

ERNST LUDWIG FREIHERR von WOLZOGEN

was born in Breslau, Germany, on April 23rd 1855 and studied in Strassburg and Leipzig, Philosophy, Archaeology, German Literature and Art history. After spending four years at the Court of Weimar, where he came in close contact with Franz Liszt, Freiherr von Wolzogen took up his residence in Berlin, Munich and again in Berlin, from where he moved to Darmstadt in 1905.

Freiherr von Wolzogen has distinguished himself as the author of a great number of novels, comedies, essays, poems and translations, among which his novels "Der Kraftmayr" and "Das dritte Geschlecht" have been translated into nearly all modern languages and have enjoyed more than twenty editions.

In his poetical productions von Wolzogen represents a sound and strongly humorous realism, and during the literary struggles of the eighties he has decidedly fought for the modern course.

At his lecture on December 5th Freiherr von Wolzogen will be assisted by his wife, Baroness Elsa Laura von Wolzogen, who is known as one of the most talented and versatile interpreters of the German Folk-Song.

Dear Mr. President:-

At the conclusion of Professor H. Kraegers lectures at the University of Chicago I thank you very heartily for the kind support, you have shown him on many occasion as well as to-day by the honorable mention of his work at the Convocation, where your Honor received to my greatest enjoyment a so well deserved ovation.

Your words of recognition of the idea of exchanging Professors between our nations will be a new stimulus for me to continue this endeavor. Therefore it would be of the greatest value to know, what special topic would be of interest for the University- than I will try to arouse the interest of my "German" friends, in order to carry out your wishes. There is a movement on the way to found here at Chicago a Germanistic Society like the ones in Boston and New York, where Professor Butler is President. In the moment that there is a probability of success, you will hear from me.

Dear Sir:

The plan of the interchange of professors between Germany and the United States is very interesting in its purpose and in its results thus far. Of course it is not supposed that such interchange takes the place of regular and continuous work of the universities in the two countries. This, however, is true. On each side of the water there is an impression as to the intellectual and social character of the other country which is at considerable variance with truth. Many prejudices are based on national misunderstandings; even scholarship is apt to become narrow by reason of lack of contact with the broad things of the world. Science has no national bounds and the republic of letters includes the people of all lands. The purpose of the interchange of professors is to give to the thoughtful people of each nation an opportunity of understanding the qualities and modes of thought of the other. Incidentally the professor may bring a special message from the scholarship of his own country to the scholarship of the country which he is visiting. In The University of Chicago we have thus far been favored by a professor of history and a professor of the history of art in Germany. Thier

In The University of Chicago we have thus far been favored by a professor of history and a professor of the history of art in Germany. Their

lectures have been exceedingly interesting and their personality highly appreciated. Our own professor and head of the department of Political Economy gave lectures in B Berlin and elsewhere in Germany a year ago which, I think, were calculated to give the people of Germany a clearer understanding of some economic and industrial matters and ideas of our own country.

The whole plan is in the line of closer international intercourse. Everything is done to this end and must make our knowledge more exact and must broaden our sympathies and will tend to make the world what it ought to be,--a fellowship of free nations.

Dear Sir:--

The question of exchanging professors between German and American universities has become a vital one. Also is the public, especially the German-American public, taking much interest in the many visiting scholars from Germany. We think the time has come to give this question a thorough discussion in order to make the public realize the benefits it can derive by it and also appreciate the whole enterprise more fully. We therefore, wish to offer our journal as a medium for that discussion, and we invite your kind contribution in the same. Whatever you have to say about the principles of this educational movement and of the intellectual and cultural results that ought to be realized for the benefit of the country at large, and especially for the educated class of Americans, we would be glad to have you express your thoughts upon this subject for the public, through "DIE GLOCKE" of which we have mailed you a copy.

We are addressing all the gentlemen who are supposedly interested on account of their university connection as well as those gentlemen who have acted as visiting or exchange professors, and we hope it be of valuable service to the growing circle of our readers if we can encourage a fair and broad discussion of this subject.

