Professor J. Franklin Jameson,
Boston, Massachusetts.

My Dear Professor Jameson:-

The situation has changed with me, and I am coming East to place my family on a steamer which sails Thursday. I am planning to visit Boston Friday. Can you meet me at the Hotel Touraine Friday morning at nine o'clock? This will save you the trouble of a long trip West. I appreciate the fact that there are many reasons why it would have been more satisfactory for you to have come west,- but if it seems best after our talk, you can come then. Will you kindly telegraph me at the Murray Hill Hotel, New York City whether this arrangement will be satisfactory.

Yours very truly,

W. R. Hooper

Dear Sir:

25th
Sept. 1st

Your letter of August 20, forwarded from Providence, reached me here this evening. It would give me much pleasure to meet you in Boston, at any place and hour you may designate, on Friday, August 31. At the same time I will mention, in case your journey should be in any way delayed, that I break up here and go to Boston with my family — or rather to a town near Boston where my father lives — on Tuesday September 4.

Two copies of your letter were sent me, by mistake no doubt. I return one, as I presume it was intended for your office files. Believe me
Very respectfully yours, J. F. Jameson

Dear Sir:

Your kind telegram was brought over last night, but, this being Sunday, my next chance to telegraph is between five and six this afternoon. Please excuse the delay.

I am sorry there should be illness in your family, and hope it will not prove serious. I should have been glad if I could have met you in Boston. But under the circumstances I will willingly accept your kind suggestion and come out to Chicago. But I have engagements, either for exact dates or for dates nearly exact though yet to be positively fixed, which will prevent my leaving Boston until Saturday afternoon September 8. If this does

not seem to you too late, I will arrive in Chicago Sunday
night and come to see you on Monday morning September 10,
at whatever hour you may designate as convenient. I
hope that this will meet your wishes, and am, with sincere
regards,

Very respectfully yours,

J. A. Jameson.

Dear Doctor Harper:

I struggled all yesterday to write to you, wishing to write at some length; but was prevented, by various meetings. Today I have again been prevented, chiefly by an unusual series of visiting relatives, to whom I had to be very attentive. There now remain but a few minutes before the collection of mail, and I can only say, that I hope not to be thought neglectful of your kind letters, and will surely write tomorrow.

Rev. Wm. P. Harper, D.D., LL.D.:

Dear Sir:

Beside the apology expressed in my note of last night, I ought to apologize still further if, as your letter implies, it was I who should have written during these days since I saw you. My recollection was, and so runs my record of the conversation made immediately afterward, that, on my expressing my reasons against the proposal that the full salary of \$5000 should not begin for two years, you said that you would think of this matter, would look for compensations elsewhere if you could not adjust this, and would write me shortly.

I will speak of this matter first. It has assumed additional importance since our trustees have offered me \$3500 immediately if I will stay here. This, with the \$1500 which I am to expect from the Review after the first of January (according to its treasurer), will make me \$5000, with no taxes to pay and without the annual expense of bringing my family east. The Chicago salary would therefore never equal that which I should abandon. I said ~~that~~ in our conversation that this probationary period made acceptance improbable. So far as regards the first year, I have felt since that this was not quite reasonable, especially as you have virtually a rule on the subject. For while I have entered into arrangements with my parents which somewhat increase

Mr. W. F. Harper, D. H., L. E.

Dear Sir:

Reside the apology expressed in my note of last

night, I want to apologize still further if, as your letter implies,

recollection was, and so runs my record of the conversation made from

disturbance afterward, that, on my expression my reasons against the pro-

posed that the full salary of \$2500 should not begin for two years.

you said that you would think of this matter, would look for compensa-

tions elsewhere if you could not adjust this, and would write me

shortly.

I will repeat of this matter first. It has assumed additional

importance since our trustees have offered me \$2500 immediately if I

will stay here. This, with the \$1500 which I am to expect from the Pa-

vier after the third of January according to the terms of the

make me \$2500, with no taxes to pay and without the annual expense of

maintaining my family here. The Chinese salary would therefore cover

costs that which I should stand. I said that in our conversation the

that proposition would be made immediately. As far as I am concerned

the first year, I have felt that this was not quite reasonable.

especially as you have written in a note on the subject that while I

have entered into arrangements with my present employer, I should not

my expenses, yet they could be met up to April, 1902, if I got the whole of my Brown salary for the year 1900-1901 and began receiving salary at Chicago from April 1, 1901. I imagine that this could be done if, instead of desiring that I should teach through the spring quarter, you could think it sufficient for the purposes contemplated that I should merely get six weeks' leave from Brown and teach at Chicago during only the first term of the spring quarter. I apologize for suggesting such diminution; but it is less than you were so kind as to offer, - the six months' absence which I thought and still think it would be wholly unwise to attempt when starting in at a new post.

