Dear Mr. Burton:

Mr. Duncan writes me of lunching with a
Kenwood citizen last Sunday, who said that he considered -
"we had a first-class salesman in President Burton, and
that the more we could use him to talk to Chicago citizens,
the better it would be for the University. He said that
President Burton's address at the second Vincent luncheon
was one of the best pieces of selling talk he ever heard."

This for your information. I suspect he
is quoting Mr. Hull.

Yours cordially,

Harold H. Swift

Dear Mr. Burton:

Mr. Johnson writes me of meeting with a
certain person last Sunday, who said that he contacted
you and a first-class person in President Burton, and
that the same person was able to talk to Chicago officials.

I am sure that the person mentioned in your letter
is the same person who was mentioned in the second volume of the

My dear Sir,

It was a pleasure to receive
your very valuable volume - by so
distinguished a writer - and I hope that you
will accept my sincere thanks for the gift.
In my work for the allied arts, translating
of ten Italian Dramas into English being a
part, it was gratifying for me to receive from
the University of Chicago Press a laudatory
criticism of my work. I should like very
much to draw to your attention my present
activities in behalf of our vernacular opera.

Very Sincerely

We cannot go on borrowing Art from other countries and expect ever to enter that great, international and artistic horizon.

"Law, art and language are the unrelaxing bands which hold a race firmly together."

In our city, alone, there are sixty foreign-language newspapers influencing the thoughts and lives of their readers. With these conditions, how can we hope to be what our PRESIDENT advocates: more and more American? We must realize, that the mental horizons of these Editors lie in Europe...not in this country, or our language would be employed.

By the forms of its language a nation expresses itself. A language is but the instrument of those who use it. English has flourished and spread because of the forthputting qualities of its masterful race-stock.

Lowell stated, there was no poetry among the Puritans; and yet, if any people had a right to imagination, it was the descendants of those very Puritans. They had enough of it, or they could never have conceived the great epic they did, whose books are States, and which is written from Maine to California. Between 1840 and 1860 a group of writers contained the names of Irving, Cooper, Emerson, Hawthorne, Longfellow, Poe, Whitman..and Lowell, himself. And so rapidly are we making headway in literature, we may soon show the largest body of English-speaking writers are having residence on the western shore of the western ocean.

A language is the instrument of those who use it.

In a new country literature is apt to find an eager rival in life itself, with all its myriad opportunities for self-expression, and more than one American bard may have preferred to build his epic in steel or in stone, rather than in words.

But, there has been a wave of prestige for American literature and art, and it will return; for there is no national art which is not plainly a nation's own.

We cannot build up our art upon the Babel-tower system. Our language must be in use in the concert, opera and newspaper fields, leaving to the dilettante the foreign idiom.

Our race characteristics can only be firmly determined in our language, and English must ever be the most valuable possession of the peoples who speak it.

As Brander Matthew states: "A nation is really united when its whole population thrills at the same appeal and vibrates when the same chord is struck. Then, there is a consciousness of nationality and true security." This can never be born with the third of a city's population reading foreign tongues and absorbing the ideas these newspapers must, of necessity, propagate.

We must never forget, that ART IS HISTORY. To make American art, our population must be American..not foreign.

This excludes no international work of art...it merely protects America.

An English-speaking poet (Moncton Milnes) wrote these prophetic lines:

"That ample speech ..That subtle speech..
Apt for the need of all and each;
Strong to endure, yet prompt to bend
Wherever human feelings tend.
Preserve its force, expand its powers;
And through the maze of civic life,
In letters, commerce, even in strife,
Forget not it is your and ours."

My dear Dr. Vincent:

I must express in writing as well as by voice my deep appreciation of the help which you are giving the University in its development campaign. Your speech at the Casino Club Luncheon was superb and most effective.

I am sure you will share our pleasure in the fact that we have received bids for the new Hospital and the associated Laboratories which are such that we see our way clear to proceed with contracts and construction. As I write this letter the principal contracts are being signed at a figure which is surprisingly low.

As you know the plans and specifications, while calling for a Bedford stone exterior, are in general constructed from a severely utilitarian and scientific point of view.

We are very happy that we can now move forward after so many delays, and we are deeply appreciative of the help and cooperative spirit of the General Education Board and the Rockefeller Foundation.

