

ALL MESSAGES TAKEN BY THIS COMPANY ARE SUBJECT TO THE FOLLOWING TERMS WHICH ARE HEREBY AGREED TO

To guard against mistakes or delays, the sender of a message should order it **REPEATED**, that is, telegraphed back to the originating office for comparison. For this, one-half the unrepeated message rate is charged in addition. Unless otherwise indicated on its face, **THIS IS AN UNREPEATED MESSAGE AND PAID FOR AS SUCH**, in consideration whereof it is agreed between the sender of the message and this Company as follows:

1. The Company shall not be liable for mistakes or delays in the transmission or delivery, or for non-delivery, of any **UNREPEATED** message, beyond the amount received for sending the same; nor for mistakes or delays in the transmission or delivery, or for non-delivery of any **REPEATED** message, beyond fifty times the sum received for sending the same, *unless specially valued*; nor in any case for delays arising from unavoidable interruption in the working of its lines; *nor for errors in cipher or obscure messages.*

2. In any event the Company shall not be liable for damages for any mistakes or delay in the transmission or delivery, or for the non-delivery of this message, whether caused by the negligence of its servants or otherwise, beyond the sum of **FIFTY DOLLARS**, at which amount this message is hereby valued, unless a greater value is stated in writing hereon at the time the message is offered to the Company for transmission, and an additional sum paid or agreed to be paid based on such value equal to one-tenth of one per cent. thereof.

3. The Company is hereby made the agent of the sender, without liability, to forward this message over the lines of any other Company when necessary to reach its destination.

4. Messages will be delivered free within one-half mile of the Company's office in towns of 5,000 population or less, and within one mile of such office in other cities or towns. Beyond these limits the Company does not undertake to make delivery, but will, without liability, at the sender's request, as his agent and at his expense, endeavor to contract for him for such delivery at a reasonable price.

5. No responsibility attaches to this Company concerning messages until the same are accepted at one of its transmitting offices; and if a message is sent to such office by one of the Company's messengers, he acts for that purpose as the agent of the sender.

6. The Company will not be liable for damages or statutory penalties in any case where the claim is not presented in writing within sixty days after the message is filed with the Company for transmission.

7. *No employee of the Company is authorized to vary the foregoing.*

Dr. H. P. Judson,
Chicago, Ill.

Dear Dr. Judson:

In connection with a number of other writers, we greatly wish your cooperation in securing answers to the following questions, if you will be so kind, namely:

What was the first book that you remember to have read or to have had read to you? In other words, what book first made any impression upon your mind?

Our thought is that by securing the opinion of quite a large number of writers, we may get some information which would be helpful to parents, teachers and others in preparing a literature for children and in aiding teachers and pastors in their approach to the child mind.

What we want exactly is the book you read, a word or two of the impression which it made upon you, and your present opinion upon why it made that impression, about 100 words in all.

Very truly yours,

GOODMAN & DICKERSON CO.

Jackson

Chicago, November 7, 1911

Dear Mr. Dickerson:-

Yours of the 6th inst. received. The first book which I can remember is a volume of the Psalms in large print, read by my grandmother, out of which I learned to read, very much to my disgust. It was only my grandmother's very firm hand that induced me to learn a thing which I didn't a bit like. Before that I had read to me stories from the Bible, but I couldn't read it myself, as I very strongly objected to learning to read anyway from anything whatever. That is the best I can record in the matter. It was a long time ago.

Very truly yours,

H. C. J.

My dear Mr. Judson:-

As one of the founders of the City Club, you will be interested in knowing that the membership will probably exceed 1500 by the time the new building is ready for occupancy in December. There has been an increase of 50% in the number of members during the past four months, and the indications are that this rapid growth will be kept up for some time after the new building is opened.

The Membership Committee has called to the attention of the Directors the fact that a large percentage of the suggestions for membership are now coming from men who have themselves been members only a comparatively short time. This is an entirely natural condition and the new members who are coming in represent a fine promise for the Club. The Directors are anxious, however, to insure that the leaven of the founders shall at all times "leaven the whole lump."

I have decided to call together at luncheon a number of the original members of the Club who have its interests at heart, to discuss this matter and make suggestions. We will meet at the City Club at 12:30 o'clock on Wednesday, the 15th inst. and after lunch will adjourn to the new building for a special inspection. Kindly let me know if you can be present.

Very truly yours,

Henry B. Favill
President.

Mr. Harry Pratt Judson,

STREET

Dear Sir,

I have the honor to acknowledge the receipt of your letter of the 10th inst. in relation to the matter of the purchase of the land for the purpose of building a new school house for the use of the colored people of the city of New York. I am sorry to hear that the matter is still pending, but I am sure that the Board of Education will do all in their power to hasten its completion.

