My dear Mrs. Hitchcock:

I am hoping that every-

thing which you desire to have placed in the box
has been arranged for. We desire to have the box
contain just what you wish.

While we shall expect you to be at the
President's house as early as a quarter of eleven, I
can assure you that the laying of the corner-stone
of Hitchcock Hall will not take place till the clock
has struck twelve.

Very truly yours,

Mr Harper:

Dear friend:

I enclose
two lists of those I would like
to have present when the corner
stone of Hitchcock Hall is laid.
One list is entirely complimentary.
They are dear friends who are
by distance, or business, or illness
prevented from being present but
I should like to have them know
I wish they could be present.
The other list is not complete -
but I could let you know how
many I add to it.

In your "pressed down and running
over" engagements of this busy time
would you like me to assist in
the general list? I could send
my card like the one enclosed
if you like or a similar invitation
on small note paper.

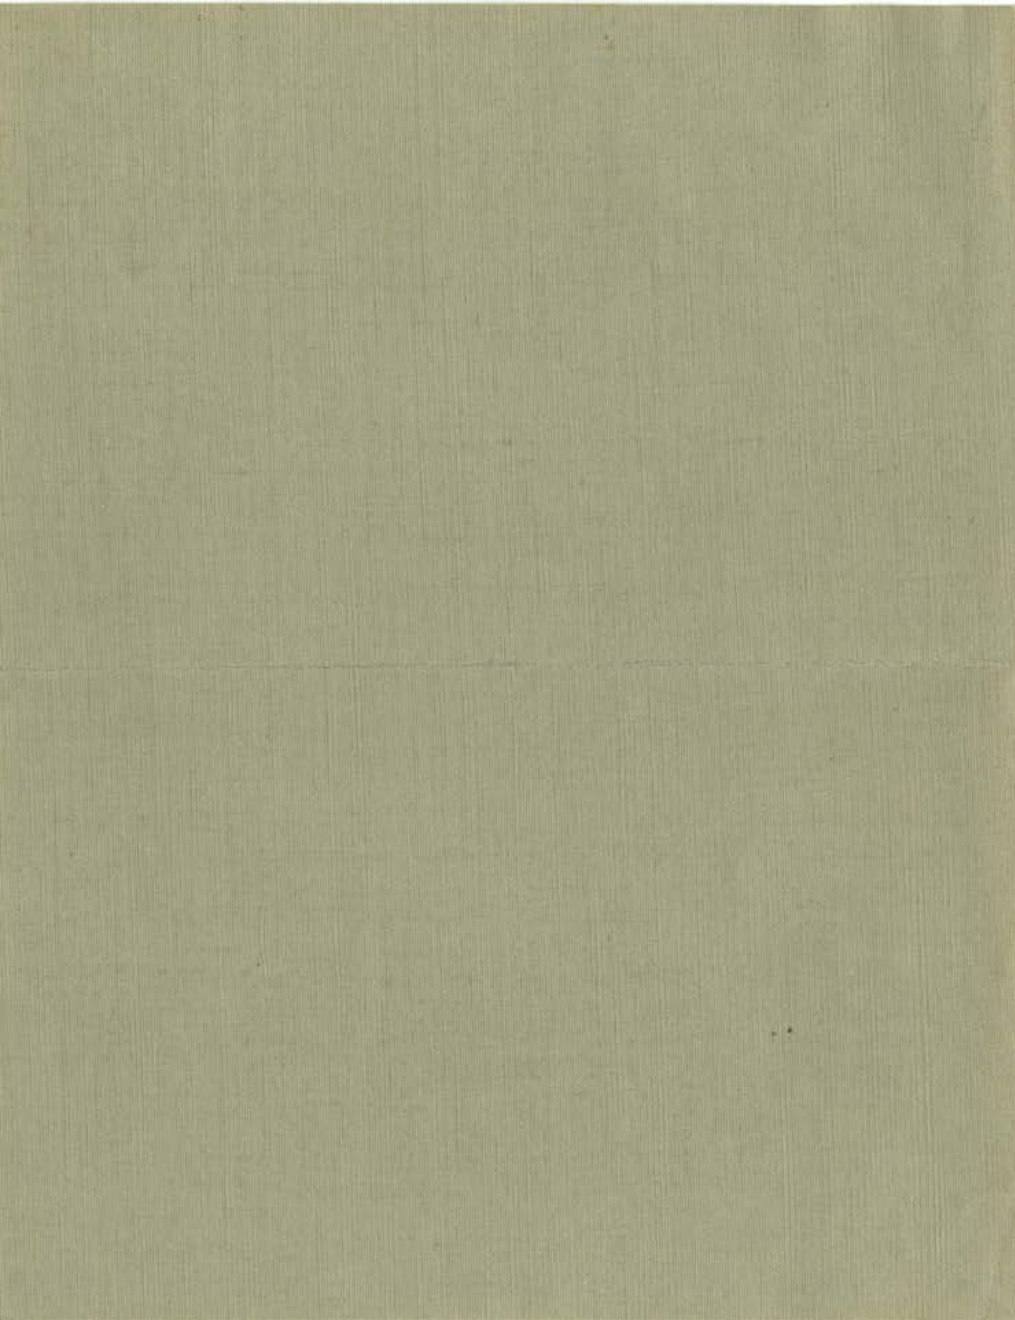

You can let me know over the
telephone only if I am to have
the general list you will have
to return that half of the letter.

In regard to what shall go into the
box I have a Memorial of Mr. Hilditch
life with a portrait, also the journal
of the Constitutional Convention of 1871
of which he was president. Mr. Perkins
will put in a drawing of the Hall. You
can tell me what you think of
these. I am, sincerely,

ANSWERING 7TH. OCTOBER.

Your favor of above date reached us this morning. The writer will be pleased to extend Mrs. Hitchcock's invitation to the workmen who were employed on Hitchcock Hall. The invitations will be sent by special delivery, as they should reach the men to-day, in order that they may be able to prepare to attend the reception. We will enclose with the invitation a return postal and we hope to be able to let Mrs. Hitchcock know to-morrow how many will attend.

