Dear Sir:

We are at present studying the railroad situation in the United States, and would very much appreciate your opinion on the following questions.

Do you believe our railroads should be more centralized and consolidated?

Do you believe that a private monopoly with government regulation has been the best solution?

Do you believe we are tending toward or away from government ownership of railroads?

Do you believe government ownership is expedient and practicable?

Thanking you very much for the kindness of an answer, we are

Yours very truly,

Dear Sir:

I am at present studying the railroad situation in the United States, and would very much appreciate your opinion on the following questions:

1. Do you believe our railroads should be more nationalized and controlled?

2. Do you believe that a private monopoly with government regulation has been the best solution?

3. Do you believe we are tending toward or away from government ownership of railroads?

4. Do you believe government ownership is essential for operation?

Thanking you very much for the kindness of

Yours very truly,

Dear Sir:-

Your favor of the 19th inst. is received. I can give you only my opinions, not having time for a discussion of the subject. In answer to your questions:

1. I believe in such centralization and consolidation of railroads as may be brought about in the natural course of business.
2. Private corporations with government regulation it seems to me on the whole work well. I do not believe it correct to call such corporation a monopoly.
3. I can hardly see any tendency towards the government ownership of railroads in this country.
4. I do not believe government ownership in the United States either expedient or practicable.

Very truly yours,

H.P.J. - L.