Exchange Professors

October 2, 1908

To All Members of the Faculties:-

In accordance with the plan of exchange of professors between the Prussian Government and the University of Chicago, Professor John M. Manly will lecture during the winter quarter in the University of Göttingen, and Professor Ernst Daenell of the University of Kiel will lecture during the current quarter at the University of Chicago. Professor Daenell's subject is, "The Commercial and Colonial Policy of the European Powers from the Sixteenth Century until the Present." The first lecture will be held in Cobb Lecture Hall Tuesday, October 6th, at twelve o'clock. As an expression of courtesy on the part of the University it is expressly desirable that as many as possible of the Faculty should be present on that occasion.

Dear Dr. Wever:-

Your favor of April 1st with enclosures was duly received. I have examined carefully your draft and that I think covers the ground completely. I have sent Professor Cutting his copy and will retain my own. It will be desirable soon I think to have a conference on this subject. Perhaps we can arrange it some day next week. I shall be out of the city on Thursday and Friday of this week and on my return, with your consent, will try to arrange for a date.

With regard to Professor Chamberlin, I am sorry to say that he does not feel able to use the German language sufficiently well for the purpose. I must make another study of the situation. I will try to be prepared with a suggestion when we confer.

Dr. Walther Wever,

To you, Mr. President, my best thanks.

In the month of June you send me a suggestion of inviting Prof. von Schulze Gaebernitz at Freiburg, whom Mr. F. W. Parker called with ~~for~~ right a very important student of Political Economy. I know him well, he was a younger member of my student society at Heidelberg and I passed my Doctor Examination under his father. The difficulty is for the moment, that till now only the Prussian Administration of the Universities has "managed" the sending of Professors - but Schulze was already on my list, when the Kultusministerium wrote me

me, that the Professor extraordinarius Dr. Samell was writing a voluminous - and so far as seen - excellent book about the History of the United States and had the wish to come over for some month. On account of this fact I postponed Schultz. Samell is extraordinary but I think, he will not have to wait long for the Ordinarians.

I hope that I will meet Prof. Maury at the Reception of the Commencement.

The Daily News had yesterday a "special cable," that the Professor of Theology at Bonn Dr. Karl Clemen would give a series of lectures on the new Testament, invited by the U. of Ch. Is that true?

With sincerest respect
yours truly

I was called from the city for several days to attend a funeral in the east, and have just returned, finding your favor of the 15th inst.. The cable seems to make the arrangements with Mr. Manly satisfactory. I note what you say about Professor von Schultze. Of course we can hold that matter in reserve. It's a little disappointing that Daenell is only Professor extraordinarius. It had not occurred to me at the time of our first conversation, as I assumed of course he would be what we call a full professor. Otherwise I might have hesitated about making the arrangement with Manly, who is one of our professors of the highest rank. Dr. Clemen has been invited on recommendation of our Theological Faculty.

My dear President JUDSON.

Since months I had the intention to tell you and Mr. Judson about Naples, our life here and how we miss Chicago - but why always complain and why not observe the good American sentence: Make the best of it. Our life here is quite different from that in Chicago: first because here is a great German Colony, whose leader I am through position. But these social functions are not of great interest - on the other side have many good sides because here are many cultured Germans, very nice German ladies and specially delightful young girls. My real work does not appeal to me very much, at least not until to-day.

To morrow is American day: "Colonel" Roosevelt

Hon. Harry Pratt Judson

will

Chicago

arrive - if it is possible, I will see my colleague of
L L D Chicago. When Mrs Roosevelt passed we had a very
nice day with her.

The news of my daughter - your pupil - are very sa-
tisfatory, we hope very much to have her here in July-
especially Mrs Wever enjoys the idea to have our children
soon with us. Our suffering daughter will arrive next
week and our boy, who did not agree with the german school
goes here to a German School since to-day.

The German school brings my thoughts to the German Univer-
sities. It is a pity that you never went to Berlin and
Geheimrat Schmidt from the Kulturministerium never came to
Chicago. I believe you two had only to see each other to
find a way of communicating your ideas which would make
far better and far more reaching plans and projects I ever
made and will certainly make now. But if I can be of any
use in receiving and sending of projects I would be very
glad, until you two come to a direct correspondence. How
was Prof. Manly pleased in Goettingen and is there any
outlook for continuing the relations between U. of C
and Goettingen?

