Chicago, December 3, 1915

My dear Justice Hughes:-

Your favor of the 2d inst. is received. I greatly feared that the Court would not have ended its session by the time of our quarter-centennial. Of course we shall all greatly regret the fact that we cannot have you with us at that particular time. Mr. Tumulty writes me that the President will take the matter of his own presence under consideration, but cannot at the present time make any definite appointment. It is not worth while therefore to consider the question of seeing him at the time I suggested.

With sincere regards, I am,

Very truly yours,

WASHINGTON, D.C., December 2, 1915.

My dear President Judson:-

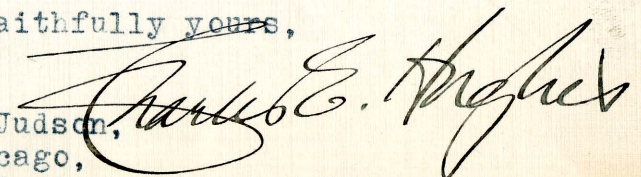

Your letter of November 27th has been received. So far as I can see now, I shall not be able to attend the celebration on June thirteenth. I very much regret this, as I should like to be present on that interesting occasion. I do not think that there is the slightest chance that the work of the Term will be finished by that time.

If the President takes the invitation under consideration I shall be glad to join you in presenting the formal invitation, as you suggest, and to aid you in making an appointment for that purpose. You will of course let me know as to this.

With cordial regards, I am,

Faithfully yours,

My dear Governor Hughes:-

I am writing in the hope that while you are in Chicago you may be able to pay at least a brief visit to the University of Chicago and to meet the faculty and students for a brief talk. You will be here on the afternoon of the 22d for the address before the Union League Club. If you take the Twentieth Century the next afternoon, the 23d, it would bring you to Albany by seven o'clock on the morning of the 24th. If it should be in any way possible for your plans to include this matter, it is one which the University trustees, faculties and students alike would deeply appreciate.

Since writing you the other day I am mortified to notice that the 23d of February will fall on Sunday. I do not know how I failed to look at the calendar before writing. Of course I could not reasonably expect that you would stay over until Monday, or that you would be able to anticipate your coming here. If in any possible way you could spend a short time at the University on Saturday morning, the 22d, it would give us more pleasure than I could easily express. Of course I do not know your engagements here, but I am sure that nothing could be more gratifying to Chicago and more far reaching in its effect in certain ways than ~~the few words~~ which you might address to the faculty and students of the University.

With sincere regards,

Yours

ALL MESSAGES TAKEN BY THIS COMPANY ARE SUBJECT TO THE FOLLOWING TERMS:

To guard against mistakes or delays, the sender of a message should order it REPEATED ; that is, telegraphed back to the originating office for comparison. For this, one-half the regular rate is charged in addition. It is agreed between the sender of the following message and this Company, that said Company shall not be liable for mistakes or delays in the transmission or delivery, or for non-delivery of any UNREPEATED message, beyond the amount received for sending the same ; nor for mistakes or delays in the transmission or delivery, or for non-delivery of any REPEATED message, beyond fifty times the sum received for sending the same, unless specially insured, nor in any case for delays arising from unavoidable interruption in the working of its lines, or for errors in cipher or obscure messages. And this Company is hereby made the agent of the sender, without liability, to forward any message over the lines of any other Company when necessary to reach its destination..

Correctness in the transmission of a message to any point on the lines of this Company can be INSURED by contract in writing, stating agreed amount of risk, and payment of premium thereon, at the following rates, in addition to the usual charge for repeated messages, viz, one per cent. for any distance not exceeding 1,000 miles, and two per cent. for any greater distance. No employee of the Company is authorized to vary the foregoing.

No responsibility regarding messages attaches to this Company until the same are presented and accepted at one of its transmitting offices ; and if a message is sent to such office by one of the Company's messengers, he acts for that purpose as the agent of the sender.

