Dear Sir: Accept my
thanks for your kind letter
with reference to graduate work
in the University for next year.

Prof. Salisbury writes me that
Prof. Moulton does not return to
the University till the middle

He seems to be regarded as

your strongest man in English
literature. I had hoped for
an emphasis from him.

My work at Ann Arbor included
Anglo-Saxon, Early English, the Master-

and two minors were Latin & German.

My ambitious taste lies along a college

with special reference to English verse-forms,
a professorship of poetry, so to speak; such

Dear Sir,
 I have the honor to acknowledge the receipt of your letter of the 10th inst. in relation to the above named matter. as the English universities seem to maintain. It has always seemed to me that the highest form of literary art is the poetical, which seems in the study of literature not to have the prominence its great importance demands - the significance of verse-forms in their adaptability to express profound human emotion & aspiration.

Last year I was elected to a fellowship in English literature at the University of Wisconsin. I had it not been for the change to the University of Chicago on the part of Prof. Chamberlain & Prof. Salisbury. I should have been there now. Prof. Chamberlain has written me a very kind letter, offering me the great use of his name as a reference for course it will be of no avail as regards university fellowships, for which I am exceedingly grateful - You spoke in your letter of sending programs for next year. They have not yet come, perhaps because not yet published. - I am very truly yours, H. S. Fiske

The English literature has
 a characteristic of its own
 and is not to be compared
 with the literature of other
 nations. It is a literature
 of its own kind and has
 its own history and its
 own development. It is a
 literature of the English
 people and of the English
 language. It is a literature
 of the English people and
 of the English language.

Prof. Fiske gave his Merchant of Venice Monday evening before a large and intelligent audience. The speaker must have been pleased with the attention given him, even by the high school boys, for during the entire evening the drop of a pin could have been heard. Mr. Fiske's Shylock was magnificent. Mt. Carroll has seldom heard such reading. These lectures will stimulate a great many of our citizens to a careful study of the "thought and imagination" in Shakspeare.

speeches against Bryan and free silver. In his speech at Sterling he explained the reason why he and hundreds of other long time democrats could not support Bryan platform as being because of the unpatriotic utterances of that platform.

Luther Green of Solomonville Ari., writes us a letter. He is pretty hot because we have left the demopopic party and says he has always been a life long democrat and will vote for Bryan. "Lad" seems, too, to have changed his politics, for if he had stuck to those life long principles he would now vote for Palmer and Buckner instead

That Prof. Horace S. Fiske has fine dramatic power was demonstrated Monday evening as he gave his lecture on the Merchant of Venice. Having high culture and artistic instincts he would surely succeed as a tragedian should he go upon the stage. Hereafter he will give one hour to the lecture and another to discussion of the thought in the play presented two weeks before. To induce the people to study Shakspeare carefully is the purpose of the lectures. Our readers will be interested to know that Mr. Fiske is a teacher by profession. He was for a time instructor in Beloit Academy, afterward professor of Civics and Political Economy at a Wisconsin Normal School, and now, after ^a~~three~~ years of study in Europe, he is connected with the University of Chicago as teacher and University Extension lecturer. *Wt. Mr. Horace S. Fiske, whom you know, is, as I happen to know, in a desperate financial situation. He has stayed here largely on borrowed money with the hope that something would open up for him in the University, and thinks he has had encouragement enough at one time or another to warrant him in the course he has taken. However this may be, he is doing himself and Mrs. Fiske a great injustice in staying here under the present conditions. If there is no future for him in the University he should know it and should be advised to look for something elsewhere.

He is, as you know, a good fellow and a scholar. Is there any chance for him in Morgan Park, in Peoria, or any other affiliated school?

Extension Lecturer in
English Literature
The University of Chicago

CHICAGO
The University of Chicago Press
1897

Press and Personal Notices.

The best lecture of the University Extension course so far was that of Friday evening on "Hamlet." Mr. Fiske's reading of Shakspeare is exceedingly good. The thought is made perfectly clear, and his work is a decided success. His voice is very pleasant and his literary style admirable. The discussion of "The Merchant of Venice" followed the lecture and was participated in by a large number.

There were some well-known Shakspearean scholars present, such as Colonel Higgins, and they expressed themselves as well pleased. Colonel Merriam, who had heard the same lecture in Atlanta the evening before, came down last evening to hear it again. The course is also a financial success.—*The Lincoln* (Ill.) *Daily Courier*, Nov. 30, 1895.

