My dear Dr.Judson:

Community Service of Chicago is interested in the leisure-time of the people and aims to promote its utilization in every profitable, common sense and pleasureable way.

We think Community Singing is a special field which should be developed in a large way for all the fine results which can be procured through it by giving opportunity for self-expression, for stimulation of the spirit of unity and elevation of musical taste.

We would greatly appreciate an opinion from you on the subject, with the request that you permit us to use it in printed matter and other ways which would be useful in promoting the above object.

Very sincerely yours,

Eugene T. Lies

Executive Director.

Dear Mr. Lies:

Your favor of the 7th instant is received. It would in my opinion be exceedingly valuable if all people could do more in the way of singing. While concerts, orchestras and opera have their place and are valuable, the singing which people do themselves as a spontaneous expression it seems to me would be more widely useful.

Very truly yours,

Mr. Eugene F. Lies,

My dear President Judson:-

At a meeting of the Executive Committee of the Interchurch World Movement yesterday, we were asked by Mr. Jenkins to furnish from our own number the Chairmen for several groups of church workers who would immediately start to canvass the "Loop District." Our feeling was that a canvass conducted in that haphazard manner without a careful selection of names and a wise choice of canvassers would not be to our credit nor to the ultimate advantage of the cause.

Inasmuch as the church leaders had failed to hand in a list of the people they wished to have canvassed by the Citizens' Committee, and their own workers were jealous of any encroachment on their special denominational territory, and as it would reveal a lack of efficiency and coordination to approach the same prospective giver twice, and as there was not sufficient time for us to properly prepare for a systematic campaign in the "Loop District", therefore, we felt it would be unwise to alter the position which we took when the Committee was organized and which is expressed and agreed to in the enclosed correspondence.

The following Resolution was passed in accordance with the above statement:

> "RESOLVED, That the obvious value of a united appeal is so vital that it is urged that the organization and completion of the effort be undertaken by the churches.
>
> We recommend that, until the church organizations are prepared to compile and furnish detailed lists, with connections and suggested methods of approach, the Interchurch canvass of the friendly but non-church public be postponed."

Regretting that you could not have been present with us, and trusting this action meets with your approval, I am

Yours truly,

Clifford W. Barnes

Chairman.

Mr. R. D. Jenkins,
Interchurch World Movement,

Chicago, Illinois.

My dear Mr. Jenkins:-

In accordance with your request and that of the gentlemen who met in my office yesterday afternoon, I have endeavored to organize an executive committee to assist in the Interchurch World Movement in Chicago. The time is so short before the inaugeration of your Simultaneous Campaign that those whom I have seen are very reluctant to assume any leading part in the enterprise.

The undersigned have agreed to lend their moral support to the work and to attend as far as possible such meetings as may be necessary to give guidance and counsel to the various campaign committees. They stipulate, however, that they shall not be expected to personally solicit funds nor take an active part in the group work to be carried on in the "Loop District".

If these conditions meet with your approval, will you kindly let me have in writing a statement to that effect, and make this letter a part of your office records.

My dear Mr. Barnes:

I am very ready to agree that the men whom you have associated with yourself as members of the Executive Committee to head the United Simultaneous Campaign for the Interchurch World Movement in Chicago shall not be called upon to solicit funds nor take an active part in the group work to be carried on in the loop district. This is in direct reply to your letter of April 14th.

I appreciate the generous spirit in which these men have, at your request, lent their names to this significant effort of the Churches and in every sense, I shall respect the limits of their association with the Movement. May I tell you that your own understanding of the possibilities of this Movement is inspiring and that your generous personal response is deeply appreciated.

Sincerely yours,