Very truly yours,

I have your letter of March 17th which conveys to me my first intimation that you are soon leaving for Italy. We shall greatly regret your absence from the Lawyers' Luncheon, for which you have done so very much to prepare the way.

Permit me at this time to express, though I feel myself unable to do so adequately, my appreciation of the splendid service which you have rendered to the University, and as I believe, through it to the community, in connection with our development plans. In every way, and from every point of view, you have set us all an example of intelligent and devoted service.

It came over me a few days ago that I had never acknowledged your very generous Christmas gift -- LONDON, by Sidney Dark. I did not fail to recognize that the gift was from you, or to appreciate it. But under the great pressure of multiplied duties I neglected to write to you.

Please pardon this unpardonable neglect, and accept my ^{hearty} ~~greet~~ thanks.

My dear Mr. Swift:

The information which I have been able to obtain in response to your request of January 25 is as follows:

1. NUMBER OF GRADUATES:

- (a) Including the December, 1923, Convocation the total number of persons who have received degrees from the University is 16,417. A report showing the number by degrees and for men and women separately is being prepared and will be finished I hope by this evening so that it may be forwarded to you tomorrow.
- (b) The latest statistics showing a geographical distribution of graduates was prepared in 1919 and is printed on page 550 of the Alumni Directory published in 1919. Since this table covers the period from 1892 to 1919 inclusive perhaps it might be sufficient to use this as a basis for estimating the geographical distribution of the graduates through 1923. If this will meet the requirements please let me know and I will have prepared the estimates on that basis. If an absolutely correct count is desired it is estimated that this will require the time of two persons for a week and cost approximately \$50.00.
- (c) The following table prepared in 1919 shows the occupations of alumni separately for men and women for the period from 1892 to 1919 inclusive.

(Excluding Unknown List)

	Men	Women	Total
Agriculture	83	10	93
Art (including music)	14	21	35

My dear Mr. Swift:

The information which I have been able to obtain in response to your request of January 25 is as follows:

1. NUMBER OF GRADUATES

- (a) Including the December, 1933, Convention the total number of persons who have received degrees from the University is 18,417. A report showing the number by degrees and for men and women separately is being prepared and will be finished I hope by this evening so that it may be forwarded to you tomorrow.
- (b) The latest statistics showing a geographical distribution of graduates was prepared in 1919 and is printed on page 250 of the Annual Directory published in 1919. Since this table covers the period from 1893 to 1919 inclusive perhaps it might be sufficient to use this as a basis for estimating the geographical distribution of the graduates through 1933. If this will meet the requirements I am sure we know and I will have prepared the estimate on that basis. It is absolutely correct as far as the figures are concerned but this with regard to the time of two periods for a week and cost approximately \$50.00.
- (c) The following table is prepared for the period of annual graduates for the period from 1919 to 1933 inclusive.

Graduates by Department	
Law	10,773
Art (including music)	21,733
Business (General, Accounting, Advertising, Mercantile)	1,000
Office work, salesman, stenography, etc.	1,000
Education, etc.	1,000
Other	1,000
Total	35,506

	Men	Women	Total
Education	2161	2396	4557
Engineering	44	1	45
Finance	106	5	111
Government	62	31	93

Social (including settlement, Y.W.C.A., charities, etc.)	64	111	175
Unspecified	595	1614	2209
Total	6269	4702	10971

If an accurate statement is desired for all persons who have received degrees it is estimated that this will require the time of two clerks for a period of two weeks and would cost approximately \$100.00.

2. NON-GRADUATES:

At the present moment the number of matriculants is	108,324
Deducting the number of persons who have received degrees	16,417
and deducting the number of students in residence	6,546
leaves a total of	85,361

which includes those now registered for courses in the Correspondence Study Department. The information which we have regarding the non-graduates is very meagre. We have addresses for about 4,000 of this number but the problem of securing information as to location and occupation of the remainder is a rather difficult one. For a more complete statement of this situation please refer to a copy of my report to Mr. Sherer, Chairman of the Committee on Alumni Cooperation, a copy of which I will send to you.

