Mr. Harry Judson, Pres., University of Chicago, Chicago, Ill.

My dear Sir:

As I understand that you have taken a great deal of interest in the welfare of the people of Mexico, I am taking the liberty of writing you this letter, which I trust that you will read and give your careful consideration.

I am a young man twenty-one years of age, at present employed by the Bessemer & Lake Erie Railroad Company, at Greenville, Pa., as a clerk-stenographer, at a salary of \$105.00 per month. I have a public school education, but never attended a high school; am a graduate of the Jamestown, N.Y. Business College, in bookkeeping and shorthand. It was my intention to devote my life to commercial pursuits, but in this I have changed my mind, having done so for several reasons: For the last year I have thought over the question of my future, and have come to the conclusion that I should so shape my life that I can be of some service to mankind; this conclusion has taken shape of a great desire so to do, and is the reason for this letter, knowing that you can be of great help to me if you will.

I have read much of the people and conditions in Mexico, and their is no doubt in my mind but what United States owes it to the world to give Mexico a helping hand, and so it occurred to me, in connection with my future, that I could do no better than to consecrate my life to the work of helping the Mexican people in educational and religious ways. I realize fully that it will bring me no fame or wealth, and that it will mean many sacrifices in different ways, for I have no means with which to carry out such work. In order to get the best results from my life in a work of this sort, I am cognizant to the fact that it is absolutely necessary that I have a better education than I now possess. My financial condition at the present time is a saving of about \$700, that I have planned for use in getting a better education, which I had hoped would take me through a two years course in some good preparatory school, thereby becoming eligible to a college education, where I could take up the study of Spanish and philanthropic training; it being my desire to affiliate myself with such work as the Y.M.C.A. are doing, for I think that it is institutions of this kind that Mexico needs, or take up any educational and religious work that would be given me. What could you do for me in the way of helping me to secure a college education, that I may be of some service to the people of Mexico? I would be willing to do anything in the way of work to help me through my college work. My parents are in no way able to extend me any financial aid. I have thought of the matter of borrowing money for the purpose of acquiring the necessary education, but as a rule philanthropic work does not carry with it large salaries, and therefore it has been a question to me if I could ever pay a loan of this kind.

I am very much in earnest about this matter and I am positive that anything that you will do for me you will never have occasion to regret. I am a young man of good habits, a Christian, and refer you to Rev. J. Earle Edwards, First Baptist Church, Greenville, Pa., as to my integrity. If you are interested I would be very glad to take a trip to Chicago for a personal interview with you in regard to the foregoing.

I am willing to sacrifice, home, friends, all possibility of ever accumulating any money, commercial ambitions, and to devote my life to this work, what can you do to help me? Please let me hear from you.

Yours for a better Mexico,

Luther Stinderson

Dr. Harry Pratt Judson, President's Office, O'd esgo University, Chicego, Illinois.

Dear Sir:-

The question of desirability of foreign language instruction in the grades is coming more and more to the front. In the minds of many such instruction is extremely valuable; in the minds of others the results do not warrant the expenditure of time. Most people quite forget another angle of the subject which interests me especially -- that of nationality. In order to clear up this angle, I am writing to a number of distinguished men in different branches of education and enclosing to them.

If you can find time to indicate your opinion along the lines of these questions I shall be very glad indeed.

Yours very truly,

I Perry Olds

- 2) What do you think should be the prime purpose behind such instruction - practical (commercial, Disciplinary, cultural?
- 3) Do you think a barge group of immigrants from one country should determine the language of that country as the language to be studied? In other words, do you think that an Italian child should be afforded opportunity to study Italian at the expense of the state merely because his parents demand such instruction?
- 4) What difference do you find in the dead and living tongues as disciplinary or cultural agents?
- 5) Should you say that moderate knowledge of several foreign tongues was preferable in a cultural way to relatively thorough knowledge of only one, or vice versa?
- 6) Bearing in mind question 3, what should you say of the relation of modern language instruction to Americanism?

Dear Sir:

Your favor of the 20th inst. is received. I should think it advisable for language instruction to begin in the grades, because students can learn at that age rapidly, and there is no reason why the matter should be put off until the memory is less flexible.

The main purpose of the instruction in question should be to give a working knowledge of the language itself. The other results to which you refer, namely, commercial, disciplinary, and cultural, will naturally follow.

I do not think that the language of any body of immigrants should be selected for instruction merely because there is such number. The language or languages ought to be taught for their own essential value to Americans.

There is no difference between so-called dead or living tongues in the way of disciplinary or cultural agency if the

GEORGE GRAFTON WILSON PROFESSOR OF INTERNATIONAL LAW CAMBRIDGE, MASSACHUSETTS

April 9, 1917

Dear Dr. Judson,

Your letter tendering your resignation from the Committee on the Study and Teaching of International Law is at hand.

of course, I will bring this to the attention of the body which appointed us. However I hope that you will remain upon the Committee through the annual meeting in order that I may have your support in presenting the report of the Committee. Your feeling in regard to the matter is, I think, shared by some of the other members of the Committee, if not by all. It is my hope, however, that something may be done to futher the study of International Law and your counsel in this work will be very valuable.

The copy of the proposed report was forwarded to you on Saturday.

Very sincerely,

President Harry Pratt Judson, LL.D.

508.

Chicago, April 11, 1917 Dear Professor Wilson: Your favor of the 9th inst. is received. In the light of your letter I will withhold my resignation from the Committee in question, in the full expectation that the Committee will be discharged at the meeting of the Society in Washington. I had been inclined not to attend the meeting, as I am quite weary of talking about international law, and am much more interested in seeing whether the United States cannot find out by force of arms whether there is any international law. If you think it would be advisable, however, to have all the Committee present at the meeting please let me know, and I will try to be there for that particular session. Very truly yours. H.P.J. - L. Professor George G. Wilson Harvard University Cambridge, Massachusetts

Fashington Darfens France againment an commit to represented.

Of course proper arrangements needs by assu for his outtable ours. I am writing new its gat your egizabet ou the outtable

Chicago, April 20, 1917

Dear Mr. Salisbury:

Since accepting the very kind invitation to the Chaos Club luncheon I am asked to join in a luncheon-reception that day for Colonel Theodore Rocsevelt, who is to be here and speak in the evening in connection with the great movement to stirtup interest in the present international situation. I feel it a duty to take part in this matter, and am wondering if the Chaos Club would kindly excuse me. I am sure that you understand my great regret at making this request, and that I should enjoy very much the meeting with the Club.

Very truly yours,

H.P.J. - L.

Dear Sir:

am engaged in so many things at present connected with the war that I could hardly undertake anything more. Further, it seems to me a little premature, to say the least, just at this time to propose sending a statue of liberty to Russia. Just now what we want to send is such support as will make the Russian provisional government strong and effective in the war. If they succeed in holding the Russian people together and in establishing justice and liberty I shall have no doubt of the permanence of democratic institutions in that great country.

Very truly yours,

H.P.J. - L.
