909.

The Chairman,
Board of Student Organizations,
University of Chicago.

Dear sir, I hereby wish
to make application for
permission to form an
Esperanto Club in the
University, for the purpose
of stimulating and arousing
interest among the students
in the international language.
Since such a club existed
in the University in the

past, I expect favorable
action by the board. The
proposed name of the club
is "The Esperanto Club of
the University of Chicago."

At present about a dozen
of the students are actively
interested in the project, but
since no great publicity
has been given it, we
expect a much greater
number to become interested.
Awaiting your early action,
I remain,

yours respectfully,
Dudley H. Grant.

Address, Junior College Rack.

APPLICATION FOR

CHARTER

THE BLACK DRAGON

The University of Chicago

APPLICATION FOR CHARTER

To the Arch-chapter of Delta Tau Delta Fraternity.

Gentlemen:-

We, the undersigned students of the University of Chicago, submit herewith our application for a charter to establish a chapter of Delta Tau Delta in this university. We present for your consideration in the following pages some reasons for the granting of a charter and, also, a statement of the Delta Tau Delta Alumni at present in the university.

The character and position of the university are such as to commend it to the Fraternity as a suitable center for a chapter. It has a present endowment of \$6,500,000 and real estate and university buildings valued at \$5,000,000 more. There are 191 members of the Faculty and 2250 students were registered last year of whom over 1200 were undergraduates.

The new principles of education which have been embodied in the practical work of the institution, and the high grade of scholarship demanded in its entrance requirements and throughout the curriculum are such as to invite the brightest and strongest young men. The presence of a large Graduate School and its importance in the university assist in keeping up the ideal of scholarship. However, to show that the undergraduate department is not overshadowed in importance by the Graduate School, we would remark:

(a) That the university regards the undergraduate department as equal to and co-ordinate with the Graduate School.

APPLICATION FOR CHARTER

To the Arch-chapter of Delta Tau Delta Fraternity.

Gentlemen:-

We, the undersigned students of the University of Chicago, submit herewith our application for a charter to establish a chapter of Delta Tau Delta in this university. We present for your consideration in the following pages some reasons for the granting of a charter and, also, a statement of the Delta Tau Delta Alumni at present in the university.

The character and position of the university are such as to commend it to the Fraternity as a suitable center for a chapter. It has a present endowment of \$6,500,000 and real estate and university buildings valued at \$5,000,000 more. There are 191 members of the Faculty and 2250 students were registered last year of whom over 1200 were undergraduates.

The new principles of education which have been embodied in the practical work of the institution, and the high grade of scholarship demanded in its entrance requirements and throughout the curriculum are such as to invite the brightest and strongest young men. The presence of a large Graduate School and its importance in the university assist in keeping up the ideal of scholarship. However, to show that the undergraduate department is not overshadowed in importance by the Graduate

School, we would remark:

(a) That the university regards the undergraduate department

as equal to and co-ordinate with the Graduate School.

(b) That an especial effort has been made by the university authorities to emphasize the undergraduate work.

(c) That the number of undergraduate students has increased in greater proportion than the number of graduate students.

The attitude of the University of Chicago toward secret societies is not such as to make it unadvisable to establish here a chapter of Delta Tau Delta. The Trustees early the first year voted that if fraternities were established " the policy of regulation " should be adopted toward them, a policy which was formulated in a few simple and sensible rules, the most of which do not differ from those in other colleges and universities. Perhaps the most important were (1) that in case a " House " were established by any fraternity its house rules should be submitted to the authorities for approval, and (2) that a person should be appointed by each fraternity to represent the fraternity in its dealings with the university authorities. Delta Tau Delta certainly can find nothing to hamper it, and everything to favor its work in an atmosphere such as the authorities here have fostered.

Furthermore, that this is the attitude of the university in the estimation of the students is shown by the fact that already several of the leading fraternities have established, or are about to establish, chapters in the university. Delta Kappa Epsilon (15 active members), Beta Theta Pi (13), Alpha Delta Phi (15), Phi Kappa Psi (9), Sigma Nu (11), Phi Delta Theta (9), Sigma Chi (3), Psi Upsilon (9), are established, all occupying chapter houses

(b) That an especial effort has been made by the university

authorities to emphasize the undergraduate work.

(c) That the number of undergraduate students has increased

in greater proportion than the number of graduate students.