Professor Fiske does not dwell on the dramatic side of the plays, but only studies and lectures upon them from a literary standpoint. As an expounder in that light he ranks among the best, and has the happy faculty of making lucid and clear the meaning of the different parts.

"Hamlet" was the subject last evening, and he delighted a larger audience than was present at his two previous lectures.—*The Lincoln* (Ill.) *Daily News*, Nov. 30, 1895.

The last lecture of the University Extension course was given by Professor H. S. Fiske on Wednesday, the subject being "The Tempest." The course has proved entertaining and instructive, the interest continuing unabated to the close. More interest has been aroused in the study of high-class literature than has existed at any time heretofore. Mr. Fiske has proved himself a thorough master in his department, and is possessed of great dramatic power. The lectures on "The Merchant of Venice" and "Hamlet," especially, were given with the spirit of the tragedian.—*The Tremont* (Ill.) *Sun*, Jan. 25, 1896.

So much gratification has been expressed by the members and their guests at the paper you so kindly gave us on "The Merchant of Venice" at the Leland Hotel, January 27th, that it is thought only just to you that you should know about it. And it is therefore with great pleasure that I send you an expression of the high appreciation and pleasure felt by all present for the opportunity of listening to you.

I wish I could repeat all that has been said to me in favor of your most interesting paper. Not only at the Club, but frequently since, our members and friends have discussed it with expressions of the highest satisfaction.

COR. SEC., Chicago, Feb. 4, 1896.

PRESIDENT WHITE CITY CLUB.

It was gratifying to all your friends to have your lecture on "King Lear" given as one of the features in so strong and popular a course, and before so large an audience, filling the College Chapel, whose close attention gave evidence of the interest with which they followed your just and lucid setting forth of the line of thought and the imaginative element in that great tragedy. Your success in presenting, in but little more than an hour, so full and rich a representation of Shakspeare's work in this drama was very marked. We look back to the evening as one of choice interest.—EDWARD DWIGHT EATON, President Beloit College, Wisconsin, March 18, 1896.

Some years ago the Charnel-House of Stratford-on-Avon, adjoining Shakspeare's tomb, was opened. Among the many skulls thrown up by the digger was one whiter than the others, bearing the inscription in Latin: "To-day for Me, To-morrow Death for You." Mr. Horace Spencer Fiske of the University of Chicago has in the April *Century* a sonnet suggested by this interesting event. It is as finished as a stanza of Wordsworth. The literary world has given Mr. Fiske high praise for this poem, and among the many expressions of admiration are letters from the great Shakspearean, Edward Dowden, Hamilton W. Mabie and James Whitcomb Riley, and also a sonnet by a professor of Oxford University, England. As Mr. Fiske is to give the University Extension lectures on Shakspeare this fall, many will turn with interest to this sonnet.

Professor Fiske gave his "Merchant of Venice" Monday evening before a large and intelligent audience. The speaker must have been pleased with the attention given him, even by the high-school boys, for during the entire evening the drop of a pin could have been heard. Mr. Fiske's Shylock was magnificent. Mt. Carroll has seldom heard such reading. These lectures will stimulate a great many of our citizens to a careful study of the "thought and imagination" in Shakspeare.—*Mt. Carroll* (Ill.) *Daily Democrat*, Sept.-Oct. issues, 1896.

On Thursday evening, before an audience composed largely of old friends and admirers, Professor H. S. Fiske gave his "Interpretation of Shakspeare's 'Merchant of Venice.'" With fine poetic insight and dramatic power he presented the play most vividly to his hearers, while the profound stillness of the audience indicated the sympathy with which it followed him. The lecture, if so it might be called, was unique in its character, being a delightful combination of the literary and dramatic.—*Platteville* (Wis.) *Witness*, Oct. 21, 1896.

That Professor Horace S. Fiske has fine dramatic power was demonstrated Monday evening as he gave his lecture on "The Merchant of Venice." Having high culture and artistic instincts he would surely succeed as a tragedian should he go upon the stage. Hereafter he will give one hour to the lecture and another to discussion of the thought in the play presented two weeks before. To induce the people to study Shakspeare carefully is the purpose of the lectures.—*Carroll County Mirror*, Oct. 29, 1896.

At a recent meeting, the Winter Club, desirous of expressing their appreciation of the interpretation of "The Merchant of Venice" so ably presented by you on November 19, have placed your name on the honorary list of membership. The dramatic fervor of each character was in strong contrast to the descriptive passages, but so finely tempered that the transition from personality to thought and imagination was remarkable. To state that the members and all present were delighted is saying but little.