I personally have the feeling that the nearer relations between these two Universities would be of value to the two-and what I can do to foster these relations I would do only with too great pleasure, being an old schoolfriend of Schmidt and an old admirer of you. I could imagine that without personal acquaintance it would be rather inconvenient for everyone of you two to write to the other, not knowing his ideas and not wishing a refusal. Let me be the "Schadchen" the Jews always have to arrange a good marriage-till you two fall in love with each other. Naples is not so far out of the way, that my interference would be an obstacle.

With all my respect to Mrs Jackson,
and greetings from house to house

I remain sincerely your obedient

friend
H. Meyer.

June 2, 1910

My dear Dr. Weber:-

Your kind favor of the 1st of April was duly received. I intended to answer it long since, and with my own pen, but a multiplicity of engagements have intervened and caused it to be laid aside on my desk. I am much interested in your account of the life in Naples. Wish you could be with us a fortnight hence when the daughter will take her bachelor's degree. Germanistic Society matters are getting in shape and I think things will go on. Professor Manly had a very pleasant time in Göttingen and we are hoping to be able to have one of the Göttingen professors with us next year. I wish I could meet Geheimrat Schmidt. I do not know now when I shall find myself abroad, but when I do I shall hope to take up some of these matters in quite a definite way. As soon as things are settled as to the Germanistic Society, and particularly as to the exchange, I will write again and give you details.

My dear Mr. President:-

I have just received a letter from Professor Morsbach inquiring in regard to the arrangements for the exchange professorship. The Cultus Ministerium is ready to give him leave of absence for the winter semester (October till April) of the coming year, in case we are ready to extend an invitation to him. I sincerely hope that this can be done and that it will be done at once. It is very necessary, of course, that we should give timely notice to any German professor whom we wish to invite, in order that he may be able to make arrangements for the conduct of his work during his absence.

It would be especially desirable and beneficial to the University if Professor Morsbach could be invited for the autumn or autumn and winter quarters. I have been teaching continuously since the beginning of the summer quarter and shall be in residence during the coming summer also. I had intended to go on without a vacation until April of next year, but the work this year has been very heavy and it does not seem to me wise to postpone my vacation so long. I have therefore proposed to take a vacation during the coming autumn quarter. Professor Morsbach's courses in Middle English and the History of the English Language would be valuable at any time but would be of especial importance to us to fill in the gap occasioned by my absence during the autumn. If, therefore, it is at all possible to do so, I hope that arrangements will be made for sending an early invitation to Professor Morsbach through the Cultus Ministerium.

Sincerely yours,

John M. Manly

My dear President Judson,

I have your letter with an enclosure from Mr. Manly concerning the possibility of securing the presence of Professor Morsbach in the English department for the coming Autumn Quarter. I shall be glad to discuss the matter with you at almost any time you may designate. I am sure, however, that the Germanistic Society will not be ready to join in calling an exchange professor from Germany for the year 1910--11. We hope to be able to do that the following year. The deficit in the account of one year ago, which you will remember discussing at our annual meeting last spring, is the cause of our inability, just mentioned.

Yours faithfully,

Dear Mr. Manly:-

Yours of the 18th inst. was duly received. I should be glad to have Professor Morsbach come here if I could see where the funds were coming from. The Germanistic Society I fear is not in condition to do much now. As I remember the arrangement last year, they provided \$500 for your expenses. I do not understand that you received any stipend from the University of Göttingen. What would be involved in this proposition?

My dear Mr. President:-

As I understand the matter, the only expense on our part connected with the exchange of professors is the provision of \$500. for the traveling expenses of the man who goes as our representative. You are right in your understanding that I received no stipend from the University of Göttingen; and as I understand the matter, no payment was made by the University of Chicago to Professor Daenell. All that is involved, therefore, is that we shall pay the expenses of our representative and send the invitation to the Cultus Ministerium. I greatly hope that provision can be made for the coming of Professor Morsbach and that I may have an early reply. As I stated in my previous letter, it is absolutely necessary that he should know at once whether he is to come or not in order that provision may be made for carrying on his work during his absence. No professor in a German university can leave his work without a much longer notice than is necessary with us.

If we are to get good men, we must act early. Morsbach is one of the best & is really desirous to come if the matter can be arranged.