This is the first time, to my knowledge that an invitation of this character has been extended by the owner of a Chicago building to the workmen who erected the building. I have always felt that a reception of this kind should be given upon the completion of a good piece of work and I am glad to know that there is an owner in Chicago who agrees with me.

secure Dr Parker and his family to administer the East-End of "Hitchcock" seemed to solve the most difficult problem, and to ensure the successful running of the three things that distinguish it from other halls: the library, the breakfast room, and the hospital.

Yesterday I was informed, that the Foot-Ball team were to have that particular end of the building.

I can but feel that will imperil the success, while there are other parts of the building especially fitted to meet the needs and tastes of the Ball Team. There is a fine Club room in the West End of the building that is made for indoor sports, with smoking room open fire place, &c.

The middle section has the only door opening on 57th Street giving free ingress from "Marshall Field," and out to their special training table at all hours, without coming through the Campus.

campus. They can have no interest in the breakfast room, but transient interest in the hospital, and but little taste for the quiet of the library; and

I wish to place every book, picture and ornament, of not too perishable a nature, without reserve, in that library. Have patience with this plea for the protection of my household gods.

Dr Parker said the other day he could not ask his fraternity there because they needed a private hall. There are ^{lower} three rooms in the west end section which could be made as private as desired while they are finishing the building. Does it not seem as if he would

be more firm in the respect of
the young men, if he had his
devoted fraternity with him?
There is so much in the way a building
is launched. If you will see to it
that the innovations of the East End
of Hitchcock Hall have a fair chance
to succeed, you will gratify a host
of friends who have longed to see
them an inseparable part of student
life. I am sure you are glad I wrote

things I have resisted, you would
perhaps think I had not exceeded

Of course the finishing of Hitchcock

If you would like to look over these rooms, with these changes in view, you could make an appointment with Mr Perkins or the Architect early in the week, or I would be glad to meet you in the Memorial library of the Hall next Wednesday.

I have written at this length to save your time and mine.

Dr Harper:

Dear friend:

You have received my suggestions from me so courteously that I am going to make one more, hoping it may help you in deciding on the administration of Hitchcock Hall. I visited its kitchen for the first time today, and when I saw its great range, and the spacious unused room beyond the kitchen, and the north entrance to the same, it seemed to me the easiest thing to have a restaurant run there, without disturbing the residents of Hitchcock Hall in the

least: If you could fit it up simply, with committees if they wanted it so, and could rent it to that Mrs Ingram, the mother of the plumber, who now runs the shanty and commands the respect of all her clientele, she would be glad to serve the regular residents of the Hall, via the dumb waiter, the servant of the Hall administering the food ~~there~~. I am told the food is well cooked and wholesome, and not too expensive for the poorer boys. I think Dr Parker might not like this idea at first, but I am

sure the restaurant in the basement and the rest of the Hall could be kept absolutely apart; and in this way the breakfast room would be able to serve all the meals to the residents of the Hall, until the Commons are finished.

I have met both Dr Parker and his sister, and their ideas of making the hall a social centre are admirable. Miss Parker however does not assume any responsibility for the care of any but her own possessions. Is it possible to make her the superintendant of the hospital, breakfast room, and library on a moderate salary? I found she felt it would be very desirable to have another maid

these disturbing assertions by a few facts from you; and, sometime, if I could have a little talk with you, I could have something less vague than I have at present. I will be coming down early in the week, and if, any morning, you could arrange over the telephone a fifteen minutes interview, either at Hitchcock Hall or your office, I will be glad to be present. I assume your note is the result of no plea on Miss Wheeler's or Mr Perkins' part, but only out of my own disgraced mind. I do not ask a written reply, only "think on these things", and, if possible, interpose your word to prevent the spoiling of an almost perfect enterprise. I am, always
Most Sincerely

Your friend

W. R. Harper

Dr W. R. Harper:

My dear friend:

Because you said you desired to consult me about the finishing and furnishing of "Hitchcock", I am writing this note - as a means of saving your valuable time. Because I found these men not more words, I abandoned all thought of journeys abroad, and have made these "finishing and furnishing of Hitchcock Hall of first importance this summer. The Architect has gone there daily and given his personal attention to the details to a very unusual degree. Miss Wheeler gave up her summer vacation for the same reason, and there have been any number of

in order that the result should be harmonious with exterior and the purposes of the building.

Of course we expected to modify the amount of expenditure according to your commands, but that seemed very possible when you told me the trustees had voted eight thousand dollars for the furnishing.

It was a tremendous surprise to us all when Major Aust sent a perfect stranger, from Carson & Perrie Mercantile house, to Mr Perkins with the off hand question: "What do you want to furnish Hitchcock Hall?"

To take it out of Mrs Wheeler's hands when half the work is done: Estimates designs, color schemes &c. is to pay a

changed at this stage without destroying the perfection of the final building on the Campus.

Both Mr Perkins and Mrs Wheeler have labored far more than money can compensate to produce the greatest perfection.

Let a stranger man their work is too great a pity to let pass in silence, and I have faith to believe that you have not given your attention to this complete change of plan.

I have recently been visiting among North side people and have been pained and surprised with the frequent expressions of a certain distrust, almost hostility to the University of Chicago among them.

"No woman can be treated fairly there", has been repeatedly said in my presence. I have been so happy to be able to reply "You are mistaken I have had ample justice and courtesy shown me always."

[July 20th, 1902]

My dear Mrs. Hitchcock:-

I am glad to get your letter which was duly received, and I am glad that the letter as you suggest, is based upon vague information. It contains some information which is entirely new to me, namely, that Carson, Pirie, Scott & Co. had been asked to call upon you or anyone else. I am inclined to think that this is based entirely upon the business energy on their part. There certainly has not been any purpose to put a new person on the proposed work.

I am inclined to think that if women have no opportunity at the University, they have no opportunity anywhere. I am very tired hearing these statements because, as you know, they are absolutely unfounded.