Very respectfully,
E. G. Richie

Enclosed find a copy of the report of the Board of Education for the year 1877, which will show the progress made in the matter of the purchase of the land.

Judson

Chicago, November 20, 1911

Dear Mr. Sihler:-

In answer to your favor I beg to say that the address I gave at the inauguration of the President of New York University was entirely without notes, and I have not preserved any memoranda on the subject. Herewith, however, I am enclosing a brief digest which may perhaps represent as nearly as practicable what was actually said. I couldn't begin to recall at this time the actual speech.

Very truly yours,

H.P.J.

University Heights, New York City.

It is with especial pleasure that I congratulate the new President on his induction into the administrative headship of an institution of learning situated in a great urban community. The obligations of a university under these conditions are of peculiar importance at this stage in the development of our country.

We must bear in mind the two-fold function of any university - the discovery and the dissemination of truth. The emphasis to be placed upon these respective parts of university duty and the content which may be given to each of these parts may well differ according to the location of the institution. In a great city with its crowded population the limits of the university duties are to be conceived as coterminous with the limits of the city itself. In other words, the university should not be content with the discovery only of scientific truth, which may have most direct bearing upon the city life; but should be especially industrious in the investigation and dissemination of such forms of truth as are directly related to the city. In this sense in the first place the university should be a repository of all such knowledge as may be needed by any branch of the city government, - economic, political, scientific, educational. The university gathers within its walls a great body of experts in all these fields. The knowledge amassed in the university library, ^{and museums,} and especially as energized by these groups of experts, should always be at the service of any branch of the city

It is with especial pleasure that I congratulate the new President on his induction into the administrative leadership of an institution of learning situated in a great urban community. The obligations of a university under these conditions are of peculiar importance at this stage in the development of our country.

We must bear in mind the two-fold function of any university - the discovery and the dissemination of truth. The emphasis to be placed upon these respective parts of university duty and the content which may be given to each of these parts may well differ according to the location of the institution. In a great city with its crowded population the limits of the university duties are to be conceived as coterminous with the limits of the city itself. In other words, the university should not be content with the discovery only of scientific truth, which may have most direct bearing upon the city life but should be especially industrious in the investigation and dissemination of such forms of truth as are directly related to the city. In this sense in the first place the university should be a repository of all such knowledge as may be needed by any branch of the city government - economic, political, scientific, educational. The university gathers within its walls a great body of experts in all these fields. The knowledge amassed in the university library, and especially as energized by these groups of experts, should always be at the service of any branch of the city

government. This of course ~~does~~ not imply that the university ~~as such~~ takes part in such political activities of the locality as might divide different portions of the electorate. It does mean, however, that all questions that have to do with fact should be susceptible of immediate and comprehensive answer within the university walls.

Of course this same thing should be true also as related to groups of individuals, ~~private in character~~. Organizations aiming at any humanitarian or economic purpose should be able to find within the university the solution of their various problems. In short, the university should be a storehouse of knowledge for the use of the city in all its complex activities, and should have that knowledge in such shape as to make it immediately available at any time.

Further, an urban university has the very great advantage that it may use the city as a great laboratory for all its departments. This is true not merely of the manufacturing and the commercial industries which every city supports. The economic and sociological departments of a university have a very great advantage in the means of study afforded by an urban population.

Thus an urban university has very peculiar advantages and very peculiar obligations. There is need, I am sure, in every large city of all the resources which can be afforded by all the universities which ~~are, or are likely to be,~~ established within urban limits; and therefore the New York University may share in one of the great works of the world.

Government. This of course does not imply that the university as such takes part in such political activities of the locality as might divide different portions of the electorate. It does mean, however, that all questions that have to do with fact should be susceptible of immediate and comprehensive answer within the university walls.

Of course this same thing should be true also as related to groups of individuals. Organizations aiming at any humanitarian or economic purpose should be able to find within the university the solution of their various problems. Very truly yours,

Gordon
Chicago, ^{London} November 25, 1911

My dear Gordon:-

The University of Greece is expecting to have a great celebration on the 25th of March next, and asks us to send a delegate. The Congress of Orientalists I believe meets there at the same time. I had the impression that you might be planning to take the trip in Greece and that that time might coincide with your plans. If so we shall be glad to have you act as the delegate on behalf of the University of Chicago. I have taken the liberty of writing to the University of Greece, sending your name in that capacity.