To the President of the University of Chicago,

My dear Sir:--

You are undoubtedly familiar with the fact that the German Government has opened an Institut devoted to the furthering of the cultural relations between Germany and the United States. The Institut, which is situated in the new building of the Royal Library, is called the Amerika-Institut; it is under the control of the Ministry of Public Instruction. I have been invited to organize the Institut, and in honorary capacity to be the Director of it during its first year, during which I am to stay as Harvard Exchange Professor at the University of Berlin. The work has just been started, and you will soon receive documents which give full account of its various plans and purposes.

You will see from them that a large part of the functions of the Institut refer to education and scholarship, and it is essential for the usefulness of the Institut, that it enter into intimate contact with the American universities. of the German Government with the fullest possible material of printed documents referring to the activities of the University of Chicago. In the first place, of course we need last year's catalogue and presidential reports, with the departmental pamphlets and their announcements. But any other publications which refer to the development of the institution, and to its opportunities, or which indicate the educational or scholarly work, would be of great assistance in the official library of the Institut.

As a matter of course, the Institut hopes soon to be serviceable to the American institutions and to the American students and scholars themselves, but we can enter into definite propositions only after completing the foundations, which may still take some weeks. Our address is the Amerika-Institut, Universitätsstrasse 7, Berlin N. W.

The exchange which for some years past has been carried on between the University of Chicago and the Germanistic Society of Chicago on the one hand, and the field of German scholarship on the other, has, I believe, been of decided advantage in this country to the better understanding of German achievements and character, especially in the field of education and science. The Society is an active force in this city, comprising in its membership those of American and of German birth, and continuing a series of important lectures throughout the winter, part in the English language, and part in German. In this work the University cordially sympathizes, and we wish to do all in our power toward the better knowledge, reciprocally, of the two countries.

Dear Mr. President:-

In order to confirm the impression which I had in regard to the exchange professorship, I examined my correspondence with Professor Morsbach and find unmistakable evidence that his understanding of the matter is the same as ours, namely, that we have no financial obligations towards the man who comes to us but are concerned financially only with the representative who goes from us.

I have thought a good deal in regard to the invitation to Professor Michelson of which you spoke and it seems to me very desirable for many reasons that the invitation should be accepted and that Professor Michelson should go to Göttingen. The reasons are so numerous and some of them so much involved with German educational politics that I hesitate to undertake to put them in a letter; but I feel they are valid and I should be glad to talk with you about them upon my return to Chicago. Our interview the other day was so hasty that I did not feel like entering upon these matters.

I am highly gratified at your expressions of appreciation of Professor Michelson's service in the University of Göttingen, and am extremely glad that you were able to meet him personally. He is one of our most eminent scientific men, and I am very glad to have had him represent us in the exchange. It would of course have been a source of gratification if he could have been received by His Majesty the Emperor, but I fully appreciate the circumstances which made it difficult.

It gives me very great pleasure to know that you are thinking of coming to this country in the autumn. By all means come to Chicago, and you will have here a cordial welcome. I am expecting

My dear Sir:-

Your esteemed favor of the 20th of June was duly received. Owing to my absence from the city it has not reached the early attention which it deserved. I am highly gratified at your expressions of appreciation of Professor Nicholson's service in the University of Göttingen, and am extremely glad that you were able to meet him personally. He is one of our most eminent scientific men, and I am very glad to have had him represent us in the exchange. It would of course have been a source of gratification if he could have been received by His Majesty the Emperor, but I fully appreciate the circumstances which made it difficult. It gives me very great pleasure to know that you are thinking of coming to this country in the autumn. By all means come to Chicago, and you will have here a cordial welcome. I am expecting

to sail on the 26th instant for Paris, to join Mrs. Judson, and shall be in Europe about two months. During that time I fear that my engagements will be such that it will not be practicable for me to be in Berlin. Should I be there, however, I shall have the honor of calling on you, and we can talk over more at length your visit to this country.

With cordial regards, I am,

Very truly yours,

Dear Mr. Guenzel:-

Would April 7th and 14th - two dates - be advisable for lectures by Professor Bezold, as in accordance with our previous correspondence? Your note of the 11th of September spoke about one lecture. The subject, you will remember, is "The Art of the Ancient Orient." He is a very well known Oriental scholar, and I am sure that his lectures will be extremely interesting. He speaks English fluently, and of course, therefore, could give the lectures either in English or German, as might seem most desirable.