I shall hope to see you some time Monday, and will call you up on the telephone in reference to it.

with Mr Hitchcock, and was the first person to suggest to me that I should do something for the University, by will. It would be an acknowledgment of this life long friendship, and also a recognition of Mr Shorey's services to the University, if his son were asked to make this address. If you do not object, I would like to write a personal letter to Mr Paul Shorey asking him to perform this service for me. He would then have it in mind, and when you find the place for it in the many arrangements of the decennial you could easily call upon him. I think it desirable for the trustees to specially invite Chief Justice Fuller, Sect Lyman J. Gage and Mr S. M. Vickers.

My dear Mrs. Hitchcock:

We are beginning to plan the laying of the corner-stone of the splendid building which, by your kindness, the University will be permitted to erect. The ceremony will include two things; the laying of the stone, by yourself, and a brief address by some one who could appropriately express the thoughts in your heart and in the mind of the University. I am writing to ask whether there is some one in particular whom you would like to suggest as the proper person to be invited to make this brief address?

Hoping that I may hear from you, I remain

Very truly yours,

Mrs. Charles Hitchcock,

My dear Mrs. Hitchcock:

I am very much touched and honored that you should select me as your representative at the laying of the corner stone of Charles Hitchcock Hall, and I shall regard it as a privilege to be allowed to say a few words on that occasion in your name, and in the name of the beautiful friendship that united my father and Mrs. Hitchcock. I am about to leave town to give an address at the University of Kansas, but on my return will seek an opportunity of consulting you further in the matter.

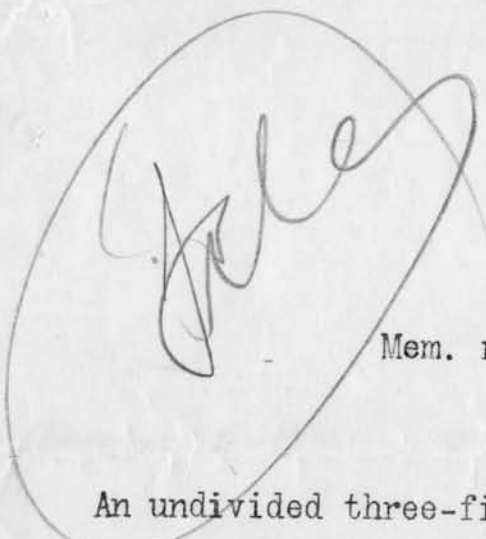

Very sincerely yours
Paul Shorey.

My dear Mr. Brewster

Thank you for

your letter of the 20th inst. and for the
information it contains regarding the
status of the birds in the collection.
I am sorry to hear that the
collection is not in the best of health
and that the birds are suffering.
I am sure that you will do all
possible to improve their condition.
I am very interested in the
collection and hope to see it
again soon.

Charles Hitchcock Hall

There shall be a Memorial room built to receive the books & pictures of my husband for which I wish to provide the cases.

There shall be a breakfast room where the young men may have the European breakfast (coffee & rolls) by paying extra and exercise the hospitality of a cup of tea, if they choose.

There shall be a infirmary with at least six beds for the use of sick boys in the University.

There shall be a housekeeper competent to be custodian of the library, to superintend the breakfast room and to care for the sick boys.

The little kitchen which the housekeeper would need for her own use, to prepare the coffee, and food for the sick should be in the basement, below the breakfast room & infirmary, with at least a dumb waiter running between the various stories. These details will appear in suggestive plans.

I have written to you

about the book. I have
 received the book & find it
 very interesting. I will be
 glad to see you.

There shall be a breakfast room where
 the young men may have the breakfast
 table. I will be happy to pay for it.

Dr Harper:

Dear friend:

I think it best
to write you some thoughts result-
ing from an interview with Mr. Chas.
Hutchinson yesterday.

He surprised me in many ways.

He told me that I was at least
three weeks too late with my suggestion
of an architect; that Mr. Coolidge
would not consider, or allow you
to consider, other plans with his
own, that no other architect could
honorably refuse suggestive
sketches for me to submit to you
without Mr. Coolidge's permission.

65

many of Mr Hitchcock's friends.

I am prepared to exact from any architect that the building should harmonize, outside, with the general effect of the buildings, but I am not content that the building should be put up, and administered, and stand in the community as my expression of an adequate Memorial for my husband, and my ideal of what a boy's dormitory should be, when I have not been consulted at all as to details, nor allowed to show, by a sketch, what is possible in the way of improvement.

I can hardly have you understand how many will be discouraged when they know that I have had no voice or choice in the way this Memorial is

is to be made. All of which
I submit to your kindly consider-
ation. Sincerely

Your friend

10. "It is agreed that the proposed gift of Mrs. Chas. Hitchcock shall be accepted by the University. This gift consists of a deed to the University of a one-half interest in Chicago real estate, the interest valued at \$250,000. less a mortgage of \$40,000. and less \$10,000. cash to be repaid to Mrs. Hitchcock, making the net gift \$200,000.

The conditions of this gift are that the University shall pay Mrs. Hitchcock, who is about 60 years of age, an income of \$9,000. per annum so long as she shall live; also that the University shall erect upon its campus a dormitory at a cost of not exceeding \$100,000. to be called the "Hitchcock Dormitory". It is understood in this memorandum that the University will secure Mrs. Hitchcock's consent to use the balance of the fund in some form of endowment.

It is agreed that from the \$2,000,000. fund Mr. Rockefeller will duplicate this gift of \$200,000. less such sum as shall be mutually agreed upon under the advice of an actuary as representing the \$9,000. per annum to be returned to Mrs. Hitchcock during her life, the figuration to be based upon the average life of a person of Mrs. Hitchcock's age and an annual interest rate of four per cent.