I am glad to hear from Alice that things are moving pleasantly with you, and that you seem to think things are safe. Of course we cannot help being somewhat anxious about the cholera, and hope that you will have no trouble in the matter. I am expecting daily a letter to the Ambassador, which I shall send at once. Everything is going on well here. I need not say that we miss you and Alice,

I shall be very glad to see you back at home once more. Please
give my best love to the little girl, and believe me,

Very truly yours,

with you, and that you mean to finish things up soon. Of course
we cannot help being somewhat anxious about the children, and hope
Professor Gordon is leaving. I am expecting daily
Hotel Boston,
Rome, Italy.
I shall send you a letter as soon as I can. I am going on well here. I need not say that we miss you and Alice.

Judson

Chicago, December 1, 1911

Dear Mr. Fentress:-

Your favor of the 28th of November is at hand.

I am in full accord with Governor Wilson's view that political parties should be responsible for public administration. The party with which I am in accord is the Republican party, and therefore I could hardly undertake the securing of the nomination of a candidate for the Democratic party. I have the highest esteem for Governor Wilson personally, and wish him all success so far as is consistent with what I believe to be the best interests of the nation.

Very truly yours,

H. P. Judson

Chicago.

Dear Dr. Judson:-

Some weeks ago a few of us got together with the idea of getting started in Chicago a Woodrow Wilson Club, the purposes of which were to arouse interest for Governor Wilson and do all that was legitimately possible to bring about his nomination next summer.

We have felt it advisable after thoroughly considering the matter to see some fifteen or twenty of the most prominent men in Chicago in the various walks of life and get them to permit us to use their names on an Advisory Committee so as to give the movement the standing and position that it should have when it becomes public.

I have been asked to see you to see if you would permit us to use your name. Its use will involve no work or expense unless you are desirous of giving it anyway, but simply to insure the standing that your good name will give.

I will greatly appreciate it if you will phone me on receipt of this letter at Central 1147 in regard to this, and either permit me to call upon you or tell me that we may use your name.

Yours very truly,

CF/EEH

Jackson

Chicago, December 4, 1911.

My dear Professor Cumont:-

The article of which I spoke to you when you were in Chicago is in the Burlington Magazine, volume 6, 1904-5, pages 395-401, "Alexander's Journey to the Sky: A Woodcut by Schüpflein". I am enclosing a very rough tracing from the picture given in the article. The legend does not relate to the death of Alexander but to his effort to conquer another world than this, that of the sky. I hope you will find the history of the legend interesting. It seems to point to some oriental influence in the middle ages and the persistence of that influence into the sixteenth century.

Sincerely yours,

Wark

Secretary to the President.

Professor Franz Cumont,

My dear Professor Gurnmont:-

The article of which I spoke to you when you were in Chicago is in the Burlington Magazine, volume 6, 1904-5, pages 395-401, "Alexander's Journey to the Sky: A Woodcut by Schönbauer". I am enclosing a very rough tracing from the picture given in the article. The legend does not relate to the death of Alexander but to his effort to conquer another world than this, that of the sky. I hope you will find the history of the legend interesting. It seems to point to some oriental influence in the middle ages and the persistence of that influence into the sixteenth century.

Sincerely yours,

Boyd

Secretary to the President.

Professor Franz Gurnmont,
Newville Theological Seminary,
Newville, Pa.

Gordon

Chicago, December 4, 1911

My dear George:-

Rebecca has heard from Clara once or twice, and thus we have kept track of you. I also received the paper with an account of the dinner which you attended. It must have been extremely interesting. I was very sorry when in England not to have been able to get a glimpse of you. My time gradually shortened and I found that if I were to go up to St. Andrew's it meant dropping my plan of ten days for English cathedrals. I shrank also, I must say, from a series of social functions, and so decided not to go. Of course I telegraphed from Paris to that effect to my host and to the Secretary. I hardly understand why they did not forward mail to me but I didn't receive a thing from them, although I know some letters were sent to my care. Then, by a whimsical fatality, I mislaid your letter giving your English address, and couldn't tell where to write to you.

Chicago, December 4, 1911

My dear George:-

Rebecca has heard from Clara once or twice, and thus we have kept track of you. I also received the paper with an account of the dinner which you attended. It must have been extremely interesting. I was very sorry when in England not to have been able to get a glimpse of you. My time gradually shortened and I found that if I were to go up to St. Andrew's it meant dropping my plan of ten days for English cathedrals. I shrink also, I must say, from a series of social functions, and so decided not to go. Of course I telegraphed from Paris to that effect to my host and to the Secretary. I hardly understand why they did not forward mail to me but I didn't receive a thing from them, although I know some letters were sent to my care. Then, by a wholesale mistake, I mislaid your letter giving your English address, and couldn't tell where to write to you.