Total	4,702	4,702	4,702

If an accurate statement is desired for all persons who have received degrees it is estimated that this will require the time of two clerks for a period of two weeks and would cost approximately \$100.00.

2. NON-GRADUATES:

At the present moment the number of matriculants is 108,124. Deducting the number of persons who have received degrees and deducting the number of students in residence leaves a total of 8,248.

which includes those not included for persons in the correspondence study department. The figures which we have taken in the non-graduate department are very meagre. We have no figures for about 4,000 of this number but the proper of accurate information as to location and occupation of the remainder is not a proper thing to do. For a more complete statement of this subject a piece of paper is a copy of my report to Mr. E. H. Roper, Chairman of the Committee on Alumni Cooperation, a copy of which I will send to you.

3. GENERAL STATEMENT OF ALUMNI ORGANIZATION:

4. LISTS:

- (a) There are on file in the Alumni Office information cards for all graduates of the University and for and approximately 4,000 non-graduates. We now have addressograph plates with good addresses for something over 15,000 of these names and have machinery now in motion whereby correct plates are rapidly being made. For the remainder the situation now is as follows:

The total number of persons who have received degrees from the University is	16,417
Estimated number of graduates in March and June, 1924	<u>850</u>
The total as of June 15, 1924, will likely be	17,267
Deducting the number deceased	<u>500</u>
	16,767
and deducting those for whom we have no correct address (5% of the graduates)	<u>800</u>
	15,967
and adding those non-graduates for whom we have good addresses (chiefly made up of a live list of those interested in obtaining football tickets)	<u>4,033</u>
gives a total number of persons for whom we should have addressograph plates	20,000
Through the work of the football tickets committee we now have plates with good addresses totaling in round figures	<u>15,000</u>
leaving yet to be made	5,000
of which number 3/5 have plates which need to be corrected	3,000
and entirely new plates needed for	2,000

2/4/24

- (c) The card file of graduates and non-graduates is arranged alphabetically and the addressograph file will be arranged geographically.
- (d) The Alumni records are in charge of the Records Division of the Alumni Office. After every convocation the University Recorder sends to the Alumni Office the names of those persons who have received degrees and they are added to the file. As yet the machinery has not been set up for acquiring a complete list of non-graduates. Addresses are kept up to date through information received in connection with the Alumni Magazine, reunions, newspaper clippings and miscellaneous information referred to the Alumni Office by other offices of the University.

5. PERSONNEL OF ALUMNI:

In cooperation with Mr. Pierrot I have been studying the names of alumni in the various graduation classes and also the names of non-graduates but I am not yet sufficiently satisfied with our study to suggest definite names. I expect to have a list of names ready for your consideration within a few days.

Yours very truly,

Yours very truly,

C O P Y

January 14, 1924.

President E. D. Burton,
University of Chicago.

As you requested, I have made a study of the Alumni lists and the steps that ought to be taken to improve them. In doing this I have consulted with Mr. Pierrot and Miss Watson of the Alumni Office and Mr. Giffen of the Football Office. In the recommendations which I am making I have had the advice of Mr. Axelson, chairman of the Alumni Council, and of Dr. Slaughter who, as you know, has been chairman of the finance committee of the Alumni Council for at least ten years and who has, I believe, been in closer touch with alumni affairs through that period than any other member of the faculty.

May I answer your specific inquiries as follows:

1) The total number of persons who have received degrees from the University is.....	16,417
Estimated number of graduates in March & June, 1924....	850
The total as of June 15, 1924, will likely be.....	17,267
Deducting the number deceased.....	500
	16,767

and deducting those for whom we have no correct address (5% of the graduates).....	800
	15,967

and adding those non-graduates for whom we have good addresses (chiefly made up of a live list of those interested in obtaining football tickets).....	4,033
gives a total number of persons for whom we should have addressograph plates.....	20,000

Through the work of the football tickets committee we now have plates with good addresses totaling in round figures.....	15,000
--	--------

leaving yet to be made.....	5,000
of which number 3/5 have plates which need to be corrected.....	3,000
and entirely new plates needed for.....	2,000

- 2) The steps which now need to be taken are -
- a) Partition off a space in the alumni office to house the records division.
 - b) Move the addressograph machine, cabinets and plates from the football office to the alumni office.
 - c) Purchase of graphotype machine, one additional cabinet including drawers and 2,000 new frames and plates.
 - d) Check all the present plates with the alumni records and with the Kardex file of the football office and correct the plates where necessary (approximately 3,000).