HANDEL HALL, Chicago, Nov. 24, 1896.

PRESIDENT WINTER CLUB.

The next lecture in the University Extension course will be on Monday evening next, January 4, 1897. The subject will be the continuation of "Hamlet" through the closing scenes of the play. The interest manifested in the lectures and class exercises by Professor Fiske is a source of great gratification to those who appreciate this sort of entertainment, and this interest is augmented as our people become more and more acquainted with the lecturer. Not only is Professor Fiske a speaker of rare talent and ability, but his writings, though not extensive, elicit the kindest comment from competent critics.

Professor Fiske entertained the largest audience which has yet greeted him in the Extension Course here, last evening. "King Lear" is one of Shakspeare's heaviest plays and difficult to master, but the lecturer certainly sustained his well-earned reputation in last evening's entertainment.

—*Savanna (Ill.) Daily Journal*, Jan. issues, 1897.

Professor Horace S. Fiske, of the Chicago University Extension, gave an interpretation of "King Lear" at the Court-room last Monday evening to a very good audience, and thoroughly appreciative as well. He was introduced by Judge McCarn. His interpretation consisted of a running comment on this popular production of Shakspeare, with graceful and effective impersonations of the striking utterances of King Lear, his sons Edmund and Edgar, the three daughters, and other personages entering into the play. Thus a very complete view of the narrative is brought before his hearers, interwoven with many varying hues of human experience, tragic, humorous and philosophic. This plan, to our view, is far better than fragments from different plays sometimes heard from interpreters of the immortal bard, and it suggests the propriety of securing lectures on other Shakspearean themes which we understand Mr. Fiske has in his course. At the close he was most heartily applauded, and then followed a genuine ovation.—*Anamosa (Ia.) Eureka*, Jan. 21, 1897.

Professor Fiske's course of lectures on "The Thought and Imagination in Shakspeare" is finished, and judging from results, from the remarkable interest in Shakspeare awakened by the course, Mr. Fiske must be pronounced a great success. Those who have never read the plays went from his lectures to read them; and those who had read them, made eager by the teacher's questioning and the reader's art, went home to read them again.

The literary skill with which he put together the thoughtful and imaginative fragments of the plays, joining them so carefully that no seaming could be seen, reminded us at times of Charles Lamb. A very intelligent member of the Mt. Carroll class, one whose opinion has weight, says of Mr. Fiske: "He is superior to Furness as an interpreter of Shakspeare, and compares well with Moulton."

—*Mt. Carroll (Ill.) Daily Democrat*, Dec. 24, 1896.

Last Monday evening the lovers of Shakspeare enjoyed a treat. Under the auspices of the Shakspearean Circle, Mr. Horace Fiske greeted one hundred and fifty people assembled to hear the masterly "Interpretation of King Lear." Mr. Fiske does not dwell at any length on explanation and descriptions. He prefers, rather, to call in play the plan of nature, by presenting the art, the beauty and the soul of literature, leaving the observer to follow.

The tragic elements of the play were in full possession of the lecturer; and besides the ability which Mr. Fiske has as an actor, he possesses a keen sense of literary discrimination, and becomes in the fullest sense an interpreter. The greatest book is that which urges the reader to think deep and true,—the greatest success on the stage is that which impels recognition of, and thought upon, a truth which before was hidden. Mr. Fiske is a master of this art. Once heard he needs no second introduction to an audience.

Dear President Harper

Knowing your sympathy with the Extension work, I venture to send you with this my latest "trumpet," fully equipped with wind, brass & a high polish.

If my efforts be and do no one else good, they can certainly help me; & I begin to realize as never before the exceeding difficulty of the work.

But I think with organization & selection it has a magnificent future; & my only trouble now is to get enough to keep me busy all the time. However, I have had three lecture courses & two class courses, which ought, I suppose, to satisfy a novice; but it doesn't pay all the while. — I have gone seriously into the work & mean to abide by it; & have already given two years to it. If, in some way, — as in the case of Mr. (ours)

Rolfe, Helen - some minimum
amount each year, even \$500.,
could be guaranteed me, & I could
be allowed to "work it out". I should
be abundantly satisfied, until my
reputation as a lecturer might
naturally call for more.

I know you are pestered
by all kinds of appeals for help,
especially from those who haven't
yet earned their spurs; & I
should not call this to your atten-
tion, were it not that in my effort
to make a reputation as a lecturer
I owe something to my wife in the
way of at least a small fixed
income.