It is agreed that from the new "Rockefeller Fund 'F'", arranged for in the settlement of January 1, 1900, as above, \$50,000. shall be invested in the purchase and cancellation of the mortgage on the Hitchcock property and in paying Mrs. Hitchcock \$10,000. cash required and \$100,000. shall be used in the erection of a dormitory building on the campus to be called the Hitchcock Building"

some time before replying
to your suggestion that I
add a portrait of myself

I feared to destroy the

Dr. Harper:

Dear friend;

I hope you have arrived home after an interesting and pleasant journey. I have spent the time in thinking over the situation, and having the suggestive plans of the Memorial building drawn. I have taken comfort in your assurances that I should be satisfied about it, even to the point of having a clause added to the contract defining my right to be consulted about the plans so that no one could question it. My attorneys have drafted such a clause covering the question, and submitted it to me, and will send you a copy of it today.

Dr. Chapman:

Dear friend:

I hope your time
 has been spent on thinking
 over the situation, and having the
 appropriate plans of the National Building
 I have taken comfort in your
 answer. I have been so satisfied
 never once that I should be satisfied
 about it, even to the point of having a
 change made to the contract defining
 it as ought to be considered about the plan
 so that we are under obligation to
 my attorney have drafted and submitted to
 concerning the question, and submitted to
 to me, and will send you a copy of it.

With it I will send the suggestions of
added comforts which seem so desirable
in the new dormitory, although many
of them will appear in the plans.
However a concise statement of them
may be more convenient for use.

I shall be happy to show you the
suggestion plans whenever and wherever
you desire. Perhaps it would be better
that my young friend should explain
them, and come to you with his plans,
or we could look over them in my
library quite free from interruption.
I wish to save your time and trouble
as much as possible.

Sincerely your friend

With it it will save the expenditure of
several months which would be desirable
in the very beginning, although many
of them will appear in the plans.
I have a serious statement of them
and the more convenient for me.
I shall be happy to show you the
proposition I have when you are willing
to give me. I suppose it would be better
that my young friend should appear
then, and come to you with his plans,
as we could look over them in my
library quite far from interference.
I wish to save your time and trouble

Doctor Harper,

Dear friend

You were so kind as to say, at our last interview, that any suggestions made by me would receive your kindly consideration. As I am setting my house in order to leave for an indefinite time, there is one thing I would be glad to have you think of: whether you can find place in your new law department for Mr Roger Sherman, of 4634 Lake Ave. Mr Hitchcock and I have been interested in him from his boyhood. His ability is acknowledged by both bench and bar. He has an enthusiasm for the Law, and an inspiring influence on all young men who

Meet him.

He is of the firm of Judge Church,
Mc Murdy and Sherman, and
Horace Lenny knows him well.

If you should find it for the
best interest of all concerned, to
appoint him to some position now,
with the view of promoting him
to the Hitchcock Law Professorship
when the surplus allows, my last-
wish in the administration of
the Hitchcock fund will have
been gratified.

I shall not make it a matter of
grievance if you find it impossible,
but my hopes are on the wing, just
now. I am, always, yours truly

Most faithfully, your friend
Annie Hitchcock.

My Dear Sir:

After different interviews I have had with you recently in connection with Hitchcock Hall, and the income that is and may be obtained, I venture to make the following suggestion for consideration of yourself and the Trustees of the University.

I assume from what you have said, that it is within the possibilities that during my lifetime, there will be a surplus of income from the Hitchcock Hall above the expenses of maintenance and the four and one-half per cent. on \$150,000. which you are paying me, and after you discontinue such payments there will be considerable surplus. In view of the need of establishing scholarships in the University, cannot any surplus income from Hitchcock Hall be applied for that purpose?

I do not understand the situation sufficiently to go into further details, but, if you consider it proper to have any action on the part of the University which may require my concurrence, you may call, in my absence, upon Mr. Charles L. Allen, Chicago, who understands my wishes in the matter, and is fully authorized to sign my name to any action of which he may approve.

To the workmen and their
families who came to the house-
warming of Hitchcock Hall.

From the beginning of the
University I have hoped to link
the name of Charles Hitchcock
to it in some way, to keep his
memory green in this community
which knew and loved him.

I thought of a professorship to be
established after I was dead, then
of a building with a memorial
room which could only exist on
the paper of my will. When it was
made possible for me to have this

building grow under my living eyes, you may know it was the greatest comfort and satisfaction.

To have an architect who gave me the fruits of study and travel in perfecting his thought of what a young men's dormitory should be, to have the assistance of a sculptor who designed from the woods and fields about us and made the English Gothic into an American Gothic, to have an artist who reproduced the features of Charles Hitchcock on canvas has been a joy to me, but all these beautiful plans would never have reached completion to-day but for the faithful working out of each part by you

all. It has seemed to me as I went about from time to time that you were enjoying doing good work and beautiful work - each man his part and I thought perhaps you would enjoy the finished whole with me to-day when I am having the crowning satisfaction of thanking you.

My dear Mrs. Hitchcock:

You will be glad to know that the Trustees today let the contract for the laying of the foundation and for the putting on of the corner-stone. The other contracts will be let as soon as it is possible to get the bids in. This settles everything for corner-stone day.

We are going to invite some friends to take luncheon in Foster Hall Saturday, June fifteenth, at one o'clock. I should like to ask you to suggest the names of some of your friends who will be present at the corner-stone laying, in order that we may send them invitations to this luncheon.

if in town, as will Mr Willard.

will suffice tomorrow morning.

Harpur:

Dear friend:

I am going to ask you to let the laying of the corner stone of Hitchcock Hall be the last celebrated on Saturday morning.

I had to send my invitations to out of town friends & relatives, to the judges, associates at the Bar and college classmates early in the week in order to give them a chance to get here.

I asked you the probable hour and you said about twelve, so I invited them for "twelve, noon".

If the carriage in which I am
placed arrives at the corner before
that time I can withdraw from
it, and, with Mr Shorey, await
the old friends. As the address
is only ten minutes, I can easily
arrive at the Nancy Foster Hall
in time for the address of
Mrs Freeman Palmer.