Estimated number of graduates in March & June, 1924.....850
The total as of June 15, 1924, will likely be.....17,267
Deducting the number deceased.....500
16,767
and deducting those for whom we have no correct address (8% of the graduates).....1,398
15,369
and adding those non-graduates for whom we have good addresses (chiefly made up of a list of those interested in obtaining football tickets).....4,033
gives a total number of persons for whom we should have addressograph plates.....20,000

- 2) The steps which now need to be taken are -
- a) Partition off a space in the Alumni Office to house the records division.
 - b) Move the addressograph machine, cabinets and plates from the Football Office to the Alumni Office.
 - c) Purchase of typographic machine, one additional cabinet including drawers and 2,000 new frames and plates.
 - d) Check all the present plates with the Alumni records and with the Index file of the Football Office and correct the plates where necessary (approximately 3,000).

2) - continued.

- e) Make new plates for the 2,000 persons with good addresses for whom we have no plates.
- f) Work out a routine for keeping all plates as nearly 100% correct as possible.

3) The cost of these steps is estimated as follows:

a) Partition in room - Cobb Hall	\$180.00
b) Moving expense	20.00
c) Graphotype machine	460.00
One metal cabinet	40.00
22 drawers for cabinet at 95¢	20.90
2,000 frames and plates	49.00
d) In addition to the present appropriation for the alumni office there will be needed for an operator and clerical help, etc. to July 1, 1924, approximately	650.00
Total expense this fiscal year	\$1,419.90

4) For the future it is recommended that a Records Division be set up in the alumni office under the supervision of Mr. Pierrot, conducted by Miss Watson, who would devote 3/4 of her time to this work. In addition to Miss Watson there would be required an addressograph operator competent to help with the record keeping, at a salary of \$25.00 per week, and part of the time of the stenographer and the clerk now employed in the office. It is recommended that Miss Watson's salary be increased to \$175 per month. The budget requirement under this plan would be as follows:

3/4 of Miss Watson's salary (\$2,100)	\$1,560.
Operator and clerk	1,300.
Additional clerical & steno. service	360.
Supplies	300.
Miscellaneous expense	80.
Part of Mr. Pierrot's salary for superv.	500.
	<u>\$4,100. per yr.</u>

The present provision in the University budget is	2,500.	"	"
leaving an additional requirement of	<u>\$1,600.</u>	"	"

5) It is further recommended that instructions be issued by you directing that all keeping of alumni records for all divisions of the University be concentrated in the alumni office so as to avoid duplication of effort and expense. If the School of Education, for example, will forward to the alumni office promptly all the information it collects about its alumni, it will then in turn be able to avail itself of the addressograph system for mailing out its notices, etc. at an agreed charge for the service which would, of course, be much cheaper than the hand addressing method. The following groups could unquestionably make most effective use of such a plan:

2) - continued.

- e) Make new plates for the 2,000 persons with good addresses for whom we have no plates.
- f) Work out a routine for keeping all plates as nearly 100% correct as possible.

3) The cost of these steps is estimated as follows:

a) Partition in room - Goshall	\$180.00
b) Moving expense	20.00
c) Graphotype machine	480.00
One metal cabinet	40.00
22 drawers for cabinet at 95¢	20.90
2,000 frames and plates	48.00
d) In addition to the present appropriation for the alumni office there will be needed for an operator and clerical help, etc. to July 1, 1924, approximately	650.00
Total expense this fiscal year	\$1,418.90

4) For the future it is recommended that a Records Division be set up in the alumni office under the supervision of Mr. Plator, conducted by Miss Watson, who would devote 3/4 of her time to this work. In addition to Miss Watson there would be required an addressograph operator competent to help with the record keeping, at a salary of \$25.00 per week, and part of the time of the stenographer and the clerk now employed in the office. It is recommended that Miss Watson's salary be increased to \$15 per month. The budget requirement under this plan would be as follows:

3/4 of Miss Watson's salary (\$2,100)	\$1,575.00
Operator and clerk	1,200.00
Additional clerical & steno. services	300.00
Supplies	300.00
Miscellaneous expense	80.00
Part of Mr. Plator's salary for superv.	500.00
Total per yr.	\$4,155.00

The present provision in the University budget is \$1,500.00, leaving an additional requirement of \$2,655.00.

