My dear Dr. Harper:-----I have your letter of the 16th and am very sorry that you and Mrs. Harper cannot dine with us this week. I am at present so much engaged I do not like to make an appointment for luncheon at the Club and would rather postpone until my return from Ohio, when I shall hope to have the pleasure of your company and Mrs. Harper's at dinner at our house, where we can discuss this matter. One reason why I prefer to have this at my house is that I want Mrs. Glessner to have a little part in this discussion.

With kind regards and hoping you will tell me what day of week after next will best suit you and Mrs. Harper, I am,

Very sincerely yours,

My dear Mr. Harper:----As my suggestion last spring regarding Theodore Thomas and music at the University was not received with much enthusiasm, and as I was not able financially to carry it into effect without great help from others, I have since made engagements that consume the money I then thought of devoting to that purpose. Business is so dull and times so hard that I am not able now to renew the offer. I shall, of course, be glad to see and talk with you at the Commercial Club dinner on Saturday.

My dear Dr. Judson:

When shall we consider and report on the Alumni Endowment Fund for Rush Medical College? The provision that immediately concerns us in the preliminary paper that was presented at the last meeting is, that -

The fund is to be advantageously and safely invested by Trustees of Rush, or other Trustees chosen by officers of the Alumni Association of Rush.

Trustees - either of above - shall turn over income annually and report.

Rush Trustees have no connection with this fund of the Alumni Association other than above, and certainly have nothing to do with the expenditure of the income.

I suppose we should consider -

- I. Is there such an Alumni Association, with officers and committees?
- II. Do we want to accept the responsibility for its funds?

It was suggested at our meeting that it might be more fitting if the Association selected Trustees from its own body. Possibly in going outside its own body the thought was to give it something like official character. I think that the college would benefit from such an association and that if we prefer not to accept the responsibility for this fund we should in saying so extend all the encouragement we can to the founders of the association.

If you will fix a time and place that will be agreeable and convenient to you, I will try and meet you, and we can discuss the matter and make our report.

Very truly yours,

Dr. H. P. Judson,

is at hand. I shall be glad to meet you at your
convenience to talk over the matter of the alumni