Pardon my intrusion on
your time, & believe me

Very sincerely yours

Dear Prudent Harper

After four or five years of successful & arduous work with the teachers of the city I had strongly hoped to be able to continue the work this fall at the University College, but I suppose there is no appeal from Mr. McClintock's decision.

I shall be obliged to supplement my other courses, & if you know of any work that I can do at Morgan Park or any other affiliated schools in the city, I should be very glad to do it. I recall your saying that you had heard some very pleasant things of my class-work, & if you could mention in a letter the fact that I had done some special work with Samuel, Mr. Rainer, Mr. Kellogg, the Moloney boys & others, it would doubtless be very helpful. I once passed the High School Examinations in the city here & had a good deal to do with boys in the Racine High School, Beloit College Academy, some of the State Normal Schools of Wisconsin.

I have just received some very kind letters from Thomas Bailey Aldrich, Professor Douden, & Dr. Van Dyke, with reference to the little book published by the University Press, & if without too great a stretch of conscience you could say a word or two in the letter, for my literary ability, it would be of great advantage to me I am sure.

My dear Mr. Fiske:-

I desire to acknowledge the receipt of your letter of July 29th and the copy of the Annual Register. I appreciate very much indeed the fact that it is now published. I think I understand to some extent the largeness of the work involved in its publication. I have not examined it, but join with you in the hope that it may be found fairly free from errors.

I should be glad to have you send me at your early convenience the bill, and in connection with it make a comparison with the last Register, the number of pages, cost, etc.

Am sorry to know that the Record this year has cost \$2800., being \$800. more than the appropriation. It will be necessary to change our policy in reference to the Record during the coming year in order that this excess over appropriation may not be incurred.

Yours very truly,

W. R. Harper

My dear President Harper:-

I send you with this a copy of the new Annual Register, thinking that you may need some diverting summer literature. I am very sorry that there has been delay in publishing it, but under the conditions it seemed unavoidable. However, I am glad to say that we have succeeded in getting out bound volumes in July. I have spent most of my days and nights for a month in getting the Register through the press.

The new index nomenclature, which I made myself with student help, contains between three and four thousand entries, and there are as many page references in the general index.

I hope you will find the new Register somewhat improved and fairly free from errors.

Very truly yours,

Horace S. Fiske

that we might get there the next day and so Thurs-
day morning I found that all of the hotels had been
posted to notify him of our arrival. We had a de-
lightful luncheon that day and in the evening en-
joyed after some dodging a dancing party that had
been arranged. We were both very tired so that we

were unwilling to stay up until half past one dancing. We did not let our friends know that we sat upstairs listening to the strains of their music and finally felt very much relieved when we heard the caller bawling off the carriage numbers early in the morning. They seemed to have had a great time and we should have enjoyed being there, but felt much readier to take a rest than to participate so actively in such festivities. I should have said that the dance was at the Hotel Havelin, the new hotel in Cincinnati which has been a good deal talked of.

In Jacksonville, after a long tiresome ride over the Southern Railway, we found that our boat had gone. It was no wonder for we were six hours late. We had, therefore, to wait over until Sunday afternoon to get another steamer. The time we spent in investigating Jacksonville, starting for our travels from the Windsor Hotel, just opposite the public square. We drove out to the ostrich farm Sunday morning and all through the rest of the town. We

had a delightful time in the open air and warm sunshine.

On our way back we went to the Bethel Institutional Church, a forty thousand dollar structure erected by contributions from various cities for the colored people of Jacksonville. Such a dignified service I have never seen. The choir were all in white surplices with mortar-boards. About twenty women with their soprano and con-tralto voices were necessary to balance the one bass and one tenor. The preacher was surprisingly good. He too wore a gown and in the dim light of the church I thought for a while that he was a white man. He had nothing at all of the southern twang but spoke eloquently in a northern accent. I imagine he is a Harvard graduate. His name is G. B. Warner. The sermon was a subtle treatment of the everlasting question of what the colored man is to do. His talk was very much the kind of thing you would expect from a friend of Booker T. Washington. Its effect on the congregation was very interesting. ought to sing before the Lord; that they were the best cooks in the world and that they ought to cook. He then told of one man who went to New York to the house of a millionaire and although he was able to cook himself was given the work of scouring the pots. He said nothing, but did the best he could. Later we had an opportunity to toast the bread. Although he could do much more difficult things than toast bread, he said nothing and toasted the bread the best he could. And so on, until finally the chef died and because this colored man had done so well on distasteful things he was given the work of preparing the wof in the millionaire's kitchen at a salary of five thousand dollars a year. It was delightful to see the way the whole congregation enjoyed the happy fortune of their comrade. It is something of a joke on me, however, as I found out after I got home that this was the first church service that we had attended after Wednesday. In Scotland the kirking is a very important part of the wedding ceremony. When we got back home my mother and father laughed rather inordinately that for our kirking we had chosen the colored people's church.