I am sorry to have even a
little difference in the time
fixed, but as these old friends
are many infirm in health,
and almost all come long
distances, I do not know how
to do better than ^{to hold} this time,
"twelve noon". I am, very sincerely,

Dear friend:

To save your time and strength I will be as concise as possible. I would be glad to have your consent and approval in changing article 5th of the Contract between me and the University. It now stands that the surplus over the building of Hitchcock Hall - which is \$50,000 shall be at my death or "sooner if practicable" used for a professorship to be called the Chas. Hitchcock Prof. I wish to drop the professorship and have that \$50,000 a fund to administer and keep in repair the Hall in all its departments.

that would give about five hundred
dollars a year to be spent on the salary
of the pupil librarian & new books, selected
at the discretion of the Dean - Two or
three hundred dollars added to ^{the salary of} some one
of the Medical faculty for putting in perfect
order the hospital & administering that,
and a like sum to make good any
pecuniary losses in running the
breakfast room -

Can you send me a message whether
I can or cannot make this desired
change - and whether I may have
Mr Allen put it into form, and if you
are able to have it submitted to you?

is very substantial, it must need
something; and if there were a surplus

My dear friend;

I had my
interview with Mr Allen yesterday
He thinks it a great pity to disturb
the present agreement with the
University to establish a professor-
ship bearing Mr Hitchcock's name
He thinks the trustees would
be more than willing to guarantee
the payment of two hundred a
year ^{to the Dean} for the librarian & the
repairs & addition to books in Hitchcock
when I am no longer here to attend
to it - He is preparing a letter to that
effect, and I will ~~send~~ either mail
or bring it to you by Friday -

I wonder if I could call upon
you next Friday, at any hour
that suits you, and have speak
about these matters -

you are too busy this week, I will
mail Mr Allen's letter and wait

My dear friend:

It was most kind,
most-Christian for a busy man
like you to take time to write
to a sick & afflicted person in a
far country. I hope you will
never know the full value of such
a letter by experiencing the condition
but I am fitted to appreciate it,
and treasure the kind thought of
you and Mrs. J. in my
heart of hearts -

I have indeed, most-depressed
physically and mentally, but
while I was a veritable Mrs. Gummey
so "low in my mind", as soon as I
gave up all struggle to have my
own way, and accepted the inevitable

it was indeed marvelous how much sweetness he came mingled with the bitter of disappointments. The hospital was a perfect bower of bloom, the care and quiet calmed my overstrained nerves, and to my quiet was added the welcome faces of the dear friends from the University - I've made a very slow recovery, but I trust I will not slip back any more, and in time be of some use in the world -

I wish you could be transported -
to this beautiful spot for your "resting"
and this is the most perfect hotel I
have experienced - From the balcony
of my room I look down on Lac Lemay
and its colors are blue and silver and
pink - while the Mts. opposite are green
velvet and gray mist, and white
swans swim on the transparent
colors, and the boats go by like
larger birds -

to a wonderful circle in little, gentle circumstances, and I am developing some individuality with all this encouragement. I am to have Mary Willard with me during the month of August, there in Switzerland, where then, possibly, I may get up to Paris where I have friends, and may see my dear mother & have good bye. She has unfortunately been very disappointed, for I have had no other company since I said good bye to my father. I am glad you are at last in the "new world" & all seems as if the home would almost welcome you all instead of a stranger. I have done for opening and is probably even in your thought. I shall indeed be happy if am received within its doors some day. I can gratefully in the presence of James Singer at Copracation. He is one of the world's great men, as the world is. I am sure you will find him a very interesting person, and I am sure you will find him a very interesting person.

President-Judson;

Dear friend;

I have
been very sorry not to find
myself equal to any of the
convocation exercises this week,
to my own great loss, I am sure.
I have however seen Dr. Pruell
University physician, as you have
advised me to do.

I find ^{him} more than willing to
advise in the refitting of the
hospital in Hitchcock Hall, and
when it is made ready for

use, he said if I can have
the key. I will be responsible
for the hospital contents
and administered it to its highest
usefulness. He said I might
about it being a need of a
great-University, and about
Hearings assisted in its first sitting
up, and how if he had the key he
could come & go at his judgment
without interfering with the rest
of the house. He will furnish me
with a list of wants in it, to add
to my list of other things about the
house, and I hope it will be possible
for me to confer with you early
next week. And give you a full list
and the result of his conferences

with the head of the house.
I will not need more than a half hour.
Would your office be a good place? The
time can be arranged by phone - I am
engaged Monday & ^{on} Thursday morning until
ten but I can arrange any time if I know
the day before - Always sincerely
Your friend
Annie Hitchcock

that you had inspected matters.

With cordial best wishes,

Yours,

My dear Mrs. Hitchcock:-

Your favor of the 16th inst. is at hand.

The list of University Preachers was completed through the autumn, winter and most of the spring quarters at the time you spoke to me about Dr. Moore. I have been waiting therefore to see him at this meeting of the Association in the hope that a later arrangement might be made. I shall be very glad to have him here as soon as there is an opening, and regret that at the time of the Association meeting next month the Sundays are all filled.

I was very sorry not to see you at the house the other night, but fully understand that too many engagements are impossible. We had a pleasant little greeting for Mr. and Mrs. Ryerson and Mr. and Mrs. Hutchinson in view of their being about to go abroad. I am sure that you are pleased to know how useful the infirmary is in these days. Dr. Small told me that he had met you on Saturday, and

now had inspected matters.

My dear Mrs. Hitchcock:-

Your kind note of the 13th inst. is received. I am having the question of the management of the Hitchcock Library looked into, with a view to seeing if we cannot make some better arrangement. Student service is not satisfactory, of course. It doesn't look to me likely that we can get a competent librarian for the very small sum available for the purpose. As soon as I can have a reasonable suggestion I shall at once confer with you on the subject. I think we can solve the matter in some way.