The following groups could unquestionably make most effective use of such a plan:

The School of Commerce & Administration
The School of Education
The Law School
The Association of Doctors of Philosophy
The Chicago Alumni Club
The Chi cago Alumnae Club
The Publication Dept. of the Press
The University Bookstore
The Football Tickets Committee

The income for the Records Division from this service would
likely offset some possible expenses that we may not have foreseen.

The University of Chicago

Office of the Auditor

January 31, 1924.

My dear Mr. Swift:

In answer to your letter of January 25 I beg to inclose herewith the material requested therein as follows:

- a) Statement of the cost of the University buildings and the date of construction - three copies.
- b) A blueprint, on which has been indicated the University's holdings of real estate in the immediate vicinity of the University. (There are pieces on University Ave. north of 56th St., on Ellis Ave. north of 57th St., and on University Ave. south of 60th St. which have not been indicated on this chart, since it was thought undesirable to indicate them because the title is not held by the University. If you think it desirable for the purpose you have in mind to secure more complete information, I will endeavor to arrange for it in the City Office. Only one copy of this blueprint is presented. The other two copies will be mailed to you as soon as prepared in the City Office.)
- c) In the annual report for 1922-23, on pages 11-18 inclusive, is presented a classified list of the endowment funds. I am engaged in presenting this in the form you desire and will mail it as soon as completed.
- d) Three copies of the Auditor's Report for the last three years.
- e) A statement of income and expenditures since July 1, 1894 - three copies. I find no record of the receipts and expenditures previous to that date, and wonder if the statement submitted will meet the situation.
- f) A schedule of tuition fees showing the changes.
- g & h) I am somewhat perplexed by these questions, and should like an interview on this matter before proceeding further.

The University of Chicago

Office of the Auditor

January 31, 1934

My dear Mr. Swift:

In answer to your letter of January 22 I beg to enclose

herewith the material requested therein as follows:

a) Statement of the cost of the University buildings and the date of construction - three copies.

b) A blueprint, on which has been indicated the University's holdings of real estate in the immediate vicinity of the University. (There are places on University Ave. north of 56th St., on Ellis Ave. north of 57th St., and on University Ave. south of 60th St. which have not been indicated on this chart, since it was thought undesirable to indicate them because the title is not held by the University. If you think it desirable for the purpose you have in mind to secure more complete information, I will endeavor to arrange for it in the City Office. Only one copy of this blueprint is presented. c) In the annual report for 1932-33, on pages 11-18 inclusive, is presented a classified list of the endowment funds. I am engaged in presenting this in the form you desire and will mail it as soon as completed.

d) Three copies of the Auditor's Report for the last three years.

e) A statement of income and expenditures since July 1, 1932 - three copies. I find no record of the receipts and expenditures previous to that date, and would if the statement submitted will meet the situation.

f) A schedule of tuition fees showing the changes.

g & h) I am somewhat perplexed by these questions, and should like an interview on this matter before proceeding further.

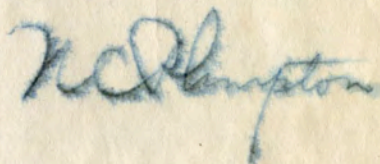

- i) There is inclosed a copy of the University's budget for the year 1923-24. Since both you and Dr. Burton have copies of this budget, and as our supply is short, I am sending you but one copy now, which I trust will be satisfactory.

I am also sending you in separate form, three copies of a statement of Mr. Rockefeller's contributions to the University, and desire to call attention to the fact that the total amount of the Rockefeller Final Gift was placed in an endowment account in this statement. It has been distributed for various purposes, as indicated in the report of the Rockefeller Final Gift attached hereto.

I am also inclosing three copies of a statement of the contributions of Mr. John D. Rockefeller, Jr.

I trust the foregoing will be sufficient material to inaugurate the work contemplated, and remain

Very cordially yours,

Mr. Harold H. Swift,
Union Stock Yards,
Chicago.