Very truly yours,

TRANSMITS AND DELIVERS THE WITHIN MESSAGE SUBJECT TO THE FOLLOWING TERMS AND CONDITIONS:

THIS COMPANY may decline to forward any message, though it has been accepted for transmission, but in case of so doing, shall be liable to the sender the amount paid for its transmission.

THIS COMPANY WILL NOT ASSUME ANY RESPONSIBILITY IN RESPECT TO ANY MESSAGE BEYOND THE TERMINUS OF ITS OWN LINES.

To guard against mistakes or delays, the sender of a message should WRITE IT LEGIBLY and order it REPEATED; that is, telegraphed back to the sending station for comparison. For such repeating an additional charge of one-quarter the regular rate will be made.

It is agreed between the sender of the message on the face hereof, and this Company, that said Company shall not be liable for mistakes or delays in transmission or delivery, or for non-delivery, or mis-delivery, of any un-repeated message beyond the amount of that portion of the charge which may or shall accrue to this Company out of the amount received from the sender for this, and the other companies, by whose lines such message may pass to reach its destination; and that this Company shall not be liable for mistakes in the transmission or delivery, or for non-delivery, or mis-delivery, of any repeated message beyond fifty times the extra sum received by this Company from the sender for repeating such message over its own lines.

This Company is hereby made the agent of the sender without liability to forward any message by the lines of any other company to reach its destination.

This Company shall not be responsible for messages until they are presented and accepted at one of its transmitting offices; if a message be sent to such office by one of the Company's messengers, the messenger acts for that purpose as the agent of the sender; if by telephone, the person receiving the message acts therein as the agent of the sender, and is authorized to assent to these conditions on behalf of the sender.

This Company shall not be liable in any case where the claim is not presented in writing within sixty days after the filing of the message.

This Company shall not be liable in any case for delays arising from interruptions to the working of its lines, nor for errors in cipher or obscure messages.

This is an UNREPEATED message and is delivered by request of the sender under the conditions named above.

No employee of this Company is authorized to vary the foregoing.

ALL MESSAGES TAKEN BY THIS COMPANY ARE SUBJECT TO THE FOLLOWING TERMS:

To guard against mistakes or delays, the sender of a message should order it REPEATED ; that is, telegraphed back to the originating office for comparison. For this, one-half the regular rate is charged in addition. It is agreed between the sender of the following message and this Company, that said Company shall not be liable for mistakes or delays in the transmission or delivery, or for non-delivery of any UNREPEATED message, beyond the amount received for sending the same ; nor for mistakes or delays in the transmission or delivery, or for non-delivery of any REPEATED message, beyond fifty times the sum received for sending the same, unless specially insured, nor in any case for delays arising from unavoidable interruption in the working of its lines, or for errors in cipher or obscure messages. And this Company is hereby made the agent of the sender, without liability, to forward any message over the lines of any other Company when necessary to reach its destination.

Correctness in the transmission of a message to any point on the lines of this Company can be INSURED by contract in writing, stating agreed amount of risk, and payment of premium thereon, at the following rates, in addition to the usual charge for repeated messages, viz, one per cent. for any distance not exceeding 1,000 miles, and two per cent. for any greater distance. No employee of the Company is authorized to vary the foregoing.

No responsibility regarding messages attaches to this Company until the same are presented and accepted at one of its transmitting offices ; and if a message is sent to such office by one of the Company's messengers, he acts for that purpose as the agent of the sender.

Messages will be delivered free within the established free delivery limits of the terminal office. For delivery at a greater distance, a special charge will be made to cover the cost of such delivery.

The Company will not be liable for damages or statutory penalties in any case where the claim is not presented in writing within sixty days after the message is filed with the Company for transmission.

Berlin W. 8. den 17. August 1910.

U I K. Nr. 2520.