So far as the other matter is concerned, of course I never for a minute objected to Mrs. Small's having her afternoon tea in the Library on Sundays, nor as I said the last time we discussed the matter, do I wish to lay down any rules for Mrs. Small. My dear friend;

I pray your patience
while once more I consult you about
the library in Hitchcock Hall.

Could not the student service be made
more satisfactory, if one of the students
who was to remain at the University
longer than three months, should
fit himself for the duties of librarian
in chief: he being responsible for circulating
the books, cataloging new books &c. opening
the cases at certain hours only when he
was there, & as earning the two hundred
dollars stipulated in the bond?

Of course he could not take charge

the books of reference & periodical
literatures, and be on guard while
the room was open - they could be paid
by the hour as at present -

If the University undertake to select
this student and give him the necessary
instruction & the authority of chief
librarian? So would the habit of
handling the library be formed and
I could hope that it could be useful
and still be preserved -

Will you consider Young Baumgardner
capable for that place? And may I
let the librarian I have had at work
for the last month, show him what
the duties are & also what books are
there? It is very desirable he should

know what his prospects are for
earning that two hundred dollars ^{some}
The advantage of trying him is that
he hopes to remain at the University
for the next two years as a land
student -

I received an account
of the endowment fund by which
I see that four hundred dollars & more
were estimated as costs of library -
There will be enough, I think, to
administer it; and there should
every year be something spent in
replacing books so that it will not
depreciate - I will not weary
you more, but I do want to see
it cared for and useful at the same
time. I am growing fearful the

has sent over fifty books from her own library for the President's room in Hitchcock Hall, and will send about as many more probably. She has selected a list of books which she wishes to buy for this room, the cost of which will be \$50. They are to be upon Chicago and Illinois. She would like the President to give an order to the Auditor to send her a check for this amount for the purchase of these books. President Johnson;

My dear friend:

The Shoney
portrait - was delivered to Mrs
Martha Shoney Miller a week ago,
and, I was told, would be placed
in Hitchcock Hall today.

I am writing to ask you to
assume the responsibility of
installing the picture with as
much or little ceremony as you
deem wise to show due respect
to Mr Shoney's memory, and to his

family, without any reference
to me. I cannot take part
in any thing outside my home
owing to the mortal illness
of an old friend, who is a
guest here.

I wish I could have had the
portrait ready for the last
Convocation, but I could not
hasten it; and now I must leave
it entirely in your hands.

Later I hope either to write or
have speech with you about the
library, but that must also wait.
I can only ask you to accept and
approve of this portrait, if you care.
Sincerely yours,
Anne Hitchcock

affairs of the hall that I think
I must tell you what you might
never know. Many times when
there were sick boys in the hospital
who could not pay for night care,
he has nursed them himself thereby
saving "the fund" and the constant
usefulness of that hospital, I hope
the whole University knows. It seems
to me used to its capacity it might
defer the building of a great hospital
many years. Then the Sunday evening

if it ever existed, has quite dropped
out; & the hospitality connected with
the preacher room being the first room
of the University & the requests of the
residents - & merging, & entertaining
you might call it, is so generously

a deficit last year - so I am going to
ask that a certain sum of "the fund"
for administering the Hall be set
aside for the hospitality of the same.
to be used at the discretion of Dr. & Mrs. C.
since it is quite impossible to exactly
forecast what demands there may be -
Then in the matter of repairs & the handling
of new supplies, there is such prompt attention
& such personal marking & disposing of linen
and making of new curtains, as money cannot
pay for: but I assume you there are no leading
ladies a month at a time as formerly -
Then the social leading is fine elimination
"rough-housing" entirely & developing a
personal interest in the house & its welfare
most gratifying to me
Dr. Small paid for the periodicals
for two years out of his private purse &

Hitchcock

Chicago, January 15, 1913.

Mrs Charles Hitchcock,
Messrs T. Cook & Sons,
Ludgate Circus,
London, E.C.

Dear Mrs Hitchcock,

The exquisite Christmas book has just been received. The pleasure which Mrs Robertson and I have derived from it and from the beautiful cuve de chavannes, St. Genevieve, I can only suggest but it has been very great.

Christmas morning twenty men in the House sat down to breakfast at 9 o'clock around the big table in the library and before a blazing fire. The library we had decorated with holly so that the room looked Christmasy in spite of the springlike outlook from the windows. The men seemed to enjoy the occasion staying even to 11 o'clock. I explained to them that we were acting on your behalf and that you had expressed your gratification on receiving the Thanksgiving Day letter. I told them of how you had spent the American holiday, and wished them on your behalf a happy Christmas.

As a part of the decoration of the library on Christmas morning we had two very large photographs which

we had made and framed. These are of the same subject which Mrs Robertson and I sent to you as our Christmas cards. The photographs were made in June, 1901, by a friend who kindly lent the negatives to me. It seemed to me that pictures so significant in the history of Hitchcock ought to be permanently in the House; therefore, the framed enlargements have been hung in the breakfast room.

The Autumn Quarter has been a very strenuous one, how much so Mrs Robertson and I did not realise until we summarised the results of the quarter's entertainment. There were twentythree different functions at which 887 people were present as follows:-

Reception for Mr and Mrs Bartlett	200
Dance	150
Smoker	70
House Meeting	68
Football tea (after the Minnesota game)	35
Eight Tuesday 10 o'clocks	140
Ten Sunday teas	224

The Reception for Mr and Mrs Bartlett was held this year in the afternoon at the request of Mrs Bartlett. The President and Mrs Judson and a great many members of the Faculties were present, also a surprisingly large number of the men in the House. Mrs Robertson cleared the breakfast room of all save one table which she arranged on Mrs Judsons plan, seating a lady at each end to pour

coffee and chocolate respectively. Mr and Mrs Bartlett seemed to be much pleased with the afternoon.

The boys are already at work upon a venture which I hope will become an annual institution. During my last year as Head of Snell the members of that House instituted the so-called "Water Cooler", named after the famous water cooler which used to be trundled down six flights of stairs somewhere between two and three o'clock in the morning. The publication contained something about each member of the House and a record of the activities of the House during the year. The material for the "Hitchcock Annual" is very great. The ability of the men who are to edit the book is equally great, so that I hope ere many months you will receive a copy of the booklet.