In Jacksonville we boarded a boat Sunday evening and went down the beautiful St. John's river to Sanford, way down in the middle of the state. The stream winds marvelously on between banks of live oaks, from which festoons of Spanish moss drop, tall pines, and graceful palms. At night in the moonlight the banks were reflected beautifully in the absolutely placid water. Each individual star can be seen reflected too, so that as we quietly steamed along we seemed to be floating through space and the bank with its reflection in the water seemed to be merely a dark cloud floating around us.

The next night was so warm in Sanford that we decided not to stay. We remained on that boat, however, going directly, on Tuesday, to St. Augustine. This was the most delightful spot we found. The great hotels make the town look like the Pan-American Exposition, if you happened to be there. Just outside of our window in the Alkazar there was a court in which fountains were playing all the time. Underneath the window was a large orchestra. All over the court was a riot of color in palms, poinsettias, nasturtiums, and violets. In addition to the beautiful fairyland of the modern town as shown in the hotels we found a quaint old town, very interesting, and of this particularly we enjoyed the old Ft. Marion, begun in 1569, the dungeons of which we carefully examined with a guide; and the old houses with their interesting relics of old pottery and mahogany. We were loath to leave St. Augustine but once started homeward decided not even to stop at Chatahooga for the purpose of going up Look-Out Mountain in the conventional bridal way.

The Association of American Universities held its thirteenth conference October 26 and 27, 1911, at the University of Chicago. After the meeting of the executive committee in the Reynolds Club at 9:30 Thursday morning, the first session was called to order in the south room of the Reynolds Club by the representative of the University of Virginia, President Edwin Anderson Alderman. A paper was presented on behalf of the University of Illinois by Dean Evarts Boutwell Greene: "The question of the organization of university departments - the system of a single head, the Harvard system of a departmental committee under a chairman, etc." A general discussion followed the reading of the paper. The guests were informally the guests of the University at the Quadrangle Club for luncheon. The second session was called to order at 2:30, when President Harry Pratt Judson presented on behalf of the University of Chicago the following paper: "How can the teaching time of professors be most advantageously distributed between college work (both elementary and advanced) and graduate work?" The third session at ten o'clock Friday morning was addressed by President A. Lawrence Lowell of Harvard University, the subject of his paper being: "Disadvantages of the current American practice of conferring degrees (with the exception of the Ph. D.) on the accumulation of credits in individual courses, rather than as the result of comprehensive examinations upon broad subjects." of Graduate Schools officers discussed the administrative questions connected with such schools.

The presence of so many distinguished educators involved of course, many social functions. President Harry Pratt Judson at his residence entertained at dinner Thursday evening the Presidents of the Universities an attendance on the meetings. At nine o'clock the same evening at the President's House President and Mrs. Judson held a reception for the delegates and the members of the Board of Trustees and the University Senate. On Friday at one o'clock the delegates were entertained by the University at luncheon at the Quadrangle Club.

The University also undertook to convey the delegates to and from their head quarters at the Blackstone Hotel in motor cars. Through the courtesy of the officers of the Quadrangle Club and the University Club delegates were given cards in both of these organizations. The Hamilton Club of Chicago invited all the delegates to the meeting for President Taft at the First Regiment Armory Friday evening Club, and the Irish Choral Society sent invitations to its reception and ball for President Taft. Other social invitations were received by the delegates but because of the adjournment Friday these additional courtesies it was impossible for the members of the conference to accept.

My dear Mr. Fiske:-

I have secured from the president of the Danish Singing Society the speech he made in reply to President Judson at the reception of these men a week ago to-day. You will note that the words are rather apt. It has occurred to me that you might very well use them for your magazine report of this very significant meeting. The program that Monday morning was as follows:

Organ prelude - University organist
Welcome to the Danish students. President of the University
Music: Women's Glee Club

I have secured from the president of the Danish Singing Society the speech he made in reply to President Johnson at the reception of these men a week ago to-day. You will note that the words are rather apt. It has occurred to me that you might very well use them for your magazine report of this very significant meeting. The program that Monday morning was as follows:

Dear Sir:

Your letter of August 8 extending to us the privilege of republishing in the University of Chicago Magazine Professor Kuno Francke's Convocation address at the University, was received some time ago, and we appreciate your courtesy in the matter. Dear Professor Francke:—

Your letter of the 29th, addressed to Mr. Sedgwick, comes to the office while Mr. Sedgwick is in Maine, convalescing from an attack of typhoid fever.

