Dr. William R. Harper.

Dear sir-

after much  
persuasion. Miss Mackie  
has consented to let me  
come out to Chicago.  
hoping so she assures me  
that I will be success-  
ful.

Have taken your

advice and shall leave New York  
Wednesday May the fourth at one  
o'clock by Michigan Central reach-  
ing Hyde Park at two forty eight on  
Thursday.

My work here demands that  
my stay be as short as possible. but  
I intend to make it long enough  
to see & learn about all the things  
I will need to know in case I am  
fortunate enough to be at Chicago  
next year.

Sincerely yours

Gertrude Dudley

My dear President Judson

The letter from  
Mr. Dickinson Saturday  
came to me as a great  
surprise. The action of  
The Board of Trustees was  
I am sure the result of  
your suggestion. I ap-  
preciate more than I can  
tell you your thought  
for me. A thank you is  
a very meagre expression of  
my real feeling  
Sincerely  
Sublime Hardy

March 30, 1922.

My dear Miss Dudley:-

Your note is at hand. I am  
very glad that some little matter of the  
kind could be done. We cannot always do  
what we would like to do.

With cordial regards, I am

Very truly yours,

Miss Gertrude Dudley,  
The University of Chicago.

President Harry Pratt Judson,  
Faculty Exchange

Dear President Judson:-

I think perhaps you will be interested in a discovery that I have made with reference to the Department of Physical Culture. I remember feeling a bit of irritation, and I think you did also, when so many changes of grade were reported by Miss Dudley. It seems that in her inexperience *in reporting grades* she thought that if any grade was withheld because of some uncertainty in regard to medical excuses or for some other reason which would make an immediate decision possibly unfair, and a grade was finally given this should be reported as a change of grade. Such cases, as I have explained to her, are reported as "incomplete" and the final grade then merely appears on the books. *but does not have to be reported to the Faculty.*

In a report which she recently handed in for the Winter Quarter she showed twenty changes of grade and of these eight should not have been reported. This leaves twelve which is not a very serious number, considering that there were 992 registrations.

Yours truly,

MT/W

Marian Talbot

President Harry Pratt Johnson  
Faculty Exchange

Dear President Johnson:-

I think perhaps you will be interested in a  
discovery that I have made with reference to the Department of  
Physical Culture. I presented tonight a bit of material, and  
I think you did also, when we met at the dinner  
sponsored by Miss Butler. It seems that in our Department we are  
the thought that it was given was without purpose of any  
interest in regard to medical science or for any other  
reason which would make an immediate decision. I think  
and a grade was finally given this should be reported as a  
change of grade. Such cases, as I have explained to you,

are reported as "incomplete" and the "new grade" is given  
on the basis of the work. But here we have a special case  
In a report which the faculty made in the  
the Winter Quarter the Special Faculty Board of Study and of their  
ought should not have been reported. This I have noted which is  
not a very serious matter, considering that there were 500 regis-

My dear Miss Talbot:-

Thank you for your note of the 12th instant in regard to changes of grade in the Department of Physical Culture. I trust that Miss Dudley understands fully now how the matter is reported. I was astonished to find so great a number of changes. Of course work unfinished is reported merely as incomplete.

Very truly yours,

Miss Marion Talbot,  
The University of Chicago.

Dean David A. Robertson,  
The University of Chicago.

My dear Dean Robertson:

Your letter of May 23rd regarding non-registration of students for Physical Culture is a surprise to me. Since I came to the University my office has followed, without exception, 3 under 21 in the Course Book. We have filed in our office now, the green class card for every student registered in our Department, whether graduate or undergraduate, required or optional. May I ask when this ruling regarding class tickets was changed? The using of tuition receipts as evidence of registration in the University may be very satisfactory to the Lectureship Bureau, it would, however, work a real hardship for the student and for our work. As I understand it bills are often unpaid for a week or more, and this delayed registration plan would be a real handicap to the students. If in the opinion of the Deans it is not wise to send us a list of students desiring to register for Physical Education, that is perfectly satisfactory to us, but I can see no additional work entailed in handing to a student at the time she receives her other class cards a card for Physical Culture. We do all the assigning to classes in Ida Noyes Hall. Would there in the minds of the Deans be any objection to doing this? Aside from the value of following for all classes a uniform method of procedure and the fact that in former years cards have been required, there is a certain psychological value to be derived from receiving a Physical Culture card.

If the "participants in the Conference" you referred to, is the Committee who worked on the reduction of Physical Culture I must disagree with your statement. Never was there in my mind any thought of automatically giving a student credit for Physical Culture because she was in the University. If I have not misunderstood Dr. Reed in our telephone conversation he had no thought of such an procedure. Personally I do not understand how such an action can be taken without the consent of the Department concerned. As I told you over the telephone I realize that in our first quarter (last summer) we made many errors in reporting as failures, students whose work was optional. In the Fall Quarter there were four such cases and in the Winter quarter there was one. That seems to me not a large proportion of the number registered, however, those five errors should not have occurred. If a student registered and

In the Fall Quarter there were four such cases and in the Winter quarter there was one. That seems to me not a large proportion of the number registered, however, those five errors should not have occurred. If a student registered and

desires to obtain credit why should she not receive credit? If our office reports only those who receive credit and no "F's" I should think no correspondence would be needed in explanation. It has been our effort to offer in the summer, work of equal value with that offered in other quarters. That, I understand, has always been the policy of the University. It seems to me unfortunate now to take action discrediting the work of one department.

Sincerely,

[Signed) Gertrude Dudley.

President Harry Pratt Judson,  
The University of Chicago.

My dear President Judson:-

Am enclosing some correspondence in which I believe you will be interested. Following the suggestion in Mr. Payne's letter Mr. Robertson called a meeting. Dr. Reed was out of town, Mr. Stagg represented him, Mrs. Flint, Mr. Judd, Mr. Gray, a gentlemen I did not know, and myself, were present. Mr. Judd's statement that this legislation had been made operative because the College of Education could not handle registration for Physical Culture requirement for the summer seemed to be the basis of the action which prompted Mr. Robertson's letter of May 23rd. I feel that the discrediting the work of any one Department both by refusing to register students and also by automatically giving credit for work not done is a matter which should have Faculty consideration and action rather than that of a Committee. I suppose it is too late to have any further action taken this year but do you not think it is a matter which should be brought up for consideration early in the Fall Quarter?

Very sincerely,

Gulicade Hussey

GD.FG

June 21, 1922.

My dear Miss Dudley:-

Your note of the 16th instant is received. Of course I shall look over the matter of legislation to be sure that there is a uniform policy adopted. I was not able to see much of the exercises on the Tuesday before Convocation, but I confess that what I did see did not strike me as especially edifying. I wonder who in the world is responsible for that particular kind of exhibition.

Very truly yours,

Miss Gertrude Dudley,