The attitude of the University of Chicago toward secret

societies is not such as to make it undesirable to establish here

a chapter of Delta Tau Delta. The Trustees early the first year

voted that if fraternities were established "the policy of regu-

lation" should be adopted toward them, a policy which was formu-

lated in a few simple and sensible rules, the most of which do

not differ from those in other colleges and universities. Perhaps

the most important were (1) that in case a "House" were estab-

lished by any fraternity its house rules should be submitted to

the authorities for approval, and (2) that a person should be

appointed by each fraternity to represent the fraternity in its

dealings with the university authorities. Delta Tau Delta certain-

ly can find nothing to hamper it, and everything to favor its work

in an atmosphere such as the authorities here have fostered.

Furthermore, that this is the attitude of the university

in the estimation of the students is shown by the fact that already

several of the leading fraternities have established, or are about

to establish, chapters in the university. Delta Kappa Epsilon

(15 active members), Beta Theta Pi (18), Alpha Delta Phi (15),

Phi Kappa Psi (9), Sigma Nu (11), Phi Delta Theta (9), Sigma Chi

(8), Psi Upsilon (9), are established, all occupying chapter houses

These fraternities are in no way interfered with or disapproved of by the authorities. Indeed, as soon as a chapter possesses a chapter house and desires to organize under the university regulations as a "University House" it is at once recognized as such by the university authorities.

We therefore desire to express our judgment, after a careful study of the situation, that the attitude and action of those who really control the policy of the university concerning fraternities is such as to offer to Delta Tau Delta, with its principles and ideals, the best kind of a field and the freest opportunity to develop its peculiar characteristics to their fullest extent.

In the tentative organization, "The Black Dragon", we have united for the purpose of stimulating our own enthusiasm and doing more efficient work as a preliminary to the formation of a chapter of Delta Tau Delta.

We are deeply impressed with the spirit and ideals of the fraternity so far as they have been made to us and, in case our application is favorably considered, we do pledge ourselves to accept and embody them in a chapter worthy of the high aims and illustrious record which the fraternity enjoys in the world.

ALUMNI STATEMENT

To the President and Members of the Arch-chapter of
Delta Tau Delta Fraternity:-

We cannot too cordially express our commendation of the movement to establish a chapter of Delta Tau Delta in the University of Chicago. The time is ripe for such action; President Harper has been interviewed and looks upon the movement with personal favor and hearty interest; and above all the young gentlemen who have been organized for some time, for the purpose of securing entrance into the Delta Tau Delta Fraternity, are of such a stamp as at once to commend them to the confidence and admiration of the Fraternity. At this time they are equal in character, influence and scholarship with the very best fraternities in the university. Almost all of them are held in special favor by influential members of the Faculty. Not a member of the present local organization is undesirable in any particular. Most of them are men of mark and influence among the students of the undergraduate Colleges. Some of them are particularly strong in scholarship; some are possessed of unusual social gifts; some have already established their reputation as athletes; all are men of excellent character.

On the whole, we have never seen a more promising body of applicants seeking admission to our Fraternity.

ALUMNI STATEMENT

To the President and Members of the Arch-chapter of

Delta Tau Delta Fraternity:-

We cannot too cordially express our commenda-

tion of the movement to establish a chapter of Delta Tau Delta in the University of Chicago. The time is ripe for such action; President Harper has been interviewed and looks upon the movement with personal favor and hearty interest; and above all the young gentlemen who have been organized for some time, for the purpose of securing entrance into the Delta Tau Delta Fraternity, are of such a stamp as at once to command them to the confidence and admiration of the Fraternity. At this time they are equal in character, influence and scholarship with the very best fraternities in the university. Almost all of them are held in special favor by influential members of the Faculty. Not a member of the present local organization is undesirable in any particular. Most of them are men of mark and influence among the students of the undergraduate Colleges. Some of them are particularly strong in scholarship; some are possessed of unusual social gifts; some have already established their reputation as athletes; all are men of excellent character.

On the whole, we have never seen a more

promising body of applicants seeking admission to our Fraternity.

They are already glowing with enthusiasm for the fraternity of their choice, and there can be no doubt that they would add strength and honor to our peerless brotherhood. We unqualifiedly endorse the movement and bespeak for it speedy recognition.

Signed, Herbert L. Willett.

The University of Chicago

Pres. W. R. Harper,

Dear Sir:-

A few days since, a committee waited on you and obtained permission to organize the N. A. Society. In compliance with your request I send the following concerning the organization:-

A number of Fellows of this University have seen the opportunity ripe for an Inter-University Fellowship Fraternity, a Fraternity that, we hope, will stand in years to come for the highest and best that the intellectual world affords.

The objects we wish to attain are mutual sympathy and support, fostered and nurtured by social and intellectual contact.

To make the organization strong and of such a high standard that it be an honor for any one to be a member, we necessarily have various restrictions and limitations, the keynote to which are that a member must be among the first in his chosen field intellectually, and must stand the critical test of the judgment of the members morally and socially.