I was in England only a short time, but had a very pleasant trip from Canterbury to Durham. My first attempt to get home was a failure, as I came on the "Olympic", which only succeeded in traveling an hour and a half from Southampton when we came to grief, as you doubtless read. Luckily Rebecca and her cousin were planning to sail a little later on a Canadian-Pacific steamer, and I was able to get passage with them. Of course I had wanted to get home earlier, but as it turned out only lost two days.

Clara writes that there are rains in Scotland. That is surprising. I had supposed that Scotland was a land of beautiful scenery, bright sunshine, balmy air, and everything delightful. Fogs and mud and cold belong to another category than to the home of Rob Roy. I envy you your freedom to haunt libraries, and pursue your studies unmolested, but then you know it is the old story of human life: the desirable thing is always the other man's job; not one's own. I shall be glad to hear from you, and to keep track of what you are doing. My love to Clara. Rebecca joins me in affectionate greeting.

Cordially yours,

H. P. J.

H. P. Judson

President George E. MacLean,
Paris Bank Ltd., Bartholomew Lane,
London, England.

I was in England only a short time, but had a very pleasant trip from Canterbury to Durham. My first attempt to get home was a failure, as I came on the "Olympic", which only succeeded in traveling an hour and a half from Southampton when we came to grief, as you doubtless read. Luckily Rebecca and her cousin were planning to sail a little later on a Canadian-Pacific steamer, and I was able to get passage with them. Of course I had wanted to get home earlier, but as it turned out only lost two days.

Clara writes that there are rains in Scotland. That is surprising. I had supposed that Scotland was a land of beautiful scenery, bright sunshine, balmy air, and everything delightful. Fog and mud and cold belong to another category than to the home of Rob Roy. I envy you your freedom to hunt libraries, and pursue your studies unmolested, but then you know it is the old story of human life: the desirable thing is always the other man's job; not one's own. I shall be glad to hear from you, and to keep track of what you are doing. My love to Clara. Rebecca joins me in affectionate greeting.

Cordially yours,

H. P.

Office of the President

THE WESTERN UNION TELEGRAPH COMPANY

INCORPORATED

25,000 OFFICES IN AMERICA.

CABLE SERVICE TO ALL THE WORLD

This Company TRANSMITS and DELIVERS messages only on conditions limiting its liability, which have been assented to by the sender of the following message.

Errors can be guarded against only by repeating a message back to the sending station for comparison, and the Company will not hold itself liable for errors or delays in transmission or delivery of Unrepeated Messages, beyond the amount of tolls paid thereon, nor in any case beyond the sum of Fifty Dollars, at which, unless otherwise stated below, this message has been valued by the sender thereof, nor in any case where the claim is not presented in writing within sixty days after the message is filed with the Company for transmission.

This is an UNREPEATED MESSAGE, and is delivered by request of the sender, under the conditions named above.

Chicago, December 29, 1911

Dear Mr. Millar:-

President Judson was not able to give any attention to the matter you spoke about yesterday. He assumes it is now too late. If, however, you wish to have him say anything he would say this:

That what are the greatest achievements of a given age depends so much upon the individual point of view that it seems to him rather futile to attempt to enumerate them. The things which impress him from his own point of view, as interested especially in international relations and in political science are these: The progress made in international arbitration; the apparent change to a republic in China; and the final consolidation of the Union of South Africa.

Faithfully yours,

J. E. Z.

Private Secretary

Mr. H. P. Millar,
New York Times Bureau,
Inter Ocean Bldg., Chicago.

Lowden

Chicago, December 26, 1911

My dear Colonel Lowden:-

Your note of the 23d inst. was received.

I note that we sail on the steamer "Metapan", leaving New York January 3d. Do you know the hour of sailing? I will take the train at Englewood, at 5:45 Monday, January 1st, conveying myself and my luggage simultaneously, as that is rather nearer than the downtown station.

May I ask one or two questions? Do you check your luggage directly to the boat, or simply to New York? Have you any suggestions as to what to take or what not to take? When I say 'take' I refer to wearables, and not to drinkables or smokeables.

With cordial regards, and looking forward to a delightful trip, and with a merry New Year to all the household, I am,

Very truly yours,

H.P. J.

Hon. Frank O. Lowden,
Sinnissippi Farm,
Oregon, Illinois.

Chicago, December 28, 1911.

Judson
Dr. Harry Pratt Judson,
University of Chicago,
Chicago, Ill.

Dear Dr. Judson:

I was very sorry indeed to get your letter stating you would not be with us for the Twelfth Night dinner or the February meeting. However, I know you will have a splendid trip to Panama and return and I hope it will be very pleasant and beneficial.

Wishing you a happy New Year,
believe me,

Very truly yours,

Frederick C. Johnson

Chicago, December 28, 1911.

Dr. Henry Pratt Judson,