Auf das gefällige Schreiben vom 8. Juni d. Js. , das mir durch Vermittelung des Kaiserlichen Herrn Konsuls in Chicago zugegangen ist, verfehle ich nicht, meinem verbindlichen Dank für die freundliche Einladung Ausdruck zu geben, welche die Universität Chicago durch Sie an Professor M o r s b a c h hat gelangen lassen. Wie Ihnen bereits bekannt geworden sein wird, habe ich es dem Professor M o r b a c h ermöglicht, dieser Einladung Folge zu leisten und in der ersten Hälfte des kommenden Wintersemesters an Ihrer Universität Vorlesungen zu halten. Es ist mir eine besondere Freude, Ihrem Wunsche damit entsprechen zu können, weil ich die durch Professor M a n l y in so glücklicher Weise begonnenen näheren persönlichen Beziehungen zwischen den Universitäten Chicago und Göttingen für die Pflege der traditionellen Beziehungen der Universität Göttingen zu Ihrem Lande für außerordentlich bedeutsam halte, wie es mir

auch andererseits von großem Interesse ist, die von Ihnen in so wirksamer Weise unterstützten Bestrebungen der Germanistic Society in Chicago nach Möglichkeit zu fördern.

Aus diesem Grunde bin ich auch erfreut durch den Kaiserlichen Herrn Konsul zu erfahren, daß es Ihren Wünschen entspricht, im Wintersemester 1911/12 einen Professor Ihrer Universität erneut an eine deutsche Hochschule zu entsenden. Die Universität Göttingen hat mir berichtet, daß ihr die Entsendung eines Professors der Universität Chicago für jenes Wintersemester hochwillkommen sein und daß es von ihr besonders begrüßt werden würde, wenn Ihre Wahl auf Professor M i c h e l s o n fallen könnte. Ich würde mich freuen, wenn Sie diesem Wunsche der Universität Göttingen zu entsprechen vermöchten.

The Germanistic Society of Chicago, a society organized in 1907 for the purpose of promoting the knowledge and study of German civilization in America and of American civilization in Germany by supporting University instruction on these subjects, by arranging public lectures, etc., desires to send a Professor of the University of Chicago to Germany for the "Winter Semester" 1908/09. The University of Chicago will be pleased to render its assistance in this matter providing the German government should be willing to extend to the Chicago Professor the same courtesies and privileges generally extended to the exchange professors of the Universities of Harvard and Columbia. In this respect it may, however, be stated that it would not be considered necessary to place such a Professor at the University of Berlin but that it would rather seem advisable to bring him in contact with ^{other} ~~several~~ German Universities.

The University of Chicago will give leave to its professor for six months, continuing his salary, whilst the Germanistic Society will pay an additional sum of 500 Dollars.

The Germanistic Society furthermore desires to invite one of the foremost German scholars to America for the months of March and April, the time of the German Easter vacation. This Gentleman would be expected to deliver from about 24 to 30 lectures at different Universities and places, 12 of those lectures to be delivered at Chicago before the Germanistic Society and at the ^{University of} ~~Chicago University~~ during the time of March 1 - 14 and April 1 - 14. All arrangements as to these lectures would be made by the Germanistic Society of Chicago which will also settle all money matters connected with such invitation by private agreement with the invited professor, whilst the University of Chicago, being in favor of such a plan, would officially invite said professor to the University of Chicago.

The University of Chicago also invited Professor Dr. Daenell of Kiel to the University of Chicago for a term of one or two regular University quarters. Final arrangements as to number and subject of lectures

to be left to special agreement. The English language is to be used by Dr. Daenell. All expenses connected with such invitation to be borne by the German Government. The Germanistic Society, however, will interest itself in making arrangements for lectures in Chicago and other places and in that way assist in contributing to the ^{incurred} expenses by such invitation.

In case of a desire of the German Government to acquaint the German professors sent to Harvard and Columbia with conditions in the West, the University of Chicago would be pleased to extend invitations to those Gentlemen and in that way provide for them a working basis. Funds for covering expenses connected with such trips, however, are not on hand, but the Germanistic Society would also in these cases render assistance by arranging lectures for a reasonable compensation to the professor.

According to special arrangements over a thousand High School teachers usually assemble for summer courses at the University of Chicago every year during the months of ^{July and} August and September, and the University would consider this a good opportunity for German professors to reach a very desirable class of people with their lectures.

It is the intention of the Germanistic Society of Chicago to again make arrangements for single lectures during next winter from about November to April.