Of course, it is impossible for us to say what Mr. Sedgwick's final decision in this particular case might be, but there is a very strong feeling in the office against the reprinting of addresses in The Atlantic which have been published elsewhere, even if their appearance in print has been confined to a university publication.

The case cited by Mr. Fiske, in regard to Mr. Page, is not quite parallel, as The Atlantic published the address prior to its appearance in the university record. In

the case of your address, it would be some little time before it could appear in The Atlantic, and we cannot escape the feeling that it would be unfortunate to have it appear there after its publication elsewhere. We would suggest that you either withdraw it from publication in the university record, and thus ensure its publication in The Atlantic, or permit its publication there and await Mr. Sedgwick's decision in regard to its use in The Atlantic when he is strong enough to have the question brought to his attention.

It was too bad to spoil an account which I attempted to make as good as possible, both for your sake and the Frenchmen's, by using a word "calculated to make Frenchmen smile for a week." In the absence of Mr. Robertson, it passed the eagle eye of Dean Angell, but of course it was my ignorance. Somehow or other, I recalled some sort of medal that you or Mrs. Judson showed me several years ago -- the insignia of the Order of the Red Eagle or Black Eagle I think it was -- and I thought "medal" was a safe word to use. My dear President Judson:

I was so much interested in the inclosed Japanese Supplement to the New York Evening Post that I thought you would like to see it. Perhaps it has not come to your attention. As you will notice, Baron Shibusawa and a Professorial Lecturer in Political Science at the University, Dr. Iyenaga, are among the contributors.

Very truly yours,

Horace S. Fiske

Dear President Judson:

The inclosed review of the History of the University from the New York Evening Post interested me so much that I thought you would like to see it.

I came in last night from the Camp with Mr. Salisbury and Mr. Heckman and we all agreed that Mr. Clarkson's portrait of Mr. Salisbury for Rosenwald Hall is a great success.

Very truly yours,

Horace S. Fiske

My dear President Judson

Can you kindly take the trouble to
have Miss Lapham send a copy of your
Convocation Statement to me at the
Union Press. Some of its paragraphs,
I am sure, will be of great general
interest for the Union News Letter.

It was very pleasant to have you
& Mrs. Judson here, even for so short
a time, & I was particularly glad
for Mr. Dickerson's sake.

Mrs. Fiddle & the Groves went

to the London dance last night,
while I read in "The Tally" &
enjoyed it. It seems my good
to be back here again in the quiet
the beauty of the place.

I hope you will have a real
rest during September. Mr. Brewster,
who is pretty well tired out, wants me
to go fishing with him in Canada,
& I think you may spend a week
or ten days at the Muskoka Lakes
& the Lake of Bays, if the right-hour
day doesn't interfere.

With the hope that you will have a
fine vacation & with my best remem-
brance to Mrs. Jackson I am
Very truly yours,
Horace S. Perkins

Dear Mr. Fiske:-

Yours of the 3rd inst. is received. I have made no formal Convocation statement at this time, and there is nothing therefore that would be of interest to the News Letter except the report of attendance. That you can get for your purposes from Mr. Angell's office.

I trust you will have a pleasant time at the Muskoka Lakes.

Very truly yours,

H.P.J.-V.

Dear Mr. Blake:-

Yours of the 3rd inst. is received. I have made no formal connection statement at this time, and there is nothing therefore that would be of interest to the News Letter except the report of attendance. That you can get for your purposes from Mr.

Angell's office.

I trust you will have a pleasant time

at the Washburn Palace.

Very truly yours,

My dear Mr. Fiske:-

I received the copy of the Annual Register on the morning of July 3rd, and I appreciate your kindness in sending me this early copy. I am glad to note the saving of 100 pages, and especially the saving of a month in time. This means progress.

Allow me to congratulate you most earnestly upon the successful publication of this most important document.

Yours very truly,

William Harper

My dear Mr. Fiske:-

I received the copy of the Annual Report
later on the morning of July 10, and I appreciate your kind
note in sending me this copy. I am glad to note
the saving of 100 pages, and especially the saving of a
month in time. This means progress.
Allow me to congratulate you most cordially
upon the successful completion of this most important work.

Very truly,