You will be interested I am sure in the use of the library during the Autumn Quarter. One year ago sixty-two books were drawn during three months; during the quarter just closed 203 books were drawn from the library. I think the explanation is that we have used bulletins to announce new books. I have also secured from the general library the loan of books which have to do with the current theatre and opera, and art exhibitions. Likewise the Tuesday night discussions have emphasised certain books. You will be pleased to know also that some men have suggested new books for the

library and these have been secured. The circulation of these has at once justified the purchase. To supplement the work in modern languages and to enlarge the outlook of the men in the colleges I have thought it would be well to subscribe for a French and a German publication. We are already receiving the Illustrated London News. I have already induced the Reynolds Club to take in a French and a German weekly; the modern language classes have found them very useful. I am sure that similar subscriptions from our library fund will add to the tone and usefulness of the library.

The hospital has not been in use this last quarter. We had two or three cases of tonsillitis and bronchitis; the men, however, desired to remain in their own rooms rather than go to the quiet of the infirmary. I wonder if you received from the men in the House some 75 or 80 postcards conveying Christmas greetings which were mailed about ten days before Christmas. These were sent individually on the suggestion of Mrs. Robertson, and the eagerness with which the men seized upon the idea would have pleased you greatly. I trust that some of the cards at least reached you. I trust also that the enlargement of the enclosed small photographs reached you. We sent them to your London address from which perhaps they were forwarded. I think that you have not prints of this negatives and, because they are a pictorial record of a

significant day in the relationship of all of us it has given Mrs Robertson and me great pleasure to send them to you.

We all trust that you continuing to find greater and greater strength and happiness in your sojourn among the delights of France and Italy and that you will come back to Chicago feeling much better.

With kindest regards from Mrs Robertson
and myself

Sincerely yours

DAR.C.

Hitchcock

Chicago, March 25, 1915

Dear Mrs. Hitchcock:-

While we were moving your letter was delivered to me. I am sorry that during the cataclysmic disturbances incident to moving I did not reach you on the telephone as you desired. We have no telephone as yet in our apartment, and I have been little in the office. I shall be more or less irregular during the next few days.

The future of Hitchcock Hall depends, it seems to me, on two persons -- apart from the Founder: the president of the University and the head of the house. Before I became head, and especially since I have held that position, I have been aware of how generously President Judson has cared for the hall. His interest is the best guarantee of the continuation and development of your plans. The other person is the head of the house. Before leaving for South Carolina, President Judson indicated to me his intent to have Mr. Gilkey act as head during the Spring Quarter. This will give the President

more time to consider an appointment which means so much to the hall and to you personally.

Knowing Mr. Gilkey you will, I am sure, agree with me that he will maintain all that is best in the house life. Confidence in President Judson and in Mr. Gilkey enables me to emphasize the assured future of the house and the absence of any cause for uneasiness on your part.

Indeed, there is no reason, so far as I can see, why your much needed rest should in any way be interfered with by thought of a change of administration in the hall. I trust that it will not be so disturbed and that you may have a vacation at once restful and invigorating.

Very sincerely yours,

D.A.R.-D.

My,

President Jackson:

There are certain, proved
ways of administering affairs in Hitchcock
Hall that have passed from one head
of the hall to another with increasing
success until this year, when the many
and rapid changes have allowed them
to fall into disuse.

As they were the result of many years
experience, and had arrived at great
degree of success & benefit under Mr & Mrs
Robertson, it seems desirable to put
into form for reference the most
fundamental of these habits. As you
suggest, I will enumerate a few, hoping
Mr Robertson may add his experience to

mine in advising the new and more permanent head.

The passing of the books & magazines via the House Committee was Mr Walker's suggestion. He regarded it as conferring a dignity upon the committee which would increase their interest in the Hall.

Dr Bouton is just cataloguing the library afresh and accepts the suggestion of sending the used books to the Club room.

Thanking you for giving your personal attention at this very busy time, I am always

Sincerely and faithfully, yours
Annie Hildreth

Regulations for the Administration of Leah's Hitchcock Hall

There are five sections in Hitchcock Hall
the head resident having his suite of rooms
at the library end of the building.

It has been found convenient for the Head
resident, to invite or choose one man from each
of the other four sections, to act with him on
a House Committee - meeting once a month
to consult with him as to the social needs
and desires of the Hall.

This committee decides on the functions, if any,
of the month and secures the consent of the
Dean of women and the assistance of Miss
Coburn if needed. It canvasses the residents
to keep up the requisite number to make the
breakfast a paying enterprise, not needing
help from the endowment fund. It arranges
among its members to serve Sunday afternoon
tea to the new residents & invites on its friends.
An important addition to its duties, is to take
the used books & periodicals from the hands
of the librarian ^{each month} and place them in the new
cases in the Club room, for the free use of
the residents of the hall. The one condition
imposed is that they shall not go out on to
the Campus. When they are used up the house
committee are to dispose of them outside
the grounds in order that the contract with
one, that all books, pictures & ornaments put
by me in Hitchcock Hall shall be kept forever

OFFICE OF THE DIRECTOR

July 31, 1916.

My dear Mr. President:

I presume that all the matters with reference to Hitchcock Hall and Hitchcock Library were covered by you in your conference with Mrs. Hitchcock. I beg leave, however, to set down in writing one or two suggestions that will contribute to the smooth working of the library.

✓ 1. I beg leave to concur with Mrs. Hitchcock's suggestion that the outer doors of the several sections be locked at eleven or twelve each night, and that the janitors be instructed at the same hour to lock the doors leading to the library.