But I entirely adhere to my view, so far as the second year is concerned, that \$4000 is too little. Too little from my point of view as an expense-payer, certainly. Your point of view I ought of course to leave to you; but I do not remember that you said that a period of two years at \$4000 had been the invariable practice, and I am told by Dewey's brother that he had to wait but one year. I shall await with great interest what you may write on this point, and will say frankly that it will have great and perhaps conclusive weight in determining my decision.

I was to state that decision to you before the first of October if I could; if not, before the seventh. I find that I must ask for the later date. I have not yet had a chance to consult with certain friends. I expect to see them on Saturday and Sunday. Then I can make up my mind, after hearing again from you, and will state it soon.

that I should merely wait six weeks, leave from Brown, and then at Chi-
cago during only the first term of the spring quarter. I apologize for
suggesting such a limitation; but it is less than you were so kind as to

would be wholly useless to attempt when starting in at a new post.

But I entirely adhere to my view, so far as the second year
is concerned, that \$4000 is too little. Too little from my point of
view as an expense-giver, certainly. Your point of view I could of

period of two years at \$4000 had been the inevitable prospect, and I
am told by Drax's brother that he had to wait but one year. I shall

I am so glad that decided to go before the first of Oc-
tober is I could; if not, before the seventh. I think that I must ask
for the later date. I have not yet had a chance to consult with cer-
tain friends. I expect to see them on Saturday and Sunday. Then I can
make up my mind, after hearing again from you, and will let you know.

I understood you to say that I should seldom or never have to teach in the summer; that I should be one of a committee of three to select subordinate teachers in the department; and that you would insist upon obtaining from the trustees, and should fully expect to obtain, \$25,000 with which to purchase historical books immediately, and an appropriation of \$2500 per annum for that purpose. If in any respect I have misunderstood you, I hope you will correct me now.

The only point upon which I wish to dwell, aside from that of salary already discussed, is this last, of the library. I have been much more strongly impressed with the necessity, for whoever may come to that department in Chicago, of having something large and striking done for the increase of the number of historical books, since I came home and re-commenced the use of the excellent library facilities which I have here at my disposal. History is much the chief feature of the Brown University Library, and I have for twelve years been building it up according to my own ideas. The library of the Rhode Island Historical Society is next door, the State Law Library two squares away, that of the American Antiquarian Society at Worcester and those of Boston and Cambridge are almost as accessible as the Newberry is from Hyde Park. Moreover, the John Carter Brown Library of Americana has just been left with a fund of \$500,000 for maintenance, ensuring at least \$10,000 a year for the purchase of books; and I am told on all hands that, whether the trustee gives it to Brown University or to a special independent board of trustees, I am likely to have an impor-

The only point upon which I wish to dwell, aside from that
of salary already discussed, is this last, of the library. I have been
much more strongly impressed with the necessity, for whatever way some
to that department in Chicago, of having something better and better
done for the increase of the number of historical books, since I came
home and recommended the use of the excellent library facilities
which I have here at my disposal. History is much the chief feature of
the Brown University library, and I have for twelve years been building
it up according to my own ideas. The library of the Rhode Island His-
torical Society is next door, the State law library two squares away,
that of the American Antiquarian Society at Worcester and those of
Boston and Cambridge are almost as accessible as the Newberry is from
Hyde Park. Moreover, the John Carter Brown Library of Providence has
just been left with a fund of \$250,000 for maintenance, estimated
least \$10,000 a year for the purchase of books; and I am told on all
hands that, whether the trustees give it to Brown University or to a
separate independent board of trustees, I am likely to have an impor-

tant part in its upbuilding. Providence will therefore become an unrivalled place for work in American history, if one has more free time, which Dr. Faunce says I shall have. Under these circumstances you can see that I inevitably hesitate to leave it, when I think of what you have in the way of historical books at the University of Chicago. I did not wish to speak impolitely of it to you, and in European history there is at any rate a good beginning; but the American part, which I looked over with some care, is hopelessly inadequate. I can see from an inspection of the Register and from what I am told, that my work ought mainly to consist of the teaching of American history to graduates; and it should run on quite various lines, to give them variety of training. The opportunity to do this according to one's desires is what, if anything, would draw me to Chicago. But it would be folly to attempt it without the clear assurance of just about such an increase of books as we agreed on. You disliked to make it a condition of my coming. But I cannot court or risk failure. If there is the least doubt about these grants, I beg you to say so now. I should not come in that case; and if I did you would wish I hadn't, for I should always be a most discontented and disagreeable Mordecai in your gate.

