My dear Mr. Jusserand:-

I am writing once more. Perhaps you will grow weary of receiving letters from me. This time I wish to enter a most earnest appeal. It is for your acceptance of our invitation to give the Convocation address December 19th next. We have looked forward with great anticipation to your visit. We will give you a welcome not only at the University but in the city. You have many friends here. I sincerely hope that you will bring Madam Jusserand with you, and of course, while you are here your home will be at our house. Is this not possible?

It is also suggested by the gentlemen that the banquet might include ladies, or be simply for men. In the latter case Madame Jusserand would be entertained by Mrs. Harper at the same time. This again, of course, will be referred to your judgment.

I may add that the gentlemen who have the matter in hand will be our leading business and professional men and are looking forward with great interest to having the pleasure and honor of receiving you on the night in question as their guest on behalf of Chicago.

Hoping to hear from you in reference to these points and understanding that I am to write you more fully in reference to further details, I remain,

Dear Mr. President,

*Guiseux*

I am asked by my friend Mr. J. Chailley, Professor at our School of Political Sciences, and co-editor with the late Léon Say of the well-known "Dictionnaire d'Economie Politique", to appeal to you in order to secure as full information as you might be willing to supply, concerning the instruction given in the industrial and commercial branches of your University.

Many among us are, even now, beginning to consider what changes will be of most use in France when the war is over; what in our practices should be dropped, what should be created.

One of the points which is sure to receive the most careful attention will be the before-mentioned teaching, in view not only of improving its already

already high technical value, but of raising also the esteem and social consideration due to that kind of studies and to their adepts.

The addition, in the United States, of industrial and commercial branches, to the classical and other courses taught in some of the greatest universities, has had, it is felt in France, important and wholesome results. It would be of great use for the promoters of these ideas to receive as full information as may be practicable, concerning the tuition thus given, its aims (whether only for the higher positions in the industrial and commercial world, or also for more modest ones), and its results. They would like to know whether young men intending to adopt an industrial career are encouraged to follow at the same time the commercial course of studies and reciprocally. Thus informed they would be able to judge to what extent the same may be applicable in our country and to what extent, owing to the difference of race and conditions, they should be altered.

I beg to place this plea before you and to assure you, dear Mr. President, that any documents, explanations or suggestions which the competent

member

member of your University would be so good as to supply me with, to be forwarded to Mr. Chailley, would be received with sincere gratitude./.

My dear M. Jussierand:-

We have a graduate student in the Department of History who is anxious to make his thesis within a certain field relating to France. He has been in France and speaks and reads French without difficulty, and he is able to spend some time in that country, pursuing investigations, as he has no difficulty about money. Two matters have been discussed with him:

1. Some study of the relationship of the Huguenots to the social development of the parts of France, for instance, Rochelle, in which at the time of the Revocation of the Edict of Nantes the Huguenots were especially strong. Of course I do not know whether that is a subject that would lead anywhere.
2. Some study of the maritime activity of France, especially of Brittany and Normandy, in the XVth Century. There have been some things written on this head, and from things that I have come across in my own studies I am convinced that there was a great deal of activity on the part of Breton and Norman voyagers in the African

Mme. Jusserand,

The French Embassy,

Washington, D. C.

Your husband, in his address, has covered himself with glory. Many have greatly appreciated his visit. We much regret your absence and trust that your health is continuing to improve. I send this with highest esteem, in the name of a great number of the Ambassador's friends and yours.

William R. Harper.

READ THE NOTICE AND AGREEMENT ON BACK.

**ALL MESSAGES TAKEN BY THIS COMPANY ARE SUBJECT TO THE FOLLOWING TERMS:**

To guard against mistakes or delays, the sender of a message should order it REPEATED ; that is, telegraphed back to the originating office for comparison. For this, one-half the regular rate is charged in addition. It is agreed between the sender of the following message and this Company, that said Company shall not be liable for mistakes or delays in the transmission or delivery, or for non-delivery of any UNREPEATED message, beyond the amount received for sending the same ; nor for mistakes or delays in the transmission or delivery, or for non-delivery of any REPEATED message, beyond fifty times the sum received for sending the same, unless specially insured, nor in any case for delays arising from unavoidable interruption in the working of its lines, or for errors in cipher or obscure messages. And this Company is hereby made the agent of the sender, without liability, to forward any message over the lines of any other Company when necessary to reach its destination.

Correctness in the transmission of a message to any point on the lines of this Company can be INSURED by contract in writing, stating agreed amount of risk, and payment of premium thereon, at the following rates, in addition to the usual charge for repeated messages, viz, one per cent. for any distance not exceeding 1,000 miles, and two per cent. for any greater distance. No employee of the Company is authorized to vary the foregoing.

No responsibility regarding messages attaches to this Company until the same are presented and accepted at one of its transmitting offices ; and if a message is sent to such office by one of the Company's messengers, he acts for that purpose as the agent of the sender.

Messages will be delivered free within the established free delivery limits of the terminal office. For delivery at a greater distance, a special charge will be made to cover the cost of such delivery.

The Company will not be liable for damages or statutory penalties in any case where the claim is not presented in writing within sixty days after the message is filed with the Company for transmission.

My dear Mr. Ambassador:-

Your esteemed letter of the 24th inst. was duly received. I was gratified to hear from you and to see your name attached to a letter once more. The University of Chicago has for a number of years given attention to industrial and commercial branches, and I have asked the Dean of the College of Commerce and Administration to make such a statement as might be of advantage to M. Chailley, which will be sent to you as soon as it is ready.

Much water has flowed under the bridge since our last meeting. Last year I went around the world, visiting China for the Rockefeller Foundation, and reporting to that body on the situation as to medical education and hospitals. Meanwhile the great cataclysm has befallen the world, and we cannot tell what is before us. You know my warm sympathy with all that you must be undergoing.

Chicago, June 20, 1917

My dear M. Jusserand:-

One of the most significant occasions in the history of the University of Chicago was the visit of the French Mission to our institution, a worthy record of which event I wish to make in the University Record of which I am editor. Mr. Cyrus McCormick, Jr., promised to secure for me a copy of the speech made at the University by M. Viviani recorded by the French stenographer accompanying the party. I have been unable to secure a copy of the speech from Mr. McCormick and am therefore troubling you with this detail. If you are able to assist me to secure a copy of the speech as delivered by M. Viviani, or if you can refer me to the stenographer who may have a copy, all the members and friends of the University of Chicago will