2. There has been considerable irregularity in the administration of the Library because of our failure to get promptly into touch with a new head of the house when he has been appointed. From the time at which Mr. Robertson was made head, it has been our custom to ask the head of the house to serve also as the head of the Library, proposing books for purchase and otherwise in important ways being responsible for matters, practically as a librarian. Would it be possible, whenever a new head is appointed by the President, to have him informed that this appointment carries with it the appointment to the headship of the library and to ask him to communicate with the Director of the Libraries with reference to his duties; or to notify the Director of the Libraries of the new appointment, that he may on his part get in touch with the newly appointed head?

H.P.J. - 2.

I enclose herewith a copy of a letter which I am proposing hereafter to send to each new head of the house, as he is appointed. If there are any things in it which you desire to have modified, I should be glad to make the necessary changes.

Very truly yours,

OFFICE OF THE DIRECTOR

July 7, 1916.

My dear Mr. -----:

It has been customary for the Head of Hitchcock Hall to have the responsibility for the general oversight of Hitchcock Library. I write to request that in accordance with this custom you will accept the position of head of this library without salary, thus becoming an honorary member of the staff of the Libraries of the University. Mr. Manchester, Head of the Readers' Department, to which, technically speaking, you belong, will be glad to co-operate with you in making Hitchcock Library efficient, and I should be glad to have you communicate with him respecting any matters of detail. In this connection, may I call your attention to the following points:

1. The sum of \$100 is available annually for the purchase of books and periodicals for the Hitchcock Library and for the rebinding of books that may need binding. The Director of the Libraries desires to look to you for the proposal of books and magazines and for the suggestion of books requiring binding. I enclose herewith a small number of order cards for this purpose and should be glad to furnish you more whenever needed.

2. The books in the Preachers' Room are a part of the Hitchcock Library. It is Mrs. Hitchcock's desire that these books shall be chiefly, or exclusively, books on Illinois and Chicago or by Chicago authors. I

2.

should be glad therefore if you would keep this in mind, and in ordering books within these classes for the Preachers' Room indicate the fact on the card.

3. Mr. Torrey is in charge of the matter of binding books. When books need to be rebound, I should be very glad to have you send them to his office in Harper W.61, having the attendant keep record of the fact that they have been sent away for this purpose.

4. The entire collection of books in Hitchcock consists of three classes:

a) These originally belonging to the library of Mr. Hitchcock and by Mrs. Hitchcock given to Hitchcock Hall.

b) These subsequently purchased from a fund especially given by Mrs. Hitchcock for this purpose.

c) Books belonging to the Daniel Shorey Collection.

It is Mrs. Hitchcock's desire that the books of these classes shall be kept separate. In general, the books of the first class are shelved together in the original cases in the library room. Books of the second class are placed temporarily, when they are first received, on top of the bookcases in the library room and subsequently in the cases in the entrance hall, and when these are full, in the cases in the dining room. Books of the third class are kept in the library room in the cases immediately under Judge Shorey's picture.

5. The books of these different classes are distinguished in part by their system of classification and labeling. The books of class (a)

3.

are classified on what is called the Decimal classification, the books of classes (b) and (c) on the Library of Congress classification. Books of class (c) ^{will} have a special label to distinguish them from books of class (b).

6. All the cases in the reading room and in the entrance hall are provided with good locks. The library attendants are of course provided with keys. It is understood that the cases in the main reading room should be kept unlocked and open for the use of students when a library attendant is present and in charge of the room. But the cases in the corridor should be kept locked except when opened for the removal of books, and the cases in the reading room should be kept locked when no attendant is in charge of the room.

7. In accordance with Mrs. Hitchcock's wish and an agreement between her and the University, back numbers of periodicals are, as the new numbers arrive, transferred from the reading room to the club room at the west end of the building. Similarly, books of current purchase (but in no case books belonging either to the Charles Hitchcock collection or to the Daniel Shorey collection) are, when they have served their purpose in the reading room, transferred to the club room. When these magazines and these discarded volumes are no longer useful nor desired in the club room, they are by the authority of the House Committee to be distributed to such other libraries or institutions of the city of Chicago as may be selected for this purpose by the House Committee. Before parting with them, the House Committee is requested to remove the bookplates and to write or stamp on the inside cover of the book words to this effect: "Given

by Hitchcock House of the University of Chicago to -----." This is necessary because all the books have upon them the perforated stamp of the University of Chicago Libraries and unless marked to indicate that they have been properly disposed of, are liable to be claimed as stolen property. The cards for books given away should be returned to the Acquisition Department stamped "Given away by Hitchcock House Committee."

8. In accordance with the terms of Mrs. Hitchcock's gift, no books, pictures, or objects of art, are to be removed from Hitchcock Hall, except that by vote of the House Committee in their monthly meeting books and magazines purchased for the library may be disposed of as above indicated. The books of the library are, however, open to the use of any member of the University, but not for removal from Hitchcock Hall.

President Judson:

My dear friend;

I am
most appreciative of your
sympathetic support in my
struggle to stabilize the
administration of Hitchcock
Hall, that its ideals may be
preserved, and all the accumulating
of books and Art-Treasures may
serve the residents' highest needs.
This my heart-easy not only for the
things already given, but desires
the accumulation of gifts I hope
to bestow before the close of the year.
I have not been able to visit the
hall as frequently as I would desire

but the young men have called upon me and I have been told there is a great pressure for rooms. I am sure you would be reluctant to change the arrangements that I have so laboriously perfected, as I am going to ask you, if you will let me have a little talk with you in your office tomorrow morning; and if it is not possible I will say that you have my consent to reduce the hospital space to a room for two emergency patients leaving the equipment intact. It seems presumptuous to dictate, but you have given your word that I should be consulted and I wish to respond by being as generous as I can be not to abandon an important feature of the hall.

If I can have speech with you I will be glad over the scheme adopted and then I should advise a letter of the particulars of the change, I will be glad, I would write to Mr. Smith or Mr. Dickerson or the Superintendent of Buildings, the details that I would not dare to trouble you with & hope you are able to hear the ornamental burdens as gracefully as I have always known you to do. And that your family are well. I must not weary you. I found to have lost the art of writing brief.
Faithfully your friend
Anna H. Chickadee.