Messages will be delivered free within the established free delivery limits of the terminal office. For delivery at a greater distance, a special charge will be made to cover the cost of such delivery.

The Company will not be liable for damages or statutory penalties in any case where the claim is not presented in writing within sixty days after the message is filed with the Company for transmission.

My dear Governor Hughes:-

I am greatly interested in what I learn of your recommendations regarding the direct primary. I have been studying on these matters for years past, and have been making not a few practical observations and experiments in this city on these lines. It seems to me entirely clear that in a republic party government, not necessarily in the English sense, is unavoidable, and on the whole is desirable. If that is the case party organization is a necessity. The difficulty with such organization heretofore has been that it has tended too much to be irresponsible to the mass of party members. In other words, leadership has been seized by a few adroit individuals, and has been maintained by a skillful use of the spoils system. Party leadership is necessary, and a wisely managed party will be under the leadership of its largest men. To this end it is desirable that the party

If that is the case party organization is a necessity. The difficulty with such organization heretofore has been that it has tended too much to be irresponsible to the mass of party members. In other words, leadership has been seized by a few adroit individuals, and has been maintained by a skillful use of the spoils system. Party leadership is necessary, and a wisely managed party will be under the leadership of its largest men. To this end it is desirable that the party

membership should have a distinct voice in the matter, and that can only be done through a system of direct primary voting. The convention fails to be such a repository of party power because it is chosen for a single purpose, and that purpose, the nomination of candidates, obscures all other matters. Choice of party leadership, then, should be determined by the direct primary. It is entirely possible to have this done in such way that the newly chosen leaders shall be assured of a definite mandate. This will put them in a much stronger position than under the present plan.

In order that the direct primary, whether for the purpose of designating the party leaders, or for the purpose of designating candidates for public office, be successful, it is of the first importance that the qualifications for voting in such primary should be definitely fixed by law, and that such qualifications should be adequately enforceable at the polls. No one should have the right to vote at the party primary who does not conform to the conditions of party membership. These conditions should not be made too drastic; at all events they should be very definite. For instance, if one has voted the party ticket, that is, has voted for certain specified candidates of the party, at a given election, he should thereby be qualified to vote at the next party primary. Independents in politics of course should have no right to determine the policies of parties with which they avowedly are not connected. It should be made practically impossible for Democrats to vote in a

Republican primary, or vice versa.

If I am rightly informed it is your suggestion that the regularly designated leaders of the party suggest candidates for the primary election. That suggestion seems to me an admirable one. It of course by no means settles the nomination, as room is made for the suggestion of other candidates also, and as from the entire list the members of the party at the primary are free to choose. The results I believe will be much better attained thus than by the haphazard methods of the present party convention. In short, a direct primary may be of great value, or it may be a mere damage to public interests. If carefully guarded, so that only those vote who have a right to vote, and if further guarded so that party organization be protected and indeed strengthened by being made public, definite and democratic, the results will in every way be valuable. I admit that in municipal elections national parties theoretically have little logical justification. In national elections, however, the parties of course must be provided for, but the state is the unit of the nation, and the county is the unit of the state. National party organization, therefore, must include certainly state organization and county organization. When it comes to municipal elections there should be the utmost freedom in the way of nominations. It is difficult to see, however, how any group of citizens, whether forming the membership of a national party or not, should be forbidden to nominate.

There is one other very serious question. A great evil of our present system of elections, and one which, in my opinion, more than anything else militates against the success of a direct primary, is the great number of elective officials. The choice of so many by popular vote, while ostensibly a democratic system, in fact tends to defeat its very purposes. By dissipating the attention of the voters, and by putting things in such shape that it is impossible for the average voter to know about many of the candidates, the responsibility of those chosen to public office is minimized. If the people could vote directly only for legislative officers and for executive officers of the highest grades, they being held responsible for all the rest, the public will would be far more effective.

Very truly yours,

H. P. Judson