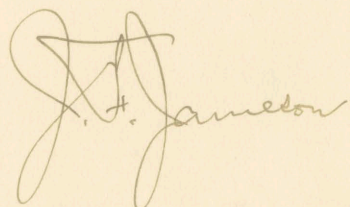

Speaking of the Register reminds me to say that it seems to me to show that you ought before long to have another professor of full rank, either of Modern European History or of American History, if the graduate work is to have justice done to it. I could tell better when on the ground and after a little experience of the depart-

tant part in its upbuilding. Providence will therefore become an un-
rivalled place for work in American history, if one has more free
time, which Dr. Johnson says I shall have. Under these circumstances you
can see that I inevitably hesitate to leave it, when I think of what
you have in the way of historical books at the University of Chicago.
I did not wish to spend largely of it to you, and in European his-
tory there is at any rate a good beginning; but the American part,
which I looked over with some care, is hopelessly inadequate. I can
see from an inspection of the Register and from what I am told, that
my work ought really to consist of the teaching of American history to
graduates; and it should run on quite various lines, to give them
variety of training. The opportunity to do this according to one's de-
sires is what, if anything, would draw me to Chicago. But it would be
folly to attempt it without the clear assurance of just about an
increase of books as we started on. You disliked to make it a condition
of my coming. But I cannot count on risk failure. If there is the
least doubt about these matters, I tell you to say so now, I should not
come in that case; and if I did you would wish I hadn't. For I should
always be a most discontented and dissatisfied person in your case.
Speaking of the Register reminds me to say that it seems to
me to show that you ought rather to have another professor of
Civil Law, either of Modern European History or of American History.
If the graduate work is to have justice done to it, I should tell you
for when on the ground and after a little experience of the subject.

ment. I wish at present to say no more on this point than that, beside the understandings mentioned above, I understood you to say that this would be done within two or three years if I wished it, and that I might count on a proper development of the department by the appointment of teachers of less rank than this, also.

I have made a long letter and an explicit one. But I feel sure you will excuse this. A conservative man, who loves his friends and parents and home, and would leave them only with great pain, cannot be expected to decide so great a question without seeking to make all details of the two alternatives definite that can be made so in advance. - Believe me

personal kindness you have shown
to Mrs. Jameson and me. I go because
this peculiar Washington position presents
more largely the kind of work I
like to do. But I go with the most
kindly feeling toward the University and
you, and shall be happy to serve both
wherever I can. With the best wishes for
your health, and with grateful and affec-
tionate regards, I am very truly yours, J. D. Jameson.

My dear Dr. Harper:

The trustees
of the Carnegie Institution wish
me to come to Washington to
take charge of their Bureau of
Historical Research, and I have
decided to do so. I take the
earliest possible opportunity to
tell you this, (anticipating indeed

by a few days, somewhat informally, the actual election), because in view of your constant friendliness and the affectionate feeling which you have inspired in me I should wish you to learn of my decision from me; and partly ^{because} I wish, both for your sake and for that of the department, to give all possible time for the choice and securing of a successor, and for the avoidance of

a departmental interregnum. My formal resignation, to take effect July 1st, will naturally have to wait till notification of formal election.

As I have said to you once before, I have never for a minute regretted my coming to Chicago. I have enjoyed my work here, the university itself, and my colleagues, especially these good fellows in the department, who received me so kindly and have

My dear Dr. Judson:

I think it is to you that I should send my thanks for the gift of Dr. Goodspeed's History of the University of Chicago. It is a fine book, and what I have already read in it has interested me very much. I know I shall have great additional pleasure in further reading. My best thanks for your kindness in including me among those to whom copies were sent. I am very proud of my connection with the University, and take great delight in remembrance of those four exceedingly happy years.

I hear that you had a very interesting and successful celebration. I am sorry that I could not be there. But now that we have gone through the days of Katrina's graduation, and that I have seen how great an event it was to her mind, and what overflowing happiness and delight she had in it all, I see clearly that I was right in thinking I ought not to be absent. But I renew my thanks for the great honor which it was proposed to do me, and heartily wish that dates had been such that I could have been present at the celebration, and have met once more so many persons who joined to

My dear Sir:

I have the honor to acknowledge the receipt of your letter of the 7th inst. in relation to the proposed purchase of the land for the establishment of a new branch of the University of California at Berkeley. I am sorry that I cannot give you a more definite answer at this time, but I am sure that the matter will be given the most careful consideration.

I am, Sir, very respectfully,
Yours truly,

My dear Dr. Jameson:-

Thank you very much for your kind note of the 9th inst. We were sorry indeed not to have you present, but I fully realize the situation which made it desirable and necessary for you to be at your daughter's graduation.

With sincere regards, I am,

Very truly yours.
